A DETECTIVE BUREAU

Proposition Voted Down by the City Council Last Night.

THE SUBJECT OF STREET PAVING

And the Odor of Rose and Imperial Cement Discussed.—The New Sanitary Reserve Passed.

The City Council held a special meeting last night to discuss the proposal, specifications and contract for curbing and paving Nest Temple street from South Temple to Fourth South Street, First South Street from State to West Temple Street and Second South Street from State to West Temple Street.

President Lauritzen rapped for order at 8:15 o'clock, three quarters of an hour after the time fixed by ordinance.

The members who were in attendance were: Eddy, Fullmer, Henry, Moran, Horn, Lawson, Ewing, Irvine, Beardsley, Summons, Wandland, Rees.

Absent—Kurtzer.

After the minutes of the previous session had been read and approved, the following from the city engineer was read:

Gentlemen—As contracts for paving East Temple, First and Second South streets will be ready to be let on the opening of what much from the curbed sheet portions of the pavement shall be made ready for the laying of the pavement, I respectfully ask for instructions in the matter in order that I may make the pipe accordingly. I suggest that at least a portion of the same streets should be designated for the erection of telephone and other poles so that the present poles may be removed before the work of paving is begun.

Moran—I move to lay the paper on the table until later in the evening. Carried.

SANITARY ORDINANCE.

On motion of Beardsley the substitute sanitary ordinance was taken up for consideration, was read the third time and passed considerable discussion, most of which was rambling and unimportant.

Hardy moved that the matter lay over until next Tuesday night and that instead of the ordinance embracing the entire city that the committee on sanitation notify the district and office the same by notice and bounds.

The motion was lost on a tie of 3 to 3.

On motion of Hardy the district was defined as designated in the body of the ordinance.

Minor amendments were made and the measure passed. It stands as follows:

A BILL FOR AN ORDINANCE

Providing regulations for ashes, garbage, manure and accumulations of vulnerable and prohibiting the deposit thereon, upon and other refuse matter and for the disposition of such and prescribing penalties.

Sec. 1. Be it ordained by the City Council of Salt Lake City that it shall be the duty of every owner, tenant, house-holder or occupant of any house, building or place of business within the business district described as follows: Begins at the intersection of Second South and West and South Temple streets and running thence east on both sides of South Temple street to the east line of Second South; thence south on west side of Second East street to Third South; thence west on both sides of Third south to First West street; thence south on east side of First West street to point of beginning and all streets within said boundary, also on both sides of South Temple street from First West street to Fourth West street and on both sides of Third West street from North Temple street to Third South street and on both sides of Second South street from First West street to Fourth West street and on South West street and on Fifth West street from Second South street to Fifth South street and on both sides of First South street from First West street to Fifth West street, to provide a receptacle to be provided and at all times to keep or cause to be kept and prevented within such building or place of business a metallic vessel, with cover of same material and with handles, or a fire-proof stone or brick or other receptacle for ashes, garbage, or rubbish, or other, newspaper and other non-combustible rubbish that may accumulate in or about such building or premises. That such receptacle shall be emptied promptly when filled, and shall be placed in a convenient place accessible to the scavenger. It is further provided that property owners shall have sufficient for their tenants, and the owner of business every each morning, tenants every evening, before the hour of 9 o'clock.

Sec. 2. A receptacle for ashes, garbage, shall be provided for garbage and liquid refuse, and vessel to be one from garbage and provided with handles. A receptacle for ashes, garbage and liquid refuse shall be placed in an accessible position in the premises described, and shall be placed in a convenient place for the scavenger. It is further provided that when placed in front of premises they shall be so deposited before the hour of 9 a.m. and removed within the premises as soon as emptied.

Sec. 3. Within the limits of North East and South West, and Third North and Second South, East and West, and Second street to 1st D, and all of 1st D south of Pacific street, and outside the business district described, there shall be provided and kept by the owner or occupant of every building, a suitable vessel free from leakage, in which shall be placed all garbage and liquid refuse and accumulations in said building or premises, and all receptacles shall be emptied not less than once during each week in summer and not less than once in two weeks during the winter, but not oftener than once a day, nor oftener than two times in a day.

Sec. 4. Within the limits described in section 3, ashes and non-combustible rubbish shall not be deposited or kept in the same vessel or receptacle with garbage or liquid substances.

Sec. 5. No house, stable, rubbish, ashes or garbage shall be deposited within the limits, except as hereinbefore described in section 3.

Sec. 6. It is hereby made unlawful for any person or persons so often, sweepings or refuse of any person or dirt to be swept or deposited into any of the gutters or ditches within said city under any pretext, stable, manure, dirt, dust or any other rubbish of any kind or be washed or empty spittoons or slops of any kind in any hand, dirt or forms within the gutters or sewers, drains or deposited upon any of the sidewalks, within the limits of said Salt Lake City, any papers, stubs or other rubbish of any kind.

Sec. 7. No manure shall be allowed to accumulate in any premises within the limits described in section 3. In any quantity greater than one cart load and shall be removed as provided in the ordinance.

Sec. 8. No night soil shall be deposited or buried on any premises within the limits described in section 3.

Sec. 9. All garbage, manure, night soil, ashes and other refuse and offal shall be removed to a place directed by the sanitary inspector, provided that all users and persons for carrying any manure or offensive substances other than night soil, shall be required and shall use the cars shall be made to keep above the load so as to prevent that no part of such manure shall fall, leak or spill therefrom and either the vehicles or cases carried by it shall be so covered as to be such tightness, provided further that no part of the amounts of any such, shall be deposited, except upon the place designated, and shall be removed within twenty-four hours after the same shall have been deposited, and shall be removed from the streets of the city within the hours of 12 midnight and 5 in the morning, and shall be so covered as to prevent any odor or nuisance, and shall prevent spilling the contents of any such vehicle or vessel, and
