KENDALL'S SPAVIN CURE.
The most Successful Remedy ever discovered, as it is certain in its effects and does not blister.
READ PROOF BELOW from
Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.
St. Albans, Vt., Jan. 20th, 1880.
Dr. B. J. Kendall & Co., Gents—In reply to your letter I will say that my experience with 'Kendall's Spavin Cure' has been very satisfactory indeed. Three or four years ago, I procured a bottle of your remedy, and used it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road to prove my cure, I found to my sorrow that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully yours, P. N. GRANGER.
KENDALL'S SPAVIN CURE is sure to kill the spavin, and is as positive as it does not blister, but is for penetrating and powerful to remove any deep seated pain or to remove any bony growth or other enlargement, such as sparvin, ringbone, curbs, splints, sweeny, windgalls, and all enlargements of the joints, or tendons in man or beast. It is now known to be the best liniment for man ever used, acting mild and yet powerful in its effects.
Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast or man. Price $1 per bottle, or six bottles for $5. Any druggist can have it on one of his agents, or can order it of the proprietors. DR. B. J. KENDALL & CO., Enosburg Falls, Vermont.

NEW YORK TRADE.
ROYAL

BAKING POWDER
Absolutely Pure.
This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders.

FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 5.—Cameron moved to dispense with the calendar for the purpose of taking up the bill for the relief of Ben Holliday. It was agreed to consider the bill by a vote of 31 to 24.

The minority then began to filibuster, explaining that they thought the Senate should consider more important business. The bill finally went over.

The bankruptcy bill was then taken up and made a special order for the first Wednesday in December.

By a party vote of 22 to 20 the Senate took up the bill to create the Territory of Pembina.

McMillan reported the river and harbor bill and will move its consideration to-morrow. Adjourned.

HOUSE.

WASHINGTON, 5.—The House went into committee and resumed consideration of the naval appropriation bill, the pending question being the amendment to a paragraph for the bureau of construction and repairs, to strike out the proviso which limits to $400,000 the amount to be applied to the repair of wooden ships; also to make the clause read so that the expense of such repairs shall not exceed 30 per cent. of the estimated cost of a new vessel of the same size and of like material. Adopted.

A discussion arose to the reduction by $250,000 of the amount appropriated with the view of improving the navy.

Robeson strongly opposed it.

Ellis declared himself heartily in favor of the reconstruction of the navy, for sooner or later the Irish question would enter into American politics and might lead to a complication with England. Mexico would before long be peaceably subjugated by the United States. Then would come recoil and revolt and the United States might be called on to defend its interests and the property of Americans in Mexico. He referred to the insults of Chili.

The Atkins amendment to reduce the appropriation $225,000 was rejected, and the Harris amendment, that any portion of the $1,250,000 that was not required for the purposes specified, may be used in the construction of two new cruisers, was adopted, 85 to 7.

In considering the appropriation for the bureau of steam engineering, Whitethorne attacked Robeson and the management of the navy.

Robeson responded and urged the defeat of the Wells amendment to strike out the proviso and applying $1,000,000 to the monitors. The *Miantonomah* and *Monadnock* would be enough to protect the harbor of San Francisco, with the *Comanche* already there. The amendment was rejected—6 to 46.

Hewitt moved that the work be awarded to the lowest responsible bidders. Robeson opposed allowing any bummers, like the Mackey's, to come in and bid.

AMERICAN.

The Doctors' Row.

WASHINGTON, 5.—The doctors appointed to conduct the autopsy on the body of Guiteau, Messrs. Lamb, Hartigan and Somers, are quarreling among themselves imitating, in a small way, the scramble of the dozen or more doctors who attempted to treat ex-President Garfield's wounds.

Dr. J. M. Beard, of New York, was called to Washington at the request of Guiteau this day before his execution to make his arrangements for the autopsy. Dr. Lamb, who is a surgeon in the medical museum took possession of the memoranda, and this morning notified his associates by a letter that he had prepared a report and forwarded it for publication to the Philadelphia Medical *Journal*. Dr. Somers said: "I understand Dr. Lamb has a paper that he calls a report of the autopsy on the body of Guiteau. This paper cannot be termed in any sense a report." Dr. Lamb said: "I have prepared the official report of the autopsy, and it will be published to-morrow. I conducted the autopsy myself, and none else has the authority to make a report. A man may have some assistance in writing a book, but that does not compel him to print the names of his helpers on the title page. In my report I have given the gentlemen who helped me at the autopsy credit for their labors, but the report is mine. It is official, and neither Drs. Hartigan or Somers have the right or authority to affix thereto their names.

The Navy Bill.

The House, to-day, in a committee of the whole made a provision for additional work on the monitors *Manauoock, Puritan, Amphitheatre, Terror* and *Miannoch* and appropriated $1,750,000 to build two fast steel cruisers, which are to form a nucleus of the new navy. Robeson in his speech in giving his view of the king of defences necessary for the large seaport cities, said of San Francisco, that there was sufficient work in the Golden State to allow the largest foreign ironclads to enter and rush out with such velocity that stationary torpedoes could not be anchored. The city must be defended by ironclads, and with the *Monadnock* and the *Comanche* to cruise at the entrance to the harbor, and two torpedo boats to attack the invading ships. No fleet in the world could successfully bombard the city.

River and Harbor Bill.

Consideration of the river and harbor bill has been completed by the Senate committee and is ready to be reported. About $2,000,000 have been added to the bill.

Harbor Appropriation Bill.

The Senate committee on commerce nearly finished to-day the consideration of the river and harbor bill. The amendment was adopted to increase the appropriation to $50,000,000. One hundred thousand dollars was also added to the House bill for the improvement of the Missouri river. Amendments were made by the committee and will add to the bill as it came from the House, about $2,000,000 making the total amount appropriated more than $16,000,000.

Storms.

LITTLE ROCK, 5.—This city was visited last night by a tornado for a half hour, and the wind blew at the rate of 72 miles an hour, and for one minute it made three miles a second, or the rate of 180 miles hour. These figures are given by the signal service. No buildings were blown down, but much damage was done to fences, signs, etc.

Osage Mission, Ks., 5.—A tornado visited the country about nine miles east of this place last night. Several houses and barns were blown down.

Beluah, 5.—Crawford County suffered badly and a number of houses blown down. No lives were lost, so far as heard from.

Fires.

POUGHKEEPSIE, 5. — Hoffman's paper mill at Oregon, Putnam Co., was burned last night, insured. T. Gardner, Albert Hadden and Frank Lamoreaux were sleeping in the place and were burned to death.

Sherbrooke, 5.—Five locomotives and the railway round house here was burned yesterday. Loss, $100,000.

Cairo, Ills., 5.—Hinckle & Moore's tobacco and pork warehouses were burned to-day. Loss $25,000. Twenty hogsheads of tobacco were burned.

South Arlington, Mass., 5.—Everson's shoe factory was burned this morning; loss, $50,000; partly insured.

Boston, 5.—A fire in the five story block, 41 to 49 Federal Street, caused a damage of $50,000; insured. The principal sufferers are Pulsifer, Jordan & Wilson, Goodwild, Wyman & Co., J. P. Flagg & Co., T. R. Marvin & Co., Frederick Eels, Davis & Windsor, and Daniel Stanford.

Chicago, 5.—Johnson & Arenson's furniture factory on Noble Street, was burned this afternoon. Loss $50,000; insured for $12,000. Several adjoining cottages were burned. Loss about $40,000.

Shot.

CINCINNATI, 5.—Jacob Wagner shot his wife last evening in the northwestern part of this city, and then shot himself. He was an intimate acquaintance of the Henry Cole who shot his wife and daughter and himself last week.

Charleston, S. C., 5.—L. A. R. Blair, a prominent greenbacker, was shot dead at Camden to-day by Captain Halis. Bad feeling has existed between the two.

Leadville, 5.—Yesterday afternoon Charles Kent, formerly of Jacksonville, Ills., shot and killed Thomas Bennett, who was living with Kent's wife, whose maiden name was Carrie Tolls. Her people are wealthy and live in Kansas. They were formerly of Hickory Corners, Mich.

Shortly after Bennett was shot, Black Jack, a noted desperado, shot Ed. Buckley, a bartender—flesh wound.

Portland, Oregon, 5.—Two horse thieves named Jack Hite and Mike Chambers, were shot near Oregon City yesterday, while attempting to escape from a posse of officers. Hite was instantly killed, and Chambers was fatally wounded.

Drowned.

PHILADELPHIA, 5.—Ewing, of the firm of Bairbanks & Ewing, was drowned while sailing a yacht race here yesteday.

Skowhegan, Me., 5.—Stephen Coburn, the younger brother of ex-Governor Coburn and a prominent member of the bar, while temporarily insane from sickness, drowned himself last evening. His only son followed him into the river and in attempting to save him was drowned.

Fatal Fireworks.

LINCOLN, Neb., 5.—Yesterday, at Geneva, while firing off a cannon, one man was killed and seven slightly wounded by its explosion. Two young ladies were burned by fireworks and will probably die.

Evansville, Ind., 5.—Three women were seriously and others slightly injured by an explosion of fireworks yesterday.

Smallpox.

ST. LOUIS, 5.—The *Republican's* special account of the ravages of smallpox in the Indian Territory and at Okmulgee, says there has been 30 cases; five have died, and ten cases are thought to be fatal. The adjacent country has suffered severely. Muskogee reports over 200 cases, nearly all of whom died. There has been a great lack of physicians and nurses. Many deaths resulted from this cause. In isolated localities the ravages of disease has been fearful.

FATAL COLLISION.

Over 50 Persons Drowned.

PITTSBURG, 4.—Intelligence has been received that the steamer *Scioto*, with an excursion party of 500 persons on board, collided with the *John Thomas*, near Mingo, at the junction of the Ohio. One hundred persons are reported to be drowned.

Steubenville, O., 5.—The death roll will probably exceed 50. There are more than this number missing, and all chances for escape are heard from. Hundreds of people went from Wellsville and East Liverpool down to the scene of the disaster this morning. The list of missing is as follows: Wellsville—John Stevenson, aged 25; David Fargo, 21; Belle Brandon, Sallie Kiddy, R. P. Smith, wife and two children; Willie Ewing, Charles Davidson, 12; Jes. Connor, 21. East Liverpool—Irene Farmer, Cit Thompson, 19; Lincoln Thompson, 85; Annie Booth, Carrie Boardman, M. E. Estline and wife, Willie Parrell, John Christy, John Tomlinson, Jacob Gibson and wife, Dr. Stevenson and three men named respectively Weeds, Kennett and Burke. Lewis Harper, of Wellsville, was fatally hurt. This list is more likely to be swelled than diminished.

FOREIGN.

The War Cloud Darkening Over Egypt.

ALEXANDRIA, 5.—Yesterday was the Sultan's birthday. All ships in the harbor were decorated with flags and salutes were fired. The American flagship *Lancaster* representing the United States. Many natives were in a panic for a short time, believing that the bombardment of the town had begun.

The European action in not moving quickly and settling the matter off hand is causing a dangerous spirit to manifest itself among the natives.

London, 5.—There is reason to believe that decisive military action will be taken in Egypt, probably within the next 24 hours. The cabinet met in Sir William Harcourt's room in the House of Commons yesterday afternoon, and consulted with the Duke of Cambridge, commander-in-chief of the army. The result was rumored in the lobby of the House that Alexandria would be immediately bombarded, and that the battery artillery has been ordered to be ready to embark for Malta. The gunboats, *Dee* and *Don* have sailed to the Mediterranean. Admiral Seymour complained to the governor of Alexandria, regarding the occupying of two large guns in a position threatening the fleet, and the explanations offered were deemed unsatisfactory. Admiral Seymour subsequently intimated that if the work was not stopped he would stop it.

Arabi Defies Europe.

ALEXANDRIA, 5.—Arabi Pasha returned from Cairo Tuesday night. He expressed an intention of fighting Turkey, England and all Europe. He says the peculiar construction of the forts will enable him to repel the landing of 26,000 men. He proposes to establish an African empire.

Safety of the Suez Canal.

PARIS, 5.—Count De Lesseps, in replying to a deputation of the International Peace Association, deprecated any attempt of England to embark troops in Egypt or make any naval demonstration at the mouth of the Suez Canal. He was assured that no danger would happen to the canal unless the people were excited by foreign intervention.

War Deemed Inevitable.

LONDON, 5.—The *Times* thinks it is only reasonable to assume the necessity for an Egyptian expedition is becoming obvious. If the government would avoid half the measures and immediately call out an army and military reserve it would add 50,000 trained men to the fighting strength of the country.

Private telegrams from Egypt say the situation is so far strained that a collision is inevitable.

Admiral Seymour's caution to the Governor was relative to the rumored intention to block the entrance to the harbor by sinking ships laden with stone.

Admiral Seymour notified the Governor that he would regard any such attempt as an act of open hostility. Meanwhile the Egyptians are dispatching large stores and ammunition to the forts on the coast.

Notice has been sent from the War Office to sixty-one towns in the kingdom, including some in Ireland, ordering the military authorities to prepare for the immediate calling out of the reserves, and it is believed a summons will be issued before the end of the week.

Twenty-five thousand arms have been distributed to various military centres in readiness for arming the reserves. The distribution of 20,000 more is ordered.

French Fleet moving.

MARSEILLES, 5.—The French Mediterranean squadron, consisting of six ironclads, is ordered to Bono in readiness to proceed to Egypt in event of necessity. Transports capable of carrying 17,500 men are lying ready and equipped at Toulon.

Paris, 5.—The Chamber of Deputies adopted the motion to grant 19,000,000 francs to defray the cost of the expedition in Tunis, for the second half of the year 1882.

Ulians Arrested.

ST. PETERSBURG, 5.—The fresh arrests of the past few days includes two Ulian officers found distributing revolutionary proclamations. Count Tolstoi is threatened, and is constantly guarded. Additional precautions are taken at the Petorhoff palace.

Theatre Burned.

The Arkadia theatre was burned here to-day.

BRIEF TELEGRAMS.

A gang of laborers on the Canadian Pacific Railroad, struck for an increase of wages yesterday.

A man was shot dead at Saville Palace, Dublin, early on the 4th. It is supposed to have been done by Fenians.

August 18th is the date for the proposed conference of the Powers on the protection of the submarine cables at Paris.

The steamer *Neptune* leaves St. Johns, N. F., for Lady Franklyn's Bay next Saturday, with Lieut. Greeley's party.

At Portsmouth, New Hampshire, Ichabod Goodwin, first war governor of New Hampshire, died last evening, aged 86.

Col. Chambers, who presented Garibaldi's sword to Rome has been created commander of the order of Maurice and Lazarus.

At Portland, Oregon, the official canvass gives the following majorities: For Congress, George, 3,365; Governor, Moody; 1,488; supreme judge, Lord, 1,404; secretary of State, Earhart, 2,516; treasurer, Hirsch, 2,652; superintendent of instruction, McElroy, 3,142; State printer, Byers, 2,428.

CITY COUNCIL.

Proceedings at the City Council on Wednesday evening, July 5th, 1882, Mayor Jennings presiding:

Application for license to sell liquors at their drug store, East Temple Street, for three months from June 20th, submitted from Stewart & Chislett. Granted.

Application for license to manufacture malt liquors and sell the same at wholesale for three months from June 1st, was submitted from the estate of R. B. Margetts, per O. H. Hardy, executor. Granted.

John Van Steeter petitioned for the privilege of obtaining a few loads of sand for building purposes from the Jordan River, a few rods below the White Bridge. Referred to the committee on public grounds.

The following bills were presented for action and allowed, viz: Fire department expense bills for June $188.20; Dr. Clinton for medical attendance on city prisoners, $47.75; Salt Lake *Herald* for printing brief and other documents connected with appealed case of City vs. Hollister, etc., $23.75; Geo. Showell for cleaning out cesspool in City Hall yard, $5; Taylor, Romney and Armstrong for lumber had in making tables, seats and other conveniences at Liberty Park, $402.80; assistant watertenders for month of June, four assistants at $75 per month, one at $65, $335; John R. Winder, for services as registration officer, collector of poll and special sidewalk taxes and other extra services performed the past two years, $500.

The committee on waterworks to whom was referred the quarterly report of the Superintendent of Waterworks ending May 31st, 1882, reported they had examined the premises and found that they agreed with the report. The committee therefore recommended the appropriation of $1,801.99, the amount necessary to balance the account. Adopted.

The assessor and collector of the city in accordance with the ordinance in relation to taxes submitted a report accompanied by the city assessment roll for the year 1882, showing a total valuation on property, real and personal, of $8,539,000. The report also stated that it was by ordinance made the duty of the Council upon the return of the assessment roll to appoint a time to hear complaints, "if any," to the assessed valuation of property to determine the assessor and collector's compensation, and to fix the rate per cent. of taxation for the current year. The assessor suggested Monday, the 28th day of August, at 2 o'clock p.m., as the most propitious time to meet as a board of equalization, as sufficient time would be allowed him to issue a notice to each taxpayer of the amount of tax assessed against him. The report was received, the suggestion of the assessor relative to the meeting of the board of equalization adopted; the salary of the assessor and collector fixed at $2,000 for the current year; and the rate per cent. of taxation to be assessed for 1882 was referred to the committee on finance, with the Mayor associated and said committee were instructed to examine into the financial condition of the city and its probable wants for the ensuing year, and report their findings to the Council, with the recommendation as to what rate per cent., in their judgment, would meet the city's requirements.

The city quarantine physician, Dr. Clinton, reported that the Mayor and himself, acting as defined by ordinance, as a board of quarantine, had taken such precautionary measures for the prevention of small pox in the city as had been deemed expedient, and had made such provision for the reception, care and treatment of patients, should the city be afflicted with any, as the exigencies of the present seemed to demand. The report was accepted and the board requested to continue their labors.

Alderman Spiers was temporarily added to the committee on municipal laws during the illness of Alderman Fyper, chairman of said committee.

Adjourned to Tuesday, July 11th, at 7 p. m.
