MINING, BUSINESS AND STOCKS.

MARKET MUCH IMPROVED TODAY.

Uncle Sam and Carisa Sell at Higher Prices.

AJAX WAS ALSO STRONGER.

May Day Climbing—Daly West Active—Star Con Weaker—Ben Butler Strong.

Yesterday's improvement in the stock situation was more pronounced today and the investors were, as a result, in a very complacent mood today. The bear raid is now a thing of the past and the equilibrium of the market has been restored. Ajax partly recovered its weakness of the past few days and sold up to 92, while Carisa was unusually active at prices ranging from $1.20 to $1.23½. Daly-West released over 300 shares around $33.50. Uncle Sam was traded in as high as $1.37 though it weakened to $1.31¼ at the close of call. Star Con. was about the only weak stock. Sales were made from 27½ down to 26½. Ben Butler, with heavy shipments on the way to market, climbed to 19, while Victor advanced to 57½, after opening at 54. Tetro was stronger at 32. Joe Bowers released 1,000 shares at 5. Lower Mammoth was active at $2.70. Boss Tweed was in much better shape. From 38 at the opening it moved up to 51 at the close. May Day was in good demand around $1.18, closing quite firm at $1.16½. Tesora opened at 60 and, after dropping to 57, advanced to 59¾ on the closing sale. California was not active on the curb this morning, though as high as $1.20 was bid for the stock.

Closing quotations were posted as follows:

DEVELOPMENTS IN THE UNCLE SAM

Six Feet of Heavy Lead Ore Exposed Below Crandall Tunnel.

OPHIR'S RICH SILVER ORE.

Samples Shown Today—Judge Barich Has Option on Nevada Claims—Honorine Situation.

James Chipman and John Dern returned this morning from an inspection of the Uncle Sam of Tintic. They met Clarence E. Allen at the mine and the party examined the mine with the view of increasing the output. This matter is left in the hands of Mr. Allen who will consult with Mr. Roundy in the working of the mine. Mr. Chipman brought back a fine sample of heavy lead ore taken from an important development about 50 feet below the Crandall tunnel. After following a small streak of ore for a considerable distance the management has sunk on a chute of lead ore which gives every indication of being a big chute. It is widening out with depth and is at present about 6 feet deep. Because of this development, Mr. Chipman considers the outlook for the lower workings and a continuation of the ore bodies above to be better than ever. The Humbug appears about as usual and the prospecting in the May Day vein is said to be encouraging. A shipment of five cars of ore is one the way to market.

RICH SILVER ORE.

Lew Jeffs Brings Some Fine Samples To Town From Ophir.

Lew Jeffs and James Burke returned this morning from the Ophir of Stateline. They brought along some very fine samples of silver ore from that Stateline bonanza. On the 200 level a fine body of quartz is being developed in which a great deal of native silver appears. A fine streak of horn silver also appears in the drift with sulphurets and chlorides. The mine is said to be looking excellently, and as a stockholder in the company, Mr. Jeffs feels quite jubilant over the developments in the mine.

Mr. Burke says the mill is completed with the exception of the installation of the shafting, dryers and roasters, the arrival of which has been delayed.

JUDGE BARTCH'S PURCHASE.

Secures Well Known Property in Humboldt County, Nevada.

The Silver Star, of Winnemucca, Nevada, says that William Woolcock and Josie Phillips have sold the Sheba and Mammoth mines in Star canyon to Judge Barrett, of this city. It transpires that Judge Bartch is the person meant and not Judge Barrett. It was learned today that the four claims of the Mammoth have been bought outright and the other property has been secured under a bond which expires in two years. The property is located about twelve miles from Unionville in Star district in Humboldt county, Nevada. The ore carries silver and gold and the property is said to have produced several millions in the early days. The property is to be made the basis of a new incorporation which will be taken hold of by Boston people.

Cactus Payment Tomorrow.

A. B. Lewis has returned from Frisco and is now giving his attention to the closing of the Cactus deal which is scheduled to be pulled off tomorrow by the payment of $200,000 to the present owners. There is said to be no doubt about the bond being taken up as several other parties are waiting to jump in if the present deal should fail. The option expires at 3 p. m. tomorrow afternoon.

The Honorine Shut Down.

When questioned today regarding the withdrawal of pumps from the Honorine of Stockton, which is being accomplished, Willard F. Snyder said that it will be several months before the mine will be pumped out after it is allowed to fill with water. For nearly 18 months the development of the big ore chutes has been carried on at an enormous expense. Nearly $100,000 has been spent in this enterprise and now that the ore chutes have been proven to go down the company proposes to cut off the pumping expenses until such time as the big working shaft is ready, work on which will soon be started. In the meantime the shut down will affect many other properties as the Honorine people have been pumping the whole basin.

Sues the Overland.

Special Correspondence.

Provo, Oct. 18.—A lis pendeus has been filed with the county recorder by the Mercantile Trust company of Boston, giving notice that they have commenced suit in the Third judicial district court in Tooele county against the following defendants, for the foreclosure of a certain mortgage given by the Overland Gold Mining company to plaintiff, to secure bonds to the amount of $150,000, which mortgage covers all of the property of the said company wherever situated and that the sai action is now pending. The defendants named in the instrument are: Overland Gold Mining company, Morrison, Merrill & Co., Salt Lake Hardware company, Sunshine Water Line company, The Union Mercantile company, George M. Scott-Strevell Hardware company, Continental Oil company, Charles C. Beauregard, Asher Biddlecome and Charles A. Armstrong.

The Copper Situation.

The financial writer of the New York Times in a review of the copper situation says in part:

For many months the statistical position of copper has been increasingly unfavorable. The change began when the reaction in Germany effected a sharp reduction in the consumption of that country, next in volume to that of the United States. Exports of American copper began to decline rapidly, and from a total of 26,747 gross tons in the first half of 1900 dropped to 50,027 in the first half of the current calendar year. During this time production has continued unchecked at the rate of about 265,000 tons per annum. And the high prices maintained in this country have attracted considerable shipments of copper from the surplus stocks of Europe. Meanwhile, domestic consumption has not been sustained on a scale sufficiently liberal to offset these adverse conditions. It was relatively light during the first nine months of 1900, and while admittedly larger since the election than for nearly a year before, there is no evidence to show that it is great enough to compensate the producing companies for the loss in exports. There is undoubtedly a large stock of copper in first hands, due to the fact that exports have decreased about 50,000 tons this year as compared with last, and imports have increased about 15,000 tons.

Unfortunately, the policy of the Amalgamated Copper company is almost wholly a matter of conjecture. That it can continue to carry its steadily increasing load in an effort to bolster up a market declining in obedience to the immutable laws of trade, is not believed by consumers, and a cut to 13½ cents, or any other figure below the present nominal quotation, would probably have less beneficial effect now than a much more moderate concession would have had before public attention was so sharply drawn to the weakness of the statistical position of the metal.

MINING NOTES.

Eight cars of Ophir Hill concentrates were marketed today.

The Phoenix of Bingham reached the market today with two cars of ore.

The Lower Mammoth of Tintic had three cars of ore on the market today.

The Tiewaukee of Bingham had a car of concentrates on the market today.

Four cars of copper matte from the Bingham company's smelter were sampled today.

A car of concentrates was on the market today from the Queen mill in Bingham.

Rev. B. G. Roscamp, a heavy stockholder in the California of Park City, has arrived from Ohio.

L. C. Huck, president of the Annie Laurie Mining company, reached the city last evening from Chicago.

Messrs. Simon Bamberger, David Evans and John A. Kirby are expected home tomorrow from Tonapah, Nevada.

The Taylor-Brunton sampler reported three cars of ore from Tintic, six from Bingham and eight from Stockton today.

J. Clarence Hersey, a mining man of Leadville, is looking over the mining field with the view to investing if he sees anything that looks good to him.

Geo. G. Doyle has filed notices of location of the Annie and the Tracy mining claims, in North Tintic mining district joining the west and south of the Old Nick mining claim.

The president and other officials of the Bingham Con. Mining and Smelting company are expected to reach the city tomorrow from the East to attend an important meeting.

Director James Chipman, who has just returned from the Lower Mammoth, says the strike reported on the 1,000 level was only a kidney of lead ore. The management is drifting in a north and south fissure near the shaft, which is eighteen inches wide.

Baker City Herald: The famous old Phoenix mine, at Robinsonville, near the famous Bonanza mine, has been sold for $85,000. The well known property was owned by C. M. Berry, C. M. Collier, Len Barnett and D. L. Choate, who were equal partners, owning a fourth interest each.

The secretary of state this morning received a copy of the articles of incorporation of the Sweet Water Consolidated Mining company of Eureka. The company is capitalized at $30,000 in ten cent shares. The directors are Gilbert Swanson, J. C. Jansen, Delos Lombard, J. H. Pierce and Agnes Jansen.

Boise Capital News: Work on the Decorah mine in the Seven Devils district, is being pushed with all possible speed. The new tunnel being driven has tapped the old tunnel which was driven years ago. The old workings will be cleaned out and retimbered although some of the timbers are now in a fair state of preservation. Splendid bodies of ore have been exposed in the new tunnel and as developments progress the results are highly satisfactory.

CRUSHED TO DEATH.

Fifty Tons of Rock Fall on Workmen in a Tunnel.

New York, Oct. 18.—Fifty tons of rock caved in the Rapid Transit tunnel at 167th street and Broadway today, carrying death to an unascertained number of forty men who were at work below the surface.

THE KNOWN DEAD.

Peter O'Hara.
Daniel Kelleher.
Luigi Dahise.
Patrick Madden, foreman.

Foreman Madden was found pinned down by tons of broken rock, [illegible] feet being clear of the mass of debris. Many of the workmen were imprisoned in a small chamber of the excavation and their fate will not be known until the rescuers, who are digging toward them, reach the point where they are entombed. They are 600 feet south of the great shaft, at the intersection of 167th street and Broadway, and 110 feet underground. It was estimated by some of the engineers that there was air enough in the cave-in to keep the imprisoned men alive for several hours. The engineers decided that the only way to get to the cave-in was to tunnel around the rock which had fallen.

The contractors are unable to explain the disaster. They said it was the west side of the tunnel work that had collapsed and that it had seemed on inspection to have consisted of solid rock and to have been very firm.

GOLUCHOWSKI RESPONSIBLE.

For No Reference in Austrian Chamber to Prest. McKinley's Death.

Vienna, Oct. 18.—The Arbeiter Zeitung today makes the remarkable statement that Count Goluchowski, the imperial minister of foreign affairs, is responsible for the president of the chamber of deputies not referring to the death of President McKinley on the re-assembling of parliament, the contention being that although it is customary to refer to the deaths of foreign sovereigns President McKinley, being only an elected president, was not entitled to such a distinction.

Congressman Hull Some Better.

Des Moines, Iowa, Oct. 18.—The physicians this morning report that the condition of Congressman Hull is somewhat better, and it will be several weeks before he will be able to be out.

BUTTER AND EGGS.

Chicago, Oct. 17.—On the produce exchange today the butter market was steady; creameries, 14@21; dairies, 13@19.

Eggs—Firm; fresh, 17½@18.

New York, Sept. 17.—Butter—Receipts, 4,589 packages. Market steady. State dairy, 14@20; creamery, 15@22; June creamery, 17½@21; factory, 12½@15.

Eggs—Receipts, 8,221 packages. Market easier. Western candled, 21½; uncandled, 16@21.

PRINCIPAL STOCKS GAINED

Renewal of Buying of Northern Pacific Preferred Impressed Professional Traders.

Reaction in Sugar and Profit Taking in St. Paul and Union Pacific Weakened the Market.

New York, Oct. 18.—Uniform gains of a small fraction were made by all the principal stocks in the opening dealings. A renewal of yesterday's large buying of Northern Pacific preferred, which advance it to 103⅝, impressed the professional traders forcibly and they bought heavily of the Western and Pacific stocks. St. Paul, Great Northern preferred, Union Pacific, Southern Pacific and Missouri Pacific scored gains of 1@1⅝, and Tennessee Coal, Sugar and Amalgamated Copper also rose over a point. Lackawanna rose 4½. A reaction in Sugar and profit taking in St. Paul and Union Pacific subsequently weakened the entire market, and business decreased. The market remained hesitating and dull until a renewed upward movement began in Northern Pacific preferred, which rose 7⅛ to 108⅞. Elsewhere there was a sympathetic rise in the prominent stocks, some of which sold two points above yesterday's close. Minneapolis & St. Louis first preferred rose to 124. When Northern Pacific preferred reacted 3⅝ and Great Northern preferred 1¼, other stocks sold off.

Bonds were firm.

Northern Pacific preferred dipped to 105 and then rallied uncertainly to 107. Operators were so mystified by the movement that they allowed the market to fall into semi-stagnation. Only a few minor stocks moved widely until Brooklyn Transit was marked up a point.

Brooklyn Transit was pushed up to 62, and there was a belated rise of a point in Manhattan and Metropolitan Street Railway. Other specialties which figured in the early dealings included Laclede Gas, Sugar and Leather. The preferred stock of the latter gained 1½ and Lake Shore jumped 10 points to 210. Meanwhile the railroad list was drooping, led by a decline to 104¾ in Northern Pacific preferred and a later setback of 1@1⅛ in Sugar, Brooklyn Transit and Manhattan. St. Paul ruled a shade under last night and Northwest 1½.

MONEY AND BONDS.

Money on call steady at 3¼ per cent.

Prime mercantile paper, 4½@5 per cent.

Sterling exchange firm with actual business in bankers' bills at 4.86 for demand and at 4.83¾ for sixty days; posted rates, 4.84½@4.85 and 4.87½@4.88 commercial bills, 4.83@4½.

Bar silver 5[illegible].

Mexican dollars, 45½.

Government bonds steady; refunding 2s reg. and coup., 109; 3s reg., 107½; do. coup., 108¼; new 4s reg., 138; do. coup., 39; old 4s reg. and coup., 112; 5s reg., 106¼; do. coup., 107½.

SUGAR.

Sugar—Firm; fair refining 3 5-16@3⅜; centrifugal, 96 test, 3 13-16; molasses sugar 3 1-16. Refined steady. Crushed 5.60; powdered 5.20; granulated 5.10.

LIVE STOCK.

CHICAGO.

Chicago, Oct. 18.—Cattle—Receipts, 2,600. Steady. Good to prime steers, 6.10@6.80; poor to medium, 3.75@6.00; stockers and feeders, 2.25@4.30; cows and heifers, 1.00@5.00; canners, 1.00@2.25; bulls, 1.75@4.60; calves, 3.00@6.30; Texas steers, 2.90@3.80; western steers, 3.75@5.50.

Burlington Route

Civil Service On the Burlington.

There is one department on the Burlington that is better organized than on any other railroad I know of, and that's the Department of Civility.

Civility; civility—its civility everywhere from the time you buy your ticket and get aboard the train until you are escorted to your connecting train, or to your carriage or bus."—Denver Times.

Omaha, Kansas City, and everywhere beyond.
