MORNING CALL ON THE EXCHANGE

Stocks Quite Firm, but Trading a Little Weak.

DALY-WEST SELLS AT $10.15.

Good Business in Four Aces, Lower Mammoth and Northern Light —The Day's Transfers.

Dealing with mining stocks today, the brokers considered both classes alike and handled each on about an equal basis at figures highly satisfactory to the talent and those directly concerned. The sales reached a total of 15,200 shares, which sold for the sum of $7,871.77, and considering the fact that the market is now burdened with four calls daily, the showing was a very good one, but not what it would have been under more normal conditions.

The first to do business after the caller's gavel had tapped for order, was Chloride Point, which [illegible] taken at a dollar. Then Daly responded with a board lot at $1.28, after which Daly West took part, this stock being firmly bid for and selling at $10.15, while it had a closing bid of $10.12½. Four Aces was granted favorable recognition in sales at 37 and 37½, and Lower Mammoth held a stationary position with transfers between 76 and 78, on which basis the stock was in good demand. Mammoth sold at $1.78, and Northern Light, in spite of shipments of high-grade ore, continued weak, and was a seller at 47 to 48. Sacramento was taken at a low figure while Star Consolidated handed out shares at $1.16, and from this to $1.14½.

Mediocre securities furnished trading in Boston-De La Mar, which went at 1½ and was firmly bid for at this figure. Golden Eagle was taken at 1⅞ while Eagle & Blue Bell, which ought to find better company, was dealt in at $1.85 and had a closing bid of $1.83. In Golden Star there was business [illegible] 12 cents, and Joe Bowers sold down to 16, with Bowers Extension a close follower at 5 to 5½. Omaha closed up the business in sales at 41½ and 42.

The closing figures were as follows:

LISTED MINES.

MARKET REPORTS.

NEW YORK MARKETS.

MONEY.

New York, March 14.—Money on call nominal, 2@3 per cent.

Prime mercantile paper, 3½@4½ per cent.

Sterling exchange, steady, 4.83½@4.83¾ for demand, 4.83@4.83¼ and 4.84 for 60 days; posted rates, 4.84½@4.86 and 4.86½.

Commercial bills, 4.82½@4.83.

Silver certificates nominally, 59½@60.

Bar silver, 59¾.

Mexican dollars, 47½.

Government bonds strong; U. S. 3s, 1.07¼; new, 4s reg. & coup., 1.28¼; 4s reg. 1.11¼; do coupon, 1.12¾; 2nds, reg., 99½; 5s, reg. & coup., 1.12.

STOCKS AND BONDS.

New York, March 14.—Stock prices were shaded at the start for more prominent issues.

The international shares generally responded to the lower range from London but the recessions here were hardly up to the level established by the London market. Tobacco was a conspicuous exception, rising 2⅞ to 1.09⅞.

The rise in tobacco imparted a degree of strength to the other specialties, but the movement was very hesitating and a general decline soon set in in sympathy with pressure against Manhattan. The railway shares were under steady pressure with the decline most serious in Union Pacific, New York Central, Northern Pacific and Atchison preferred. Stock values moved steadily downward with the tendency largely due to offerings by discouraged holders in view of the apparent apathy of the leading interests. The offerings while not large nevertheless sufficed to depress many shares a point or two. The railroad shares were more prominent in the forenoon trading than of late with acute weakness in the active Pacifics. New York Air Brake made a sensational rise of nine points after early depression.

The railway bond market was sluggish but in the main showed good support.

SUGAR.

New York, March 14.—Sugar—Raw, firm; fair refining, 3½; centrifugal, 96 test, 4⅜; molasses sugar, 3⅝.

Refined, crushed, 5½; powdered, 5¼; granulated, 5⅛.

JOHN GRANGER YOUNG.

Resolutions of Respect to One Who Gave His Life for the Flag.

The Sixteenth quorum of Seventy has adopted unanimously the following resolutions, and request their publication in the "News."

Whereas, in the providence of our Heavenly Father, John Granger Young of Salt Lake City, a member of the sixteenth quorum of Seventy, was, on the 5th day of Feb., 1899, while fighting in defense of the interests of our common country, slain in the field of battle, at Manila, Philippine Islands, and

Whereas, he was distinguished for many virtues, among which were undying patriotism, conspicuous courage in confronting danger, unvarying kindness toward his widowed mother, generosity of disposition, and devotion to God, exhibited by his attention to the duties of his religion, he being a faithful member of the quorum of Seventy with which he was identified. Therefore, be it,

Resolved, that in his departure from this mortal sphere, through a vicissitude of war, we have lost the companionship of a genuine patriot, an unswerving friend and a faithful servant of God; and be it further

Resolved, that we tender to his sorrow-stricken mother and other relatives our heartfelt sympathy in their bereavement; that these resolutions be spread upon the minutes of the sixteenth quorum of Seventy, that a copy thereof be engrossed and presented to the family, and that the same be given to the press for publication.

Adopted March 12, 1899.

B. W. McALLISTER,
ISAIAH M. COOMBS,

J. W. Metcalf is down from Ogden.

D. Lord of Easton, Pa., is at the Kenyon.

E. J. Hooper of Denver is a Kenyon guest.

James W. Stark is in the city from Moab.

W. A. Woodward of Denver is again in the city.

H. Woodhouse is in from Lehi on business.

A. W. Johnson of Omaha is at the Kenyon.

Edward Pike came in from Eureka last night.

R. S. Collett of Vernal, Utah, came in last night.

John B. Gordon of Tooele is in the city today.

W. P. Darkel of Delta, Colorado, is at the Cullen.

Dr. D. B. Watt of Heber City is at the Cullen.

A. S. Wright came down from Ogden last evening.

M. F. Murray of Ephraim, Utah, is in the city today.

John Jones of Spanish Fork is in the city on business.

W. E. Richmond of Price, Utah, is at the White House.

L. M. McCarr of Bingham is in the city on business.

T. N. Beckett of Frisco, Utah, is at the White House.

S. L. Meinger of New York is a Knutsford guest.

George C. Thompson came in this morning from Ogden.

Chas. Thompson of Los Angeles, Cal., is a White House guest.

Wm. M. White of the Beaver Blade came in last night.

L. D. J. Schneiter and wife of Eureka came in this morning.

L. C. Pittersen of Eureka registered this morning at the Walker.

John E. Weber is down from Park City on mining business.

Henry Heyneman, a San Francisco traveling man, is in the city.

Chester C. Fay of Grand Junction, Colo., is at the White House.

Wm. Thompson of Butte came in from the north this morning on business.

Mrs. Y. H. Salmon is at the White House, coming in from Mercur last night.

E. L. Potts and wife and Miss Helen L. Potts of Philadelphia are at the Knutsford.

J. E. Hocker Jr. and T. C. Hocker of Chicago came in this morning and registered at the Kenyon.

My mother suffered with chronic diarrhoea for several months. She was attended by two physicians who at last pronounced her case hopeless. She procured one 25-cent bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and five doses gave her permanent relief. I take pleasure in recommending it as the best on the market.—MRS. F. E. WATSON, Aiken, Ala.

A. R. De Fluent, editor of the Journal, Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. I used Chamberlain's Pain Balm, and was surprised to receive relief almost immediately. The Pain Balm has been a constant companion of mine ever since and it never fails."

BURNHAM HERE ON BUSINESS BENT

Joe Bowers Claimant May Agree to a Compromise.

BLUE VITRIOL CONTRACT.

Work in the Mines of Frisco—Highland Boy Smelter—New Leaching Process.

Charles F. Burnham, whose object here is to push his claim for a half interest in the Joe Bowers mine at Tintic, came in from Milwaukee last evening and is now in consultation with his attorneys, looking to a speedy termination of the matter either one way or the other. It is said by those who claim to be well informed, that the Joe Bowers company has agreed upon a compromise. This being the case, the controversy may see a settlement out of court otherwise it will entail protracted and expensive litigation. If settled speedily, those holding stock may look for its quick return to better figures, as it is said the mine is in splendid shape and will worthy a place in the higher realms.

The Mines of Frisco.

The Horn Silver, which is now producing 50 tons of high grade copper ore a week, and will pay its quarterly dividend of $20,000 the latter part of this month, reported at the sampler this morning with another car of such mineral, the same carrying encouraging values. Hon. C. T. Farnsworth, manager of the property, has just returned from Frisco, where he inspected both the Horn Silver and Washington. The former is pushing along in the even tenor of its way, while the latter is being extensively developed and shows splendid ore bodies. This mine is being thoroughly equipped for the making of regular shipments and without a doubt it will not be long until it is placed on a dividend paying basis. Reports from Frisco indicate that considerable attention is being paid to the mines and prospects of that locality, especially as it is known that copper is found there in good quantity.

Highland Boy Smelter.

While indications point strongly to an increase in the capacity of the Highland Boy smelter near Murray, Mr. George K. Fischer, the company's engineer, said today, that he had received no orders to proceed with the work, nor could he state definitely that such orders would eventually come. He said, however, that the matter had been discussed for some time past, but as for a definite conclusion having been reached, such was not the case. Mr. Fischer reports the erection of the big plant proceeding satisfactorily, although some little delay has been occasioned owing to recent storms which have tied up machinery en route. The blockade was beginning to loosen up, however, and work would go on with the expedition necessary to complete the big structure by the month of June next.

NEW ORE LEACHING PROCESS.

The Brown Brothers Revolutionizing Things in Cost of Reduction.

Special Correspondence.

Eureka, March 11.—Your correspondent hearing of a new ore leaching process which is causing some stir here among those who know, had the pleasure of an interview with the inventors, two brothers, James and Robert A. Brown, who gave a brief resume of the advantages of their process, for which the patent rights are being sought. Their claims are certainly worthy of consideration to all interested in a cheap process of ore reduction.

There is no ore however base or refractory, but their solutions can overcome, and extract the values, and they have put some of the worst class of mineral in the State through their little tank with astonishing results. Milling ore running from $12 to $28 per ton is treated successfully, at a first cost for chemicals of from 35 cents to $1, and every subsequent charge of the tanks is done at about one-half the cost for solutions. The returns after precipitation have been as close as 94 per cent, and never lower than 87 per cent, which is from 10 to 15 per cent better than any milling or smelting process in the State. Asked as to the time taken to get the values from one or more tons, and whether it took a time proportionate to the amount treated, brought the astonishing statement that any amount from one to twenty tons took from one and one-half to two hours to have the values ready for the melting pot instead of twenty-four to thirty-six hours as are required in ordinary leaching. "My chemicals," said Mr. Brown, "are so potent that time hardly cuts any figure in this, though I am speaking only from an experimental point of view and time, of course, in the practical mine owner or manager, will be a very important point. The other weighty point that I will show to him is that he need never again be at the cost of milling machinery and buildings about him. He will never need them; the open air is good enough for me and tank space and tramway is all I want of that."

The brothers have been experimenting for years and are naturally feeling elated at the success achieved. Mr. Legg of the Northern Light is watching their process with great interest and is going to put through an average sample of his ore. One of the prominent officials of the Centennial Eureka is keeping an eye on their tests, several of which he has been present at, and his opinion is very favorable, and worth a great deal. His practical encouragement has helped the boys considerably. It seems to your correspondent, who has been around mines for years, to be the most practical, economical and feasible scheme of ore reduction ever brought under his notice, and certainly worthy the careful attention of Utah's mining men.

W. W. Chisholm and W. M. Bradley are up at the Blue Rock today from Salt Lake. It isn't often they give us a visit and the boys are pleased to see them.

The K. O. T. M.'s Tintic excursion was a big success. Quite a number took it in, and had a fine day for their outing. We would have been better pleased had they seen the big mill in operation, but she'll be pounding and humming the next time they come.

NEWS FROM PARK CITY.

Superior Consolidated Showing Good Values—The Copper King.

Special Correspondence.

Park City, March 13.—The Superior Consolidated, B. F. LeCompte, president and manager, informs your correspondent that he is pushing work on this property with six men, working east from the bottom of the 1,400-foot tunnel. The ore is getting better and the formation has changed from limestone to porphyry and quartzite, and the same as that in the Valeo. The last assays showed 14 per cent copper, $1 gold, 29 per cent silver and 21 per cent lead. Mr. LaCompte feels that he will encounter such bodies of ore in the near future as will warrant the employment of more men, but would advise people coming to Park City in quest of work just now, to purchase a return ticket as the chances are they will need it.

The Copper King, examined by experts, assays better. From one of the company it is learned that this property, situated in the Cottonwood canyon, is promising than has heretofore been expected. The ores are increasing in value and they have a vein of five feet showing copper and gold, and a vein of iron carrying from $1 to $8 in gold. They have several prospective buyers for the property, but find they have been insisted with an offer of only $150,000.

Northern Light Shipment.

The Nothern Light reported at the sampler today with a shipment of high-grade silver ore, the value running about 500 ounces to the ton. It is understood that there is considerable of this class of ore in the mine, and that as soon as the conditions permit, the company will put it upon the market. Those interested in this property will hail the day when regular shipments are possible.

New Pumping Plant Installed.

William Gray of this city is just in from Tintic, after having successfully installed a pumping plant in the workings of the Plymouth Rock mine at Silver City. It appears that this company, like many others, encountered water in the lower levels and to get rid of it a contract was entered into with the Mine and Smelter Supply company of this city to put in a pumping plant to clear the workings of the water. Accordingly, about three weeks ago, the necessary pumps, etc., were shipped to Silver City, under the superintendency of Mr. Gray, an expert in the line. The water had to be taken from the 65 foot shaft and 150 feet drift, and in four days after the pumps were put in the work of draining was accomplished. At times, Mr. Gray says, he despaired getting advantage of the water, but by diligent search, and hard and disagreeable work, the difficulty was overcome.

Mining Claims Filed.

Provo, March 14.—The following locations of mining claims have been filed for record: Uriutha Nos. 1 and 2, situated in Camp Floyd mining district, by Alfred Anderson et al; Klondike, situated in Camp Floyd mining district, by Otto Hansen et al; Yes I Will, situated in Tintic mining district, by Samuel Morris et al; Blue Stone, situated in Lehi mining district, by Jonas Holdsworth et al; the Deseret and the Beehive, situated in North Tintic mining district, by L. C. Peterson et al.

BLUE VITRIOL CONTRACT.

Major Jackson's Company Will Supply the Western Union During the Year.

The Western Union Telegraph company has just awarded to the Consolidated Kansas City Smelting & Refining company, a contract to furnish blue vitriol during the year. Major Jackson said today that this contract amounted to several hundred thousand dollars, as every telegraph office in the country used it in great quantities. It is manufactured by the Kansas company, of which Mr. Jackson is local agent, and is a contract enjoyed by them last year.

MINES AND MINING MEN.

Casting copper changed to 15½ today.

Dalton stock has been assessed a cent a share.

Thomas Weir of the Highland Boy left for Denver last evening.

Theodore Bruback was out at Tintic today looking into the Triumph.

The Golden Eagle of Humboldt county, Nev., has been assessed a cent a share.

The Dexter is in with a gold bar valued at $3,200 and cyanides of the value of $1,000.

The Supreme court has affirmed the decision of the lower court in the case of Wilson vs Triumph Consolidated.

Victor M. Clements, chief man for Capt. De La Mar, is still out at Mercur scrutinizing work at the Golden Gate.

A 100-foot shaft is to be sunk on the Copper Gulch group at Frisco, the property of P. A. H. Franklin and associates.

The employes of the Highland Boy at Bingham received their checks today. Those at the smelter were paid off yesterday.

The new exchange held its first evening call last night when 11,500 shares changed hands with a selling value of $1,168.50.

At a meeting of the Gold and Silver Carbonate Mining company, owning properties at Dugway, J. M. Bowman was elected president, Gustave G. Pehlde, vice-president; C. L. Hood, secretary and treasurer, and William E. Carey and Mrs. M. F. Perbands the remaining directors.

Articles of incorporation of the Sundar Gold Mining company have been filed with the county clerk. It has a capital stock of $10,000 in 10-cent shares. The incorporators are George W. Kellogg, Frank D. Kimball, Eliza Sinclair and Mattie Y. Kellogg, and Mercur is designated as the principal place of business. The claims are the Sundar Nos. 1 to 7 inclusive, in Camp Floyd district.

LAND OFFICE ITEMS.

Homestead entry has been made by Francis D. Harman, of Tooele, Tooele county, of 160 acres in section 8, township 1 south, range 5 west.

OLDEST REPORTED YET.

San Jose, Graham, Co., Ariz.

To the Editor:

Noticing in your paper a call for the oldest member living born in the Church, and seeing that our Jacob Coonsell of Payson was born July 21, 1831, I wish to say that I was born May 18, 1831. My parents, David and Joanna Bennett, were baptized about the 23rd of April, 1831. I was born in the state of Ohio in Huron Co., and in Fairfield township. My parents passed through all the early persecutions of the Church, and they both died at Pleasant Grove, Utah, county.

(Signed) ALMA H. BENNETT.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and Substitutes are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of Chas. H. Fletcher.
