NEWS OF THE WEST.

Fatal Train Wreck as the Result of a Heavy Rock Slide.

TRACKING A BAND OF THIEVES.

Three Miners Drowned and a Hundred Others Have Miraculous Escapes.

A dispatch from Santa Cruz, Cal., dated Tuesday says: There was a big run of salmon today. Colonel Robert McMurray caught six, and among them was one that weighed fifty-three pounds, the largest of the season. It took three quarters of an hour to land it. It was sent to the Pacific Union club.

Sheriff Armstrong, of Vancouver, B. C., has received word from the minister of justice at Ottawa that the government will not interfere in the case of Hugh Lynn, sentenced to death for the murder of Green and Taylor, two ranchers up north. Lynn was sentenced to be executed in the Westminster jail this (Friday) morning.

An unknown train tried to board a stock train on the Elkhorn road at Buffalo Gap on Tuesday night. Brakeman Hidinger ordered him off, when he drew a knife and started for Hidinger and cut him in the left arm, shoulder and leg, inflicting serious though not dangerous wounds. Hidinger knocked him off the train with his lantern and the tramp is at Buffalo Gap in a serious condition. Hidinger is doing well.

A very heavy rock slide occurred sometime in the early part of Tuesday night in Giraffe or Eleven Mile canyon at Florissant, Colo., between towers 9 and 10. A freight train run into the rock at 5 o'clock next morning. The engine and tender were totally wrecked and thrown across the track. Engineer Hooker was instantly killed. He had doubtless seen the obstruction, as he had set the air brakes and was blowing the whistle for brakes when the engine struck the rocks. Fireman Hoff, by a miracle, escaped with very slight injury. A track is being constructed around the wreck to enable trains to run.

Grangeville, (Idaho) Free Press: Articles of incorporation of the Weiser & Idaho Northern Railway company (limited), have been filed in the office of Secretary of State Jackson, attorney for Mr. Bates. The purpose is to build a standard gauge line from a point near Lewiston, with a branch line diverging from Council Valley northwesterly a distance of about forty-five miles into the Seven Devils; also a branch easterly from a point near the Salmon River to connect the great Payette Lakes in Boise county. Weiser is designated as the principal place of business. Fifty years is fixed as the term of the corporation.

A number of cattle and horses having been stolen off the range around Newcastle, Cal., during the summer, Sheriff Wats deputized Al. Robinson to trace the thieves. On Tuesday he ran across their camp and succeeded in capturing one of their number, Paul Greenwood, a young lad of 17. It seems, also, that at the time Greenwood was captured another member of the gang, Jim Dickson, was close by, but he succeeded in escaping by swimming the Grand river and is supposed to be endeavoring to join the balance of the gang. The officers in charge placed Greenwood in jail at Glenwood pending an examination. It is thought that Greenwood will turn state's evidence and implicate the other parties, who are at large.

Three miners were drowned and a hundred others had miraculous escapes in the Diamond Hill mine, near Butte, Mont., about 2 o'clock on Tuesday afternoon. While stepping between the 300 and 400-foot levels the miners broke through and into the old workings of the Colorado Sentinel and Montana, two adjoining mines which have not been worked for some time and had filled with water. The water rushed through the break in frightful torrents and in amount so instant filled the Montana workings from the 400 to the 200 level. Nothing of the men succeeded in climbing to points of safety on the upper levels, but at least three miners are known to have been caught and it is feared that the number will be increased after investigation. Those known to be in the mine and drowned are: Michael Brady, aged 30; James Morgan, aged 19; Joseph Curry, aged 24. All are single men. The bodies cannot be recovered for many days, says the dispatch, as the water in the flooded mine is still rising rapidly and it will be necessary to pump it off out before the dead men can be reached.
