MINING, BUSINESS AND STOCKS

BIG TOTALS AGAIN SHOW LIVELY DAY

Favorites Drop Few Points Under Continued Unloading in Stock Pit.

UNCLE SAM WEAKENS SOME.

Nevada Hills is Strong—Utalis Are in Good Demand—Carissa Climbs Two Points.

Heavy trading characterized this morning's session of the local mining stock exchange. Some of the leading stocks dropped under constant transferring but all in all a good day was recorded. Carisa started the doings by climbing 1 cent during the regular call; 300 selling at 55 and 1,100 immediately afterward at 56. Another cent was added to the price of this stock on the open board, 100 selling for 56 and a second hundred at 57. May Day sold at 29 on both calls; two blocks of 1,000 each going at this price. Uncle Sam continues to lead other stocks in selling and under rapid unloading went down to 85. The stock opened at 87, but sales involving 1,900, 3,400, 100, 1,400 and 400 caused a decline, which is considered temporary only.

Colorado Mining went from $2.90 to $2.92½, but dropped to its opening price on the open board. All together 3,700 shares changed hands. Nevada Hills continues to climb, going today from $4.35 to $4.42½. This jump was made in two sales of 50 shares each, made on the open board. The forenoon totals, sales and closing quotations follow:

FORTUNA SHIPS ORE.

First Consignment to be Followed by Others of High-Grade.

Special Correspondence.

Nelson, Nev., April 27.—The Fortuna mine initiates ore shipments via the Santa Fe this week with a 25-ton consignment that runs to the fancy figure of $500 per ton. This shipment was taken from a drift on the 200-foot level, where the entire drift is in bonanza ore. Nine assays on this ledge for its entire width show an average of $139-84 per ton, and much ore of this character is being stored for milling later on, when the company installs its pan-amalgamation cyanide works for the reduction of gold and silver ores. With these works a large per cent of the values can be saved, while the average cost per ton is $2, and the highest $3.

The company has a well 47 feet deep that contains 25 feet of water, sufficient for all purposes. This well was sunk in the wash, and the flow is a permanent one. The initial shipment is a by others of the same high grade. The shaft is now down 250 feet and will be continued. Manager A. A. McKnight encountered a fault at 55 feet in the present shaft, but after a comparatively nominal amount of labor picked up his ore body again, which has proved richer and wider, and shows that the slips and faults of the district is a natural element and should occasion no uneasiness. The development of the Fortuna to a shipping basis has been rapid and scientific, and as the present workings are extended, the mine takes on the habiliments of a permanent producer, with an abundance of rich ore in sight.

NOTES ON NEWHOUSE.

The Newhouse or Cactus in Beaver county is demonstrating that it is one of the really wonderful mines in Utah, and for that matter, of the whole west. During the month just past the company sent in the neighborhood of 3,000 tons of concentrates to market and 20 cars of crude ore. This is an improvement over the company's report for March. Although the April report shows over a million pounds ore placed on the market, figuring it at 1,000,000 pounds, the receipts are close around $210,000, or $4 a share. Rumors of a sensational strike in the property were on the street yesterday afternoon. It was whispered that a foot and a half of ore which may go over 30 per cent copper and in the neighborhood of 100 ounces in silver, was uncovered. The company officials admit that there has been a strike but have nothing definite to offer.

RHYOLITERS IN UTAH.

Oil Field Near Virginia City, Washington County Best in West.

Drilling machines, derricks and equipment for boring 3,000 feet for oil on the property of the Virgin River Oil & Development company, a Rhyolite organization, in Washington county, Utah, left Las Vegas Wednesday by rail for Modina, Utah, where it will be unloaded and hauled overland to Virgin City, says the Bullfrog Miner.

The machinery will be installed and boring under the skillful direction of C. E. Wilcox and B. M. Bussey, experienced oil experts of Pennsylvania, will proceed at once.

The company thinks it has a better thing than even a Bullfrog gold mine, and its members are among the men who made Bullfrog and have staked everything they had on the district and won. The officers are Fred Remick, president; Fred Busch, vice president; J. E. Busch, secretary; F. H. Stickney, treasurer, and L. O. Ray, William Taylor and Pat Holohan, directors.

While the oil land is some distance from home, Rhyolliters are not slow to see a good thing, and not averse to profiting by it.

They have every reason to believe that they have one of the best oil propositions in the west. They own 960 acres of ground in the center of the district, and have been given a quarter interest in all of the land in the oil district, which embraces a territory eight by 17 miles. This concession was made by other owners of the district to induce the Rhyolite company to prospect for the oil.

The Rhyolite company already has a well 110 feet deep closes to the croppings which shows a depth of 18 inches of high grade oil. It has a gravity of 43 per cent and gives 97 per cent commercial value.

SIOUX CON.'S ELECTION.

New Board of Directors Chosen Yesterday's Meeting.

A special meeting of the stockholders of the Sioux Consolidated Mining Co. was held in Robinson, yesterday. The following were elected as the board of directors:

Thomas R. Cutler, Reed Smoot, A. N. Holdaway, John Y. Smith, J. A. Holdaway and James T. Farrer, secretary and treasurer.

The old board replaced by yesterday's election was as follows:

Franklin Farrer, Ansonia, Ct.; Robert D. Grant, Los Angeles; Thos. Wallace, St., Ansonia; L. B. Gillies, Ansonia; S. S. Jones, Provo.

The board will elect its officers tomorrow. The purpose is to call another special meeting at once, and to take steps to actively work the company's property, which is located in the Tintic district.

MAY DAY MEETING.

Smelter Arrangements to be Discussed Pro and Con This Afternoon.

At a directors' meeting to be held this afternoon the affairs pertaining vitally to the May Day's welfare are to be gone over. It may be that the consolidation of this mine with the Uncle Sam and a number of other Tintic properties under the management of the Dern crowd will be brought up. One of the main items to be considered is smelter arrangements for the property. It is a matter of common knowledge that the old agreement drawn up between the May Day's former officials and the smelters is anything but satisfactory to the new management. Although the old company was content and satisfied with a saving of $3.50 or so below what it had been paying the Dern crowd is far from satisfied and no sooner had the property been taken over by John Dern and his associates than efforts were made to get a further reduction. The American people and May Day representatives have been in frequent conferences during the past few weeks and the result of these meetings will be reported at the gathering this afternoon.

It is believed the present management can have ore from the property smelted at a price away below the price paid by the May Day management. This is the belief of those interested and stockholders in the May Day are interested because they feel John Dern and associates can and will make a big mine of the May Day and in order to do so needless expense must be eliminated. The May Day has been idle since the recent transfer but if a satisfactory smelting arrangement can be effected, it is almost certain the property will be re-opened and worked in the "Dern" mine making way. The directors' meeting this afternoon is most important as it will virtually show what is to be done by the and for the May Day.

CONCENTRATES.

Tony Jacobson is home from Ploche.

J. E. Hanway, manager of the Daily Mining Record, is in the city.

George and W. Lawrence are in from Rosebud.

Charles Shields, William and "Nev." Evans leave this afternoon for Nevada. They will spend the summer in the Sagebrush state.

Capt. Nej. Tibbey, the prominent local mining man, is home from a trip to Mexico, where he journeyed to look over properties owned by local investors.

D. P. Rohlfing is home from a two weeks' visit in Beaver county, where he inspected th Lulu, Chrystal contact and other properties. Power drills are at work on the Chrystal contact. With 75 additional depth the shaft will have reached the Horn Silver level, 700 feet. When this is accomplished connections will be made at once.

Among the assessments which become due this month may be mentioned: Daly, 25 cents per share, delinquent May 4, sale May 24; Silver Shield, 3 cents, delinquent May 16, sale June 1; Butler Liberal, 1 cent, delinquent May 15, sale June 1; Wabash, 5 cents, delinquent May 11, sale, June 3; Victor 1½ cents, delinquent May 14, sale June 3, and New York, 3 cents, delinquent May 14, sale June 11.

The Palmyra Gold and Copper Mining company filed its articles of incorporation yesterday with the county clerk. The capitalization of the company is placed at $50,000, divided into shares at 10 cents each. There has been 200,000 shares set aside as treasury stock. The company own claims in Davis county. The officers are: George A. Eldredge, president; Herbert S. Reed, vice president; and John W. Carlson, secretary and treasurer.

The old established Smedley-Wakeling Insurance Co. has been succeeded by the Wakeling Insurance Co. Mr. Wakeling, who has been the active manager for several years past, now carries on the business alone. Mr. Smedley, for years past one of the best known insurance men in the state, has retired from participation in the business.

WILL PUT LID ON TIGHT.

Seattle, April 30.—The lid goes down tight on King county next Sunday, according to an announcement made today by the prosecuting attorney and the sheriff. The proprietors and inmates of every saloon found open on that day will be arrested. A small army of regular and special deputies will be in the field to enforce the order and the edict will be carried out to the letter.

HARRIMAN STOCKS WERE SLUGGISH

On Rally From a Sagging Opening They Did Not Respond at All.

MARKET WAS RATHER DULL.

In Afternoon the Earlier Losses Were About Made up—Westerners Were Weak.

New York, May 1.—Prices of stocks sagged small fractions on very small opening dealings. The holiday in the London market contributed to the dullness. Union Pacific receded ⅝ and the first sale of U. S. Steel was of 3,300 shares at a decline of ¼. Steel preferred and Pennsylvania made small fractional gains.

Orders for stocks came in at the decline and the market rallied to above yesterday's closing, except for U. S. Steel and the Harriman stocks, which were sluggish. Selling of Union Pacific afterward depressed it 1⅝. Sympathetic weakness developed in other stocks, notably Reading, which sagged from 113¼ to 112¼. The rest of the list came back to the opening figures or below and did not respond when Smelting was marked up 1½.

The level of prices rose slightly, but the movement was listless.

Bonds were firm at noon.

More progress upwards was made after 1 o'clock, the morning losses being about made up. Smelting and Amalgamated Copper were firm, the latter rising 1⅜. Mackay company rose 2⅝.

Anaconda followed the advance in Amalgamated Copper and American Smelting but after it had been lifted 1⅝ the entire market weakened with the western railroad stocks, Reading falling to the lowest of the day. Atchison was depressed a point below yesterday's closing by the announcement of the new convertible bond issue.

All lower grades were irregular and 5 to 7½ per cent lower. Cape of Good Hope and Natal greasy was unchanged to 5 per cent below the last sales. Scoured showed no change. Crossbreds were in large supply and Americans bought several lots of mediums. Punta Arenas and Falkland Islands were in active demand. Home traders were the chief buyers.

PRODUCE.

CHICAGO.

Chicago, May 1.—Firm cables and freezing weather in the west and southwest brought out an active demand for wheat in the local market today and caused a substantial advance in prices. Deliveries on May contracts were larger than expected but were taken in by influential houses and for that reason failed to have any depressing effect upon the market. The total deliveries were estimated at about 4,000,000 bushels. July opened ¼ to ⅜ higher at 81⅜@81⅞ to 81⅝@82, and advanced to 82¾.

Commission houses and shorts were lively bidders for corn. Small receipts and the advance in wheat made a strong market. Deliveries on May contracts were 10,000 bushels. July opened unchanged to ⅛@¼ higher at 49⅝@49½, and advanced to 49¾.

Oats were strong on active demand by shorts and commission houses. Freezing weather in the southwest was the main incentive for buying. July opened ⅛@¼ to ¼@⅜ higher at 42¾ to 42⅞ and advanced to 42⅞@42¾.

There was little demand for provisions and the market was inclined to weakness. July pork was off 5 cents at 15.75; lard was unchanged at 8.72½ and ribs were 5 cents higher at 8.72½.

CRISIS APPROACHING RAPIDLY IN GUATEMALA.

Washington, April 30.—Ambassador Creel of Mexico and Asst. Secy. of State Bacon today conferred concerning the situation in Guatemala. Advices received in Washington and Mexico City agree that a crisis is approaching in Guatemala, and any moment there may be an uprising which the administration there will be unable to control.

The assassination of former Guatemalan President Barrillas in Mexico, the attempt yesterday upon the life of President Cabrera in Guatemala City and the alleged anti-Mexican and anti-American feeling that has been engendered in the Cabrera government have caused complications in Central American politics which, it is held, must be handled by a firmer hand than can be found in Guatemala.

It is believed here that an agreement will be reached between the United States and Mexico by which Mexico will police Guatemala just as the United States policed Nicaragua and Honduras in the recent warfare between those countries.

COMING FOR ERRICONE.

Rome, May 1.—A number of officers left Naples yesterday for New York to bring back to Italy Erricone, the head of the Camorra. Erricone is wanted at Naples for the murder of Cuccolo and his wife.

PAINS IN THE BACK

are generally danger signals, warning of kidney disease that will lead to fatal results unless looked after in time. Thousands of men and women have kidney disease and do not know it until too late. If any of your family in this or past generations have had kidney disease you should guard against its attack by taking

WARNER'S SAFE CURE

A TRIAL BOTTLE OF THE WORLD'S GREATEST KIDNEY CURE SENT ABSOLUTELY FREE TO EVERY READER OF THE DESERET NEWS WHO SUFFERS FROM KIDNEY, LIVER, BLADDER OR BLOOD DISEASE.

MR. WILLIAM MELLIN.

Mr. Wm. Mellin, Franklin, Mass., who tried many so-called remedies for kidney trouble without results, is loud in his praise of what WARNER'S SAFE CURE did for him.

He writes: "It is with great pleasure that I write you recommending your very valuable remedy, WARNER'S SAFE CURE. For years I have been suffering with kidney trouble, which many times forced me to take to my bed. I had awful pains in my back which caused me intense suffering. I spent a great deal of money for so-called cures, but they were not of any benefit to me.

"Seeing your numerous advertisements I tried your medicine. After taking the first bottle, I felt much stronger and continued taking it. I now feel in the best of health, better than I ever felt in my life. I owe all this to your wonderful remedy. I always recommend and consider it the best remedy in the world.

"You may publish this letter, as I cannot thank you too much for what your medicine has done for me.

" WM. MELLIN.

"Franklin, Mass., Feb. 6, 1907."

CURES KIDNEY DISEASE.

When the kidneys are diseased the uric acid is not carried off, and this causes Gout, Lumbago, Rheumatism of the Joints, Rheumatism of the Muscles, Rheumatism of the Heart, Rheumatism everywhere.

In Bright's disease the bowels are often constipated and the liver torpid. Warner's Safe Pills quickly relieve this condition, and no ill after effect is experienced.

WARNER'S SAFE CURE is now put up in two sizes, and is sold by all druggists, or direct, at 50 cents and $1.00 a bottle. Refuse substitutes containing harmful drugs, which injure the system.

Trial Bottle Free. To convince every sufferer from diseases of the kidneys, liver, bladder and blood that WARNER'S SAFE CURE will cure them, a trial bottle will be sent, ABSOLUTELY FREE, postpaid, to any one who will write WARNER'S SAFE CURE CO., Rochester, N. Y., and mention having seen this liberal offer in the Daily Deseret News. The genuineness of this offer is fully guaranteed. Our doctors will also send medical booklet containing descriptions of symptoms and treatment of each disease and many convincing testimonials free to every one.

Goes quickly to the very core of the disease and stops the most deep set excruciating pains almost instantly.
