CHIEF JUSTICE ZANE made some extraordinary remarks in court this morning in regard to what he had yesterday on the findings of fact in the case of Dunton vs. Cluts, familiarly known as the waterworks tax case. It seems that his Honor misunderstood the representation of the case by City Attorney Hall and, today, with characteristic candor, sought to set himself right. The judge's observations are reported verbatim elsewhere in our columns.

IRRIGATION COMMITTEE'S REPORT.

The committee on irrigation, to whom was referred the petition of F. L. Squires and others, representing that the waste waters from the tannery and woolen mills in Nineteenth ward were contaminated with poisonous dyes and other substances, reported that this statement was true, and the committee recommended that the companies be required to pipe their waste waters of the Eighth West street canal; also that the Rio Grande Western be instructed to place Sixth West street in good condition, and fix the excavation in that street so as to prevent lands from being flooded with water from the surplus canal.

The committee on irrigation, to whom was referred the matter of providing means for conveying irrigation water from street sprinklers in the different property within the sprinkling districts, recommended that the provision be made at the expense of the property owners. Adopted.

FROM THE CITY ENGINEER.

STREET COMMITTEE'S REPORT.

The committee on streets reported as follows: In the matter of the petition for the widening of Rapid Transit and Fort Douglas Rapid Transit company, asking for an electric street railway from the intersection of Fourth West and Second South streets, north to C street, thence south to the north line of South Temple street, and from intersection of Fourth and T street south to Lucy street, the proposed grant a franchise for a single track road be granted; that the petition of R. Lamph asking that Third North street from Fourth West to Fifth West be granted. Referring to the communication of the city engineer, relative to grading those portions of the sidewalks on the side of the pavement, we recommend that it be done under the same contract of grading the other portions of the walk; that the bill of the Strakhurst Asphalt Company for laying walk on State street be paid; that the material be stacked on a present site instead of Fourth West street by the Union Pacific; that the crosswalks on the west side of the city on South Temple, and Fourth and Second South streets extending west of West Temple, be of stone blocks and flagging. For all other crosswalks within the districts improved they recommend that the work be done, all walks to correspond in width to the width of the sidewalks within that district, and that bids for the work be let at once. Adopted.

The same committee recommended that the side track bill by the Rapid Transit Company between Ninth South street and the city limits be approved. Adopted.

SIDEWALK RESOLUTIONS.

Councilman Folland offered the following resolution:

Resolved, That property owners desiring sidewalks laid in front of their premises apply to the city engineer for measurements as to the cost of extra thickness for the same, the cost to be figured per foot of walk, and the cost per square foot or part of square foot, the property owner to pay the difference between the cost of the walk ordinarily used, and the cost of the extra thickness of walk and subject to all the agreements of contract with Salt Lake City.

The following substitute was introduced and adopted:

Resolved, That wherever, in any part of any sidewalk district, the permanent grade comes nearer the present concrete walk than the prescribed 18 inches below grade, the street committee with the city engineer associated are authorized to order the walk on the permanent grade.

Resolved, That the contractors for all sidewalks shall be made of the same material as the walks approaching such intersection.

AN INFAMOUS NOTION.

The following infamous motion that so strongly savors of "Liberal" vengeance was read by City Recorder Jack:

Motion that W. W. Orr, the janitor of the City Hall, be and is hereby appointed police judge and that the city council is hereby empowered to bring police arrested for violation of the city ordinances before said Orr at his office in the city hall for trial; Further, that the city auditor is hereby instructed to pay said Orr the same salary or money for acting as police judge that he has of the present month and that said Lacey is hereby instructed to vacate the office he now holds in the city hall.

JOHN ANDERSON,
W. F. LYNN,
W. M. PARSONS,
G. C. KARRICK,
W. H. H. STEPHENS,
A. J. PENDLETON,
PETER HEATH.

Councilman Lynn (quickly)—I second that motion.

Councilman Tuddenham—I am at a loss to know why this motion has been introduced and should like a little information regarding it.

Councilman Anderson—As I understand, Judge Lacey was not legally elected.

Councilman Young—Is it not true that the city attorney has not formally referred to a committee which, after investigation, reported that he was entitled to the seat he now occupies, and that this is an apparent malicious effort is being made to oust him?

Councilman Lynn—The committee did look up the matter at one time and after the completion of its investigation made a report allowing the Judge to act.

Mayor Scott—Yes, but Judge Lacey took his seat without any action of the Council—that is, his appointment was not confirmed.

Councilman Folland—I want to know (shaking vigorously) why the committee that investigated this case reported in favor of Judge Lacey retaining his seat I want to know, if there was any action of the Council that justified the Council it will be premature to take decisive action.

Councilman Karrick—If I remember rightly there was no report from the committee regarding the matter, but an opinion from the city attorney, who stated that Judge Lacey was in every way qualified to hold the position.

Councilman Young—It strikes me that this is a strange and unjust proceeding on worthy of the support of a legislative body. For a year and a half Judge Lacey has acted as Police Judge of this city. He certainly was duly appointed and held his seat by consent of this council. If he was not confirmed this council has been guilty of a great oversight. Judge Lacey has performed his duties in a fair and conscientious manner, so far as I believe, too, that he has been honest, fair and conscientious in the discharge of his duties as a public officer and has given general satisfaction. For three and other reasons I think the motion to oust him is wrong and unprincipled. An effort is made to remove him for no reason that is expressed in the motion itself, but for reasons which all who have read the papers can guess. I should like to know, Mr. President, if this is to be a rule leading upon such matters.

Mayor Scott replied in the negative.

Councilman Lynn—I wish to state that I did not take my present stand in this matter on account of Judge Lacey's secession from the "Liberal" party, as has been intimated, but for the make serious charges against this council by asserting that fraud was committed in a recent school election held under the auspices of the body, for that reason I seconded his removal.

Councilman Hyde—Judge Lacey is present and can speak for himself. I do not know right in the matter. I move that he be allowed to substantiate his statements.

Councilman Young—I believe one of the newspapers of this city did make certain statements attributed to Judge Lacey, but newspapers sometimes make mistakes. He may never have made those statements, or if he did, it may have been with substantial justification. To remove him for political reasons is something I am not prepared to take part in.

Councilman Pendleton—I didn't sign that motion for political reasons altogether, but the police officers have told me that when they have had occasion to arrest desperate characters that it would be well to use a shotgun. That, on top of the information that that statement in the newspaper referred to (meaning the Deseret News) charging this council with being in alliance with robbers, why is a man. It looks like he is spitting on the hands that is giving him bread. I have been acquainted with Judge Lacey since he was a boy, and I like him (almost weeping and mastering himself) that cuts no figure now. I signed the motion for the reasons given.

Councilman Parsons—It is said that Judge Lacey may not have been correctly quoted in the newspaper. I believe he was. If not he has been negligent, as he has had ample time to make a denial. I say he wants, without doubt, have corrected it had he been misquoted. If we have not the right to remove him it is time that we found it out.

Councilman Folland—I had hereto fore thought that I was acquainted with a body of men who were liberal in their views and reasonable in their transaction of business. But it seems to me that the only objection to Judge Lacey is because some of the members of this council are under the impression that he impeached their integrity as public officers, and further that he affiliates no longer with them politically. This is not crime. He is amply qualified to remain in the seat that he has so long and acceptably filled. I believe at least that he should be given a hearing in order that he might defend himself, and therefore I move that the matter be referred to the Committee on Police for investigation.

Councilman Anderson—(springing lightly his sit, he, not I object Mr. President, as the police committee have all they can attend to.

Mayor Scott put the motion to vote, and it was lost, the vote stands by a strict party vote, as follows: Ayes—Hyde, Folland, Hardy, Tuddenham, Young—5. Noes—Parsons, Pendleton, Spafford, Anderson, Heath, Karrick, Lynn—7.

Mayor Scott—The motion to refer is lost. I will now put the original motion.

Councilman Pendleton—I second the motion that Judge Lacey be allowed to vindicate himself.

Councilman Anderson—I object. He shall not speak with my consent.

Councilman Pendleton—I don't think we ought to deny him that privilege.

Councilman Lynn—I will consent on condition that he be limited to five minutes.

Councilman Anderson—I insist that he shall not speak. According to our rules, if one member objects that settles it. I still object.

Mayor Scott—Yes, that is true, I shall therefore put the original motion.

The motion was put and carried on another strictly party vote as follows:

Ayes—Anderson, Parsons, Pendleton, Spafford, Karrick, Parsons, Lynn.

Nays—Hyde, Folland, Tuddenham, Hardy, Young.

Sells Brothers circus gave two successful performances yesterday. The attendance was fully as large as the preceding day.

Mr. Goodfriend, advance agent of the A. M. Palmer company, and representing Mr. Al. Hayman, is in town. He is enthusiastic as to the success with which "Alabama" is meeting.

Beginning next Monday night, Mr. M. Palmer's company will be here in Augustus Thomas's successful American play, "Alabama". It presents a vivid picture of the South, and the exalted glories of its American stage. The actors who will be seen in "Alabama" are Mr. Maurice Barrymore, Mr. J. E. JUDGE ZANE EXPLAINS.

He Slightly Misunderstood City Attorney Hall Yesterday

IN THE WATERWORKS TAX CASE.

And Takes the Earliest Opportunity of Making His Views Clear.

Just prior to the commencement of the ordinary business in the United District Court this morning, Judge Zane said:

With respect to the findings in the case of Adam Duncan and others against L. S. Cluts, assessor of Salt Lake City, I am fearful that I was misunderstood in my remarks yesterday morning when the findings in this case were presented. What I meant to say in that case was that the evidence showed that previous to 1889 the entire cost of putting down water pipes in streets was paid by a minority who owned the property in the entire city, and that a change was then made by which the city was laid off into water districts and the cost of putting down pipes was made to be paid by that the water was a benefit upon the property abutting or within the range of the benefits was paid by a special assessment on the property, to the extent of three-fourths. In this case I held that the City Council had the authority to make the change from the old system to the new, but after the change was made that they must adhere to the new method; that after that they could not assess three-fourths of the cost upon the property holders benefited thereby in one district, and pay the cost for putting down the pipes in another district out of the general fund—that this would be unjust and unequal. It does not matter whether it is a main or otherwise. If it is necessary to extend the main pipe down a side street, as, say, Main street, and the property on either side is benefited, the owners ought to be compelled to pay to the extent that the property is benefited, because they happen to have property upon a main they should not escape all the expense of putting down the pipe and require those living farther down to pay the cost of putting the pipes down on their part, and then levy a tax on those same people who are called on to pay for putting down the pipe farther up on the main. Of course if putting down a main through a street does not benefit the property in the slightest degree, it should be because there would be no benefits to assess, but to the extent that the property is benefited, either by permitting persons to take water from the pipe or by the pipe from which water can be taken to extinguish a fire—to the extent of the benefit it might be assessed on the property within the district. The point did not mean to hold that the City Council had not the right to make the change from the old to the new system, but having made it they must adhere to the new system. I understood the evidence in that case showed that they had done that under the old system, prior to 1889 that the expense had been paid out of the general fund, and after that the money had been collected by special assessments. I make this explanation in order that there may be no mistake about it.

Mr. Frewen—Your honor holds that they cannot hold but one system at the same time?

Judge Zane—Yes; and I don't think it would be proper for them to change back from one to another. I am of the opinion that the new system is the just one, because the cost of the improvement is paid by the persons who have received a special benefit over and above the other portions of the city, and I think the change was a proper one. I did not wish to be understood as condemning the change at all. They must adhere to one system or the other; they cannot follow both at the same time.

GEE HOLDS COURT.

"Hush Money" Alleged to Have Been Paid to the Marshal by Shell Hunters.

The "Liberal" portion of the City Council having dethroned Judge Lacey, last night, by an unjust and unAmerican process of gag law, his place was filled by Judge Gee, who accordingly occupied by Justice Gee.

The prisoners first arraigned before the new magistrate were Ed. Vail, Robert Hume and John Davis who were charged with grand larceny. Their offense was the alleged stealing of a circus tent from a man named Bond, the former owner. The evidence was insufficient to convict and the defendants were discharged.

John McDermott, the notorious blind man, who, a few months ago, stabbed from Platte River, lacerated his face and who, on being apprehended and taken to the city marshal's office, attempted to knock down, and breaking his nose, is again in custody. Two days ago he was released from the county jail where he had been serving a sentence for grand larceny. Last night he engaged in a quarrel and fight with an unknown man on Commercial street. Officer Owen attempted to arrest them but when they took to their heels. The officer called out for them to halt, but they did not stop, whereupon Officer Young fired over their heads to frighten them. Night-watchman Dobson suddenly appeared on the scene and captured McDermott, the other man escaped. McDermott will be arraigned tomorrow.

A "shell" game was conducted on Washington street yesterday afternoon by a gang of "sure thing" men, and it is said that several victims were caught. The Tribune in reporting the case, this morning, stated that the operators "claimed to have paid the marshal $100 as hush money and therefore objected to being interfered with." The marshal says that it is an infamous falsehood.

Sad Report from Upton.

Bishop John Clark, of Upton Ward, Summit County, made us a call this morning. He reports that when he left home a fire was still smouldering that had consumed totally the yards and stacks of his son-in-law, Thomas Fowles. The fire was set by Mr. Fowles' little boy, six years old, who had taken some matches from the house and was building a fire with them in the yard. The parents were both absent. It was only two years ago that through the explosion of powder one of Mr. Fowles' little ones was killed and several others terribly burned.

ABSOLUTELY PURE

A BRUTE IN HUMAN FORM.

A Lamentable Tale of Domestic Infelicity Told in Court.

The old, old domestic story of drink, desertion, and cruelty was related in Judge Anderson's Court this morning on the hearing of a divorce suit in which the plaintiff was Jennie Leddington (daughter of Mr. James L. Chalmers, silk weaver of this city) and the defendant Frederick G. Leddington, by occupation a laborer.

The parties were married in Salt Lake on August 3rd, 1886, and it would appear from the wife's pitiful recital that almost from that time her husband had repeatedly given way to drunkenness, that he had habitually neglected her and her child (born in April, 1887), and assaulted her on various occasions. Owing to his misconduct the plaintiff found it necessary to leave him during the very first year of their married life, and took refuge at her father's house. She there remained for nearly a twelvemonth, Mr. Chalmers providing food and clothing for mother and child, and the plaintiff doing occasional work in her father's silk factory. The husband having promised to behave better in the future and lead an upright life, Mrs. Leddington, after taking the matter over with her father, consented to go and live with him again. He, however, failed to keep his promise in every particular, fell back into his drunken ways, acted with gross cruelty towards his wife, and wholly neglected to provide for her. On one occasion, about a month before the birth of the child, he made a cowardly attack upon her, and struck her several times. He was then arrested and sentenced to a term of imprisonment.

The father of the plaintiff corroborated the poor woman's statement as to Leddington's drunken propensities and his desertion of her and the child, and said that when his daughter came to his home for protection she had a mark over the eye, caused, as she said, by a blow from her husband.

The plaintiff is a pleasant-looking little woman, about twenty-eight years of age, but her face bears unmistakable traces of considerable mental anguish.

Judge Anderson granted the decree prayed for, and expressed his disgust at the conduct displayed. Nothing, he said, was too bad for a man who would deliberately strike or otherwise assault a woman in the condition in which Mrs. Leddington was shown to have been on one of the occasions of his brutality.

It is needless to say that the defendant had not the manliness to put in an appearance, preferring to allow judgment to go by default.

The plaintiff's attorney was Mr. A. H. Sawyer.

Death of Morgan L. Hinman.

A private letter from Cardston, Alberta, Canada, the village where the "Mormon" people are located, states that Morgan L. Hinman, an old and well-known former resident of Farmington, Davis Co., Utah, died there on July 8th. He had been afflicted with a nervous disease for months previous to his death, and suffered greatly during the last few weeks of his life.

Brother Hinman was a faithful and devoted Latter-day Saint, whose integrity and fidelity were unswerving to the truth, and was highly esteemed and respected wherever known. The remains were interred at Cardston.

BADLY BURNED.

An Explosion of Not Coal While Lighting a Fire.

About 1 o'clock today Mrs. Benjamin Boughlow of the Sixteenth Ward was lighting the fire at her residence on Fourth West street, and on putting some not coal into the stove an explosion occurred, setting fire to her apron and the floor around her. In fighting the flames she was badly burned on the inside of her hands and arms, and on the left side of her face, nose and neck. Dr. H. B. Pratt was sent for who dressed the wounds and made the patient as comfortable as possible.

Mrs. Boughlow says she used no coal oil nor other combustible, except the wood and coal, and the cause of the explosion therefore remains unexplained.
