MINING, BUSINESS AND STOCKS.

FORENOON ON THE EXCHANGE

Transactions in the Pit Summed Up to Less Thnn $4,000.

MARKET INCLINED LOWER.

Few of the Traders Were Marked Higher—May Day Sold Down To 16 Cents—Quotations.

The amount of money involved in the transactions of the stock exchange this forenoon amounted to less than $4,000. The general trend of the market was lower. The sales of the day started with Creole, 100 shares going to 50 cents. Lower Mammoth dropped to 81 cents, and it was difficult to get rid of May Day at 16 cents. Star Consolidated held its own, while New York Bonanza weakened. Wabash would not follow the pace set by the others, and closed some stronger; as did Yankee Consolidated. The quotations and sales of the forenoon were posted as follows:

UNION CHIEF MINE.

Santaquin Property to Undergo Vigorous Development.

The Union Chief mine is to be subjected to a vigorous campaign of development. A car and rails has been forwarded to the property and work has been started in a tunnel which will be run towards the old shaft in which is disclosed a six-foot body of ore.

The mine is located near Santaquin.

BINGHAM-CENTENNIAL.

Good Body of Ore Encountered in Upper Tunnel.

A telephone message from Foreman Triball, to Manager J. A. Jacobson of the Bingham-Centennial, conveyed the information that a good body of carbonate lead ores had been encountered in the upper tunnel, which is approaching close to the old workings on the property. The ore disclosed is low grade, but Mr. Jacobson expects it to improve in value as the work proceeds.

GRAND CENTRAL DECLARES.

Dividend for July to be Disbursed On Next Monday.

(Special to the "News.")

Provo, July 15.—At a meeting of the directors of the Grand Central Mining company, held this forenoon, a dividend of 10 cents per share, amounting to $25,000 was declared. The date of distribution was fixed for next Monday, the 20th inst; the books closing on Saturday, the 18th. With the July dividend added, the Grand Central has paid to its shareholders in velvet a total of $756,250.

At the Yampa Smelter.

In all, about 40 men are employed around the new Yampa smelter at Bingham. Mechanical Engineer J. M. Callow came in from camp last night and reports that the work of building the plant is progressing very favorably. The foundations will soon be completed and ready to run over to the company.

To-day's Metals:
SILVER, Bar, 53 3-4 cents
LEAD, $3.50.
CASTING COPPER, 13 cents a lb.

NEW YORK METAL PRICES

Lead, quiet, 4.12½.
Copper, quiet, 13.62½@13.75.

PROGRESS AT LO. MAMMOTH

Manager Chipman Tells About Work Going On There.

DEVELOPMENT ON THE 1200

Shipments of Ore Curtailed for the Present—Conditions at Uncle Sam Reported Good.

Manager James Chipman returned last night from an inspection trip to the Lower Mammoth mine in Tintic, where work is being pushed to open up the ore bodies on the 1,200-foot level.

Cross-cutting, Mr. Chipman says, is in progress both east and west from the shaft. The one run to the east is completed for a distance of 60 feet and the westerly drift is now about 100 feet from where it left the 1,200 station. In this drift a vein of good ore was cut, but Mr. Chipman considers it to be of little consequence, but expects to encounter the west vein in another 50 feet.

Until the exploration of the 1,200 level is carried further and an upraise is made to form a connection with the 1,100 level, the shipments of high grade ore will be curtailed. This is deemed advisable for the reason that until the connection mentioned is made the ore would require too much handling to get it to the surface, so it is a matter of economy to wait awhile.

The company is still figuring on some plan to handle the vast quantities of low grade ores contained on the upper levels and it may happen that a satisfactory contract will be made with the smelters.

At the Uncle Sam Consolidated, of which Mr. Chipman is also manager, physical conditions are reported as being good, especially on the lower levels where developments of late have been very gratifying.

Five cars of ore from this mine reached the samplers today and three or four others will follow in a few days.

BLUE ACRE ANNUAL.

Stockholders Meet This Afternoon—President Crowther's Report.

The first annual meeting of the stockholders of the Blue Acre Copper company, operating in the great copper belt of Beaver county, is scheduled for this afternoon at which time a board of directors will be chosen to serve during the ensuing year. There will be no change in the personnel of the present board and the organization will remain the same with Henry M. Crowther, of Salt Lake, president; Wallace W. Wait of Kansas City, vice president and treasurer; who, with G. C. Van Alstyne of Boston, H. M. Bates, Roxbury, Mass. and James H. Letson, of Alexandria, Minnesota, constitute the board of directors.

President Crowther said this morning that his official report will not be issued until a little later when it will be delivered to each shareholder in pamphlet form.

The development work performed at the property during the past year has been of a nature very gratifying to those in charge and the probabilities are that the coming year will see the mine placed safely upon a producing basis.

NEARLY CONSUMMATED.

An Amalgamation Which Means Much For an Idaho Camp.

Several weeks ago the "News" printed a story to the effect that a deal was pending for the amalgamation of the Poorman and Sinker Tunnel properties at Silver City, Idaho, and that if consummated, would mean the early completion of the Sinker tunnel, which is undoubtedly one of the most important mining ventures ever undertaken in that state, if not in the entire mining regions of the west.

A writer for the Silver City Avalanche has the following to say concerning the undertaking:

"I have been informed that a consolidation of the numerous vein systems on War Eagle mountain is about to be consummated, through the consolidation of the Poorman and the Sinker Tunnel properties; that the Sinker Tunnel will be completed with all possible dispatch and connection made with the Poorman. If this arrangement is made no less than seven great fissure veins will be cut at an approximate depth of 2,250 feet below the apex of the mountain. The proposed enterprise is of such magnitude as to eclipse anything in the history of mining in the state, and it is conservatively estimated that during the prosecution of the work millions of dollars will roll into the laps of the fortunate owners. The fabulous production in the past of the Poorman and the claims on the Oro Fino lode, to be tapped by the Sinker tunnel, together with the present showing, are such as to justify the undertaking and the diligent prosecution of the work."

LATHAM MILL RUNNING.

Some Difficulty Being Experienced Over a Shortage of Water.

Manager George L. Moats of the Latham Mining company, operating in the Spruce Mountain district in Nevada, has arrived from camp, but will return again in the next few days.

The mill at that property has been started, he states, and is giving good satisfaction. Owing to the scarcity of water the full capacity of the plant is not being used; only about 25 tons of ore being put through the crushers daily. The concentrates produced average about 50 per cent lead, 10 ounces silver and $2.20 gold.

Mr. Moats says that the company may be able to develop a sufficient water supply in a spring nearby; if not it will be necessary to put in a pipe line to bring it from another source.

COPPER BELT ROAD.

Utah Construction Company Pushing Work on Bingham Extension.

The Utah Construction company, which was awarded the contract to build the extensions to the Copper Belt railway in Bingham has its outfits on the ground and has begun work in earnest. A large force of Greek and Italian laborers landed in Bingham last evening to work on the line which will soon be connected with all the principal mines in the camp.

FUTURE LOOKS GOOD FOR ALTA

Smelting Companies May Operate Mines in Old Camp.

AFTER THE TRAMWAY LINE

American Smelting and Bingham Con. Experts Have Been in The Field.

There are good reasons to believe that some of the big smelting companies operating in the Salt Lake valley may enter into the active operation of mines at Alta. The American Smelting and Refining company has had its experts looking over the field and so has the Bingham Consolidated. It is asserted that both these corporations have made overtures to the Rio Grande Western, which owns the railroad from Sandy to Wasatch and the tramway from Wasatch to Alta, with a view to either getting a lease on the line or else to make some arrangement whereby the Rio Grande would spend some money on the improvement of the line and place it in operation again.

The activity being displayed at present makes it certain that Alta will again become one of the most important camps in the state and it is only a matter of a little time until there will be enough business to make it one of the best paying branches of the of the Rio Grande system.

The smelting companies have discovered that Alta is productive of sulpride iron ores such as they need in the operation of their plants, hence they are anxious to see the old camp opened up again.

It is said that President White of the Bingham Consolidated will visit the camp before his departure from the state and may possibly make the trip tomorrow in company with Clarence McCornick, one of the directors of the Columbus Consolidated. There is no denying the fact that the Bingham Consolidated would like to get a foothold in this old district and it is said efforts have been put forth to secure the famous Flagstaff and others of the former well known producers.

The Rio Grande, which has been accustomed to leasing each year its lines between Sandy and Alta has refused to do so this season. This fact is looked upon as having some significance.

JUDGMENT AFFIRMED.

Highland Boy Mining Company Loses Damage Case.

The court of appeals has handed down a decision in the case of Albert Pouch against the Highland Boy Gold Mining company, affirming the judgment of the lowtr court. The suit was brought to recover for personal injuries. The case was tried before the federal court jury on May 16, 1902. A verdict was rendered for the plaintiff in the sum of $4,166, and an appeal was taken.

MINING CONCENTRATES.

President Peery of the stock exchange has returned from a business trip to Colorado.

Frank Westcott, secretary of the Keith-Kearns company, departed for Park City this morning.

Cross-cutting to the ledge is to commence from he 600-foot level of the American Flag mine in Park City in a few days.

Col. E. A. Wall expects to leave for California the latter part of the week with his family to have an outing along the sea shore.

An order has been placed for a 10-stamp mill for the Belcher mine, near Sumpter, Ore. George W. Daines is president of the company.

The ore and bullion settlements reported late yesterday were as follows: Crude ores and concentrates, $21,200; base bullion, $28,200; total, $49,400.

R. G. Wilson, president of the New York Bonanza Mining company, expects to get aawy for California the latter part of the week where he will spend a month.

President Charles E. Knox of the Montana-Tonopah mine of Tonopah, drew down $5,000 yesterday, the proceeds from the sale of 24 tons of ore shipped recently from that property.

Walter C. Orem, manager of the Utah-Apex properties in Bingham, departed for California where he will join his family, which is spending the summer there. Mr. Orem will be absent about two weeks.

An energetic campaign of development is to be inaugurated at the Murray Mining company's properties in the Snake Creek mining district. Ellsworth Daggett, the mining engineer, will conduct an examination of the property the latter part of the week.

A correspondent of a Reno, Nev., paper writes that Mountain City in Elko county is enjoying a mining boom. Supt. Paxton is on the ground overseeing the erection of a mill, and also looking after the company's interests on Bull Run mountain. One hundred men are employed steadily and there is room for more. The company evidently means business.

The articles of incorporation of the Whirlwind Mining & Milling company were filed in the office of the county clerk of Utah county yesterday. The company owns property in American Fork canyon. The officers are: J. J. Mercer, president; C. W. Earl, vice president; E. J. Wild, treasurer; J. H. Wootton, secretary; W. H. Greenwood, Jacob Greenwood and H. D. Wild, directors.

In response to a telephone message received from Park City last evening from Supt. H. R. McDonald of the Little Bell mine, Manager Solon Spiro departed for camp this morning. The message conveyed the information that an important strike had been made in that property. The strike is located on the 500-foot level, the vein containing steel galena ore running 110 ounces silver and $1.50 gold.

COAL CONSOLIDATION.

Weistenholme With Citizens.

Diamond, Rock Springs, Castle Gate. Tels. 49 and 495. 53 W. 2d So.

GREAT SLUMP IN MOST STOCKS

Opening of Market Saw a Stream Of Liquidating Sales.

LOW RECORDS SURPASSED.

After Slight Rallies More Weakness Developed, the Offerings Being Very Abundant.

New York, July 15.—A stream of liquidating sales was executed in the market at the opening, carrying prices through the prevfous low record for most of the prominent stocks. Consolidated Gas broke 1½ and Delaware & Hudson 1¾, and there were declines of ½ to a point in the leading trunk lines, Pacifics, Southwesterns, Amalgamated Copper and United States Steel stocks. There were two thousand shares of Atchison sold at 63 to 63¼, compared with 63⅝ last night. Supporting orders appeared for the stocks after the opening selling orders were executed and there were a number of substantial rallies, reaching a point in St. Paul, Pennsylvania, Norfolk & Western, Brooklyn Transit, Manhattan nad Consolidated Gas. Some stocks among the coalers, trunk lines, St. Paul and leading specialties made full recoveries or rose to a fraction over last night. The St. Louis & San Francisco certificates for Chicago Eastern Illinois sold at 170 and down to 169. The market quieted down at 11 o'clock but was somewhaq steady.

A renewed fall in St. Paul, New York Central and Pennsylvania to low record prices unsettled the market and caused renewed weakness. Those stocks sold at 118½ for Pennsylvania, 138⅝ for St. Paul, and 113⅛ for New York Central. Other active stocks fell back to a lower level. Other inactive stocks showed wide declines.

Westinghouse Electric slumped 20, General Electric 7½, Brooklyn Union 5½, Pullman and Delaware & Hudson 3½, St. Paul preferred 2⅞ and Lackawanna nd Hocking Valley 2½. The St. Louis & San Francisco certificates for Chicago & Eastern Illinois sold down to 151½. Those stocks sold last November at 206. The market rallied before noon.

Bonds were weak at noon.

Stocks came out in more abundant supply after midday and the pressure was more widely distributed. Practically all recognized leaders sold below their morning low records with the pressure most marked in St. Paul, Atchison, the Pacifics, the Pennsylvania group and the United States Steel stocks. The Chicago & Eastern Illinois certificates rallied 8½, Pullman 3 and the whole market was better.

Efforts to hold the market on the rallies proved futile. The coalers, which had shown effective resistance up to this time, dropped off rapidly and the entire list showed a demoralized tone. Prices crumbled away rapidly in all directions, with the Pacifics notably affected and the pessimistic feeling was increased by the wide inroads in investment stocks. General Electric broke 11½ to 161. Long Island broke 8¼ and New York Central and Western B preferred, National Enameling preferred and Virginia-Carolina Chemical stocks 4@5. There was a feverish rally again towards the end of the hour.

LIVE STOCK.

CHICAGO.

Chicago, July 15.—Cattle—Receipts, 18,000. Good to prime steers, 5.00@5.50; poor to medium, 4.00@5.00; stockers and feeders, 2.50@4.50; cows, 1.50@4.25; heifers, 2.25@5.00; canners, 1.50@2.80; bulls, 2.25@4.25; calves, 2.50@6.00; Texas fed steers, 3.35@4.50.

BUSINESS NOTES.

The bank clearings today reached a total of $422,604.37 as compared with $668,980.34 for the same day last year.

* * *

Dun's Review has this to say of conditions in Salt Lake during the past week: The situation in jobbing lines in Salt Lake is fairly satisfactory, although trade is quiet, as anticipated at this season. The indications for fall trade are fairly encouraging, and in some lines satisfactory orders are booked. A steady demand is had in groceries, drugs and hardware. Collections are fair.

* * *

J. M. Barlow, who for the past 21 years has been connected with Clark, Eldredge & Co., in this city, today severed his connection with that institution to embark in the merchandise brokerage business for himself.

* * *

Zion's Benefit Building society held its annual stockholders' meeting last night and the following officers were elected for the ensuing year: T. G. Webber, president; A. W. Carlson, vice president; L. S. Hills, treasurer; Edgar Howe, secretary; directors, Arthur Parsons, O. P. Arnold, Joseph S. Wells, John C. Cutler, Jr., John H. Burrows, W. J. Bateman, G. H. Backman, Oscar W. Moyle, Henry J. Wallace, Henry T. McEwan, John T. Bennett; auditors, C.A. F. Orlob, Edgar S. Hills, Louis W. Judges. The treasurer's report shows 16,880 shares of stock disposed of, representing $506,255.66. The assets and liabilities were stated to be $549,279.71. The receipts for the year aggregated $264,341.58, with the disbursements the same amount, less $3,732.46 cash on hand. During the year the reserve fund was increased from 10 to 20 per cent. The dividend declared this year was 7 per cent.

* * *

The row of 20 modern brick cottage residences known as Wellington court, situated on Second South street, between Eighth and Ninth East streets was yesterday sold by Frank M. Wilson to W. J. Dooley. The property occupies 10x30 rods on the north side of Second South street. The consideration was $50,000. Mr. Dooley is a mining man and has been prominent for several years in the development of properties about Stateline, De Lamar and Pioche, Nev. Until recently he was manager of the Johnny mine at Stateline from which position he resigned to come to Salt Lake. The purchase was made as an investment.

* * *

About the only really active line in business at present is being enjoyed by dealers in farm machinery. Harvest implements of every nature are being distributed very generally and in larger quantities than have ever been sent out bfore. The grain and feed market is decidedly dull as dealers are buying sparingly to avoid accumulating a surplus that will decrease in price when new crops are harvested. Wheat brings a good price, that in sacks selling at 87 cents a bushel and the bulk at 85 cents in carload lots. But little of this cereal, however, is changing hands as the mill men generally are taking advantage of the dull times incident to this season to repair and overhaul their machinery.

HOSPITAL CONTRACTS.

Concrete, Brick, Stone and Steel Work To Begin at Once.

Contracts for the concrete, brick, stone and steel work of the Latter-day Saints hospital have been let. W. J. Tuddenham was the successful bidder for the first three materials and the American Bridge company secured the contract for all steel and iron work. The excavation is well under way and in a very short time the foundation will be going in and the walls of the superstructure be going up. Mr. Ulmer, the architect, will supervise the construction and Robert Roden will act as assitant superintendent.

Burlington Route
BURLINGTON EQUIPMENT
The Burlington has the best equipment made on all its through trains. The strongest cars, the biggest cars, the safest cars. It doesn't make any difference what kind of cars—coaches, chair-cars, tourist-cars, palace sleeping-cars—they're the best that money can buy.
It's the cheapest plan. We don't have break-downs from poor equipment, and our patrons are pleased.
Chicago flyers leave Denver 4:15 p. m. and 10 p. m.; to St. Joseph, Kansas City and St. Louis 2:30 p. m. and 10 p. m.
