TELEGRAPHIC.

THERE'S MONEY IN IT

New Haven Arms Companies Ship Guns for China.

OLD PATTERNS TAKE JOHN'S FANCY

The Neutrality Laws No Bar to Supplying the Belligerents with Munitions of War.

NEW HAVEN, Conn., Aug. 11.—All reports to the contrary notwithstanding, the arms companies of this city expect to reap a rich harvest from the shipments of weapons for the Oriental war. Two weeks ago a test case was made by the Winchester company. Two members of the Chinese legation visited the factory of the company, bought a large order which was shipped for China, via Vancouver, at once, and the action by the government was awaited with anxiety. Noise has been taken and it is now believed that the shipment of arms to the belligerents from the United States will not be interfered with. This is plainly according to precedent. The case of Greco-Russian war was the most notorious examples of shipping of munitions to participate in war and recollection of the Greelan ships sailing in the local harbor and loading with New Haven arms is still vivid in the minds of people in this city. The Winchester and Marlin arms companies have furnished the munitions of war to many of the South American countries in the recent revolution as well as to a number of other countries engaged in hostilities. They are eager to ship large amounts of goods to China or Japan and will probably be permitted to do so.

An interesting incident relative to the order of guns just made in China is told by a Winchester employe. He said that on the occasion of the Lewat agents in the factory here, they were shown the various patents of arms and seemed to be entirely unknown to the knowledge of what was the most approved and desirable style of shooting irons. Finally they selected for their entire order of a pattern of ten years ago, a lot that the company has been for some time collecting about depositing of to advantage. Judging from this incident the Chinese idea of modern fire arms is not exactly fin de siecle.

The manufacturers think the edict of Wilhelm (Kaiser) of Germany, that no guns shall go from that country to the Orient will aid American shipments materially.

The Corn Crop.

SPRINGFIELD, Ill., Aug. 13.—The state board of agriculture will issue its crop bulletin for the month of August, next week. Several counties have not yet sent in reports and numerous changes have kept the publication back nearly two weeks. The corn crop is known to be in about the same condition as published by this week's government bulletin and will average about 25.35 of a crop. Other cereals will be shown to be in fair condition. Much rain is badly needed, and if it falls in sufficient quantities will have good effect.

INDIANAPOLIS, Ind., Aug. 13.—The weekly report issued today, of the Indiana weather bureau, shows a discouraging situation. The rains of Friday and Saturday were heavy enough only in a very few localities, to help corn. Corn on lowlands is still fair but that on light clay or gravel soil is beyond recovery and in some cases it has been cut for fodder. Tobacco is suffering severely for rain. Potatoes are less promising than earlier in the summer. Stock is suffering on account of the burnt up condition of the pastures.

Romeo Will Be Prosecuted.

CITY OF MEXICO, Aug. 13.—The killing of Joe Venz Tegui, by Congressman Romero in a duel, has produced a sensation in official circles and has provoked severe criticism upon the press and the killing practice. The government authorities have received instructions from President Diaz to punish him to the full extent of the law.

DESECRATED THE SABBATH.

Populists Arrested for Holding a Political Meeting on Sunday.

INDIANAPOLIS, Ind., Aug. 13.—Intense excitement prevails among the Populists because of the arrest of four of their most prominent leaders for holding a political meeting last night in desecration of the Sabbath. The arrests were made by Town Marshal Perry, of West Indianapolis. He was present at the meeting in the afternoon and threatened to arrest the speakers with a warning that the night meeting could not be held. No attention was paid to this and last night the square was packed.

Marshal Perry was present with a number of deputies and when the speakers started in they were placed under arrest.

The audience was in a fierce state of anger as the prisoners started off, and the women grew hysterical. Habeas corpus proceedings will be had today.

A Veteran Engineer Gone.

NEW YORK, Aug. 13.—George W. Watts, the oldest man in the service sailing from this ports as marine engineer, died last night. During the war he was chief engineer of the wooden ship Monitoria. He superviced the setting of chains across the Mississippi river to assist vessels into New Orleans.

A Washington Statue.

CHICAGO, Aug. 13.—A movement has been inaugurated for the erection of George Washington in Washington Park. The movement was the outcome of a suggestion of W. C. McCombs toward the close of a lecture last night. A committee was formed to take charge of the movement. Ex-Alderman J. J. Woodward was appointed chairman.

BERLIN GIFS.

Cholera Slowly Marching Westward—Victories for Axia.

BERLIN, Aug. 11.—Cholera is slowly but steadily spreading westward. The disease has obtained a foothold in Russian Russian provinces, where deaths by hundreds are recorded daily. Cholera cases in seventeen districts of Galicia, and scores of deaths from the disease take place every day in that section. In Prussia, especially in Dantzic, the situation grows worse on side of the side of the frontier at Gollub on the river Drawem, opposite Dobrzin, Poland.

Two strongly armed cruisers, Cormoran and Condor, now in reserve at Kiel, will be sent to eastern Asia. Two of the crews are manned by 100 men. The gunboats Iltis and Wolf, are already in Chinese waters, and with the cruisers sent in the far East last week, and the Cormoran and Condor, Germany will have a total force of seven ships and 1,000 men in the vicinity of Corea.

It is estimated nearly 30,000 Russian troops are in eastern Siberia, and they have with them sixty-four heavy guns. This, in connection with the fact that Russia has sent eight warships under sealed orders to Corea, and that the commander-in-chief of eastern Siberia will hold the troops in that district in readiness to march at any moment, is regarded as significant.

Prince Ernest is still at Varzin, and he continues to enjoy good health.

Gold Excitement.

MOBILE, Ala., Aug. 12.—The excitement over the recent gold find has been intensified by the discovery of rich find extending over a very wide territory, and many who have visited the field are making arrangements to remain permanently at the new field. A new town has been started and is called Blanca. Buildings are in process of erection and a stage line is running to the field. An agent of one selected with a view to erecting the porcelly demolition averages $700 to the ton in free gold.

Over Production and Low Prices.

MANCHESTER, Aug. 12.—The question of the market during the past week was unchanged, which means that matters were gradually approaching the point where over-production and record-breaking to low prices must induce drastic remedies.

In large exports consumers are apparently unable to absorb the output, therefore there are always seedy sellers who are ready to accept the best offers going.

The indications are the Indian markets are becoming glutted. Still, offers at new fields were fairly numerous, especially in Calcutta. Further east little was doing. The minor markets like South America and the Levant were rather more active. Yarns continued to sell slowly, as noted by weavers, generally at a loss.

Saved by a Boy.

ANDERSON, Ind., Aug. 12.—Yesterday Tom Dunkinson, a lad 12 years old, saved a disastrous wreck on the Big Four. The westbound passenger express had ditched and he let a fast freight pass. The switch nearest the freight was open and out of reach of the passenger crew when the freight was bounding along at a murderous speed. The lad took in the situation, and changed the switch barely in time to avert a wreck.

Judge Richs at Home.

CLEVELAND, O., Aug. 12.—United States Judge A. J. Richs has returned from his vacation, which was spent in Maine.

When approached regarding the investigation to be made of his official conduct, he said: "I have been five miles from a telegraph office, and have been only partially advised of what has taken place. I must, therefore, decline for the present to say more than that I am home, and have no fear of a fair investigation."

JAPAN AND HAWAII.

The Trouble with China Saved the Islands.

HONOLULU, Aug. 4—Japan was preparing to take a big hand in settling the Hawaiian affair when the difficulty with China came up.

Fearl harbor, which was lately taken possession of by the United States, has been surveyed, and the commander thus describes it:

"The more I see of Pearl harbor the more I am impressed with its military and commercial advantages. I have visited all the principal harbors of the world, and have never seen one that can compare in any way with this one. Twenty miles of wharves could be built there cheaper than in any other place in the world, as deep water is so close to the shores. Complete maps and charts of the work will be made as soon as possible and forwarded to Washington."

Ten thousand dollars' worth of bonds have been disposed of at par since the establishment of the republic. The previous price was 95.

From Fiji comes a report of a native revolt in the island of Vanua Levu, Fiji, which has been suppressed by the government forces. The trouble arose out of "Luva Ni Wai" or devil worship. The rebels surprised the native forces sent against them and killed several. They rattled off the dead, mutilated and ate them. This is the only act of cannibalism since 1855. Sir J. B. Thurston and the constabulary dormed the rebels and succeeded in dispersing them.

Cholera in Hong Kong.

VICTORIA, B. C., Aug. 12.—From Australia and the east comes the following news:

At Hong Kong it is generally believed that the plague will ruin Hong Kong as a port.

A large number of ships are transferred to Manila. Ships are in great demand, bringing enormous prices if they are available for carrying troops.

Medicine on the Stage.

NEW YORK, Aug. 12.—The World this morning announces that Maleline Pollard is to appear on the stage under the management of Clayton Roberts. According to Mr. Roberts, Miss Pollard will begin her engagement the middle of October in Chicago, and will appear in New York during the winter.

The Riders Reach Denver.

DENVER, Aug. 12.—The relay riders reached the city at 10:27 p. m.

The time consumed in carrying the message from Washington to this city, a distance of 2,052 miles, was six days, two hours and twenty-seven minutes. A gain of thirty-seven hours and twenty-three minutes over schedule time.

George McCarthy was the last rider. At Sand Creek he took the message and covered the necessary five miles in the dark in the remarkable time of twenty minutes. A. D. Block took the box from him and delivered it to Governor Waite, the message from President Cleveland, sent to General McCook, one from Greeley, Rock recipient immediately telegraphed acknowledging receipt of the messages, and Governor Waite made a speech that called his hearers.

VICTIMS OF A COLLISION.

Two Trainmen Killed and Several Passengers Injured.

A Terrific Crash—Engines and Cars Demolished—Hurled Through the Window.

KANSAS CITY, Mo., Aug. 12.—A disastrous head-end collision occurred on the Atchison, Topeka & Santa Fe railway between Hordan and Gibbs, Mo., at 3:30 this morning, between express train No. 3, westbound, and express train No. 4, eastbound, resulting in two trainmen being killed and several passengers injured, and the engines and combination express and baggage cars completely demolished. According to orders, the trains were to meet at Gibbs, and it is alleged No. 4 violated orders.

The trains met on a slight curve, and came together with a terrific crash.

Both engineers applied the air brakes and reversed their engines, which so far alone was the cause of saving many lives.

General Manager Fry was on the westbound train and gave directions and superintended the work of relief. The passengers in the smoker and chair cars of No. 3 were badly shaken up.

Justin McCarthy of Chicago was sitting in one of the reclining chairs when the crash came and was hurled through the window and was landed on a clay bank about six feet from the track. His injuries were not serious, having suffered but a slight gash on the head and hand.

Walter N. Durfee of Milwaukee was in the smoker next to the baggage car, and was also thrown through a window, cutting his face.

Conductor Clagnorn was in charge of the westbound. He handed his order to the Associated Press reporter, which nearly stated that the two trains were to meet at Gibbs.

The officials of the Santa Fe here say the conductor and engineer of train No. 4 were responsible for the accident, having disregard the telegraphic orders to meet train No. 3 at Gibbs station.

LOOKING FOR GROVE.

He Sold Town Lots and Stung Unsuspecting Eastern Editors.

DENVER, Colo., Aug. 12.—Many school children of this city are anxiously seeking for Charles P. Grove, alias "Blue Duck," alias "Four-time Millionaire," one of their own race. Grove, while here, posed as president of the Montana A Illinois Mining & Milling company, and armed with plates, plans and facts, succeeded in selling a number of town lots and mining claims in and about Grove City, supposed to be not far from Butte, Montana.

A number of colored people have gone to Grove City from eastern and southern cities, only to find that they had purchased worthless pieces of paper, and some of them suffered great privations.

"Tom King" Still at Large.

EL RENO, Okla., Aug.—12.—The recent report sent from Fredonia, Kan., that Mrs. Mandin, alias "Tom King," the notorious female horsethief and bandit, who broke jail December 1st last, and has since been at large, had been apprehended in that city, proves to have been a mistake. A woman who answered the description of "Tom King" had been arrested by the sheriff of Wilson county, but she proved before the Oklahoma sheriff arrived.

Rain in Nebraska.

OMAHA, Aug. 12.—All say generous rains have been falling throughout Nebraska, and the crop situation is materially improved. The rains have extended into Colorado, South Dakota, Kansas and Iowa. On the Union Pacific rain fell west of North Platte and at Gothenburg, Grand Island, Schuyler and other towns in the vicinity. Rain fell along the Burlington at Plattsmouth, Barwell, Ionia City, Hastings, Kearney, Curtis, McCook, Benjamin and along the Sheridan line. This gives rain to a large section of the farming districts in Nebraska, where corn has been much damaged, but agriculturists think that corn will be one-third of an average yield. The drought has given great impetus to irrigation throughout the state.

PALPITATION OF THE HEART.

Shortness of Breath, Swelling of Legs and Feet.

Going about four years I was troubled with palpitation of the heart, shortness of breath and swelling of the legs and feet. At times I would faint. I was treated by the best physicians in Savannah, Ga., with no relief. I then tried various remedies without benefit. Finally I tried

Dr. Miles' Heart Cure

and his Nerve and Liver Pills. After recovering my health I discontinued taking them and I am now in better health than for many years. Since my recovery I have gained five pounds in weight. I hope this statement may be of value to some poor sufferer.

E. S. ATTYEO, Wade Station, Ga.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. If it fails to benefit, druggists are authorized to give the purchaser a new bottle free or money back, on his personal word of his failure. Book, Miles' Heart Cure, Address, Dr. Miles' Med. Co., Elkhart, Ind.

Sold by all Druggists.

All Curable Diseases

ARE TREATED AND CURED BY DRS. SHORES & SHORES FOR $5 A MONTH. MEDICINES FURNISHED FREE.

Highest Award

FOR

Supreme Excellence,

TO THE

PUTNAM

HOT FORGED AND HAMMER POINTED HORSE

NAILS.

At the World's Columbian Exposition at Chicago: A medal and diploma awarded: "Supreme excellence in material, method in manufacture, and quality of finished product, strength and smoothness combined with holding power in nailing." It allows the use of very small nails."

There is another brand of nails which claims to have received the same award, but the Putnam Nail Co. alone received the highest award, the "Diploma" and "Medal" for "Supreme excellence in material, method in manufacture, and quality of finished product." Further, that of their "Patent Hot Forged Horse Nails" it is expressly said that "the claim is in excellence of the nail and not the claim is in holding power." Superiority in the nail, not superiority in holding power is the claim upon which the award was made. Large nails have more holding power than small nails, but the claim of superiority in holding power is not claimed for the nail, which they "Supreme excellence in material, method in manufacture, and quality of finished product." This is what the Putnam Nail Co. claims, and this is what the World's Columbian Exposition, through an expert committee of experts by a vote of twenty-two to one, awarded them the "Diploma" and "Medal" which they claim.
