WAR PREPARATIONS.

Feverish Activity in the English Naval Department.

HISTORY TO THE COMMON PEOPLE

The Religious in Germany Do Not Seem to Justify the Extraordinary Measures.

LONDON, Jan. 10.—There is a feeling street in London tonight that there are many details of the complications into which the foreign office of the empire have been placed which have not been published, and much speculation has been indulged in by the public. So far as official information goes, the situation seems to be improved.

The mystery of the naval preparations occupies a large place in the public mind, and the conclusion arrived at by the attentive public, after thus thinking it over, is that the tremendous activity displayed, not only in the fitting out of the flying squadron, but of the pushing forward of work in the navy yards, arsenals, etc., for war material, does not appear wholly necessary on account of the condition of relations with Germany. It is also felt that it is difficult to see for what point the flying squadron, which, together with the existing available squadrons with which it is proposed to join it, will form, it is said, the most powerful fleet of war vessels ever put out, in designed. The situation in the Transvaal, it is said, is greatly improved, and Paul Kruger has made certain Prescott Kruger has made affectionate demands, such as for the complete independence of his republic and freedom from the suzerainty of Great Britain, and has received the support of Germany in favor of these demands, such a powerful fleet as is being prepared will not be needed at Delagoa bay. In fact, the whole future of South Africa now depends upon the nature of the demands made by Kruger, whose response to the Queen's message, addressed to him in the third person through Colonial Secretary Chamberlain, is, to say the least, not effusive. In fact, it is virtually evident that the president will hold Dr. Jameson and the other members of his expedition who were taken with him as hostages for the disarmament of Johannesburg, whose time for grace for the surrender of the arms held by the Uitlanders expires at 6 o'clock this evening. Those of the Uitlanders who have not yielded their arms at that time are to be excluded from the amnesty to be granted to those who participated in the uprising. The indemnity demanded by the Transvaal government from the Chartered South Africa company is variously stated at from $500,000 to $2,000,000.

The disturbance in the Transvaal has led to an exceedingly heavy stock exchange account, especially for Chartered South Africa and Consolidated Gold Fields.

Brokers are having difficulty in obtaining payment from weak holders, who hoped to be able to carry over their stock, but have refused to do so in view of the disturbed political situation. Some of the differences paid have been very heavy. In two instances they amounted respectively to £50,000 and £65,000. The former sum was paid, but in the second case the payment is reported to have been a matter of temporary arrangement. Several failures are expected to occur.

Right Hon. Joseph Chamberlain, secretary of state for the colonies, went to Osborne today and he will stay there over night. Right Hon. C. J. Cheshen, first lord of the admiralty, made a special visit to Portsmouth and inspected the ships of the flying squadron and saw the guns of their armament worked. The workmen at Portsmouth and Plymouth worked late tonight by electric light for the fitting out of the ships of the squadron. It is expected that those at the Portsmouth dockyard will continue the work of preparation on Sunday.

It is announced this evening that the government has secured the stores of smokeless cartridges to be increased from 60,000,000 to 150,000,000. All these preparations, of course, mean an enormous outlay of treasure. The wages of workmen alone are £50,000 above the usual expenditure. It is reported that the government is in error to meet this and further naval orders, will present a bill immediately when parliament opens to devote the surplus revenue over the present budget, chiefly arising from the remodeling of the death duties and to the activity in the stock market, and which, it is expected, will amount to several million pounds, to naval expenses.

One effect of the present crisis has been to impress Englishmen with a sense of the marvelous diplomatic acumen of Paul Kruger, the Boer president. The admiration felt by Englishmen for the South African executive finds abundant expression even in the face of the sharp reverse he has administered to their policy. Sir Charles Dilke declared in a speech today that President Kruger has few rivals among modern diplomats.

Some excitement has been caused by a telegram from Boer sources in Johannesburg, which states that President Kruger will hold Dr. Jameson until the London convention is abrogated, which would mean the abandoning of English suzerainty over the Transvaal. The colonial office, however, has heard nothing of such a stipulation, and the government is not disposed to believe the report.

Silver Men in the Majority.

WASHINGTON, Jan. 10. — At a conference today between several of the Republican silver senators, the list of silver men in the Senate was carefully considered, those present comparing notes on members considered doubtful, and the conclusion was reached that the silver substitute for the house bond will stand win by a majority of about three votes. It was decided that it would not be necessary to postpone action until the new senators from Utah arrive.

VENEZUELA COMMISSION.

The Question of Appointing a Secretary Now Before the Members.

WASHINGTON, Jan. 10.—The Venezuelan Boundary commission will meet in the diplomatic room of the state department at 10 o'clock tomorrow for the purpose of perfecting its organization for business, so far as possible at this time.

The members of the commission are being subjected to considerable pressure in the interests of the numerous candidates for the office of secretary. All appointments in connection with the determination of the divisional line between Venezuela and British Guiana have been vested entirely in the commission, the President and secretary of the navy having informed the commission that they desired to be relieved entirely from any responsibility in the matter. Among those mentioned for the office of secretary is Mr. W. E. Curtis, formerly director of the bureau of American Republics, and Mr. Partridge, of Vermont, formerly solicitor of the state department and minister to Venezuela under President Harrison.

Western Passenger Association.

CHICAGO, Jan. 10.—The Western Passenger association has a new row on its hands, and the chances are that it may prove to be serious before the matter is finally disposed of. For some time there has been trouble between the Atchison and the Union Pacific, Denver & Gulf over coal rates, and the latter road, as a means of warfare, cut the passenger rates from Denver to Pueblo, Colorado Springs and Trinidad about 60 per cent. The reduced rates were promptly met by the Denver & Rio Grande, and this afternoon the Atchison, receiving word that the Union Pacific, Denver & Gulf had stocked the Denver brokers with tickets at the reduced rate, promptly made a rate to equal that made by the other two lines. The fight will not affect the Atchison as much as it will the Denver & Rio Grande. Chairman Caldwell will endeavor to pour oil on the troubled waters tomorrow.

The meeting of the Western Passenger association finally adjourned today.

The only action of any importance was the granting of a rate of one fare for the round trip for the meeting of the Baptist societies of Portland, Or., next summer.

The Treasury and the New Loan.

WASHINGTON, D. C., Jan. 10.—The treasury today lost $1,628,000 in gold, of which $1,259,000 was for export. This leaves the true amount of the gold reserve $65,100,126.

The secretary of the treasury today prepared and gave out for publication a table showing the amount which should be bid for the new 4 per cent bonds maturing February 1, 1925, in order that the investor may realize any rate of interest between 2½ and 4 per cent per annum.

Following is the table:

2½ per cent	104.972
2¾ per cent	104.1334
2 per cent	104.2778
2¼ per cent	105.4223
2½ per cent	106.5671
2¾ per cent	107.7123
3 per cent	108.8578
3½ per cent	111.1499
3¾ per cent	112.3964
3¾ per cent	113.6433
3 10 per cent	114.8906
3½ per cent	116.6906
3 40 per cent	117.9391
3½ per cent	119.1884
3 60 per cent	120.4381
3¾ per cent	121.6884
3 80 per cent	122.9391
3 90 per cent	124.1904
4 per cent	125.4423

The treasury department today began the task of sending to each postmaster in the United States a copy of Secretary Carlisle's circular of March 6th, asking for proposals for the purchase of the new bonds. By direction of the postmaster general these notices are to be posted in a conspicuous place in each office.

MRS. DAVIDSON'S FORTITUDE.

She Knows Nothing Whatever About Her Antecedents.

SAN FRANCISCO, Jan. 10.—In the police court this afternoon the preliminary examination of Mrs. M. A. Davidson on the charge of extorting money from Rev. Mr. Brown was resumed.

Mr. Davidson, on cross-examination, said her mind was an absolute blank as to what happened to her from 1874 to 1887. She did not know whether she has been, what she has done, whether she had ever served a term in a house of correction in Massachusetts, if she had given birth to a child, or if she had swindled various persons, whose names the prosecution enumerated in repeated questions.

Two witnesses testified they knew Mrs. Saddin, for whom Mrs. Davidson claims she accepted the money from Dr. Brown.

E. S. Simpson, city editor of the Chronicle, testified that Mattie Overman had called at his office and offered to sell him a story about a prominent man for $1,000, but did not mention the name of man involved.

Mrs. Davidson was held in $5,000 bail in answer to the charge of extortion.

OTHERS WANT STATEHOOD.

Arizona, New Mexico and Oklahoma Asking for Statehood.

WASHINGTON, Jan. 10.—The three territorial delegates, Messrs. Flynn, of Oklahoma, Murphy, of Arizona, and Cairos, of New Mexico, are waging a vigorous campaign in Congress to secure favorable action upon their bills for the admission of the respective territories represented by them to statehood. Each delegate considers the achievement to statehood the chief mission of his congressional career, and their energies are bent upon securing it.

They are very anxious to have their bills before the territorial committee reported to the house and disposed of in some way, and having made a canvass of the committee announce this evening that more than two-thirds of its members will vote for favorable reports.

The bills for the admission of Arizona and New Mexico before this Congress are enabling acts modeled upon the act by which Utah was elevated to statehood, with certain modifications demanded by local conditions. Arizona's bill, which was detained by the last House, stipulated for immediate statehood on a constitution which had already been formed by the people, but there was doubt concerning the legal standing of the convention.

Mr. Flynn's new Oklahoma bill differs from the former one in giving authority to Congress to attach any of all of the Indian Territory to Oklahoma when the lands have been allotted and made subject to taxation.

Delegate Murphy, of Arizona, who is now the territorial delegate, and who has sounded the views of Congress on the question, says that he finds a strong sentiment for the addition of the territorial system, but that there is much opposition to the admission of Arizona, New Mexico or Oklahoma on the part of Eastern members, who object to increasing the free-silver strength of the Senate.

"The people of my territory are not extremists on the financial question," he said. "The territory produces more gold and copper than silver, and moreover, it is possible that the added impetus given to the gold mining industry consequent upon the decreased use of silver as money. And our statehood would not be acquired for a year under that bill, when the Presidential election would be past and when the financial question might have been removed from politics as a disturbing factor. It seems natural that a mere incidental issue should stand in the way of our undoubted claims to statehood."

Mr. Carlton of New Mexico believes that the committee will undoubtedly make a favorable report on the statehood bills and that the chances for success in the House are good. The territorial form of government, he says, is unrepublican, and as annually that it does not command the confidence of the residents of the territories or others, because the officers are responsible to the appointing powers instead of the people, and that it materially retards the development of the country.

A German Man-of-War Already There.

BERLIN, Jan. 10.—A telegram from Lorenzo Marquez, Delagoa Bay, announces that the German man-of-war Condor has arrived there.

FROM HAVANA.

Admirable Tactics of the Rebels—Conspiracy in the Capital.

HAVANA, Jan. 10.—The lull which seemed to have taken place in the activities of the insurgents in the past few days has given place once more to an unexpected dash on the part of Maximo Gomez into the heart of the rich tobacco-growing district of Pinar del Rio.

Confident claims have been made for several days past on the part of the authorities that the time was fast approaching when the insurgents were to pay the penalty for their temerity, and when the Spanish were to close in upon them as in a trap, and annihilate them. The sympathizers with the insurgents have themselves not been free from keen anxiety at the persistent manner the leaders were making on the northern coast of Pinar del Rio, and almost up to the outskirts of Havana itself, while the continued activity of the Spanish generals was disposing about them a force of troops that seemed likely to box them in and cut them off.

The news cabled last evening that Gomez had passed Aguacate and Guira Melena, in Havana province, was received with relief by the friends of the insurgents, though the direction he had taken beyond that was not known, but it was not generally supposed he was bent upon retreat into the eastern provinces, glad to escape the trap set for him.

It is now evident he was merely making a pretense at retreat to mislead his enemy, and meanwhile he has once more countermarched, like a fox, doubling upon his own tracks, and tonight he has nearly his whole effective force in the tobacco district in the southern part of Pinar del Rio, ready to visit destruction upon the tobacco crop.

The authorities have discovered evidence of what the consider a conspiracy to cause an uprising in Havana, and to hand the city over to the insurgents. The conspiracy is believed to be widely ramified, and its discovery has caused grave uneasiness in Havana, and suspicions that dissatisfaction is much more widely disseminated than has been admitted. Thirty persons have been arrested for complicity in the plot, and eight have been imprisoned, while Aquilino Sotano, police inspector for the port of Havana, has been relieved from duty.

An engagement has occurred between the combined columns of Gen. Navarro and Col. Arizmendi and the band led by Maceo and Zayas, at a point between the plantations of Hagaid, and Begona, in the district of Cabanas. The Spaniards, it is reported, took the insurgents' position, who fled, leaving twelve killed and carrying off many wounded.

Mansfield Makes a Speech.

ATLANTA, Ga., 10.—Richard Mansfield, who appeared here last night in "A Parisian Romance," took occasion to make a speech, which created a sensation. Mr. Mansfield said: "It is evident that the people of Atlanta do not appreciate the artistic plays which I have taken so much care to produce. I have brought a very expensive company to Atlanta, but the total receipts from my three performances would not pay for raising the curtain in the first play.

"I understand that my friend, Henry Irving will soon come here, and I presume that he will carry away a great deal of your money."

Will Not Perform Miracles But It Will Cure.

DR. MILES' RESTORATIVE NERVINE cures nervous prostration. Not miraculously, but scientifically, by first removing the germs of disease, and then supplying healthy nerve food, increasing the appetite, helping digestion and strengthening the entire system. Desperate cases require prolonged treatment as shown by that of Mrs. H. B. Reed, of Delta, Iowa, who writes: "As the result of a lightning stroke, the physicians said I had a light stroke of paralysis. my limbs would all draw up. I would have throbbings in my chest that seemed unendurable. For three months I could not sleep and for three weeks did not close my eyes. I prayed for sleep, and felt that if relief did not come I would be dead or insane. I took Dr. Miles' Restorative Nervine and the second night slept two hours and from that time on my health improved slowly at first, but steadily and surely. I took in all six bottles, and I cannot express how grateful I am, for I am now perfectly well, and have taken no medicine for over four months." Dr. Miles' Nervine is sold by druggists on guarantee that first bottle benefits or money refunded.

Book on heart and nerves free. Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Nervine Restores Health.....
