The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 269. THURSDAY, OCTOBER 19, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

A LOG FOR A CORPSE

Sensational Rumors About Dr. Graves, the Poisoner.

HIS REPORTED SUICIDE A SHAM.

High Officials and Secret Organizations Said to be Implicated in the Deception.

DENVER, Oct. 19.—The News publishes a sensational story to the effect that Dr. Thatcher Graves, the poisoner who was supposed to have committed suicide in jail, is not dead. It is maintained that a pine log occupied the coffin instead of a body. The story is given on the authority of Charles N. Chandler, a wealthy citizen of Thompson, Custer county, Graves's old home, and where the body is supposed to be buried. Chandler and a fellow townsman, Stephen Moses, are now here. They declare that the coffin was opened at the grave against the protests of the widow and it was found to contain a pine log. The supposed dead doctor is now said to be enjoying his freedom in a foreign country.

A friend has been current here for some time that the body carried from the county jail was really of wax and that the parties to the deception are some high officials and a secret organization. This rumor is strengthened by the refusal to allow the remains to be viewed except by the most intimate friends, and by the further fact that the widow refused to allow the remains to be embalmed.

Unveiling a Monument.

TRENTON, N. J., Oct. 19.—A monument in commemoration of the battle of Trenton was unveiled here this afternoon with imposing ceremonies. The day's exercises began with a procession of troops and governors to the monument, followed by the unveiling, then a review of the troops by the governor. There were five thousand troops from New Jersey, New York, Pennsylvania, Massachusetts and Connecticut. A great concourse of people assembled to witness the ceremonies. The principal feature of the monument is a large bronze statue of Washington standing on a handsome shaft. The monument is a hundred and fifty feet above the street level.

Lord Dunraven Departs.

NEW YORK, Oct. 18.—Among the passengers on the White Star steamer Britannic for Europe today were Lord Dunraven, the countess and two daughters.

For the Benefit of Indians.

WASHINGTON, Oct. 19.—The Indian agent at Puyallup, Washington, has submitted his report to the interior department. He says intoxication is the predominant evil among Indians. The evil will grow, he thinks, because of the decision of the courts that an Indian holding patent to land is a citizen. He recommends an amount of this that a law be passed holding that when patent is given, it shall not confer citizenship upon an Indian.

In Favor of a Gold Standard.

CHICAGO, Oct. 18.—The National Bankers' convention continued its sessions today and heard a large number of papers on financial questions. Among those who read papers were: Horace White, New York; E. O. Leech, ex-director of the mint; Jas. G. Heinhold, New York; Sidney Sherwood, of John Hopkins university; Gen. E. Leighton, St. Louis; James B. Tripp, Marathon, N. Y.; Jas. Johnson, Birmingham, Ala.; Frank C. Dillard, Sherman, Tex., on various phases of the money question. The prepondering opinion was expressed in the papers in favor of a gold standard.

A resolution was unanimously passed condemning the United States Senate for not passing the bill repealing the Sherman silver purchase law.

RENEGADE INDIANS.

Uneasiness Said to be Felt at Pine Ridge.

WASHINGTON, Oct. 19.—Great uneasiness is felt at Pine Ridge agency on account of numerous renegade Indians from other agencies. It is believed that they will have to be called on to suppress these Indians fellows. The agent there has reported to the interior department to this effect and the department agrees with him.

NO NEED OF TROOPS.

OMAHA, Oct. 19.—Gen. Brooke, commanding the department of the Platte, says there is no need of troops at Pine Ridge and none have been ordered there. The trouble arose over a visit of 100 Oncapapaw from Pine Ridge. They stayed a good while and trouble was feared but they have gone home.

School Children at the Fair.

CHICAGO, Oct. 19.—The school children visited the Fair grounds again today. Their numbers were augmented by additions from the schools of neighboring cities and by two thousand of some boys and lost lambs from the city. At noon the children sang the new Liberty bell in honor of the anniversary of the surrender of Lord Cornwallis, giving a giant signal of 1,000 strokes all, one for each state and territory and one of welcome to the Hawaiian islands.

RUSSIA IN THE EAST.

An Alliance Directed Against the Dreibund.

PARIS, Oct. 18.—A report is published that Servia, Greece and Montenegro, under Russian influence, have formed an alliance against Bulgaria. This is considered a Russian triumph and a decided check on the dreibund.

THE NORTHERN PACIFIC.

Annual Report of Receipts and Expenditures.

NEW YORK, Oct. 19.—The annual report of the Northern Pacific railroad was submitted to the stockholders at the meeting today. It showed that the gross earnings, including receipts from the Wisconsin Central and other leased and branch lines by the year ending June 30th, were $29,334,[illegible], operating expenses and taxes, $[illegible], and earnings for special improvements, $[illegible]; other income, $[illegible], total, $[illegible], against which have accrued the following charges: Rentals, $[illegible], interest on bonds, $7,[illegible], interest on branch road companies, $1,[illegible], interest on other funded debt, $[illegible], sinking fund requirements, $1,[illegible], equipment, $[illegible]. Total, $[illegible]. The deficit for the year is $[illegible].

During the fiscal year the funded debt has increased by the issue of six million collateral trust notes, but decreased by the redemption of the following bonds by action of the sinking funds in the Missouri division $32,000; Pend d' Oreille division $29,000; second first mortgage bonds $41,000; general second mortgage bonds $242,000; this proceeds of land sales have been expended in the Pend d' Oreille div. $[illegible]. Total reduction of the funded debt $1,092,000. The land commissioner's report shows sales for the year of 290,[illegible] acres, amounting to $1,[illegible]. The net receipts of sales to purchasers amount are $3,342,[illegible].

The meeting adjourned at 2 o'clock until tomorrow, when the stockholders will have additional two hours in which to vote, 151,000 shares were voted today. The Investment Bulletin voted 120,000 shares. It can be stated on unquestioned authority that the new directors will place Brayton Ives for president, Robert Harris, vice-president. The new board of directors will be as given in the Associated Press dispatches previously.

HOW THE ACCOUNTS STAND.

Figures Presented for the Information of the Senate.

The Debate on Monday's Journal Resumed.—Stewart Argues Against Changing the Rules.

WASHINGTON, Oct. 19.—In the Senate the finance committee presented a report from the treasury department in response to a resolution for information as to the probable deficiency in the revenues of the government. The report shows a deficit for the first three months of the current fiscal year of over $21,000,000, or at a rate of over $84,000,000 for the entire year. It shows actual expenditures for the first three months of over $89,000,000. At the same rate the expenditures for the year would aggregate about $361,000,000, or about $21,000,000 more than the estimated expenses and would show expenditures over the supposed actual receipts of over $272,000,000.

The secretary says a definite forecast for the whole year is impossible, but it is apparent should the present conditions continue the deficit at the end of the year would be about $50,000,000.

Stewart of Nevada took the floor against the motion to amend the journal of Monday to show the presence of Teller who failed to answer to his name on roll call. Stewart argues that in the midst of the exciting discussion there was not time to change the rules.

A Fatal Accident.

FITZHUGH, Oct. 19.—By the caving in of a trench this morning, Andrew Jones and John McMahon were killed, one was fatally hurt and four seriously.

Cholera in Holland.

WASHINGTON, Oct. 19.—H. J. Roesen, cabinet officer and Dutch minister, says there are five cases of cholera at Antwerp. This is a new outbreak.

A REPUBLICAN CONFERENCE.

Repeal Sentiment Talk the Matter Over.

WASHINGTON, Oct. 19.—An extended conference of Republican senators was held last night to talk over the situation with a view of taking party advantage of any mistakes which the Democrats may make in the financial questions. Only repeal Republicans were present. It was practically the unanimous opinion that the best policy was to remain quiet, neither helping the Democrats out of the present snarl nor to do anything to prevent the progress of the bill, but if it becomes evident that the Democrats can do nothing, then to prepare a Republican measure and ask the Senate to pass it. A majority was in favor of amending the rules if necessary to get a bill through, though some object to any change which would help the Democrats in getting the election and tariff bills through. There were some expressions favoring compromise on the repeal bill.

The Death Gas.

NEW YORK, Oct. 19.—David Lyons and James Hayes, park policemen, and Thomas Furry, a blacksmith, were asphyxiated by gas in a cottage in the park last night. George Rogers, a park policeman, was rescued alive but will die.

Resignation Accepted.

LONDON, Oct. 19.—A Berlin dispatch says Emperor William has accepted the resignation of General Verdenbroro Stachlen, minister of war.

Cotton Mill Burned.

SHANGHAI, Oct. 19.—A great Chinese cotton mill has been burned. The loss is half a million dollars.

WORKING FOR COMPROMISE.

Democratic Senators Trying to Formulate an Acceptable Bill.

WASHINGTON, D. C., Oct. 19.—The Democrats in the Senate are devoting most of their time to an effort to agree among themselves and are of the opinion that they are in a fair way to agree on a bill to be introduced the beginning of next week. So many of them are engaged in this business that very few are in the Senate today, but the silver men, understanding the situation, did not suggest the absence of a quorum.

It is a fact that the Democratic steering committee has almost agreed on a bill and are now engaged in trying to get the various factions to accept it. The other Democratic groups in Congress realize enough they are not fully satisfied with the United recognition of silver, but some repeal Democrats are still insistent on an absolute repeal, and with them the committee is now dealing. The opinion is expressed that if all Democrats can be won over, enough Republicans can be secured to pass the measure. The proposed bill provides for purchases of the present silver law to Jan. 1st, 1894, with a provision of monthly purchases to the end a limit sufficient per month and for coinage immediately of the seigniorage lifted in the treasury. The number of bond issue is still open but seems favorably considered. The possible contingent purchases of silver at the present rate 54 ninety million ounces are purchased. This is the only number of the committee seeking out against compromise. A consultation will be held with Carlisle this afternoon.

En Route to Independence.

Correspondence Deseret News.

INDEPENDENCE, Mo., Oct. 17, 1893.—We arrived in this place this evening, having left Salt Lake City on the 11th inst. at 6:30 p. m. over the Union Pacific via Denver, Colorado. We encountered a slight snow storm, which covered the ground up the Weber canyon. On the morning of the 12th we found our sleeper windows and the mountains of white white shrouded the hills and valleys all around reminded us that we had changed climate to about a 350-mile run during the night.

At Rawlins we found an engine disabled, caused by a broken rod. So now we turned and we soon overtook our way without any accident to our train. We found snow sufficient for sleighing until we passed Laramie.

We passed Denver in the night and this morning took breakfast in a very pretty little town named Ellis, in Kansas. Our party included the dead ladies of Kansas with admirers, especially those who had been raised among Utah's snow-covered mountains. Only eleven miles from Ellis and we were in close proximity to a Russian town. Nearly all the country surrounded was occupied by Russians. My informant was Mr. Hulsinger, a German Baptist preacher who lives at Russell, Russell county. This settlement exhibit peculiarities about these Russian Catholics and their mode of living. The doors of their houses, he said, front away from the streets of the town. The people live very economically, are very industrious, keep out of debt, raise a fine class of horses, much wheat, and other things adapted to the climate. The railroad makes a good market for their produce, which they sell and buy more land with their profits. It is said the Russians of Kansas are so far a success.

Last night heavy rains in these parts made the farmers rejoice because of their fall wheat, which already looks green. Wheat is the main crop hereabouts. The crops the past year were very light. Wheat now brings 50cts. to 60cts. per bushel here. One man on the train on his way to the Fair told me that he had just completed sowing his field of 125 acres, with excellent prospects for its future. I asked him how it was that the people of Kansas complained of hard times when they could get fifty and sixty cents a bushel for their wheat and raise thirty to forty bushels per acre. Well, said he, sometimes drought brings about short crops, and there are other disappointments. Unlike the Russians, we go in debt, live too fast, buy machinery, mortgage up and become entangled in scrapes.

Sugar cane is raised by the acre here for feed for stock, and I know how it and thrive. I am told that they cut from five to eight tons per acre—take it up to files from which they use it as they need. It, "fit," said my informant, "is as heavy and coarse to stack that it is not as it begins to rain it becomes sweet." The seed is sown broadcast, but does not drill in.

As we approached the Missouri river, more rain and timber, with larger towns, appeared until we rolled into Kansas City, where we took the "dummy" eleven miles to Independence—twenty-five cents for return ticket. Elder Charles Morris, of Salt Lake City, Elder George Madsen, of Springville, Utah county, and Elder Samuel Cookman, of Idaho, are here at Independence, Missouri, on their way to West Virginia on missions. We were all glad to meet together on the train from Salt Lake and to accompany each other to this place, where tomorrow, the 18th inst., will be spent, and the Elders will then resume their journey. I shall remain a few days, going to Adam-ondi-Ahman and the surrounding country, taking views of noted points of interest for the Latter-day Saints, and others as well. We are all well and join in kind wishes. EDWARD STEVENSON.

THIRD DISTRICT COURT.

The Two Judges at Work on the Civil Calendar.—A Hearing Resumed.

The morning was a slow one in both divisions of the Third district court. The case of Fr. Bergner & Co. vs. Meis E. Sissel and Elise M. Gleason, doing business as the partnership firm of Meis & Co., was the first matter called up in Judge Zane's branch today. Attorney George Armstrong appeared for the plaintiff and Attorney Putnam for the defendant. It was a claim for $[illegible] for merchandise alleged to have been supplied by the plaintiff, who are carrying on business at Baltimore, Maryland, to the defendants, who formerly ran a store known as the "Fair" in this city.

The hearing was still in progress at 3:30 this afternoon.

In Judge Hart's court the further hearing of the action brought by the Fred W. Wolf company against Salt Lake City Brewing company was resumed and seems likely to occupy all today. As stated in yesterday's News the plaintiffs seek to recover $3,743.69 as balance of account for merchandise, while the defendants put in a counter claim to the tune of $11,800, alleging that the machinery furnished to them was defective.

POLITICAL MATTERS.

Liberals Registering From Dives and Places of Ill Resort.

UP TO ALL KINDS OF SCHEMES.

Ogden and Weber County Conventions.—Political News From Elsewhere.—Notes.

During the grand rush of the last days of registration the Liberals resorted to their old time tables of getting men on the rolls that did not belong there and were successful to a surprising degree. There is no question, however, and that is that it will furnish good grand jury material. Several strange characters were on in to register and gave their residences at a well-known sporting house. Citizens' detectives made inquiry at the place and ascertained that the men did not live there but were they known by the landlady, she substantially admitted, however that a good many Liberals attended "dances" and received "at our house." These fellows will have a very time of it on election day if they attempt to vote.

Another one recorded is to that of registering men whose alleged places of residence have proven to be vacant lots and impossible houses. Some of these men had "residences" when they were up at the polls.

WEBER COUNTY DEMOCRATS.

The Democrats of Weber county, exclusive of Ogden city, completing the Fourth representative district, ended their convention last evening and after a strong session nominated George F. Hunter of Weber county for the house of representatives. The contest was between John Manning of Hooper, J. B. Carver of Plain City, Hunter and Nathaniel Montgomery of North Ogden.

DEMOCRATS AT OGDEN.

The Democrats at Ogden late on Saturday nominated for last night and nominated their legislative candidates. Samuel Smith was chosen for the Council and H. S. Browning and John S. Perkins for the House. The usual resolutions on the national question were passed.

WE, the representatives of the Democratic party of the Third representative district of Utah Territory, in convention assembled, resolve:

First, That all the conditions set forth entitle the people of the Territory of Utah to admission to the Union as a state, and that the bill introduced by our delegate in Congress, Hon. John L. Rawlins, authorizing the admission of our Territory is standard, sound and meritorious.

Second, That we favor the complete recommendation of silver through laws permitting its free and unlimited coinage.

Third, We approve of and reaffirm the declaration of the Democratic party as declared in the platform of its last national Democratic convention, and in the platform of the late Territorial Democratic convention.

Fourth, That we do not approve of that profession which does not protect nor do we approve of taking money from the people of the country by taxation for the benefit of special classes.

THAT $500 MONSTRAUS.

Not a few of the rank and file of the Liberal party were so excited at meeting in last evening's News of a shortage of $400 in the campaign fund they had all been compelled to contribute to. Some of them did think it is all right to tender to "take that which is Christ's" due. But at the same time they most decidedly objected to the squandering and misconducting of the cash that was wrested from them by dictatorial bosses such as crack the whip over them and their laugh at the sting of the lash. A thousand account of the disbursements of that $500 would be very interesting reading just now. Will the financial secretary and treasurer furnish it, or would its publication compromise some one?

REPUBLICAN PRIMARY.

The Republican primary at Sugar House last night was well attended, R. H. Love acted as chairman and Arthur Stayner Jr. as secretary. The following are the delegates selected to the Eighth representative district convention, which meets at Mill Creek today: Daniel Harrington, Geo. M. Cannon, Jno. R. Smith, W. F. Murphy, R. W. Sandrock, H. D. Lowe, James R. Smith. The following were selected as alternates: R. J. Larson, W. L. Hansen, Samuel Backwood, J. A. Goodhue, Joseph Muir.

A resolution was passed by the meeting, recommending the actions of the Democrats in endeavoring to make the election of school trustees a partisan question in the district.

DEMOCRATS AT FILLMORE.

A. Bird writes to the News from Fillmore as follows under date of the 16th inst.

"The Democratic representative district convention was held in Fillmore today. Seven county was represented by thirty-five votes and Millard county by thirty-one; after considerable canvassing by both delegations, Sevier presented the name of Mr. J. J. Stewart and Millard that of Joshua Greenwood. The nomination then went to the Sevier gentleman. An entertainment was gotten up for the benefit of the visitors in the evening and a grand, good time followed."

POLITICAL SHORT STOP.

The Liberal precinct conventions will meet tonight.

The Americans and anti-Americans meet in battle royal tonight.

An appropriate tombstone epitaph for the Liberal party after November 7th—"Died of too much politics."

Who registered A. Wolstenholm? Dr. Joel F. Allen the Liberal county registrar certified to the correctness of the rolls.

The Seventh representative district Democrats have nominated D. O. Rideout, Jr., of Draper as representative to the legislature.

R. C. Miller, of Mill Creek has been nominated by the Democracy for legislative honors from the Eighth representative district.

William H. A party has been placed in nomination by the Republicans to be voted for as superintendent of the Cache county schools.

At the Liberal city convention it is proposed to officially appoint Orlando Powers the Post Laureate of his party. He writes the kind of drivel that Guiteau and Ouseley used to.

It is reported that Fred Trimmer contemplates making an extensive eastern tour in the near future. Weather he will leave before the grand jury meets on the 1st prox. is not stated.

At the Republican legislative convention at Logan, nominations have been made as follows: For council, James T. Hammond, of Logan, for representatives, Wesley K. Walton, of Rich county and Mariner W. Merrill, Jr., of Richmond.

Patrick H. Lannan who wants prosecutor and wealthy Utah married to poverty stricken and diseased Nevada is quietly working for the nomination of U. P. Mason as Mayor on the Liberal and Lions and the defeat of R. N. Baskin.

A local lawyer has just received information to the effect that the courts in Elizabeth, New Jersey, have held that the residence of that city are entitled to only $2 a year for their services. He thinks that if the salary question was tested here the courts would decide that our city officers would not be entitled to anything at all.

The Powers machine gang are of the opinion that the alarmists are surrounded with politics. They thought at the outset they would be a party dress campaign, but for the fun of it, and they were in no way prepared for the approaching storm. The big black drops of purple indignation they now see have stricken fear in their souls and they know that they are only a gentle shower of the political hurricane that will sweep them from the land in November.

Home from the South.

Elder R. M. Wright of the Eleventh ward of this city, called at the News office this afternoon, having recently returned from a mission in South Carolina, whither he went in months ago. Elder Wright's early return is due to a severe attack of typhoid fever. During the time he could not be good he enjoyed his labors exceedingly. He is now gradually recovering and expects to be fully restored to health soon.

Visiting Salt Lake.

Mr. Wm. Quayle, accompanied by his wife and son, of Brooklyn, N. Y., and Mrs. Col. Dodgeson, of Cleveland, Ohio, are in Salt Lake on a visit. Mr. Quayle is engaged in the business of gold, in Sunny Utah. He is the son of Capt. Joseph Quayle, whose name is the mother of Tooele county. George Q. Cannon and Angus M. Cannon, of this city, and David H. Cannon, of St. George. Mrs. Dodgeson is the widow of Col. Creighton, who died his life at the head of his regiment, the Seventh Ohio, in the war for the Union. She is also first cousin to President Cleveland, their mothers being sisters. The visitors are delighted with Salt Lake City, and will remain several days. They are warmly welcomed by relatives here.

Suspending Mining Assessment.

The following is Congressman Bell's bill for the suspension of assessment work on mining claims for one year, as it finally passed the House of Representatives: Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of section numbered 2324 of the Revised Statutes of the United States, which require that on each claim located after the 10th day of May, 1872, and until patent has been issued therefor, not less than one hundred dollars' worth of labor shall be performed or improvements made during each year, be suspended for the year eighteen hundred and ninety-three, so that no mining claim which has been regularly located and recorded as required by the local laws and mining regulations shall be subject to forfeiture for non-performance of the annual assessment for the year eighteen hundred and ninety-three, provided, that the claimant or claimants of any mining location, in order to secure the benefits of the act, shall cause to be recorded in the office where the location notice or certificate is filed, on or before December thirty-first, eighteen hundred and ninety-three, a notice that he or they in good faith intend to hold and work said claim. This act shall take effect from and after its passage.

AMUSEMENTS.

THE GIRL I LEFT BEHIND ME company, accompanied by general Al Morrissey, brigadier general to Miss Frohman, is in town and quartered among the leading hotels. Their opening house tonight will be a mouth-full one, and the engagement lasts up to and including Saturday.

ADVISING THE COMMISSION.

It is Suggested that Three More Persons be Appointed to Hear Objections to Voters.

Messrs. C. O. Whitemore and D. C. Dunbar attended before the Utah Commission this morning and pointed out the advisability of the commissioners appointing not less than four persons to hear objections to the rights of voters to remain on the registration list. It will be remembered the commission had already appointed Attorney Chas. Baldwin to undertake this duty, and it was now suggested by the deputation that inasmuch as several hundred objections are likely to be filed, on the ground of the persons entitling to be voters not being bona-fide citizens and for other reasons, Mr. Baldwin, single-handed, would not be able to get through the work within the specified period.

The matter was taken under advisement by the commission.

Students' Society.

The regular weekly session of the students' society will be held in the Latter-day Saints' College building on Friday evening, Oct. 20, at 7:30 o'clock. Following is the program:

Lecture	Milton Musser.
Recitation	Miss Lucia Sharpe.
Lecture	Alonzo Cummings.
Song	Miss Rea Young.
Lecture	Miss Rose Jenkins.
Solo	Miss Ethel Young.
Lecture	Miss Ruth Cannon.

The public are invited to attend.

J. T. WOODBURY,
Chairman.

United in Wedlock.

Thomas A. Tousley and Miss Jennie Folsom, an estimable young couple who were united in marriage in the Temple yesterday, were given a pleasant reception at the residence of the groom's aunt, Mrs. Elizabeth Evans, of the Eighteenth ward, last evening. Mr. and Mrs. Tousley have many friends to rise city, and all wish them a peaceful and prosperous journey through life.

JUDGES OF ELECTION.

Uintah, Juab, Wasatch and Box Elder Courts Supplied Today.

The Utah Commission Making Good Progress with the Work.—Salt Lake Will Not Come On This Week.

The members of the Utah Commission met again this morning and made the following appointments as judges of election for the counties named:

UINTAH COUNTY.

Mountain Dell—Benjamin Jones, D., Edwin Oaks, D., Decker M. Cole, D.

Ashley—Geo. W. Bass, D., Robert Bailey, D., Dave L. Hills, D.

Vernal—John G. Davis, D., Geo. A. Davis, D., John Hamilton, R.

Leota—Thomas Stagg, D., Alonzo A. Dennis, D., Frank Gore, D., Lewis Ward, R.

JUAB COUNTY.

Nephi—D. F. McCune, R., Thomas Cowley, D., L. L. Hansen, R.

Moroni—Jesse Yates, D., John T. Kay, D., James Hendricks, R.

Levan—C. N. Lundquist, D., Eli Carter, D., Wm. Brown, R.

Juab—Wilson G. Tyler, D., John Keighley, D., Ray Tayler, R.

Eureka—Jesse Lombard, D., David D. Rowe, D., Ben S. Black, R.

Mammoth—L. F. Billingsley, D., J. M. T. Hoyt, D., J. H. Maxwell, R.

Silver Reef—R. D. Jones, D., Peter H. Cassell, D., Cone H. Buccour, R.

Pot Spring—Charles Cremon, D., E. W. Tripp, D., Frank C. Middleton, R.

WASATCH COUNTY.

Heber—Thos. S. Wilson, R., Fred W. Gow, D., Benjamin A. Riley, D.

Charleston—Wm. Probst, D., John M. Bonner, D., Leonard Harvey, R.

Daniels Creek—John Fisher, D., Mark Orgill, D., Wilford Bell, R.

Center Creek—James Lindsay, R., John R. Goodwin, D., Wm. H. Shook, D.

Lake—George Lee, R., Hyrum Cloud, D., Wm. H. Davis, D.

BOX ELDER COUNTY.

Box Elder—Brigham Wright, D., Wm. Jeppson, D., Geo. L. Gooch, D., R.

Bear River—Adam Nelson, D., Peter C. Jensen, D., James W. Green, R.

Call's Fort—Tomkins Wight, D., Abraham Wheatley, D., Israel Hansen, R.

Collinston—M. L. Empey, D., Elmer Loveland, D., John M. Sanders, R.

Clear Creek—Louis Duporrier, D., Chas. L. Richmond, D., Wm. Bell, R.

Deweyville—Milo V. Gardner, D., F. D. Holdaway, D., Daniel W. Mabie, R.

Grouse Creek—B. F. Cook, D., Samuel Kimball, D., Ruth Fortener, R.

Mantua—James E. Jarvis, D., Tom W. Cannon, D., H. D. Hyde, R.

Mount—Julius Keller, D., Chas. N. Jeppson, D., C. M. Jensen, R.

Promontory—Alma Cole, D., Thos. Davis, D., Alma Peterts, R.

Park Valley—S. B. Mathews, D., F. F. Carter, R., Jonathan Campbell, R.

Plymouth—John M. Hess, D., John Mason, D., Noah Wolverton, R.

Portage—Wm. H. Anderson, D., Wm. J. Mason, D., Wm. Gillies, R.

Tarbet—James Cutler, D., Lars Peterson, D., Joseph Roberts, R.

Three Mile Creek—D. R. Walker, D., John P. Roberts, D., John Hilliard, R.

Tremonton—John M. Hess, D., John Mason, D., Noah Wolverton, R.

Portage—Wm. H. Anderson, D., Wm. J. Mason, D., Wm. Gillies, R.

Willard—H. R. Corbin, D., S. A. White, Dem., John A. Edwards, R.

Junction—Walter T. Holt, D., Frank Tracy, D., Charles Foot, R.

October Exponent.

The October number of the Woman's Exponent is out and full of good reading matter. The contents are as follows:

In Rural England—A Story. The Children—Selected. Notes and News. A Few Reflections—Ida Hess. Perfection—Zion's Convent. Returning Home—W. Fest. Farewell Party—Ann Harvey. Relief Union Primary Reports. Slavery—Ann E. Neal. Obituary—Sarah C. Cox.

Editorial—New Zealand. Lesa. A Pleasant Journey and Visit. In Memoriam—Mary H. Thompson.

Poetry.—Jessie—E. L. O. Holloway—Albert Bigelow. To Sarah—Alofa.

J. D. Thayer, of the Merrill-Howe corporation of Minneapolis, Minnesota, is in Idaho, making an investigation as to whether it is advisable for his company to invest in placer mines on Snake River.

INTERESTING ITEMS.

Repudiating Outstanding Obligations of the Union Pacific.

PROPOSED BIG MINING EXHIBIT.

Copper Mine in North Cache Valley.—Mining and Miscellaneous News Notes.

The receivers appointed for the Union Pacific Railway have made an announcement that is of grave importance to employes who have time checks of the road for work done prior to May 1 last and to parties who have claims of any nature against the road antedating April 16, 1893. The receipt of the news has caused no little agitation among interested parties, as there are a good many people who have learned to look upon Union Pacific time checks to be as good as gold. But these have had their confidence rudely shattered by the recent orders.

When it was first suggested quietly that time checks previous to June 1 would not be paid, the attorney was made that in Salt Lake there were parties who would be seriously affected. One holder alone had $[illegible] in checks for work done in May, and under the order as understood these could not be paid. Further advices received today, however, open the way for the payment of emergency bills for May, all the time checks on which are dated June 1. But all scrip that date are shut out, and if the holders get anything it will be only after a lawsuit. The predicament is not a pleasant one for holders of antedated time checks, of which there are no doubt a great many over the entire system.

The order for refusal to pay obligations applicable to all bills contracted previous to April 16 is a most serious one for the applicants and to the receivers. The receivers received a very stiff lick in the shape of a decision of a federal judge to the effect that they may be able to repudiate, though their case may be in a fair way to win, the paid cash's upon appeal after a court.

The rules under which this order is to have been brought to pass are not, however, the result of any arbitrary action on the part of the receivers. They are promulgated by the court in its order granting the case to the receivers' hands. There is doubtless no issue to the case as presented to the court, which, from the outset, has been attended with so little fair play and by the machinery of the law.

To Be the Best Yet Seen.

The Mining association of California has decided that the exhibit at the Midwinter fair in San Francisco shall be made of outside the most magnificent mining display ever seen in the world. Twenty thousand dollars is spoken of as the amount to be expended, and of the fact greater than ever before will be collected for a display that will excel all former efforts. Advices in the line come from California to the effect that the Western states of the west will be represented in the fullest manner, and that the leading mining men in the land will be in the field in the exhibition as life through for the entry of what, one hundred years, the exhibit of the mineral resources of the country. As a means of the exhibit is to be given the three in Dome, Lemon, Lemon Grandstone in silver, lead, copper, zinc and other with the $5,000,000. The first pyramid is supposed to be of silver-ores. It should be about 100 feet square at the top and fifty feet high. It will weigh 500 pounds and would be worth $1,000,000. Another pyramid of $1,000,000 in gold, but in $5, $10 and $20 gold pieces. The third, to be of silver, dollar for a square at the base, one foot square at the top and twenty-one feet high. It would weigh twenty-nine and a half tons and would also be worth $1,000,000. Very few people have ever seen a million dollars and money alone and the display certainly would be interesting.

GOOD COPPER MINE.

James N. Davenport came in from Richmond Saturday and brought with him some specimens of copper ore taken from the Highland-Way mine, located in Maple canyon, near Franklin, Idaho, says the Logan Junior. Samples of ore taken from the surface of the prospect have been assayed and reports show that it carries 28 per cent of copper and $2.11 in gold. There is a large body of the ore in sight and the indications are that the Highland way will develop into one of the bonanza mines of this region. There are a number of other prospects near the Highland-Way, and development work is being vigorously pushed on them.

NOTES.

Richfield Advocate: James S. Whitehead, of Burrville, was in town Wednesday last. He reports everything moving on quietly, notwithstanding the severe loss in the wheat and oats crops which were badly frosted. Their main reliance will be on a good potato harvest and their stock.

The Consolidated California and Virginia directors have entered into a contract with J. H. Rule to open up a certain body of gold and silver ore which he claims is in the mine, and which lies between the 1100 foot level and the surface. Rule discovered it in 1884, in towing to a dispute which he had with the manager of the mine he refused to let the ore find and refused to disclose its whereabouts. He is to receive 10 per cent of the net proceeds of the latter's product until the amount gets him up regards $10,000.

Logan Journal: A large party of railroad survey men are encamped near Mendon. The Frame through Blacksmith Fork cut you last week looking over the Utah & Idaho Central route. They say the road is sure to come through this valley and that east of here it leads to rough great fields of coal. This is more to good news.
