MINING, BUSINESS AND STOCKS.

YANKEE CON. WAS IN GOOD DEMAND

The Stock Advanced Materially on the Exchange Today.

DALY-WEST IS STRONGER.

Showers Con. is Active—Star Con. Weakens—May Day Sells at Better Figures.

TODAY'S METALS:
SILVER 64
LEAD, $4.00
CASTING COPPER 15¾

Nearly 25,000 shares were sold on the exchange today for $5,348.12. Yankee Con. was the most active of any of the stocks dealt in today. Exactly 14,000 shares were sold at prices ranging from 9¾ as high as 12. The opening sale was made at 9¾, with the next one being recorded at 11. From that figure the stock reacted to 10⅝, but immediately recovered and sold up to 12. It closed weaker, however, with 11 bid and 11¼ asked.

May Day was quite active today at better figures than have ruled for many days past. At the outset the stock sold at 36 and afterwards advanced to 37. It was much weaker at the close, a lot of 1,000 shares being handed out at 35.

Showers Con. of Diamond let go a block of 1,500 shares today at 10½ cents per share, while Star Con. sold from 62 down to 60¾.

Daly-West was much stronger again today, small lots selling at from $20.30 to $20.40 per share. Galena was also traded in at 9½.

Bullion-Beck was firmly held at $5.05, with $4.50 bid, while $2.17 was offered for Mammoth. Lower Mammoth remains weak around 38½. Eagle and Blue Bell was stronger today, being held at 97, with 90 bid.

The closing figures were posted as follows:

Stock.	Bid.	Asked.
Ajax	51½	59
Albion	40	73½
Alice	37½	55
Boss Tweed	7½	9¾
Bunker Hill		1
Bullion-Beck	4 50	5 05
Boston & De Lamar		¼
Buckeye	¼	3
Blue Bird Extension		6
Ben Butler	½	1½
Con. Mercur	4 50	4 58

STOCK TRANSACTIONS.

Daly-West, 25 at $20.30; 25 at $20.40.
Galena, 500 at 9½.
May Day, 700 at 36; 1,000 at 36¼; 500 at 37; 100 at 35½; 1,000 at 35.
Showers Con., 1,500 at 10½.
Star Con., 100 at 61¾; 200 at 61¼; 200 at 62; 400 at 61½; 100 at 60¾; 700 at 61; 200 at 60½; 100 at 60¾.
Yankee Con., 1,000 at 9¾; 2,500 at 11; 500 at 10⅝; 1,000 at 10⅞; 500 at 11¼; 2,000 at 11⅜; 1,000 at 11½; 1,000 at 11⅝; 3,000 at 11¾; 2,000 at 12; 500 at 11⅞; 500 at 11¾, seller 10 days; 500 at 11¼, seller 10 days.
Shares sold, 24,550.
Selling value, $5,348.12.

The Salt Lake Mining Review is the only exclusive mining paper published in this intermountain country. Every one should subscribe; $2.50 a year.

PORTFOLIOS OF THE PARIS EXPOSITION

They consist of 120 elaborate views on heavy enameled paper, in 20 parts. The Paris Exposition beautifully portrayed. Price only 10 cents each part to News readers. A book that sold for 75 cents and $1.00 at the time of the World's Fair. Parts 1 to 20 now ready at the News Office. Send 10 cents for a sample. You will be charmed with the work.

RUSH ORDERS

On job printing a specialty at the Deseret News. New and clean types throughout.

MUSIC LOVERS.

All who desire information of the address, etc., of Salt Lake's music teachers, should consult the Musicians' Directory, published on the Dramatic and Musical page of the Saturday "News."

MERCHANTS' PRINTING

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unexcelled by any establishment in the West.

HAVE VISITED THE GEMINI MINE

Judge Dey Says an Immense Amount of Ore Has Been Taken.

EAGLE & BLUE BELL STRIKE

R. G. Wilson Says It Looks Well—Conditions at Star Con—Prospects Near Woodside—La Sal Items.

After making an exhaustive examination of the underground workings of the Gemini, the directors of the Ridge & Valley Mining company returned to town last evening. Judge Dey, who also went out to the mine, says all the party were greatly surprised at what they saw. The surveys are not nearly completed—Judge Dey says it will take three or four weeks to do the work—but they are said to show a surprising amount of ore extracted from the Last Chance claim. In some places ore has been stoped out for over 100 feet high and from 20 to 25 feet wide. This is said to occur in a number of places between the 700 and 1,000 foot levels. A meeting is to be held tomorrow, at which the matter will be discussed. While the recent visit is said to have surprised the board, it is believed that the matter will be adjusted to the satisfaction of all parties concerned.

THE EAGLE & BLUE BELL.

R. G. Wilson Says the New Strike is Looking Well.

R. G. Wilson came in from Tintic last evening, after spending the past few days in the camp. While away Mr. Wilson visited the Eagle and Blue Bell strike, which he says is looking well. Several feet of good looking ore is exposed and it is believed to be the best body of ore that has yet been found in the property. It cannot be told how high it will run until after the present shipment of two cars is marketed. It is thought the ore will run close to $40 per ton.

No arrangement has yet been made by the May Day company with the South Godiva people for a mill site.

VISITS THE STAR CON.

Will Griffiths Says the Outlook is Very Encouraging.

Will Griffiths and W. J. Lawrence inspected the Star Consolidated on Sunday and report the new 500-ton ore bin nearing completion. It is thought it will be ready for use this week. The old bin is said to be pretty well filled with ore. On the 200 and 300 levels the management is working on big bodies of quartz the value of which could not, of course, be determined without sampling. Conditions on the 400 level are said to look very favorable.

HARVEY HARDY'S PROSPECT.

A Good Showing of Copper Ore Reported at a Depth of 60 Feet.

After spending a week in the vicinity of Woodside on the Rio Grande Western railway Warren Stealey is back in town with samples of ore and rock as the result of a little prospecting trip. Mr. Stealey brought home some samples of elaterite from a 5-inch vein which he discovered through float which he found in the vicinity. Samples of promising looking copper ore were also shown from a prospect which Harvey Hardy is working out there. The vein is not large, but is said to be a true fissure. The sample of rock from one of the walls shows a face like polished marble. A shaft about 60 feet deep has been sunk by Mr. Hardy and his companion, who are now crosscutting the vein. The ore certainly looks very promising.

YANKEE CON. ORE EXHIBIT.

Secretary Moon Says the Property Was Never in Better Condition.

A nice exhibit of Yankee Con. ore was being arranged this afternoon by Secretary Moon in the office of Porter J. Conway on west Second South. The ore is of very good grade. Regarding the mine Mr. Moon says it is in better condition than ever before. In spite of the fact that the ore enters the May Day ground Mr. Moon says the Yankee has a very fine body to stope from on its own ground.

THE LA SAL DISTRICT.

A Correspondent of a Denver Paper Speaks Well of the Utah Camp.

With beautiful weather and the snow entirely disappeared there is yet time for considerable surface mining operations throughout the La Sal country, and a number are taking advantage of it, says the Miners Basin correspondent of the Denver Mining Record. The early snow storm was only a breeder of fairer weather such as we generally have for at least six weeks after the early October storm, and now we may look for larger and more substantial preparations for winter operations, and from every source we hear of cheerful information regarding wonderful improvements as work progresses on the several tunnel enterprises now under way.

The Davis stamp mill has not started up yet on account of an unexpected delay in the arrival of some necessary connections in the machinery, but they expect to get in operation in a week. Pack animals continue to carry ore from the High Ore, and as soon as this contract is finished they will be transferred to ore packing from either the Tornado, Indiana or Gold Coin, each of which properties is now taking out ore for this purpose.

This opens the field for more mills and plants of larger capacity, and were we supplied now with a 40-stamp mill the owners could get all the ores they could reduce. Water and timber being plentiful and locations favorable to all the producing mines, it is to be regretted, while transportation facilities are so expensive, that there is not a custom mill in operation here. Such an enterprise could be kept in operation continuously from April 1 to December 1 on custom ores and no doubt the developments of this winter will more than double the demand for milling facilities.

Nearly every tunnel penetrating the surrounding mountains is cutting small veins that are free milling and able to produce pay ore, but the lack of a market for such ores causes these new discoveries to be passed untouched. In the Gold Coin and Tornado crosscut tunnels, for over 100 feet they have gone through a porphyritic quartz that every pound of the rock will mill an average of $18 per ton. The same conditions exist in the territory where the Iowa tunnel is being run. After they have cut the Burlington ledge on the lower contact, then they enter the porphyritic zone, which is about 700 feet wide, before they cut into the upper contact. In this belt will be found the same class of ore as is now mined in the Gold Coin, Indiana, and Tornado, which properties are being worked in the porphyritic belt. Thus it will be seen that after all stamp mills will be quite successful here for some time to come, as the free milling ores are going to hold out to considerable depth before they show any signs of turning base. A shaft has been sunk below water level on one of the Iowa claims in the extreme bottom of the gulch, and still the ores, though considerably mixed with auriferous copper ore, are free milling.

There are two distinct contacts in this country now thoroughly established, both of which start in on the southwestern side of the range at the Paradox-La Sal mines and run diagonally across the mountains, trending to the northwest and dip to the south. Surrounding Miners' basin the two contacts seem to have widened out and in the upheaval an intrusion of porphyritic quartz was thrown up, thereby making this immediate district, so far as is now known, the most thoroughly mineralized portion of the range. For this reason it is believed that as depth is gained it will be found that for over a mile wide right here will be shown one enormous deposit of ore, as on both the southeast end and to the northwest the two contacts come together again and dip deep into the sedimentary formation surrounding the upheaval. This may now be called the producing area of the La Sal country, and the prevailing rock is porphyritic andesite, considerably covered over with breccia and a porphyry conglomerate. In many respects there is much the same formation here as surrounds the Ouray or Telluride districts, in the San Juan country.

Mining in Mexico.

The progress of the mining industry in Mexico is well displayed by the government issue of title deeds to mineral lands during the fiscal year ending June 30th, 1899, says the Mining Reporter. These were 2,184 in number, and covered 83,730 acres. These government mining deeds are comparable to our mining patents. Assuming the average size of the mining claim at 10 acres, the above figures would signify 8,373 applications for patents in Mexico during the year; which is an exceedingly favorable showing. The largest number of applications came from the State of Durango, which is south of and adjoining the State of Chihuahua. The next largest number were from the States of Sonora and Chihuahua, which adjoin Arizona and New Mexico. It is evident therefore that the principal influences at work in the mineral development of Mexico are American, and that these influences are working southward along the several lines of railroad from this country. The value of the minerals produced amounted last year to about $50,000,000 and consisted in round numbers of about 15½ tons of gold, 1,887 tons of silver, 21,654 tons of copper, and about 90,000 tons of lead. There is great activity in all departments of mining in our sister republic to the south of us.

Leaves for Home Tomorrow.

After spending a week very pleasantly in Zion, Mr. G. S. Hanna and wife will leave tomorrow for their home in Bloomington, Illinois. Mr. Hanna spent a couple of days last week in Mercur district looking over the Sacramento, in which he is a big stockholder. Mr. Hanna was much pleased with what he saw of the mine and while but one car of roaster machinery yet remains to be heard from Mr. Hanna says he does not look for the Sacramento to re-enter the dividend column before the spring of 1901.

MINING NOTES.

W. A. Clark Jr. is down from Butte.

Walter Scott has been named as secretary and treasurer of the California Mining company of Park City.

J. F. Connor came in from Stockton last evening and reports everything about as usual in the camp.

Conditions at the North Mammoth at Tintic are said to look very favorable for the early disclosure of an ore body.

An accident to the main shaft at the Horseshoe mine at Fay, Nevada, has necessitated a shut down for a few weeks.

Secretary J. W. Perrin of the West Argent Mining company, who was injured in a runaway at Stockton, is expected to be out of the hospital in a day or two.

J. A. Nixon is up from San Pedro, New Mexico, where he reports a great deal of prospecting going on. The mining activity this year is said to be very marked compared with other years.

Col. Isaac Trumbo is in from California, where he reports upwards of 600 tons of crude ore and 300 tons of tailings being treated daily at the big property of the Free Gold Mining and Milling company in that State.

Manager F. R. Ball of the West Argent has returned from Stockton and reports the new mill building progressing very satisfactorily towards completion. Within two weeks it is expected that the initial run will be made.

C. B. Markland expects to leave for Stockton tomorrow to let a contract for a drift to reach the intersection of the east and west and north and south veins in the No-You-Don't property, where it is anticipated that a body of ore will be found.

Messrs. Duncan McVichie, C. P. Posey and H. G. Heffron went out to Tintic today to inspect the Tesora and Shoebridge-Bonanza properties. Developments at the latter mine have not been as satisfactory as could be wished and it is probable that the inspection today will result in a determination to sink deeper or to quit for the winter.

The Palmer Mountain tunnel, near Loomis, Washington, is nearing the 3,800-foot mark and is again entering ground that shows good mineral on the surface. Probably within the next 200 feet it will strike the Golden Bear vein. Drifting on several veins this month has shown up some very high-grade ores, and the whole property never looked better.

Beaver Blade: Messrs. C. K. Rowland and C. Van Alstine, prominent mining operators of Salt Lake, were in town several days this week looking over properties in the west hills. They did not commit themselves as to their opinion of the ground examined, but stated that they would soon return. They left for the south Thursday, intending to extend their trip into the Buckskin mountains.

Work on the New Anaconda smelter at Washoe station is progressing satisfactory. The concentrator building is in two parts, each 255x435 feet. Between these buildings will be a power plant 136x148 feet. The dimensions of the roaster building are 330x365 feet, with a dust chamber 39x297 feet. The reverbatory building will be six feet in length and 184 feet wide. The blast furnace building is to be 269x32 feet. The dimensions of the converter building are 352x177 feet.

MARKET WAS IRREGULAR.

Was Also Narrow and Soon After Opening Became Still More Confused.

Marked Weakness in Pacifics Because of Northern Pacific's Poor Showing—Steal Stocks Heavy.

New York, Oct. 30.—The movement of prices at the opening was very irregular and rather narrow, and it became still more confused, losses in some cases being recovered and gains in others lost. Efforts to advance the specialties met with temporary success, a few of the leaders gaining a point. Slight gains in the railroads were not long maintained. Marked weakness developed in the Pacifics owing to Northern Pacific's poor net earnings for September. Pittsburg, Cincinnati, Chicago & St. Louis, 77½ to 51¼. The heaviness of the steels stocks accentuated the general depression but offerings were small. B. & O. led the decline in the railroads, losing 1¼. By mid-day the market was semi-stagnant, but the undertone was better.

There seemed to be an unlimited amount of Southern Pacific for sale at 38, but all that offered was steadily absorbed by concentrated and determined buying. Ultimately the price rose to 38½. The only effect elsewhere was a slightly hardening tendency, most perceptible in some of the prominent specialties and the steel stocks. National lead preferred declined 3¼. The closing was unsettled and rather easy, and the net changes were fractional and mixed.

Bonds were dull and unsettled.

MONEY AND BONDS.

Money on call easier at 3½ per cent. Prime Mercantile paper, 5@6 per cent.

Sterling exchange steady with actual business in bankers' bills at 4.83⅞ for demand and 4.80⅝ for sixty days; posted rates, 4.82½@4.85 and 4.84½@4.85; commercial bills, 4.79½@4.80.

Silver certificates, 10,000 ounces sold at 65.

Bar silver, 64.

Mexican dollars, 50½.

Government bonds steady; refunding 2s reg., 1.04⅝; coupon, 1.04⅝; 3s reg., 1.09½; coup., 1.10¼; new 4s reg., 1.34½; coup., 1.35½; old 4s reg. and coup., 1.15½; 5s reg., 1.12⅝; coup., 1.14.

SUGAR.

Sugar—Raw steady; fair refining, 4⅛; centrifugal, 96 test, 4⅝; molasses sugar, 3⅞; refined, quiet; crushed, 6.15; powdered, 5.85; granulated, 5.75.

CLOSING STOCKS.

New York, Oct. 30.—Closing Stocks: Atchison, 22⅝; do preferred, 74; American tobacco, 96¾; B. R. T., 61⅝; B. & O., 74½; do preferred, 80¾; C. B. & Q., 127⅝; C. F. & I., 38⅝; C. C. C. & St. L., 117⅝; Con. Tob., 28⅛; C. & O., 20¼; D. & H., 132½; general electric, 141½; I. C., 119⅛; L. & N., 76; leather, 11⅝; do. preferred, 70½; M. K. & T., preferred, 52; Manhattan, 96½; Metropolitan Street railway, 159¾; Missouri Pacific, 55⅞; Northern Pacific, 57¾; do. preferred, 72¾; N. Y. Central, 132⅝; Pennsylvania, 134⅞; Pacific Mail, 42¾; Peoples Gas, 93⅞; Reading, 17⅝; do. firsts, 58½; do. second preferred, 28¾; Rock Island, 108¾; Southern Pacific, 38¾; St. Paul, 115½; Sugar, (common) 122¾; St. Paul, see Coal & Iron company, 56¼; Union Pacific, 61½; Union Pacific preferred, 75¼; Western Union, 80¾.

CHICAGO MARKETS.

PRODUCE.

Chicago, Oct. 30.—December wheat opened at 73¼ to 73, rallied to 73⅝. Close: Wheat—October 72¾; November 73¾; December 73⅝.

Corn—October 37½; November 36⅛; December 34¾.

Oats—October and November 21⅜; December 21⅞.

Pork—October 17.00; November 10.75; January 11.25.

Lard—October 7.07½; November 7.05; January 6.70.

Ribs—October 6.70; November 6.15; January 5.97½.

Cash: Wheat—No. 2 red 73¼@75½; No. 3 red 67@73½; No. 2 hard winter 68@71¼; No. 3 do. 67@71¼; No. 1 northern spring 73¼@76¼; No. 2 do. 73¼@76¼; No. 3 spring 66@74.

Corn—No. 2 37¼; No. 3 37¼.

Oats—No. 2 21¾@22; No. 3 21½.

Rye—47½.

Barley—36@38.

Timothy—4.30

Flax—Northwest 1.74¼@1.77.

LIVE STOCK.

Cattle—Receipts 3,500, generally steady. Good to prime steers, 5.50@6.00; poor to medium, 4.40@5.40; stockers and feeders, 2.75@4.45; cows, 2.50@4.10; heifers, 2.65@4.75; canners, 1.75@2.40; bulls, 2.50@4.50; calves, 4.00@5.00; Texas fed steers, 4.00@4.85; grassers, 3.35@4.10; bulls, 2.50@3.25.

Hogs—Receipts 32,000; tomorrow, 33,000; left over, 15,593. 5 cents lower, top 4.80. Mixed and butchers, 4.45@4.80; good to choice heavy, 4.50@4.77½; rough heavy, 4.35@4.45; light, 4.30@4.80; bulk of sales, 4.50@4.70.

Sheep—Receipts 12,000. Slow. Good to choice wethers, 3.85@4.10; fair to choice mixed, 3.40@3.90; western sheep, 3.80@4.10; Texas sheep, 2.50@3.50; native lambs, 4.25@5.30; western lambs, 4.75@5.35.

KANSAS CITY LIVE STOCK.

Kansas City, Oct. 30.—Cattle—Receipts, 12,000; steady. Native steers, 4.45@5.50; Texas steers, 2.85@4.85; Texas cows, 1.50@3.40; native cows and heifers, 1.85@4.35; stockers and feeders, 2.00@4.25; bulls, 2.45@3.50; calves, 4.30@5.75.

Hogs—Receipts, 11,000; heavy, weak; light, steady. Bulk of sales, 4.37½@4.62½; heavy, 4.55@4.62½; packers, 4.57½@4.62½; mixed, 4.55@4.60; light, 4.40@4.65; yorkers, 4.60@4.65; pigs, 4.00@4.62½.

Sheep—Receipts, 3,000; steady. Lambs, 3.00@5.00; muttons, 2.50@4.00.

OMAHA LIVE STOCK.

Omaha, Neb., Oct. 30.—Cattle—Receipts, 4,500. Active; stronger. Native beef steers, 4.25@5.65; western steers, 4.00@4.75; Texas steers, 3.00@4.00; cows and heifers, 2.20@3.40; canners, 1.75@2.10; stockers and feeders, 2.20@4.60; calves, 3.00@6.00; bulls, stags, etc., 2.25@4.00.

Hogs—Receipts, 7,200. Shade lower; heavy, 4.40@4.55; mixed, 4.50@4.52½; light, 4.47½@4.55; pigs, 3.50@4.40; bulk of sales, 4.50@4.52½.

Sheep—Receipts, 8,400. Steady to stronger; western muttons, 3.60@3.70; stock sheep, 3.50@3.70; lambs, 4.00@4.57.

DENVER LIVE STOCK.

Denver, Oct. 30.—Cattle—Receipts 600. Active and strong. Beef steers, 3.50@5.00; cows, 2.50@3.50; feeders, freight paid to river, 3.00@4.30; stockers, do., 3.50@4.30; bulls, stags, etc., 2.00@3.25.

Hogs—Receipts, 200. Steady. Light packers, 4.45@4.55; mixed and heavy, 4.50@4.60.

Sheep—Receipts, 300. Unchanged.

SAN FRANCISCO GRAIN.

San Francisco, Oct. 30.—Wheat, strong; Dec., 98¼; May, 1.05¼; cash, 95.

Barley—No sales; cash, 72½.

BOSTON WOOL MARKET.

Boston, Oct. 30.—There is a better tone to the wool market this week and the sales show a liberal margin over the slow business of the last few months. Prices are firm and dealers are looking for an advance after the election. Territory wools head the sales with fine medium and fine at 47@48 and strictly staple at 50. Fleece wools have shown more activity than at any time during the last few months and several lines are recorded as sold to manufasturers.

Man-like styles—reproduced in miniature and tastefully modified. Crescent Clothes for Boys.

IN SALT LAKE CITY ONLY, AT J. P. GARDNER'S 136-138 MAIN STREET.

BOSTON MARKET.

Boston, Oct. 30.—B. & M., 3.19½@3.22; B. & B., 63@64.

ST. LOUIS WOOL MARKET.

St. Louis, Oct. 30.—Wool quiet and easy.

BRYAN'S LAST DAY IN NEW YORK

Hornellsville, Oct. 30.—Mr. Bryan began his last day of the New York campaign tour at Addison, a few miles east of this place, where he made a five-minutes speech a few minutes before 9 o'clock. Mr. Bryan entered his coach at Jersey City about midnight. Arduous as had been his duties yesterday his rest was not unbroken during the night. He had received a request before leaving New York, to make a stop at Port Jervis, and had reluctantly consented to do so. When he arrived there was a vast crowd in waiting. Mr. Bryan dressed himself and going to the rear platform attempted to speak. The people were, however, so full of enthusiasm that it was difficult for him to find opportunity to proceed. Mr. Bryan only attempted to say that he found them so enthusiastic that he did not feel it was necessary to make a speech even if he could do so under more propitious surroundings. He asked them to stand by their convictions, and not to allow themselves to be swerved.

Mr. Bryan was sound asleep when his train passed through Elmira, where Governor Roosevelt's train was standing. When Addison was reached the rain, which had set in a few miles further east began a heavy downpour, but the crowd was large and enthusiastic and Mr. Bryan appeared in excellent condition. In beginning his speech Mr. Bryan said:

"You show a great deal of interest to come out here early in the rain to hear a speech of five minutes. The very fact that you are here shows that you do not need a speech even of five minutes. It shows that you have already made up your minds how to vote, and are anxious for next Tuesday to come in order that you may register a protest against the trusts, against a large army, and against the imperial policy of the administration."

Mr. Bryan then dwelt briefly on what he conceived to be the evil of trusts, militarism, territorial expansion and the colonial policy of the Republican party.

"I need not tell you," he said, "that if our carpet-baggers steal in Cuba within 200 miles of us they will steal still more when they get across the Pacific. All that I need to tell you is that the Democratic party believes in liberty here and believes in liberty in the Philippines also; that it wants self-government here and is willing to give it to the people who live in the Philippine islands. All that I need to tell you is that we want to make that declaration now and not after the Filipinos are dead. If you are going to give freedom to the Filipinos you want to give it to live people and not to dead ones."

The rain had diminished somewhat by the time Mr. Bryan's train reached Hornellsville. He spoke here for about half an hour and had another large crowd, which was closely attentive. At this point he elaborated on the theory advocated by him yesterday to the effect that the Republicans had already abandoned their principal campaign argument which was the full dinner pail. Starting with the proposition that the Republican platform was largely devoted to the subject of prosperity he said:

"Compare the space devoted to congratulation with the space devoted to all other questions and you will find that the Republicans expected to make the issue on the grand prosperity argument. The full dinner pail is full of holes; the full dinner pail is the most completely battered and beaten-up emblem that any party ever had. Why is it that the dinner pail is referred to more by Democratic speakers than it is by Republican speakers? If a Republican attempts to refer to the dinner pail now they ask him "How about the anthracite coal regions?" I do not believe that the laboring man today is receiving his fair share of the wealth he produces or his fair share of protection from the government."

THE EARTHQUAKE AT CARACAS.

Secretary Russell Advises the State Department of It.

Washington, Oct. 30.—The state department has received the following cablegram from Mr. Russell, secretary of the legation at Caracas, concerning the recent earthquake in which Cipriana Castro, the president of the republic, was injured:

Caracas, via Hayti, Oct. 29.—Secretary of State, Washington—Severe earthquake this morning; great damage to property; several killed; president jumping second floor government house, leg broken; details from interior later.

(Signed) RUSSELL."

The Ship H. Bischoff Wrecked.

Hamburg, Oct. 30.—The German ship H. Bischoff, which left Calota Buena, July 2nd for this port has been wrecked at Grosser Vogelsand, at the entrance of the Elbe. A boat containing eight of the crew put off from the men were, put Panfixlaunoff vessel and another boat in which were four men, left the lightship for the purpose of rendering assistance. Both of these boats are missing and have been given up for lost.

The H. Bischoff is of 2,708 tons gross. She was built in 1865 at Glasgow and is owned by H. Bishoff & Co., of Bremen.

General D. M. Frost Dead.

St. Louis, Oct. 30.—Gen. D. M. Frost, for fifty years one of the best known residents of this city, is dead, aged 77. His death was unexpected as no illness had preceded it. General Frost was born in Schenectady county, New York, August 9, 183. He graduated from West Point in 1844, and served in the Mexican and civil wars with distinction. In the latter war he served on the Confederate side.

Queen Victoria is Not Ill.

London, Oct. 30.—There is no truth in the report that Queen Victoria is ill, though naturally she is affected by the death of her grandson, Prince Christian Victor of Sogleswig-Holstein.

Protective Policy OF THE UNION PACIFIC OVERLAND ROUTE WORLD'S PICTORIAL LINE

Is a universally recognized fact. Patrons of the "Great Overland Route" are assured that every device of human skill has been adopted to protect them against accident. Millions of dollars have been spent by the Union Pacific Railroad company in the improvement of track and equipment. The line is renowned for its unparalleled speed record, reliability for maintaining time schedule, and for the general superiority of its service.

All tickets good via Denver without extra charge.

Detailed information relative to railroad and steamship transportation cheerfully furnished on application to

"THE OVERLAND LIMITED," equipped with Palace Sleeping Cars, Buffet Smoking and Library Cars (with barber) and Dining Cars, meals "a la carte," LEAVES SALT LAKE CITY AT 12:30 p. m. DAILY. The Chicago Special leaves Salt Lake every evening at 6:40. First class equipment, including Free Reclining Chair Cars. The Atlantic Express leaves at 7:00 a. m. For tickets and reservations apply to ticket agents, or address C. A. Walker, Gen'l Agent Chicago & North-Western Ry., 206 S. Main St., Salt Lake City.

Burlington Route

NOT TOO HOT. NOT TOO COLD.

"It's too hot." "It's too cold." "Please open the ventilator." "Please shut that door."

You don't hear remarks like these on Burlington trains. Burlington trains are neither too hot nor too cold—they are just right.

All Burlington sleepers, all Burlington dining-cars, are provided with thermometers. The average temperature of Burlington cars is 70—not too hot, not too cold. Just right.

Burlington trains leave Denver at 4:00 p. m. and 10:00 p. m. for Omaha, Chicago, Kansas City and St. Louis.

Thro' sleeper, Salt Lake to Omaha and Chicago daily.

Train for Black Hills leaves Denver 11:30 p. m.

Saponifier.

Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household uses. Beware of counterfeits. The success of this article has induced unprincipled parties to imitate it. None genuine unless Pennsylvania Salt Manufacturing Co., Philadelphia, is stamped on the lid.

Ask your grocer for it and take no other.

NOTICE.

NOTICE IS HEREBY GIVEN THAT A meeting of the Corporation of the Members of the First Ecclesiastical Ward of the Salt Lake Stake of Zion will be held in the First Ward
