AN APPEAL FOR ARMENIA.

Resolutions at a Meeting of Members of Various Churches.

Protection Guaranteed for American Citizens in Turkey as Well as for Armenians.

BOSTON, March 6.—At a meeting of ministers in this vicinity, representing various Christian denominations, held in Music Hall this afternoon, the pitiable condition of Armenians in Turkey were discussed and the following resolutions were unanimously adopted:

"Resolved, That in consequence of strong bonds between the United States and Turkey, it is the duty of the United States government to exercise its influence and authority to protect the interests of American citizens resident in Turkey.

"Resolved, That in view of the important interests of American capital and civilization in Turkey, and of the many years it is the duty of the United States to secure effect protection to each case of violence or such nature.

"Resolved, That it is the duty of our government to utter its protest against the Armenian atrocities that have shocked the civilized world.

"Resolved, That we appeal to citizens throughout the United States to use all possible influence with the government at Washington by petitions and otherwise to obtain indemnity for the past and security for the future.

"Resolved, That we suggest to all ministers of the gospel throughout the country to bring to the attention of their people on the last Sunday in April the facts relating to the Armenian massacre and the wholesale slaughter.

ALPERSON'S MESSAGE.

He Says a Certain Kind of "Paternal Law" is Too Common.

WASHINGTON, D.C., March 6.—Senator Angus Cullen went a special message to the state legislature today on the subject of street fairs in Chicago, declaring that the results are not those which the lawmakers should care or a look of words. He points out that the laws were originally made with a purpose to restrictions every five years to be fixed by commissioners appointed by the board, there to be paid on a basis of a per cent on the assessed valuation, but recently the board gives the right to appoint all three commissioners, making two of them to be appointed by the judges of the county. He is being proposed by some parties in Illinois to have the court were the right to secure retrospective supplies.

He points out that this time of Europe legislation is unfavorable for fixing rates, and asks the legislature to pass a measure act to prevent the act from the payment of an unjust monetary tax income.

He makes the particular point of fact that last great daily newspapers and school land issues and three of them usually published in school property, and more some of the papers in a special manner, saying that "warning on fire with one hand a pitiable life jacket with the other is a form of patriotism that is getting to be entirely too common."

Still in Favor of Bimetallism.

WASHINGTON, March 5.—The monthly rating of silver, presenting of $2,000,000 in gold reserve, as shown by the Treasury Bureau of Statistics, was the subject of serious inquiries by the Treasury Bank to the secretary at New York. The replies were to the effect that there had been no loss of gold, either for export or otherwise, and that the monthly loss was occasioned by a drain in hoarding, by which gold received on account of trade has been shifted to the general gold account.

Selling in Witchcraft.

BRAZIL, Ind., March 6.—The days of witchcraft are revived at Brazil. The battle was a man named Stapleton, aged 60, married Miss Johnson, aged 20 years.

Two years ago the wife left her husband, relating to her parents, since which time she says she has been controlled by a mysterious influence under which she has commenced spells. They say heavily upon her physically and mentally. She alleges that her husband has bewitched her, and seeks redress in the courts. The most peculiar phase of the phenomenal case is that by the other wife, as the wife alleges, the husband has transformed her into a horse, and repeatedly he has driven her under the cover of darkness to the point of exhaustion.

EXTERMINATION OF JEWS.

Anti-Semitic Rebels in the German Reichstag.

BERLIN, March 6.—During the debate in the Reichstag today, the question of exterminating Jewish immigrants was discussed. Herr Hass suggested naturalization should be made conditional upon the national sentiment of the individual applying for it and upon his ability to earn a living. Herr Bickert declared that Herr Hass wished to send a Chinese wall against free immigration.

Dr. Von Buchtlicher said it was contrary to the spirit of commercial treaties to prevent a Jew belonging to a contending state from engaging in trade in Germany. On the other hand there was nothing to prevent the government from expelling a foreigner who infringed the police regulations.

Herr Hermes, anti-Semitic and increasing international, violently attacked the anti-Semites, whom he declared to be a disgrace to Germany, and were even less than the socialists.

Doctor Ahlwardt, the notorious Jew baiter, made a violent diatribe against the Jews, whom he repeatedly accused of being heartless prey, extortioners and pleaters.

Herr Hentze pleaded against the president of the Reichstag, Herr Levitzow, allowing such a scandalous behavior to pass without censure, but Herr Hentze was himself rebuked by Herr Levitzow, who, amid loud applause from the members of the right, said he could not permit his conduct in the chamber to be criticised. To this Herr Hentze retorted, "If I have not a technical right to do so, I have at least the moral right on my side." (Great applause.) The discussion was then closed, and after heated personal criticisms, the proposal of Hass was rejected. Later the resolution of Von Buchtlicher with regard to Jewish immigration was rejected by a vote of 155 to 81.

MILITARY AND NAVAL ORDER.

Social Organization of Descendants of Veterans.

NEW YORK, March 6.—The Military and Naval order of the United States, a social organization whose members are lineal descendants of the male line of officers of the four wars of the republic—the war of the Revolution, the war of 1812, the war with Tripoli and the Mexican war—held its initiatory meeting in the Century restaurant formerly known as the Century house, 122 Williams street, this afternoon. The Tavern is for other scene in New York, dating back to 1752. It was formerly patronized by Washington, Lafayette and other distinguished men of the revolutionary times.

In the absence of Commander Beach, Vice Commander James H. Morgan presided. General English Foster, a veteran of the Mexican war, reviewed in a short address the causes leading up to and the results effected by that war.

General Egbert L. Viele spoke of the organization and its purposes and said this order succeeded in no way upon the other military societies in the United States. It included four wars where most of the societies recognized only one war.

Virulent Cholera Epidemic.

LIMA, O., March 6.—The smallpox scare is growing and mailers are scanning an alarming aspect. Several new cases have been reported, and a turbed state located in a boarding house near the business section of the city. Twenty-one houses, mostly tainted cases, are locked in, with several complaints of the house, despite being there was a case of smallpox, left before the health authorities took charge, and are now scattered in various parts of the city. An epidemic is threatened, as the case is of the most virulent form.

Seven Fifty Miles Away.

NEW YORK, March 6.—A most successful test was made this evening of the new weather signals exercised by the weather bureau in the tower of the Manhattan Life Insurance company's new building at 80 Broadway. Sergeant Elias R. Dunn, the lookout, F. H. Kimball, architect of the building, Superintendent A. J. Bassman, of the New York Electrical Equipment company, S. S. Lyon, C. O. Brown and several reporters came their way up a spiral stairway from the seventeenth to the twenty-ninth floor of the building, where the signal lights are situated in an octagon tower.

"Place signals," said Mr. Dunn, "will indicate approaching winds and will not be used as rain or snow signals. The red light alone indicates easterly winds and northeasters, white light southerly, and red and white, westerly or wind; a flash light with a green show will indicate a cold wave. Sergeant Dunn then seated himself as designated with the lights.

"There is nothing like them in the world. They can be seen nearly fifty miles."

A Broken Rail on Cars.

SPRINGFIELD, Ill., March 6.—Two coaches on the morning passenger train on the Indianapolis and Vincennes were derailed between Marion and Hudson this morning. A broken rail was the cause.

Not Stop Forward.

BERLIN, March 6.—A dispatch from St. Petersburg today says an imperial ukase has been issued prohibiting the use of Russian for officers commissioned by the assembly. Bulletins were submitted to the war showing that during the past two years 2,000 men are in danger of being whipped with the knout, and a greater number were only guilty of having stolen produce from farmers.

Gave Himself Up.

PHILADELPHIA, March 6.—"Jimmie" Logue, the notorious burglar and suspected murderer, gave himself up last night to the police. In addition to a list of crimes, such as burglary, bank robbery, etc., he is wanted on the charge of wife murder. Logue was connected with the robbery of the Catholic Beneficial Savings fund in 1876, and later robbed Naval Constructor Isaac Hasseltine of between $20,000 and $25,000. He is also said to have been implicated in the Manayunk bank robbery.

THE TEACHER PUNISHED

For Alleged Brutal Assault Upon One of His Pupils.

CHICAGO, March 7.—Principal Samuel A. Harris of the Burroughs school was arrested last night on a charge of assault and battery preferred by Albert Robinson, a scholarship. The trouble arose about a case of Robinson's who was a pupil of Mr. Harrison. Robinson was called on the floor near the boy's desk and he was accused of putting it there. He denied it but was kept after school and ordered to clean it up. The boy refused and claims the principal struck him in the face. The boy's face is badly marked and both eyes partly closed by the blows he says he received from Mr. Harrison. The older Robinson after seeing his boy's face started out to find the principal. When he did the latter asked what he had come for.

"For you," replied Robinson and the men of law and the men of letters at once settled matters. The fight lasted as long that would warrant for the patrol wagon but when it arrived Robinson was satisfied with his work and had gone to swear out a warrant for Mr. Harrison's arrest. The latter was badly used up in the fight.

SILVER AGAINST GOLD.

The Fight in 1896 on Bimetallism Not Partisan Lines.

NEW YORK, March 7.—A special dispatch from Columbia, S. C., to the World says: Governor John Gary Evans returned from Washington and Baltimore last night and when asked for his impression as to national politics, said:

"The fight in 1896 will be on geographical instead of political lines. The south and west will inevitably come together for free silver against gold. But from the last one is from the little state which presumed secession Senator Tillman would be asked to lead his consultation. I am satisfied that when the crucial issue comes he will be the central figure."

The Adel Bank Robbers.

ADEL, Iowa, March 7.—Orlando Wilson, who was killed yesterday while attempting to escape after robbing the state bank of Adel, has a brother, sister and two brothers in Lexington, Mont. The men are prominent and wealthy stock raisers there. The dead man was one of the twelve sons of the postmistress from Montana to Omaha, Nebraska, Kansas, Missouri, Illinois, Iowa, Nebraska, Montana and the Northwest, having a list of vagabondage and crimes.

Two years ago he robbed a Jew of $700 in Omaha in St. Paul and was convicted and sent to Stillwater for two years. Six weeks ago he was pardoned and returned to his old home in Madison county.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now 16 years of age, had been nervous and affected with nervousness, twitching and jerkings of the right arm. We feared St. Vitus dance, and tried the best physicians with no benefit. She was taken worse before we saw Dr. Miles' Nervine and has gained 15 pounds. Her nervousness and sleeplessness and St. Vitus dance are entirely gone. We attribute our success to Dr. Miles' Nervine and can not say too much for the remedy."

MRS. E. S. ATHOW, Ottawa, Kan.

Dr. Miles' Nervine Cures.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 6 bottles for $5, or it will be sent direct by the Dr. Miles Medical Co., Elkhart, Ind.
