CITY COUNCIL

IN SESSION

Strong Objections Presented
Against Use of Steam on
The Bamberger Line.

CAMPAIGN AGAINST THIEVES.

Frank Men Will be Protected—Mashed—Frank L. Johnson
Succumbs to Pneumonia.

Ogden, May 12.—By next Monday it will be finally decided whether or not the Bamberger road will be allowed to enter the city using steam as a temporary motive power. At last night's session of the city council a petition with a large number of signatures was presented to the city council asking that the Bamberger road be allowed to enter the city using steam as a temporary motive power. The petition was presented by the Bamberger road company, which is now operating the road between Ogden and Layton. The city council is now considering the petition, and it is expected that a decision will be made by next Monday.

From the expressions of several councilmen it would appear that President Bamberger and his associates will be required to conform with the terms of the franchise. A large number of citizens of Ogden were present at the session of the city council last night and several addressed the body. James Plimlee objected to the use of steam by the Bamberger road because it would depreciate the value of his property and the property of others in the city. He also objected to the use of steam because it would create a nuisance for the city. The city council is now considering the petition, and it is expected that a decision will be made by next Monday.

Councilman Thomas moved to amend by having the president set a day when representatives of the railroad company could also be heard. This motion was carried and President Browning set Wednesday afternoon at 3 o'clock, when the city council as the committee of the whole will go over the matter with representatives of both sides thoroughly.

The sum of \$3,242.45 was authorized to be paid to the different departments of the city for current expenses.

A bid of \$464.00 for draining system on Twenty-sixth street was submitted by the Whitworth Construction company. A bid of \$1,570 was submitted by the J. P. O'Neill Construction company for curbing and guttering on Twenty-sixth street between Jackson and Tenth avenues. On districts 21 and 22, extensions one and five, the O'Neill company bid \$2,450. W. J. Moran, \$2,465.35. These bids were referred to the engineering and sidewalk committee with the city engineer.

Mayor A. L. Brewer sent in a veto to the action of the city council authorizing the payment of \$2,801.44 to the J. P. O'Neill Construction company for extra work done. He gave as his reasons for so doing the fact that this

YOUNG WOMEN

Young women are often great sufferers for want of proper advice at just the right time.

Mrs. Pinkham, at Lynn, Mass., has always issued to young girls a special invitation to write to her about their sickness. She is a mother, and fully understands.

In nine chances out of ten your case will be just the same as those of the young ladies whose letters follow.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND is what you need to restore health. Miss Abby F. Barrows, of Nelsonville, Ohio, writes to Mrs. Pinkham:

"When I wrote to you I was very nervous, had dull headaches, backache, and was very irregular. Doctors did me no good. Lydia E. Pinkham's Vegetable Compound and your advice made me regular, well and strong. I am now in better health than ever before."

Miss Elsie L. Hook, of Chelsea, Vt., writes to Mrs. Pinkham:

"I am only sixteen years old, but Lydia E. Pinkham's Vegetable Compound and your advice have cured me of sideache, periodic pains, and a nervous, irritable condition after everything else had failed."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration, and all the ills that women are subject to.

Only rich people can afford to use poor soap. For this reason: Poor soap contains an excess of alkali which weakens the fabric and shortens the life of everything it touches.

Rich people can stand that sort of thing. People who are not rich should use Ivory Soap for everything but the coarsest, commonest things that need to be washed.

amount is two-thirds more than the estimate furnished by the city engineer.

The city recorder was authorized to employ a clerk at \$50 per month upon the recommendation of the engraving committee.

According to the report of Sanitary Inspector George Shorten there are now 112 cases of contagious diseases in the city. Of this number 83 cases of scarlet fever were reported during the past week.

THE "MASHER" MASHED.

Reprehensible Conduct of Young Hoodlums on Streets of Ogden.

Ogden, May 12.—Arresting one man on a charge and allowing another who committed a graver crime to go is a record made by the police Sunday night in dealing with "mashers." This inconsistent action has been commented upon freely by those who witnessed the various acts in the farce.

The first case was that of a young chap by the name of Harry Craig who is alleged to have made some remark to a young lady member of the Zinn society company as she was passing one of the principal street corners in the city where the gay young "mashers" are wont to congregate. Miss Mansfield, who was addressed by Craig, where he was seen to make some advances but continued on down the street, but Andy Budenzene, stage manager of the company who was following closely behind heard the remark and walked over to Craig who was with a friend named Walter Wilson and asked him how he would like to have a similar remark addressed to his sister.

Craig resented the remarks of Budenzene by making some further comment about women of the stage. This was where the police stepped in and the young man's mouth than two straight blows to the face from the fist of the theatrical man sent the fellow sprawling over a bicycle rack, which was accompanied by other members of the company, then continued on his way to a restaurant and the crestfallen "masher" picked himself up and went to a drinking fountain where he washed the blood from his face. He then gathered a number of his friends together and proceeded to the restaurant where they were to have a meal. In the meantime Bud, accompanied by Zinn came out of the restaurant and the gay young men under the leadership of Craig immediately proceeded to get into an argument. The young crestfallen leader delivering a discourse upon the morals of the stage. Upon the arrival of the police, the argument ceased and young Craig, accompanied by Wilson, started down the street. After taking a few steps he turned and made a remark which was of such a nature that had it not been uttered when the police were not there the speaker would probably have been roughly dealt with. After making the remark, Craig continued on down the street unmolested but not until he had predicted a bunch of "bad luck for the Zinns."

Another case was that of Joe Bush, who was arrested in the evening upon the charge of following a couple of girls, who had "offered him some encouragement." The man who was arrested in the city, put up bail in the sum of \$10. Another stranger named Crier, who says that he is a traveling man, had to put up \$25 for his bail. The man who was arrested with him on lower Twenty-fifth street.

These several cases show how the question of "mashers" is treated in Ogden; the strangers get it and the local product go unpunished. There is not a night but what untended ladies passing along the streets, particularly Twenty-fifth street, are the objects of the abuse of unprincipled luggers who happen to come from old families and have "a pull" with the administration.

CAMPAIGN AGAINST THIEVES.

Fruit Growers Promised Protection—County Road Improvements.

Ogden, May 12.—The fruit thieves who have been numerous in the city for some time past, are now being promised protection by the fruit growers. The fruit growers are now organizing a campaign against them. Samuel Dye, a well known fruit grower of the county, appeared before the county commissioners and called their attention to the fact that the operations of the fruit thieves in the past often assumed the character of a wholesale trade. He said that he had several boxes at a time. The matter was referred to Sheriff Wilson, who will take immediate steps to afford protection during the coming season. Commissioner David McKay reported that the sprinkling of the Ogden canyon road was well under way and that the sprinkling of the road in other districts of the county was being made. In connection with the canyon road the report was made by Supervisor Andrew S. Allen that the stone road had been placed upon the road for the resurfacing of it and he would be ready for the steam roller within a day or so.

STOLEN HORSE AND BUGGY.

Ogden, May 12.—Frank Campbell was arrested at Layton, Davis county, by Sheriff Weir Monday afternoon, and brought to this city by Sheriff Wilson and Deputy Clark Monday night. Campbell hired a horse and buggy from Claude Dye, and shortly afterwards tried to sell them. Failing to do so, he drove the outfit to Layton where Sheriff Weir was awaiting him.
