

SAY BASEBALL RUNS IN FAMILY

Success of One Player Induces Brother to Enter Game.

ONLY A FEW REACH THE TOP.

Some Interesting Facts About Several Families Made Famous Through National Pastime.

Wahoo Sam Crawford has a brother who is looking for a place to start out in the game at which Sam has won his fame. Sam says he is a right-hander, can hit well and plays the infield. Sam was talking about his brother the other night and this started a discussion on the "other brothers" in baseball. There are many of them. Several of the Detroit stars are members of "baseball families."

Claude Rossman has a brother in Philadelphia who has taken his place vacated a few years ago on the town team. The Philadelphia Sentinel, which Claude exhibited the other day, told of the brother's ability as a hitter. Ty Cobb has a promising second in the Western association, Davy Jones and Charles Leary both have brothers in the game, and they both play on the same team in the Wisconsin State league—youthsters just starting out. George Mullin has a brother who looks much like he did when he first took to the diamond. Art will some day make his mark in the majors.

THE FAMOUS DELEHANTYS.
The Delehanty boys, of course, are the most famous of brothers. The sextet, headed by big Ed, won honors on the diamond. Next to him came the Donohue boys of Springfield. The Tighe brothers, running around the bases all through the south. They met two of them in Little Rock with the Boston American team, Pat and Frank, and they met a cousin from Springfield playing on the Cincinnati team. In Evansville, Will Donohue, another brother, shines. They meet the great light of the Donohue crowd in Chicago when they run across Jiggs at first base for the White Sox.

The number of men, Tighe figured, who have brothers following in their footsteps is legion. There are some great stars who have brothers unable to satisfy the ambition fired by the success of the older member of the family. It is seldom that two great players come from one family. Hans Wagner, for instance, has a brother who has made futile efforts to make good despite his size and strength. Lory Lajoie, another great diamond king, has a brother who utterly failed to last even in the South Michigan league. Christy Mathewson had his brother with him in New York. He was strong and had plenty of speed, but couldn't grasp the game. Christy, according to Harry Tuttle, has another brother now in college who is fast developing as a pitcher.

FEW BROTHERS SUCCEEDED.
In the present American league the Tannehill boys, Jesse and Lee, stand out as great stars, as exceptions to the rule. John Gangel of Cincinnati is also a star from a family of famous players. The Bannion brothers, once aspired for honors in baseball, they were fleet of foot but wild on bases, running like Cobb, but without Cobb's judgment. Hardly a player in the big league who has a brother but, has watched him make efforts to follow the same path. Very, very few of them have succeeded.

LAWYERS VS. DOCTORS.

Plans Laid for Baseball Game That Will Stir the Natives.

What do you know about a baseball game between lawyers and doctors? It is coming. Watch for it. The baseball fever has hit the lawyers pretty hard and the doctors think it is up to them to cure the fever. Yesterday afternoon a bunch of daring young lawyers met in the office of Dana T. Smith, J. P., and decided to issue a bold, sweeping challenge to the physicians, declaring they will simply slaughter the medics. The legal lights who may be expected to be on the team are Dana T. Smith, "Bill" Leary, Bert Olson, Max Brown,

TRYING TO CORRAL THE VANDERBILT CUP.

New York, April 28.—There were no further developments yesterday in the efforts of the Savannah representative to corral the Vanderbilt cup race. Jefferson de Mont Thompson, had intended to meet Hurley Granger and discuss the subject with him, but found it impossible to do so. The conference was put off until today when Mr. Granger is expected to make his plea. Whatever argument he may advance is not likely to decide the matter at this time, as the commission is strongly of the opinion that a definite selection of the course should be delayed as long as possible in order to hold the race as near New York as possible. However, some understanding may be reached which will be satisfactory to the Georgian, so that the way may be clear to proceed with the preparation of the extra roads necessary to complete a course of the desired length.

She avoided the early pace and came from a long ways back, winning from Governor Orman and Belle of Iroquois. Cloudlight and Fireball raced out like a team in the Alamog handicap and when the real racing began the favorite quit badly and finished outside the money. Native Son avoided the early pace and when let down won handily by a length. Cloudlight got the place from Cruzados.

First race, six furlongs—Emma G. 95 (Carroll) 15 to 1, won; Governor Orman, 119 (Fisher), 16 to 1, second; Belle of Iroquois, 107 (Kelly), 13 to 5, third. Time, 1:31.5. Nellie Racine, Ingano, Bellard, Sucoed, Paddy Lynch, Seattle Brady and Red Era finished as named.

HOUSE LISTENS TO MANY SPEECHES

That Part of President's Message Referring to Multi-Millionaires' Children Applauded.

REP. LEAKE ATTACKS HIM.

Says He Lacks Dignity and Seeks to Perpetuate Himself in Office By Proxy.

Washington, April 28.—Ostensibly considering the sundry civil appropriation bill, the house devoted most of its time today to speeches covering a wide range of subjects, and concluded the session by giving an attentive hearing to the president's special message. Although nearly every member had read the message in the newspapers, a large number remained in their seats, carefully following the words of the reading clerk. When the portion of the message referring to the multi-millionaire "whose son is a fool and his daughter a foreign princess" was read, there was a storm of applause equally prominent on both sides of the house.

Representative Leake of New Jersey criticized President Roosevelt as desiring to perpetuate himself in office by procuring the election of a proxy. He declared the president lacked dignity and poise.

He would have the emblem of the Republican party changed from the elephant to a dog if the present conditions were to continue, because the dog can bark and wag its tail at the same time, "so that no one is able to know which end to believe."

Sumptuary laws and especially the shutting out from army posts of the children were the subjects of remarks by Mr. Geobal of Ohio.

Predicting that "Roosevelt policies" would prevail at the next national Republican convention, Mr. Madison of Kansas paid glowing tribute to the president, declaring that his forestry achievement alone had realized "the dream of the age."

The great advantage the country would reap from the manufacture of all its cotton instead of sending two-thirds of that product abroad was the subject of a stirring speech by Mr. Byrd of Mississippi. By abandoning protective tariff principles Mr. Byrd believed that the result would be achieved.

Need for further educational restrictions in immigration was the subject of Mr. Burnett (Ark.), who deprecated the condition of immigration from southern Italy.

Mr. Jordon of South Carolina advocated the passage of his bill to limit the jurisdiction of federal control over interstate commerce, to permit states to control the liquor traffic within their borders.

Representative Keifer of Ohio discussed pension legislation, and directed caustic criticism toward bills introduced by his colleague, Gen. Sherwood. Later Mr. Ainsworth (Ohio), in a brief speech, defended pension measures presented by Gen. Sherwood, and expressed regret that two veterans of the war should be at odds over pension legislation.

Other speeches were made by Representatives Hitchcock (Neb.), Vreeland (N. Y.), and Hamlin (Mo.). At 5:05 p. m. the house took a recess until 11:30 o'clock tomorrow morning.

IMMIGRANT WOMEN.

Increased Protection for Them Is Strongly Urged.

Chicago, April 28.—Increased protection for immigrant women is urged in a final report made yesterday by the immigration committee of the Women's Trade Union league of Chicago.

The making of the report marked the closing of the immigration department of the league, the work being taken over by a committee of Chicago women interested in the immigration problem.

"Although special care is taken that the immigrant be given the best protection possible at Ellis Island," says the report, "the guardianship of the government ends when she is turned over to the various railroads. Sufficient protection is not given in this large class of travel, and the accommodations for them in the stations are most inadequate. The railroads do not assume sufficient responsibility in providing for the safety of the immigrant girl and woman to her final destination."

The Cause of Gas

Gas on the stomach indicates that food has fermented. The food is usually starch.

It ferments because it doesn't digest. The food was not properly cooked. The particles of starch have not been so separated that the digestive juices can get to them.

The remedy is not an artificial digester—nor a pre-digested food.

The remedy is to supply the starch in shape to be digested. Then let the stomach do the work for which it is intended.

When you toast bread, you notice that it digests better. You have applied more heat—broken up more of the starch.

But the perfect food for a weak stomach is Mapi-Flake. No other food in the world is cooked so well as that.

Our wheat is steam-cooked for six hours. Then cured for 90 hours. Then each separate berry is flaked so thin that the full heat of our ovens can get to each atom. Then the flakes are toasted, for 30 minutes, in a heat of 400 degrees.

The result is a food that's all food, because it all digests. No part will ferment to cause digestive disorders. Try it and see.

Mapi-Flake is the perfect food for those with weak digestions. It is the perfect food for the economical, because none goes to waste.

It is the perfect children's food, because it is the whole wheat, wholly digestible. So it makes it delicious—to make children like it—we boil it in pure maple syrup. The result is, they beg for it—beg for the food that is best for them.

Don't take a flake, prepared in one-fourth the time, because it is five cents cheaper.
