BUSINESS IS MUCH BETTER.

With the Exception of Grand Central, Prices are Down.

DALY-WEST SAGS TODAY.

Geyser-Marion Falls Back—Daly West—Mammoth Excessively Traded in—Lower Stationary.

TODAY'S METALS:

SILVER 58 15-16
LEAD $4.35
CASTING COPPER 17.

Prices on the exchange today generally show a falling off. With the exception of Grand Central all the leading stocks showed signs of weakness. Geyser-Marion fell back to 14, Alice Daly changed hands at 57½. Daly West dropped from $11.20 recorded at one sale yesterday to $9 today. Mammoth continues to hang around $3 and Northern Light keeps just over the 50 cent mark. Quotas is average selling today at 6c. Grand Central sold as high as $7.75, but weakened to $7.50 before the close. Lower Mammoth sold at 38½. If the report that another assessment is not for all should prove true the stock may go several points lower. Chicago Pilot sold around 41. Michigan Boston went to 9½. Joe Bowers at 19½, Dunker Hill at 4 and Tetro at 11.

We're going to have money now. Yesterday (Tuesday) we sold 30 Bicycles—wished for particulars.

ATTACK ON INDUSTRIALS.

It Had the Effect in Industry Street an Upward Trend of Prices.

Railroad Stocks Yielded Stubbornly, Sidelines Again—Burlington's July Statement Sends It Up.

New York, Aug. 31.—Good cables were taken for Americans in London and prove generally moved up at the opening here today in sympathy. The buyers were of prime way and attempted to a concerted effort on the industrials. Sugar was the exception to the rule. The Tobacco stocks were more wanted, Continental, preferred being taken up 1 point and Cotton Oil preferred Paper forced off on sales.

Some railroad stocks, while easier in sympathy with the industrials, did later advance quite.

Unexpectedly gold July statement caused a rally in Burlington.

Local stocks were benefitted by a 5 point rise in Consolidated Gas. Sugars, in direct opposition to better advices from Washington, were forced down 2 points. There was covering in the industrials, but the gains were subsequently lost on the sugar and Tobacco stocks. Colorado Market preferred moved the most grand stocks, among two points, Tobacco and Sugar, which made changes across points of Oregon Short Line.

SUGAR.

Sugar, raw, steady. Refined, quiet.

San Francisco, Aug. 31.—Wheat—Steady; Dec. 1.12½ bid, May, 1.16½ asked, 1.17 bid.

Barley—Steady; Dec. 81 asked, 80½ bid.

BOSTON WOOL MARKET.

Boston, Aug. 30.—The Commercial Wool and Cotton Bulletin will say tomorrow: The past week has been the quietest of any since the opening of the wool market for several months, some more correspondence with Boston and Philadelphia, but the total business is very light, and there is absolutely no change in the market of material importance to the trade. The situation, as we understand it, is that the manufacturers, who formerly used the Australian, but Boston could not be induced to make a change, are now using the Australian.

The consumption of wool in the country is greater than for many years, if indeed it has ever been sufficient to amount, and the stocks of the world must be supplied from Boston, which appears to be the only place in the world where modern manufacture possible. Trouble must, however, are still far from the end of the trouble, and the portation of wools in competition with Boston are adjustable.

The stock of all the wool in Boston amounted to 1,472,000 pounds domestic and 19,000 pounds foreign, making a total of 1,491,000 pounds, as against a total of 1,000,000 for the corresponding week last year. Wool sales amounted to 2,000 pounds, as against 1,000,000 pounds, against 3,716,000 last year at this time.

STRIKE IN THE YOUNG AMERICA

Values are Encountered at the Depth of 180 Feet.

LEVANT STRIKE PERMANENT

First Installment of 10 Per Cent Paid on Centennial-Eureka Purchase—General Mining Items.

News of a strike in the Young America mining claims at Tuscarora, Nev., was reported on the streets today. Inquiry at the office of W. S. Andrew elicited the fact that some very good values have been encountered in the new circuit at a depth of 180 feet. The property adjoins consists of three claims upon one of which a great deal of prospect work has been done. Some time ago the management decided to put down a shaft on the claim which adjoins on one of the claims. About two weeks ago they unexpectedly encountered a small vein which gave values of $20 a ton. While the work of sinking has been going on the property has been visited by a large number of prominent mining men, and a new horse-power hoisting pump with a capacity of 100 gallons per minute has been put in place.

The property is so well known, adjoins the Dickey and is a free milling proposition, the management feel that it will not lack long purchasers which is to be operated by them.

BUY UTAH COPPER MINE.

J. A. Hammond to Pay First Installment on Francis Property.

A Price special to the Deseret News of yesterday says: R. S. Cahill and W. A. Clark have purchased the Dennis Mahoney and Jim Hill, located near Vernal in Uintah county, by Denver capitalists for $100,000. J. A. Hammond, who represents the Syndicate, arrived here today to pay the first installment of $10,000, drafts for which were brought along.

The Dennis has been worked on a small scale for years and is a fissure in the present time yielding very some good copper ore. Lately a small mill has been erected on the property and the ore treated, but this has not proved satisfactory to the owners and it is thought that it should be worked by the investment of more capital was necessary. It will be worked to the fullest extent, and a tram will be put in the claim and it is located near the old Ute Indian Agency, on the side of the Colorado line.

Work on the Levant Claims.

The strike recently made in the Levant mine at Bingham has proved so encouraging that it is resumed to start a large force of men at work now after the first of the month. The dormant feet of timber was sent on to the property last week. The contract work will be pushed as soon as the debris of the cave in are removed. A force of men are now at the mine discussed and the owners are now working to secure some additional property adjoining their claims.

HAILEY HOT SPRINGS.

Sold to a Salt Lake Man for Something Under $100,000.

The Hailey Hot Springs have been sold to F. S. Wilson, says the Hailey Times. The price is stated to be $90,000. Mr. Wilson when seen by the editor of the Times said: "I was a cheap bag but would not state the figures. It was more than I intended to pay when I started in to buy the springs, but did not exceed $100,000. It is stated that over $200,000 was spent on the property, which was begun just as soon as the Hailey Electric Rr. took place.

Big Mine Seven Gold Dust.

A new shipper reported at the Gem suburbs Kansas City Smelting & Refining company yesterday afternoon. A small lot of specimen came in which exceeded the close-up from the new strike made at 180 ft. in the company's property near Pioche, Nevada. The shipment is returned as 7 ounces of gold and 7 ounces of silver, and it is estimated that this vein will be as good, which will be followed by regular lots in the future.

WEST MOUNTAIN GLORY.

Work Has Been Resumed and the Outlook is Encouraging.

A letter received from A. H. Burgess today states that the West Mountain Glory, upon which work was recently started, is looking well. A new strike was unwatered and mining was resumed about the 20th inst. The shaft is now down 40 feet and it is thought that a drift of only a few feet will be necessary from the shaft in order to tap the vein, which was encountered in another shaft at the depth of 30 feet. The other shaft was abandoned after the vein was encountered because it was too near the edge of the claim. The present shaft was sunk for the purpose of ventilating the drift in the first and on the first that the work will give towards the workings in the reports that Burgess is charged are about cutting the vein at a very short drift from the 30-foot level.

PRESIDENT H. G. WEEKS REPLIES.

The Journal Asks for the Report of a Competent Expert.

President W. H. Weeks of the Horseshoe Mining company has replied to the attack of the Engineering and Mining Journal's correspondent in the Mining Review. He says:

"Inclosed is a copy of the letter which he has received from Mr. Hayhurst of Denver, and respectfully ask you to publish it in your paper. I regards the testimony of these "interested" parties as not being sufficiently strong to justify the Journal in saying "we are responsible for certain and statements in the correspondent's production." The Contributor's "specific information" and suggests a report from "some competent disinterested expert whose statement would command confidence."

First Installment Paid.

The first installment of $10,000 has been paid by the Denver purchasers of the Centennial-Eureka, which represents 10 per cent of the price at which an option was secured on 2,000 shares of the company's stock. The terms of the agreement provide that the balance will be paid on or before January 1, 1900. It is stated that the total issue of 40 per cent will be paid before October. The purchasers have subscribed $100,000 and will take all the stock at $10 a share and so far 225 shares have represented at the Boston office of the company, which is actively interested with the minority holders. The amount paid in yesterday will be distributed among the stockholders who made up the pool of 2,000 shares.

MINES AND MINING MEN.

Six cars of ore were marketed today from the Grand Central.

The Taylor-Bradley sampler reported six cars from Tintic today.

The Sabbath discovery near Oberlin, Nev., is reported to be a very valuable find.

Geo. Dern is at his desk today having returned from visiting a Bingham property.

B. J. Jones of the Copper sampler office has returned from a short trip to Gibson, Idaho.

Charles Ashton is going to Eureka with a carload of Sacramento stockholders tomorrow in interest of Grand Central.

Capt. J. E. De La Mar arrived in the city last afternoon and will look over the mineral here before proceeding West.

The Bob Bee and other claims at Bingham in which Bob Byron and others are interested are said to be looking well.

Two strikes of copper ore are reported from the Ontario. There is claim which are being operated by Salt Lake parties.

The Copper Queen of Bingham has been assessed by the mining committee of the Utah Stock Exchange and will be called upon at the Exchange opens up next Tuesday.

The South Swansea Mining company has posted a dividend of $1,000 payable on the September 15th, to stock of record date September 2nd. The amount makes a total of $10,000 paid by the company.

J. W. Hooper's mill in Idaho Springs is mentioned in the Mining Times of the 26th inst. It is now operated by Jas. Matthews, a graduate chemist of Philadelphia. The party visited Salt Lake last year.

In La Mar (Nev.) Hornsager: The balance of the machinery for the April Fool boat arrived on Friday, and indications are that the boat will be about ready to get it in place. This is the important step towards exploring the depths of the Amargosa mountain below the bed of the lower tunnel. The contracts with which Mr. Healy is at work are generally speaking, of strong nature of better times for this section shortly.

Monk Tower: The visit of a number of Chicago capitalists to this place is still the main topic of conversation. Whether or not the visit will result in anything, we know that there are thousands present with our success, and for all other interested capitalists will take the best of the mining and mineral properties in that part of the Sub-Zero country are being perfected for the reception of the capitalists continuously during the coming winter.

LOCAL MARKETS.

August 31, 1899.

Below are wholesale retail figures on poultry, butter, eggs and cheese. Quotations are corrected weekly by J. E. Taylor (Taylor & Co., wholesale produce dealers.

POULTRY.

There is a good demand for poultry and the market is very bare.

What Do These Numbers Signify?

ONE MAY BE BLESSED WITH MANY OF THESE NUMBERS and yet be a victim of ever varying misfortune. Nothing can take the place of good health, and health the first of all blessings, can be secured at a very small outlay. Burlington Route

"It's 'Way Ahead"

There's at least one New York man who knows what's what. He was a millionaire manager from Kansas City in Denver a couple of years ago, and he comfortably lived back in a big city built in the wonderful days of the silver craze. He "STAYED" in spite of the silver craze. He experienced himself in this country. "Don't talk to me about New York," he said the other day, "I know all about them. They're ahead in it with the West. Look at this country's very school of prosperity. I've lived on both sides of the United States between Chicago and New York. And as for dining cars, I know from personal experience that there is no better meal than I can get in any restaurant in New York, with perhaps three exceptions."

If you take the Burlington's 1:30 p. m. or 5:30 p. m. train for Omaha, Chicago, Kansas City and St. Louis, you will have an opportunity of satisfying yourself as to the correctness of this New Yorker's statement.

Suits for Schoolboys

Never before has the Boys' and Children's Department at Siegel's abounded in so great a variety of strictly good garments—in making so the new stock every thing has been shipped that could not be conscientiously recommended for stylish appearance and unusual excellent quality.

School days will soon be here—the boys will require the attributes of new and becoming raiment. In extending an invitation to parents to inspect our exposition in School Suits, we assure them that everywhere else in Salt Lake can goods of equal worth be had which rule at our store.

SPECIAL!!! Our Mr. Henry Siegel, while in New York bought from one of the best known children's outfitters at 50c on the dollar—400 odd sample Suits and Reefers. These Suits and Reefers are sold by such houses as "Best," "Rogers, Peet & Co." and "Brooks"—Mothers can buy these Suits at just half their worth. In this lot there are garments that are worth $18.00. We invite your inspection, for we know you have never seen such novelties in Salt Lake before.
