A BAD DAY FOR MINING STOCKS.

Securities Beared and Left Weak at the Close.

NEARLY ALL SUFFERED.

Wild Clamor for Bowers Extension Practically Non-Effective—Mammoth Weakens.

In the pit today the bear had the upper hand of the business and piled his industrious vocation from start to finish, with the result that stocks looked pretty well demoralized by the time the brokers filed out for lunch. Few stocks there were that did not suffer from the persistent attack, the main exceptions being Star Consolidated and Bonhomme, both of which scored slight advances. Trading on the morning call commuted to 28,450 shares, for which buyers paid the sum of $12,982.62.

Ajax continued firm and did really business around $1.44, while it stood in good closing demand at $1.42½. In Daly there was trading at $1.30 and in Daly-West 100 shares found a taker at $1.20, after which Daly took a chance and made a sale of 50 cents. 1,000 shares going at this figure, buyer 10 days. Ontario sold between 12 and 24 and Deseret Morrison at 48, but Floor Area failed to come out in the trading, although the stock was strongly bid for at 62½. Grand Central was comparatively strong with a bid of $6.32½, while Horn Silver was wanted at $1.70, but could not be had under $1.75, the lowest figure at which offerings were posted. Mammoth opened firm and sold at $2.31, but in a very short time it was pulled down, and in closing made sales at $2.24, while the stock had a bid of $2.26. Lower Mammoth sold in the street at 1.06 shares at 92 cents and Northern Light did business on a weakened basis, the stock selling first at 78 cents, and from this down to 76½. Sacramento was also frail, a sale being made at 46½, while Star Consolidated held on to its new-born prestige and was sought in between $1.35 and $1.37.

Taking up stocks of a lower order, the brokers found Boston-De La Mar active between 2 and 3 cents a share. Horcules was fairly firm and sold close to 12 cents, while International made a transfer at 4½, and Joe Bowers was picked up at 19½. The clamor for Bowers Extension was wild and excitable, but after all was said and done, the stock failed to move materially either one way or the other, but made sales of 1,000 shares between 11 and 12 cents. Monarch, Omaha and Bonhomme were the last to do business on the call.

The closing figures were as follows:

MARKET REPORTS.

NEW YORK MARKETS.

STOCKS AND BONDS.

New York, Feb. 14—There was an absence of decided tone on the exchange on the resumption of trade after the holidays.

The semi-weakness of London suffered to depress the most prominent international, but subjected favorable influences in other stocks caused considerable irregularity. The interruption to mail and telegraphic communication restricted dealings solely to the professional element, who managed to work properties downward on small offerings. The heaviness of the stock speculation exhibited with the limited offerings, rendered it possible to advance many shares which were in demand. Pennsylvania, Sugar, Rubber, Consolidated Gas and Metropolitan Street Railway were the favorites and moved strongly upward.

There was practically nothing done in the railway list, which, however, held very steadily.

Bonds were quiet with slight changes either way.

MONEY.

New York, Feb. 14—Money on call nominally 2@2½ per cent.

Prime mercantile paper 3½@5½ per cent.

BUSINESS NOTES.

Now that the Provo Commercial bank and the First National bank of Provo are practically under the same management, further changes in the line of notes may be anticipated. Reed Smoot, Esq., is president of both banks, and it is understood that the Provo Commercial directors are also the controlling influence in the First National.

Thos. H. Cutler, manager of the Utah Sugar company, left this morning for a November's visit to the East in the interests of his company.

David Eccles, president of the Ogden Sugar company, was in the city on Monday. He states that the number of acres of beets planted in the country contiguous to the Ogden factory will be much larger than last year.

MINING INCORPORATIONS.

Articles of incorporation of the Little Chief and the Ridge and Valley Mining Companies have been filed with the County Clerk, the former with a capitalization of 40,000 shares at 10 cents each and the latter 50,000 shares at 50 cents each. The incorporators of the Little Chief are, T. D. Sullivan, Frank E. Wilson and James P. Driscoll of Eureka, and Fred T. McGrath, R. C. Duncan and Frank Spratt, of Salt Lake City. The company's property consists of the Little Chief and Green Rock Mining claims in the Tintic district. The Ridge & Valley property is also situated in the Tintic mining district and consists of 20 mining claims.

The Patti, three-fourths of the Norway, the Bull, Bupta, Last Chance, nine-twelfths of the north extension of the Eula, Valley and Ridge, five-twelfths of the Ridge, five-twelfths of the Union, five-twelfths of the Eula, also the rights and lots covering the Cambridge lode claim.

The Ridge and Valley incorporators are Theodore Meyer, Sarah A. McChrystal, Annie M. Wallace, Samuel H. Auerbach, John H. Crane, W. H. Wallace, Alex. H. McChrystal, H. J. Wallace and Sadie McChrystal, of Salt Lake City, and John H. McChrystal, Delos Lonchard, Heber S. Field, Charles F. Field, Mrs. Francis Lonchard and Jackson McChrystal of Eureka.

The Silver Apex Mining company has filed articles of incorporation. Frank Taylor, E. F. Allen, W. A. Holabaugh, N. A. Dunzon, Fred Stauffer and John A. Kirby of Eureka being the incorporators. The capital stock is $30,000 in 30,000 shares. Fred Stauffer is president, Frank Taylor vice president and W. A. Holabaugh secretary and treasurer. The company's interest is in Tintic mining district and includes the Anna and Anna No. 2 claims.

HOTEL FOR WOMEN.

Another Attempt at Solving a Difficult Problem.

There is a talk of a Mills hotel for women in New York. The project stops at speculation as to whether the scheme will fall to prosper, like the late A. T. Stewart's hotel in Park avenue, and for the same reason, says the Herald. Stringent rules were enforced in the hotel for working women—the most stringent being that no men visitors were to be allowed in any other part of the house than the public parlor. As some of the women regarded their rooms as decidedly preferable for the reception of their friends they did not take kindly to this rule. It was event, for the cause of the failure of Mr. Stewart's scheme. A room refused to allow him to regulate their lives for them.

Mr. Stewart's hotel was intended to be a home for the better class of working women. The Mills scheme is for a lodging house on the east side. Women who may patronize it are not thought to make demands of this nature, for even visitors under any conditions do not enter into their scheme of life.

Girls coming from their homes on east side never receive men in their homes. It is one the custom. There are possess the Mills hotel. One is that the family live in two or three rooms, so that no privacy is possible. Another is that young women who have grown up in the atmosphere of their parents ever do not wish them to be seen by the friends with whom, perhaps, they may be "keeping company."

The hours of work the girls—most of them earning less than $10 a week, of which they pay board—manage to rip themselves out of cheap imitations of the fashions. The young ladies wear hats, curls in the neck and even in coming to work they do not take off their jackets.

In the matter of clothes parents can scarcely be said to differ from children with their children. Fathers are seldom presentable and mothers are worse. Perhaps, the reason is, generally speaking, that a shawl and a wig are called upon to cover all deficiencies. No sort, she mother is too poor to have a wig. As she does not consult the extravagance of wearing one indoors, she would hardly be regarded as an object of admiration by her daughter's young man.

Girls see their friends in the streets. Every happened is a meeting place. A girl with a "steady" has the distinction of being called for by a whistled signal outside her home. Girls without "steadies" stroll about in groups on Bowery and meet their friends at any corner. In the summer they crowd the Battery. In the winter they get the best of them turn to the College Settlement and the neighborhood mild to the dance halls. These houses are well conducted meeting places, and powerful factors in the social life of the young people of the neighborhood.

So it would seem that Mr. Mills in providing a logical home for the women employed in the shops and offices of the East. Would not have to wrestle with the problem which confronted and eventually defeated Mr. Stewart.

WILL DEVELOP HUMMING-BIRD.

The Bear Lake Copper Mining Company Files Articles Today.

MINE NEAR PARIS, IDAHO.

Big Cyanide Shipment from Mercur—Southern Queen Incorporates—Crown Point Extension.

The Humming Bird mine in the vicinity of Paris, Idaho, was made the basis of an incorporation company in the filing of articles by the Bear Lake Copper Mining company, having a capital of 262,500 divided into 250,000 shares of the par value of 25 cents each. The incorporators are E. H. Airis, C. E. Lacey, William Hadfield, A. Hansen, Jr., Judge W. H. Dickson, James Anderson, M. Shaughnessy, and W. K. Shaughnessy, all of this city. The company's property consists of a half interest in the Humming Bird, owned by W. K. Shaughnessy, and half under bond, with option to purchase, by M. Shaughnessy, also the Northern Light, owned by M. Shaughnessy; the Marguerite, owned by W. K. Shaughnessy; the Ellen, held under bond, with option to purchase, by M. Shaughnessy. All the claims are unpatented and have their location about six miles from Paris, in Bear Lake county, Idaho.

The incorporators of the company belongs to mind the history of the property involved, which a year or so ago startled people in that vicinity, because of the quality of ore extracted from its inner workings. The Humming Bird has produced high-grade copper ore and doubtless contains good bodies of this mineral, which need but to be developed to show their true value. The property was originally owned by R. S. Spence and associates, but some time ago was bonded to Col. Shaughnessy of this city, whose name appears above as one of the incorporators.

On the whole, the Bear Lake company is a strong one, being made up of representative solidity men, and doubtless its efforts will result in the opening up of a big mine, and in a revival of mining operations generally in the immediate vicinity of Paris, Bear Lake county, Idaho.

Big Shipment of Cyanide

The Golden Gate, Capt. De La Mar's immense plant at Mercur, is expected in this evening with a big shipment of cyanide, the bi amounting to several hundred thousand pounds. Those shipments are periodical ones from this property, and although they elicit but very little attention, their volume, for Mercur as a mining camp, and the Golden Gate mine as a producer of high-grade ores. The property is reported in splendid shape and is being carefully watched by Victor M. Clemens, Captain De La Mar's newly installed manager.

Southern Queen Incorporates.

The Southern Queen Gold Mining company filed articles of incorporation today. It has a capital stock of $50,000 in shares of 25 cents each, and the incorporators are S. S. Pond Jr., John W. Burton, E. J. Mooney, of Salt Lake City; Charles R. Hayden, Roy Van Leuven, Nelson Wasteygreen and Mary Y. Yates of Diamond, and Hugh Heffernan and Walter W. Thompson of Eureka. The company's property is in the Tintic mining district and consists of the Southern Queen and Tom Paine claims.

Rich Iron Springs Ores.

(Iron County Record.)

Thos. Dee, Will Pryor and Bud Leigh have been out in Rich the past few or three weeks upon their mining property at Iron springs. They have driven a tunnel in on the vein a distance of forty feet, and are now sinking at the face. Picked samples of the ore, which is being packed for shipment, assay as high as 36 per cent copper, 8 ounces of silver and 2 ounces of gold to the ton. The boys are very sanguine over the prospects of their mine.

Crown Point Extension.

As Crown Point Extension at Tintic is to receive immediate attention, the company's directors being now engaged in making arrangements for a survey, as a preliminary to active development. The property has east of the Northern Star and Mono Consolidated, and is considered full of promise for the future. A contract will be let for sinking 500 feet and a hoist will be erected and the claims furnished with all other equipment necessary to their thorough development.

MINES AND MINING MES.

The Horn Silver was on the market today with a car of copper ore.

The Daly and Eureka Hill companies will meet in annual session in this city tomorrow.

A car of ore from the Utah mine of Fish Springs reached the smelter this morning.

The Butters laboratory has received a big batch of ore samples from Central America, which will be tested here for values.

The annual stockholders' meeting of the Bullion-Beck and Champion will be held in this city on Tuesday, the 14th inst., at 2 p. m.

Dividends of $15,000 and $10,000 respectively, will be paid tomorrow by the Centennial Eureka and Bullion-Beck companies.

Manager J. C. Griffiths of the Dauntless La Sal mine, left for his home this morning where he goes to order a commencement of work.

Bert Rudolph of Gibsonite fame, is in the city for a few days. He says people speaks highly of recent mineral discoveries in that section.

Superintendent R. G. Legg of the Southern Utah came in from the mine last evening. He reports the sacking of high-grade ore going on for continued shipments.

THE OLDEST LIVING MORMON.

To the Editor:

Would it not be interesting to know who the oldest person in the Church is, who was born in the Church of "Mormon" parentage?

As a "starter" I propose the name of William Lacy Billings of Orangeville, who was born at Wellsville, about thirty miles from Kirtland, Ohio, the 20th of September, 1831, of "Mormon" parents, who were on their way to Kirtland to a Bishop, on the Ohio river, when the latter sent word to the Church "If so, who are you, and when were you born?"

Respectfully,
FRANKLIN W. YOUNG.
Orangeville, Emery Co., Feb. 8, 1899.

UTAH CATTLE FOR THE EAST.

Trainload of Fourteen Cars Go Via the R. G. W.

CAME FROM SOUTHERN UTAH

Another Trainload to Follow Soon—Short Line Washout Repaired—G. N. Blockade Broken.

Yesterday a train of fourteen cars of cattle went east over the Rio Grande Western and the Denver & Rio Grande railways. The cattle belong to Mr. Bradshaw of Milford and Oasis. This is the first train of stock going east over the D. & R. G. since the blockade.

Another train load of live stock, belonging to Wood and Anderson will be shipped from Oasis soon, to go east over the same lines.

Word received at the office of General Passenger Agent Wadleigh this morning from Denver, states that the Blue River branch of the D. & R. G. is clear. This opens up the entire system.

O. S. L. Washouts.

Mr. Eccles of the Short Line reports from the North that yesterday, he was at the scene of the washout at Portrin, but says that it did not amount to much, and that it was repaired in a few hours. Trains are running over it at present. He does not think that any serious trouble will be met with from floods this spring, as the snow is going off gradually. Messrs. Dansdell, Calvin and O'Mahoney are still in the north.

Traveling Passenger Agent Billyfield of the Western left for Virginia City, Nevada, today at noon. He will spend a week in the Sagebrush State.

RAILROAD NOTES.

Gen. Agent W. H. Bennett of the Colorado Midland returned from Denver last evening.

A dispatch from Seattle, Washington, says that the western freight manager of the Great Northern, W. L. Bonham, has resigned.

The Colorado Midland is still blocked west of Leadville, no trains having come through since the beginning of the storm.

No. 1 of the R. G. W. came in this morning, only twenty minutes late, having made through connections with Denver.

Mrs. A. F. Holden, three children and one middle, left today at noon over the Rio Grande Western and Southern Pacific for San Diego, Cal., where they will spend the remainder of the winter.

The Rio Grande Western shops are now equipped, all the machinery having been placed. The shops are now classed among the best of their kind west of the Mississippi river. Nothing in the line of repairing will have to be sent east.

After being snowed in for twenty days near Burbank, this morning of Blackfoot, Mont., in the Rocky Mountains, the Great Northern snow plow arrived at Spokane, Wash., Tuesday, morning, 25 hours late. The services of two locomotives and a large force of men were required to dig the train out of eight feet of snow. The line is now open and being kept so by constant snow plowing.

An enjoyable time was spent last evening at Christensen's dancing hall, the occasion being the tenth annual ball of the Brotherhood of Locomotive Firemen. The hall was tastefully decorated, the designs being in keeping with the occasion. The lights were from four immense headlights, and a dummy engine on the platform was very prettily arranged. Everybody present had a good time.

SENATOR CLARK IN TOWN.

Member-Elect from Montana Visits Salt Lake City.

Talks of Extra Session of Congress, Fish Senatorial Fight, and His Mining Interests.

Senator-elect Clark of Montana came in this morning from Butte and put up at the Knutsford. When seen by a "News" representative he said that his trip to Utah at this time had no political significance. He was in the city on business of a personal character entirely. From Salt Lake City Mr. Clark will go to California, and from there to his properties in Arizona. He will then go on to the national capital, to be present at the closing of Congress.

Mr. Clark thinks there is no question but there will be an extra session of Congress, to convene upon the close of the present one. "I am led to think this," said he, "owing to the fact that the army bill is not yet passed, and the pension appropriation bill which is held in abeyance pending that measure."

In speaking of the senatorial contest in Utah, Mr. Clark said that it was too far off for him to know anything about the election, which would be a calamity to the party and to the state.

The senator will be in the city until tomorrow, when he will leave for the southwest.

THEY HAVE DISAPPEARED.

"I was cured from head to foot with boils and blotches. After taking a few bottles of Hood's Sarsaparilla they all disappeared. I feel as good as now good and I am able to sleep better than for years. I recommend Hood's to all who are suffering from any blood disease." Henry Bischoff, Georgetown, N. H.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and Substitutes are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substances. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
