**5 O'CLOCK.**

DESERET EVENING NEWS.

Wednesday, - December 14, 1892.

## FRAGMENTS.

THE jingle of the merry sleigh bells was heard on our streets until long after midnight last night.

THE Tooele Times is the name of a new newspaper venture. It comes from Tooele, and the first issue made its appearance on the 9th inst.

ARTICLES of incorporation of the Mount Nebo Reservoir & Canal company have been filed with Territorial Secretary Sells.

THE December session of the Utah County Teachers' association will be held on Saturday, the 17th inst. In the evening there will be a dance.

G. GOSBERT, a youth of 17 years, was found guilty in the Police court this afternoon of cruelty to animals. Sentence was suspended.

THE next speaker in the "Star" course of lectures, in the Theatre, next Sunday evening, will be Hon. Moses Thatcher. Subject, "George Washington."

A MILITARY ball will be given by the Salt Lake division No. 1, Uniform Rank, Knights of Pythias, at Younger's Hall, on Monday evening, December 19th.

HIRSCHMAN'S shoe store on Main street was entered by a robber on Sunday night last. The thief took with him sixteen pairs of shoes as a memento of his visit. No clue.

THE Union Pacific railroad is now within two miles and a half of Boise and the track will be extended to that city in a short time. The erection of appropriate buildings will then follow.

CITY ASSESSOR AND COLLECTOR LEONARD and County Collector L. G. Hardy have commenced levying on property on which there are delinquent taxes. Sales will commence in a few days.

IN October, 1891, John T. Dean was sentenced to a term of three years, in the First district court at Provo, for an assault with intent to murder. He has been pardoned by Governor Thomas.

THE NEWS acknowledges the receipt of an invitation to attend a grand ball to be given by the Utah County Teachers' association at the Springville central school house on Saturday, the 17th inst.

MARRIAGE licenses were issued by the county clerk today to the following: Wm. McQuarrie, 27, and Christina Hanson, 18, both of Salt Lake; Harry Wilson Parker, 26, and Alice E. Haylould, 20, both of Salt Lake.

THERE was only one order made by Probate Judge Bartch this morning. It was in regard to the estate of Sarah E. Gree, deceased, wherein Granville Gillett, C. G. Wilkinson and John A. Gillen were appointed appraisers.

H. V. MELOY, the county clerk-elect, spent some time with Clerk Allen this morning, taking a few pointers in reference to the duties of his new office, upon which he will enter on the first day of the year. Mr. Allen, when his term expires, will take up the practice of law in Salt Lake.

OFFICER WHITE while indulging in a pastime last night which policemen do not often have the opportunity to enjoy—sleighing—was thrown from a cutter attached to a spirited horse. He was considerably shaken up, but after brushing the snow from his 250 pounds avoirdupois he concluded to go on duty as though nothing unusual had occurred.

IN the case of Hopkins et al. vs. Guilland, tried in Judge Zane's court, the jury yesterday afternoon, acting under his honor's instructions, found in favor of the defendant. The facts were stated in yesterday's NEWS. The action arose out of a demand for $230.75 for work alleged to have been performed by Hopkins and others on a mining claim at Bingham.

AN entertainment will be given under the auspices of the Twenty-first ward choir tomorrow (Thursday) evening, in the Twenty-first ward meeting house. The programme is a varied and interesting one, consisting of musical and vocal selections, and the drama entitled the "Gipsy's Revenge." The proceeds will be used to defray the expenses of reflooring the meeting house.

LAST night delegates from the different builders' trades unions met and effected an organization to be known as the Salt Lake Building Trades Council. Its object is mutual benefit and protection to building tradesmen. George B. Cushing was chosen president and J. G. Wilkes secretary. A committee was appointed to draft by-laws and a constitution, to report at a subsequent meeting.

THE following building permits have been issued by Building Inspector Hamlin since the 10th inst.: Sarah Jones, for a one-story addition at the corner of J and Fourth street, to cost $400; J. E. Frosberg, for a one-story frame at 701 north Second West street, to cost $600; Costes & Corum, for a one-story brick addition at 541 west Second South, to cost $600; Philip Spry, for a one-story brick addition at 587 west Second North, to cost $412.

A GENERAL hope is expressed among attorneys who are accustomed to attend the sessions of the Probate court that the genial deputy of Clerk Allen, Canston Browne, Jr., will not sever his connection with the county clerk's office when his present chief steps out, on December 31st. Mr. Browne has displayed remarkable efficiency in the discharge of his multifarious duties while acting under Clerk Allen, and by his always obliging manner he has gained many friends in the department.

C. BUNTING & Co., merchants, have filed articles of incorporation with the county clerk. The incorporators are George Y. Wallace, C. W. Lyman and John Flowers of Salt Lake; C. Bunting of Blackfoot, Ida., and Frank A. Fyke, of Deer Creek, Ida. The capital stock is $75,000, divided into 750 shares at $100 each. The object of the company is to carry on a general merchandise business. It will handle ore, bullion, or any other commodity. The headquarters will be in Salt Lake.

## AMUSEMENTS.

CONGREGATIONAL ORGAN RECITAL.—The inauguration of the new grand pipe organ at the Congregational Church yesterday afternoon and evening was at once a keen disappointment and a genuine delight. The disappointment was on the part of the church people and Prof. Radcliffe, and was due to the very meager attendance that came out for both events; the delight was on the part of those who did brave the disagreeable weather and heard the charming programme arranged by the organist.

The new edifice is one of the handsomest churches in the West. Last night, with its mammoth stained glass windows illuminated, it presented on the exterior a most beautiful spectacle. The interior is divided into one large chamber, the church proper, and smaller rooms communicating with the church by folding doors, so that on special occasions the whole can be thrown into one hall capable of seating 1200 persons. The capacity of the main room where the organ is built is about 800. The interior is most tastefully and richly fitted up in ecru, the benches and all wood work being of highly polished light oak, so that walls, ceiling and seats harmonize most thoroughly. The room is octagonal in shape, with a gallery running two-thirds of the way around it. The organ and a raised platform from which the quartette choir and the pastor hold forth, occupy one side of the room, and as in the Tabernacle, form the great attraction that at once arrests the eye. The instrument has 2,600 pipes, and would suffice for a hall ten times the size of the church; but it can be modulated to the tone of the daintiest pianissimo.

Under Professor Radcliffe's masterly hands—and feet—for the Professor is as great an adept with the pedals as with the key board—the great instrument rolled forth its thunderous tones and its exquisite harmonies, and told immediately that it was all that had been claimed for it by its makers. Mr. Radcliffe said—and, by the way, his genius stops short just where speech-making begins—that in inaugurating a new organ he always thought it most fitting to give the place of honor to the compositions of Bach—the immortal master—who, as Mr. Radcliffe says, leads every composer who ever attempted to write the highest forms of music. Bach's Toccata and Fugue in D minor and his beautiful Gavotte and it were both given, and executed with the skill and taste that only Radcliffe could impart to them. A rapturous encore followed—applause was entirely unrestricted—and the professor gave "The Swanee River" with variations—which had also been done with success at the afternoon. The prayer from Moses in Egypt and Schubert Serenade last showed off the rich tones of the organ, and the Evening Star song from Tannhauser was surpassingly fine. The professor was aided by the church choir, Mrs. Edward, Mrs. Grey, Mr. W. H. Whitney and Dr. Bjornson, who sang in good style—though the gentlemen were far overmatched by the ladies. Mrs. Silver sang at the afternoon recital and was in very good voice. Mr. Grant Hampton and Miss Boyle were the soloists of the evening and both won very well deserved encores.

The recitals were most gratifying artistic successes, and the Congregationalists may well congratulate themselves on their church and its noble instrument.

JULIA MARLOWE—Miss Marlowe opened the new house at Boise, Monday night, and will arrive in time for her opening here tomorrow night.

## A DARING DEED.

### Dr. Higgins Robbed and Beaten in His Own House.

**HIS ASSAILANT ESCAPED**

**Unharmed, Although Three Shots were Fired at Him with a Revolver.**

There was a daring and successful attempt at robbery at 2 o'clock this morning. Dr. Higgins was the victim and the scene of robbery was at his own residence, No. 649 north First West street.

On retiring last night Dr. Higgins was not sure that he locked the back door of his house, but inclines to the belief that he did, as he has become so accustomed to doing so that he says it is now purely mechanical and unfailing with him. About 2 o'clock this morning he was awakened by the movements of a person in his bed chamber. He inquired in a somewhat startled manner: "Who's there?" Simultaneously with the utterance of this query he raised on his right elbow. Instantly the intruder—who wore a white cloth mask—struck at him with some heavy, blunt instrument. The force of the blow was broken by the doctor throwing up his left arm. Several more blows were struck and a painful bruise and cut were inflicted on the left breast. By this time the doctor was pretty well disabled, whereupon the robber lost no time in appropriating the doctor's pants and rushed from the bedroom and out of the house, jumping over the banister around a platform at the rear of the dining room to the ground, a distance of about ten feet. By this time Doctor Higgins had partially recovered himself, and, seizing his revolver, rushed to the door. Seeing a dark object on the snow and thinking it was Mr. Burglar, he fired upon it, only to discover that the aforesaid object was his pants and that the robber was fifty yards away making tracks at a lively rate across a vacant tract of ground. He then took aim and discharged two shots at the fast fleeing burglar, but both shots went wide of their mark and the fellow made good his escape.

A NEWS reporter visited Dr. Higgins at his home this afternoon and found him in his bed, his head swathed in bandages and groaning heavily from the effects of his injuries. He was suffering severely, he said, and related the above account with considerable effort.

He says he does not think that he can identify his assailant, but is positive that he was a white man and that he wore a white muslin mask.

Forty-two dollars were taken from the doctor's pockets.

### Taking Him Back.

Superintendent of the Reform School Allison, of Ogden, passed through this city today having in charge Ed Lewis, a lad who escaped from the school officers two weeks ago. He was apprehended at Deseret, Millard county.

### Almost a Hundred.

Sister Patty Sessions, familiarly called "Mother Sessions," died at her home in Bountiful at 6:30 o'clock this (Wednesday) morning of old age. She was 97 years and 10 months old at the time of her demise. Mother Sessions was a well known and highly respected woman. Her funeral will take place from the Bountiful Tabernacle on Saturday next at 1 o'clock p.m. Friends are invited.

An interesting account of the deceased lady's life will appear in these columns later.

# BY WIRE TO-DAY

## Fifty Lives Lost in a Mine Explosion in England.

### CAPRIVI AND HIS ARMY BILL.

### Rumors of the Near Outbreak of a Revolution in Mexico.

**THE BRUSSELS CONFERENCE.**

**The Question of Silver Legislation—Hindered by Nihilists.**

**Congress.**

LONDON, Dec. 14.—A fearful explosion occurred this morning in Hamlerlong Colliery, Wigan, and not less than fifty lives were lost. The men went to work this morning as usual after the mine had been inspected. Shortly afterward a fearful explosion shook the earth and a cloud of smoke shot up through the shaft. It is supposed the explosion was caused by the accumulation of coal gas, which the inspector overlooked on his rounds. As soon as the explosion occurred women and children rushed to the mouth of the pit and there were the usual heartrending scenes when such accidents occur. Steps were immediately taken to ascertain the extent of the disaster, and many volunteers offered to explore the pit.

LATER ADVICES.

Later advices say the loss of life may be less than at first reported, but the situation is critical. A hundred men remained in the mine unable to get out owing to a fire, which followed the explosion and which is raging fiercely. Every effort is being made to subdue the fire and bring the survivors to the surface. It is impossible at present to give the loss of life.

Twenty miners have just been rescued in a bad condition. Men are still below imprisoned in a seam below where the fire is raging. There is strong hopes that many of them will be rescued.

**IN GERMANY.**

**The Army Bill Likely to be Defeated.**

BERLIN, Dec. 14.—Caprivi is doing everything in his power to gain time in the hope of winning over the Centre party, but everything points to the abandonment of the army bill. The Socialists are actively organizing and, in view of the dissolution of the Reichstag, declare they are certain of an enormous increase in the votes. It is reported the magistrates are instructed to have voting lists ready for January 20. If this be true, it points to the conviction in government circles that dissolution is imminent and necessary.

**MEXICO WILL ASK A FAVOR.**

**A Petition to our Government to Remove Indians.**

CITY OF MEXICO, Dec. 14.—It is learned from an authoritative source that the Mexican government will present a petition the United States, asking that the Apache Indians, which now occupy the reservation in Arizona near the Mexican boundary, be removed to a greater distance from the international border. It is asserted that the near presence of the Apaches to Mexican territory necessitates continuous watchfulness on the part of the Mexican military and civil authorities, to prevent raids being made into their country, and that the movement of warring tribes to a reservation situated farther in the interior of the United States could be accomplished without difficulty.

**MEXICAN REVOLUTION.**

**Orders to Troops Issued—A Pronunciamento.**

GUERRERO, Mex., Dec. 14.—General Lorenzo Garcia, commander of this military zone, has issued orders to all the troops stationed along the frontier to be on the lookout for revolutionists and show them no mercy. All revolutionists captured on this side of the border will be dead ones in short order. A pronunciamento has been circulated among the ranchmen in Starr and Zapata counties declaring that a second invasion of Mexico will be made this month.

**Catholic Prelates Meet.**

ST. LOUIS, Dec. 14.—A council of suffragan bishops of the metropolitan see of St. Louis, of the Roman Catholic church, met here today. The two leading points of interest to be acted on are the choice of three names to be sent to Rome from which a coadjutor to the aged Archbishop Kenrick will be selected, and raising the diocese of Iowa to the dignity of a metropolitan see by the creation of one or two additional bishoprics and the elevation of Bishop Hennessy of Dubuque to the archiepiscopal dignity. It is not within the power of the council to decree this, but it can suggest the propriety of such action to the authorities at Rome. The council will be held in entire secrecy and the result of its deliberations will not be known till after action is taken at Rome.

**BATTLE IN MEXICO.**

**Official Report of Saturday's Engagement.**

GUERRERO, Mex., Dec. 14.—The government telegraph has been repaired and the official report of the battle near San Ygnacio has been sent to military headquarters. The battle took place fifteen miles from here and on order by a courier for reinforcements, Major Esquetel left immediately with 150 men, but the fight was over and the revolutionists had crossed the river into the United States when he arrived, taking with them twenty prisoners, forty horses and a large amount of ammunition and guns. The Mexican soldiers fought bravely, but there were only forty-five of them opposed to 200 revolutionists. Captain Segar led the charge against the opposing force, but he was outnumbered and was killed by a pistol shot from the leader of the revolutionists, who is thought to be Prudencio Gonzales, formerly a prominent rancher of Starr county, Texas.

**Gold and Silver Shipment.**

NEW YORK, Dec. 14.—The steamer La Bourgogne took a million dollars in gold, and a quarter of a million in silver. There is less talk about gold shipments by Saturday's steamers and accordingly the bullish feeling in the stocks is more pronounced. Everything depends upon the supply of commercial bills.

**THE MONEY CONFERENCE.**

**The Results of the Currency Debate at Present.**

BRUSSELS, Dec. 14.—It is considered probable that the international monetary conference will not adjourn without date, but will separate until some time next spring or perhaps only for a few weeks. The bimetallists from India and elsewhere are decidedly aroused over what they regard as the duplicity of the other side. It is claimed that Great Britain is using Germany and Austria to accomplish her purposes and that England does not dare to openly urge for fear of offending India as well as the British bimetallist sentiment.

A special committee of the conference has been discussing the bimetallic proposal of Sir William Houldsworth, of the British delegation, and one of the Belgian delegates, Allard.

Tirard is summoned to France to accept the office of minister of finance in the place of Rouvier, resigned. This has interrupted the discussion of Delegate Forville's proposal for the issue of warrants on deposits of silver.

**Federated Labor Meeting.**

PHILADELPHIA, Dec. 14.—At the meeting of the American Federation of Labor this morning the committee on resolutions presented a plan to create national or international unions, wherever seven unions of any particular craft have been formed. President Gompers thought it would not always be practicable owing to the weakness of new unions. The debate on the question was suspended to give the members an opportunity to listen to an address by ex-Senator Blair of New Hampshire, on his proposed improvement of the common school system.

**The Coming Yacht Race.**

LONDON, Dec. 14.—British yachtsmen are delighted over the acceptance of Lord Dunraven's challenge by the New York Yacht club, for the race for America's cup. All that remains is to fix the date for the race. Several other yachts are being built to accompany Dunraven's Valkyrie to America. They will enter other races there and the season of 1893 promises to be memorable in the yachting annals. Yacht Designer Watson alone is laying down the lines of four yachts to compete in American waters, including one for the Prince of Wales, which is said to be the largest cutter yacht afloat. Dunraven is very much pleased at the prospect of the race which, he thinks, will be a good one.

**ORDER OF SOLON.**

**The Case Against the Ex-Officers Resumed.**

PITTSBURG, Dec. 14.—The case of embezzlement and conspiracy against Godfrey, Ball and Mundorf, ex-supreme officers of the Order of Solon, was resumed this morning. An expert, Vaught, testified that the books showed a final shortage of $1,843. There was no explanation of the shortage of $4,000 and he had not told why or by whom the $12,000 afterwards were paid in. He found places in the book where pages had been removed and stubs, warrants and reports were missing. Some missing papers were afterwards obtained from Mundorf. The case for the prosecution rested.

The attorney for the defense in opening claimed that Godfrey at no time was short in his accounts, and it was due to his efficient management that the order was put on a good basis.

**INTERSTATE COMMERCE LAW.**

**Amendments Proposed Before the Senate Committee.**

WASHINGTON, Dec. 14.—A number of prominent railroad men, including Chauncey M. Depew and President Roberts of the Pennsylvania system, appeared before the Senate committee on interstate commerce this morning to advocate the passage of an amendment to the interstate commerce law introduced by Cullom to modify the existing laws so as to authorize the railroad companies to form pools under the supervision of the interstate commission, and to wipe out the penal clause of punishment prescribed, etc.

**Denies the Charge.**

PITTSBURG, Dec. 14.—District Master Workman Dempsey indignantly denies that he furnished poison to give to non-union miners at Homestead, as stated in the confession of Patrick Gallagher, the head cook.

**SILVER LEGISLATION.**

**Nothing Likely to be Done this Year, They Say.**

WASHINGTON, Dec. 14.—The silver and anti-silver men in the House engaged in a little light skirmishing in anticipation of the failure of the Brussels international monetary conference, from which the members say they expect nothing. Each is now endeavoring to learn something of the views of the other side. Talks with free silver men and avowed opponents of the present Sherman law show it is believed to be unlikely that anything will be done at this session, either in the way of the repeal of the Sherman law or the enactment of more radical silver legislation.

This morning the House coinage committee held a regular meeting. A day was set for the consideration of the Williams bill to repeal the Sherman law. Williams, its author, was not present and the bill went over. Then some very informal general discussion of the silver question proposition was put forward in a rather indefinite shape, that opportunity might be given in the House for a vote on the repeal of the Sherman law. Free coinage men were not unwilling that this should be done, but in order to preserve their present parliamentary advantage, the suggestion by which to accomplish this was to take up the Bland bill, which at last session was finally displaced by a few dilatory motions, after the speaker found it necessary to cast his deciding vote on the bill. Bland and Pierce, the leaders of the free silver section of the Democratic party in the house, expressed their willingness to give the other side an opportunity to offer the Williams and other bills as amendments to the Bland bill, provided that on their part the anti-silver men would agree to let the house come to a vote on the question of free coinage of silver and other propositions more favorable to the extended use of silver currency than the present law. Tracy and Taylor, Illinois, without committing themselves, were inclined to this view. The committee adjourned without action, however. It is thought if the committee was to agree unanimously upon some recommendation to the House that the support of the Rules committee could be obtained to a resolution making the silver bill a special order, but nothing in the past history of the committee warrants the conclusion that it will be able to act harmoniously and as a unit on the question of the consideration of the silver legislation in the House.

**The Montana Contest.**

HELENA, Mont., Dec.—In the legislative contest before the supreme court this morning the court gave counsel for the Democratic candidate till the 18th to answer the statement of counsel for the Republican contestant. The general belief is that the canvassing board will be ordered to canvass Box Elder precinct. This will elect Leigh, Republican. If he gets a seat both parties will be a tie with three Populists to decide the contest for United States Senator. It is believed Carter is first in the race.

**Smith's Sentence Pronounced.**

CINCINNATI, Dec. 14.—The sentence of suspension of Professor Smith, under findings of the Presbytery, was pronounced this morning. Both sides will appeal to the syndicate of Ohio. Professor Smith, it is said, will not be removed from Lane Seminary, as a large majority of the trustees favor his retention.

## CONGRESS.

**SENATE.**

WASHINGTON, Dec. 14.—In the Senate a bill authorizing the removal of the Pima and Gila Indians from the reservation of Arizona to another reservation was reported, and placed on the calendar.

The President's veto of the last session's bill to submit to the court of private land claims, the title of William McGarrahan to Rancho Panoche Grande, California, was laid before the Senate as a special order, and a vote was about being taken on the question, "shall the bill pass?" when Sanders demanded an explanation on the part of the friends of the bill of the reasons why it should pass. He explained his own understanding of the matter, one of his objections to the bill being that it rested on an imputation that the judicial and executive departments of the government had been for many years past guilty of wrong-doing in the premises. His own proposition was that even if the executive and the judicial departments of the government had declared the original grant valid, it still would not have found the remotest foundation for such provisions as were contained in the pending bill. He thought, therefore, the senators should be grateful to the President for having called their attention to the bill. The bill was debated up to 2 o'clock, at which time the morning hour expired, and the bill went over until tomorrow.

The anti-option bill was then taken up and George resumed his argument in support of his own substitute for it. In opening his remarks George called attention to the fall of four or five points in the price of cotton at the New York cotton exchange yesterday, and said that the fall was in the nature of a menace, because the United States Senate had undertaken to perform a great constitutional duty. He assumed the senators would treat such threats with that degree of contempt to which they were entitled.

The bill authorizing the removal of the Pima and Gila Indians from their reservation in Arizona to another, was reported and placed on the calendar.

**HOUSE.**

WASHINGTON, Dec. 14.—Cobb, Missouri, reported a bill from the committee on war claims for reference to the private calendar for the relief of the heirs of Mary Ann Randolph Curtis Lee, of Virginia, amounting to $217,000.

The publication of 10,000 copies of the President's annual message was ordered.

After business of minor importance, the House went into committee of the whole on the army appropriation bill.

Anthony, Democrat, from Texas, stirred up a little war by an amendment to the effect that no person pensioned by the government should be permitted to receive any pay under the pending act.

Anthony's amendment was rejected and the House passed the bill and adjourned.

**Hearing on the Immigration Question.**

WASHINGTON, D. C., Dec. 14.—The Senate and House committees on immigration held a joint meeting today and discussed the bill introduced by Senator Chandler to suspend immigration. It was shown by communications from experts that it would be positively necessary to suspend immigration for a period in order to keep the cholera out of this country next year. The joint committee took no action on the bill but adjourned till Friday when representatives of the great steamship lines will be heard.

**A White Woman Ravished by a Negro.**

BOWLING GREEN, Ky., Dec. 14.—An unknown negro this morning attempted to ravish a well known young lady of this city. The town is wild with excitement and a posse is searching for the miscreant. One negro has been arrested, and an excited crowd has surrounded the jail. The culprit will be lynched.

### The Ladies' Association.

The regular monthly meeting of the Salt Lake County Ladies' World's Fair association was held at the Groesbeck building yesterday. The meeting was called to order by President E. B. Wells. Reports were received from the committees on industrial arts, liberal arts, charity, philanthropy and ethnology.

Mrs. P. P. Jennings spoke in regard to the Columbian ball.

Mrs. W. W. Riter, having just returned from a trip through Mexico, gave an account of what is being done in Mexico for the World's Fair. The most exquisite work is being done by the Indian women and at the Orphans' Home.

Dr. M. P. Hughes made a few remarks and mentioned the meager representation of Utah at the New Orleans exposition.

The treasurer, Mrs. Bertha Bamberger, spoke of the necessity of raising means to meet the requirements of the county work.

The meeting of the association adjourned to Tuesday, Jan. 10, 1893, at 3 p. m., Groesbeck building.

MARGARET A. CAINE, Secretary.

### Samoan Mission.

Some missionaries will leave for Samoa about Jan 1st, 1893. Persons wishing to send packages to their friends on the Samoan Islands, should forward the same to Rowe, Morris, Summerhays & Co., not later than the 20th of the present month. The parcels should be small and securely packed.
