THE LIGHTS PUT OUT

Question as to Whether the City or Company Will Capitulate.

DARKNESS REIGNS AGAIN TONIGHT

Councilman Callister Points Out that the Company Took Its Contract With Open Eyes.

The streets of Salt Lake will be in darkness again tonight as they were last night when the Electric Light company ordered its crews to shut off all public lights. Now the question is who will be the first to capitulate, the City Council or the light company or rather the company of darkness, as [illegible] It is not [illegible] that the people can stand the present [illegible] longer than can the [illegible] and unless there is a weakening of the spinal column of some of the city fathers the fight will go on.

The company sets forth that it could not afford to furnish lights at [illegible] per month; that it must have from [illegible] more than that. Concerning that point Councilman Callister, chairman of the committee on improvements, said this afternoon that it was rather late in the day to make that growl. [illegible]

[illegible]

The mystery [illegible] is propounded by Councilman Callister, "If the company knew it was a losing proposition, why did it, with its eyes wide open, [illegible] with the city for a year? [illegible]

Mr. Callister also gave some interesting figures compiled by the expert electrician C. H. McKay, who recently went east at the instance of Mayor Glendinning to investigate electric lighting. According to Mr. McKay, the old rate of $9.50 per month [illegible] is not particularly exorbitant when local conditions are considered. [illegible] Salt Lake has 270 lights, run according to moonlight schedule, which is nearly one-third less than the all night service. Ottawa, which has [illegible] lights for a similar service pays [illegible] per year; London, Ontario, [illegible] Guelph, with about the same number, [illegible]

For an all night service Cincinnati, with 254 lights, pays [illegible]; Omaha [illegible] lights, $120; Kansas City, 114 lights, $118.00; Pittsburgh, about the same number, $90. All these lights are furnished by private companies. In the event that the municipalities owning their own lighting system, Mr. McKay figures that the cost would be [illegible] City Creek canyon [illegible] $41,[illegible] [illegible] $61,200. The system, it is further estimated, could be maintained so as to give the city an all night service at a cost of [illegible] instead of a partial night service for $120 which the company now demands.

NATURAL GAS "NIGGER."

A Big Colored Man Reportedly Attempting to Hide in the Electric Woodpile.

The natural gas extraction controversy discloses the fact that a great big colored man is endeavoring to hide a grinning face behind the electric light company's woodpile. [illegible]

as a legal proposition. The company had a right to collect fifty cents per 1,000. That was little enough as a minimum rate for one thousand feet or a fraction thereof. Above that the rate should be [illegible] and [illegible] a schedule for around would be more just to all concerned than the arbitrary minimum rate of $1.50 per month.

The Yankees of the Orient.

The indications are that Frank G. Carpenter, the world-renowned newspaper man, will have a large audience in the Theatre on the night of Wednesday, the 22nd. Mr. Carpenter says the Japanese have proved themselves one of the greatest people of the world. [illegible] With him you enter the palaces of the Mikado and the huts of the peasants. You are taken into the [illegible] of the police and are shown the penitentiary and the prisons. You spend a delightful quarter of an hour with the [illegible] of the Japanese [illegible] and are taken into the presence of the emperor [illegible] Japanese giants. THE MINING CALL.

The Bulls and Bears Record Another Good Day on 'Change.

TALKS BY [illegible] AND COLBORN.

The Former on the Hotel Men's Excursion and the Latter on the Chamber of Commerce.

At the opening of today's call on 'Change, vice president [illegible] Holmes, the general "[illegible]" of the [illegible] called the brokers' attention to the fact that on the [illegible] of this month there would arrive in this city a party of hotel men who were at present on an outing in California. It was desired by the leading business men of Salt Lake that these people should be given a hearty reception when they arrived in our midst, and in order to do that about $200 would be required. The Chamber of Commerce has taken hold of the matter and proposed giving the visitors a drive in and around the city immediately upon their arriving from the train; it was also proposed to give them a free concert in the Tabernacle before they took their departure in the evening. He hoped the members of the exchange would interest themselves in the matter and be liberal in donating to the cause.

Town Judge Colborn [illegible] "The Tabernacle has done so much for this city and the entire Inter-mountain [illegible] Salt Lake Chamber of Commerce [illegible] Pittsburg [illegible]

[illegible]

At this point O. S. Holmes moved that all members of the Salt Lake Stock and Mining Exchange become affiliated with the Chamber of Commerce, and upon the motion being duly seconded, it was put to a vote and carried unanimously. The secretary of the Chamber will please govern himself accordingly and open up his roll book for the insertion of the names of the Exchange members.

Here the call commenced, and a [illegible] Mammoth was the stock wanted and when it was wanted a great eagerness for it was manifest. [illegible] Little Pittsburg. [illegible]

THE MERCUR MINE.

Story of its Purchase by Nebraskans and the Unpromising Which They Indulged In.

The Chicago Record of last Monday contains a very exhaustive and comprehensive account of Mercur's gold mines from the pen of its special correspondent in this city. From it the News culls the following:

In May of 1893 six Nebraskans paid $12,000 for what is known as the Mercur mine in Camp Floyd mining district in this state. They knew nothing of mining and the old timers were all sorry for them. Everybody in Utah knew that the mine had plenty of gold in it. Everybody thought, too, that no process could ever be devised that would make possible the extraction of the gold from Mercur ores at a profit. [illegible]

The original claim, now called the Mercur, was located by a Spanish prospector named Peruolo, in 1870. [illegible]

"One day, when we were all heartsick and almost ready to quit, I went rummaging through [illegible] something and stumbled on a circular of the MacArthur-Forrest process of treating gold ores with cyanide of potassium in weak solution. [illegible] Denver [illegible]
