MINING, BUSINESS AND STOCKS

COLUMBUS CON. IN SALES LIST

A Few Lots of This Alta Stock Offered and Sold on the Mining Exchange.

KING DAVID IS ALSO ACTIVE

Sioux Consolidated Higher—Mountain Lake Holds Its Own—Closing Quotations.

Columbus Consolidated was brought to the fore during the early calls of the mining exchange today, the stock being offered and taken at $1.40 and $1.35 a share. King David, the new Beaver county proposition, was also in demand and sold from 55 up to 58 cents. Development of this property is going ahead; the machinery ordered recently being in process of installation. Lower Mammoth, which has been a leader for several days, opened strong but closed lower. May Day moved off slightly, while Sioux Consolidated made substantial gains. Colorado, which weakened early in the week on the strength of street talk about a probable lawsuit, made its way back to $4 a share. Mountain Lake held firm with few shares selling.

The only unlisted stock selling on the open board was Ely Witch, which brought 45 cents.

The closing quotations and sales were:

NEVADA DOUGLAS COPPER.

Supt. Arentz Continues to Report High Grade Copper Finds.

At the offices of the Nevada Douglas Copper company in this city yesterday afternoon was received a telegram from Supt. S. S. Bentz under Yerington, Nevada, date line conveying the information that the south drift on the 650 level had broken into a rich chacocite ore body.

"While this was not an unexpected event," said General Manager Orem today, "at the same time we feel that encountering this ore on the 650 is an important matter as it gives 100 feet more of backs from which ore can be stoped. The ore body is the same one explored on the 550 and which has been followed on the strike for about 500 feet. On the 550 the vein showed a width in places of more than 50 feet; the entire mass containing average copper values of 6.5 per cent; while lenses cutting through it carry better than 20 per cent copper."

In the raise from the north 650 drift Mr. Orem states, splendid high grade values are being obtained. Daily assays for last week ran from 17.5 to 29 per cent copper and a sample taken from across the face for six feet returned 24.7 per cent copper. In the winze being sunk from the south 550 level, which was down 65 feet when the mine superintendent sent in his last written reports, the week's assays ran from 7 to 13.7 per cent copper.

IN DOLLY VARDEN DISTRICT.

The Dolly Varden district, in the eastern part of White Pine county, Nevada, and really a portion of the Deep Creek district, is the scene of considerable mining activity. A few shipments have been made this year to the local plants of the American Smelting & Refining company. But a great deal of development work has been in progress.

THAYER IS OPTIMISTIC.

Amalgamated Man Says Supply of Copper Was Never Smaller.

Benjamin B. Thayer, assistant to President Rogers of the Amalgamated company, is in Butte making an inspection of the mines and other properties of the company.

Mr. Thayer takes an optimistic view of business conditions and says that the supply of copper was never smaller than today.

He thinks that business improvement will be slow until after election, but it will be gradual and sure.

He states that none of the Butte producers has any copper supplies of any account on hand and that it is well known that consumers are buying only for their needs from day to day.

CLIFT MINE AT OPHIR.

Property Made a Good Production Record in August.

The Clift Mining company, operating at Ophir, made a good record in the way of shipments of ore during August. According to Manager Grant Snyder, 32 five-ton lots were dispatched; while development forged ahead with a good deal of zeol.

The Clift company owns the old Buckhorn property at Ophir. Ore is brought down off of a precipitous mountain by means of an aerial tramway to the bottom of Ophir canyon, where large ore bins have been built and from this point the product is hauled to St. John, the nearest railroad point on the Salt Lake Route, where it is loaded onto cars and shipped to the smelters.

The Buckhorn mine is one of the oldest producers of lead-silver ores in the state. During the "early days" of Ophir, when the late Marcus Daly, Col. Wall and other western mining celebreties mode Ophir canyon the scene of their efforts, the Buckhorn was an active producer.

JEFFERSON EXTENSION.

This Company Came Into Legal Existence Today.

Articles of incorporation of the Jefferson Extension Mining company were filed this morning with the county clerk. The capital stock of the company is placed at $250,000, divided into 1,000,000 shares of the value of 25 cents each. The officers named are as follows: William H. King, president; Nicholas Schmittroth, vice president; Samuel Russell, secretary and treasurer, and these, with Nels Nelson and Samuel A. King, constitute the directorate. The company will develop and operate properties in Salt Lake county, Utah and in Lincoln county, Nevada.

An amendment to the articles of incorporation of the Dutch Canyon Mining company of Heber City, decreasing the capital stock from $1,000,000 to $100,000, was filed with the secretary of state today.

An amendment to the articles of incorporation of the Garden City Mining company of Provo was filed with the secretary of state today, increasing the capital stock of the company from $35,000 to $100,000.

AT THE MOUNTAIN LAKE.

A telephone message from the Mountain Lake mine, which was received in the city last evening, contained the information that the face of the main tunnel was showing such strong mineralization that it was taken to indicate that an ore body of consequence was not far off. At any rate the result from the next few shots is being awaited with interest.

FEDERAL ELY MINE.

Albert Heusser Comes to Receive Final Payment on Property.

For the purpose of receiving the final paymen of $16,500 for the ranch he sold the Federal Ely Copper company several months since, Albert Heusser of Ely, is in Salt Lake says the White Pine News. The payment was scheduled to have been made yesterday and completes the sum of $50,000 which the ranch with its fine water rights brought him.

Mr. Heusser left here during the middle of the week in company with W. J. Craig, president of the Federal Ely, who had been here for the purpose of inspecting the mine. While in Ely, Mr. Craig stated to local people that the payment to Mr. Heusser would clear the company of indebtedness for any part of its property, which is considered one of the most promising for the amount of work done, in the district.

When the recent assessment of 5 cents per share to meet expenses of development was made, out of a total of 672,000 shares only 54,000 were not paid for. These have been resold. Mr. Craig, while here, was asked about future plans for the company but gave out nothing definite, as there are several deals on of different character, according to report, which make the future unsettled except for one thing—the continuance of active development work. The company is understood to have a good surplus in the treasury for carrying this out.

ACTIVITY AT PIOCHE.

The Mendah Mine Opening Out, It Is Said, Very Satisfactory.

One by one the merits of our district come to light in the way of permanent ore bodies, and we add to the list this week an entirely new proposition near Pioche. A personal investigation of the new discovery looked like another Mendah mine, says the Pioche Record.

E. D. Smiley and Mathew Hunter are the lucky ones in the deal, and have good cause to be more than elated. On the Jennie claim, which they located, a strong iron ledge runs through the claim for a considerable distance, characteristic of the entire country in the immediate vicinity, and the boys had started work on the side hill, more on a thorough prospecting adventure than anything else; they started an open cut and had proceeded but a short distance, practically on top of the ground, removing the accumulated soft wash and a very light lime capping, when a large ore body was struck.

The ore body lies at an angle of about 90 degrees and the last reports are to the effect that it is 16 feet long and an average of three and one-half feet wide. Assays taken from an average sample of the entire ore body gave returns of gold, silver and lead to the amount of $126.50, of the same character as the Mendah ore, and by the way, it is only 15 minutes' walk from the Mendah shaft.

Hunter and Smiley were in town Wednesday afternoon purchasing a complete blacksmith outfit and other supplies. It is their intention to make a shipment of ore as soon as a roadway can be made to the property, which is but a short distance.

Adjoining the new find is the Sego, owned by C. D. Osborne and Eugene Goodrich, and the Arena claim, owned by H. J. Goodrich.

CONCENTRATES.

Monday being Labor day, there will be no call on mining exchange.

Samuel Newhouse is expected to return from New York about the 15th inst.

Engineer E. P. Jennings has been in the Tintic district for the purpose of examining a mining property.

The ore and bullion settlements reported late yesterday by McCornick & Company were; crude ore and concentrates, $40,000; base bullion, $50,000.

Sam M. Levy has returned from a trip to the Malachite copper property at Yerington, Nevada. Mr. Levy says conditions in the western Nevda district are highly satisfactory at the present time.

R. G. Wilson, P. B. McKeon and Dan Ferguson closed a deal yesterday for a group of two claims, known as the Uranus and Boston, flanking the Burning Moscow mine in Beaver county. It is understood that a company will be formed to develop the property.

Someone has lured Julian Hawthorne, the writer, into mining. Mr. Hawthorne has sent out a circular in which he states that he has forsaken literature and taken up the task of the "development and exploitation of a mine." The location of the property is somewhere in Canada.

President Charles M. MacNeill of the Utah Copper company, who was expected to reach the city last evening with a party of friends, but urgent business detained him after he had checked his baggage. It arrived here in due time and was sent back to the owner today.

Martin Hamilton, P. J. Sullivan and J. M. Keith are very much elated over the report from their turquoise mines, located about 25 miles east of Las Vagas. Some samples were recently sent to Boston and Philadelphia for analysis and found to be of the purest variety. The owners are now at work developing the mine and soon expect to be sending the gems to the market.—White Pine News.

SILVER IN LONDON.

London, Sept. 4.—Bar silver closed firm at 23¾d per ounce.

WHY USE YOUR

Letterheads for scratch paper when we can sell you scratch paper so cheap?

THE DESERET NEWS.

ROOM TRADERS BOUGHT STOCKS

Was an Immediate Sharp Advance, Coppers and Harrimans Showing Most Strength.

PURCHASES ON SMALL SCALE

In the Afternoon American Smelting Reached 108, a Gain of 4½—Market Closed Irregular.

New York, Sept. 4.—At the opening small gains and losses were mixed and the dealings were scanty. Room traders perceiving that there was no pressure of consequence after the opening bought stocks freely for a turn and there was an immediate sharp advance. The copper and Harriman stocks made the best showing in point of strength and activity. American Smelting improved 2, the preferred 2½, Southern Pacific 1½ and Union Pacific, Atchison, St. Paul, Reading, Amalgamated Copper and Consolidated Gas 1.

Prices were well sustained during the second hour at the previous advance but dealings were small and changes unimportant.

Northern Pacific and Anaconda got up 1, American Smelting 1 and the preferred 3½. Mackay companies declined 1.

Bonds were firm.

Purchases were made on a small scale but the market reached a higher level. The over-night rise in Consolidated Gas reached 3⅞. Southern Pacific and Union Pacific 2, and Great Northern preferred, Erie and the second preferred, Delaware & Hudson, Illinois Central and Northwestern 1.

The market took on a holiday aspect in the afternoon and there was little inclination to make commitments. Some additions were made to previous advances. American Smelting preferred reached 108, a gain of 4½.

The market closed irregular. United States Steel stocks advanced, the common 1, and the preferred 2, when it became known that J. P. Morgan was in the financial district after his vacation abroad. Gains were generally extended, reaching 2 to 2⅝ in Northern Pacific, Reading and Atchison. Late realizing sales caused fractional recessions.

LIVESTOCK.

PRODUCE.

CHICAGO.

Chicago, Sept. 4.—The wheat market today lacked the support given it the past two days by numerous bulls and despite higher prices at Liverpool was inclined to be weak. Prices at the start were unchanged to ¼@⅜ lower. December opened at 97⅝ to 97⅞ and sold at 97½.

Corn was somewhat irregular, September being firm and the distant futures easy. Shorts bid the price of September ½ above the previous close of 79¾. December opened at 68⅛ to 69¼ and sold at 68.

The oats market was barely steady. December opened a shade higher at 50⅞ and sold at 50½.

Provisions were steady. Prices at the opening were unchanged to 2½@5 higher.

The wheat market was rather a tame affair all day and prices fluctuated over a range of about ¾. December sold between 97¼ and 98¼. The close was irregular, September being firm and distant futures easy. Final quotations on December were 97⅝@97¾, a net loss of ¼.

The corn market continued easy the remainder of the day. The low point on December was reached at 67¾. The close was at a net loss of ⅛@¼@⅜ with December at 67¾@67⅞.

Close—Wheat—Sept., 98½; Dec., 97⅝@97¾; May, 1.01¼.

Corn—Sept., 79¼; Dec., 67¾@67⅞; May, 65⅝@65¾.

Oats—Sept., 49⅞; Dec., 50¼@50⅜; May, 53⅜.

Pork—Sept., 14.67½; Oct., 14.72½; Jan., 16.32½.

Lard—Sept., 9.65; Oct., 9.67½; Jan., 9.47.

Ribs—Sept., 9.10; Oct., 9.15@9.17½; Jan., 8.50.

Rye—Cash, 76@76½; Sept., 75@77.

Barley—Cash, 66.

Timothy—Sept., 3.57½.

Clover—Oct., 9.50.

SUGAR AND COFFEE.

New York, Sept. 4.—Sugar, raw, steady. Fair refining, 3.46; centrifugal, .96 test, 3.96; molasses sugar, 3.18.

Refined—Quiet. Crushed, 5.80; powdered, 5.20; granulated, 5.10.

Coffee—Quiet. No. 7 Rio, 6¼; No. 4 Santos, 8⅝.

BUTTER AND EGGS.

Chicago, Sept. 4.—Butter — Steady. Creameries, 18½@22½; dairies, 19@20.

Eggs—Steady. Firsts, 19½.

There will be no session of the butter and egg board next Monday, Labor day.

EVAPORATED FRUITS.

New York, Sept. 3.—The market for evaporated apples is quiet, with fancy quoted at 9½@10½; choice, 7½@8; prime, 6¼@6¾; and common to fair at 5@6.

Prunes are dull, with quotations ranging from 4 cents to 13 cents for California, and from 6¼ cents to 7½ cents for Oregon fruit.

Apricots are said to be well cleaned up on the coast, but business in the spot market is slow, with choice quoted at 8½@8¾; extra choice, 9½@9¾; and fancy, 10½@11.

Peaches are quoted at about 6¼ for prompt shipment of choice from the coast in 24-pound boxes. The local spot market was quiet, with choice quoted at 7½@7¾; extra choice at 7¾@8; fancy at 8½@9; and extra fancy, 9@10.

Raisins are unchanged, with loose muscatel quoted at 4¾@6¼; choice to fancy seeded at 6@7¾; seedless at 5@6; and London layers at 1.60@1.65.
