ECLIPSE LOOKS LIKE WINNER

Seven Troughs Company Pushing Development With Much Energy Now.

LEASERS ARE SACKING ORE.

Big Bodies Milling Grade Ore Encountered—Mazuma Hills Shipments.

That the Seven Troughs Eclipse mine is one of the big propositions in the Seven Troughs district is the growing belief among the Salt Lake mining public. Reports coming in from this property of late have been of a most gratifying character and which have been duly emphasized by the exhibit of rich gold rock made during the past few days by Manager C. W. Watts, who has been here to confer with his Salt Lake associates. The property is responding splendidly wherever work is being done, Mr. Watts reports, and in that portion of the ground being operated by the company the winze is rapidly approaching the sulphide zone, where it is anticipated, ore carrying the sensational values characteristic of some other mines in the district that are more extensively developed. In the meantime, some extensive bodies of mill ore are being developed in this particular portion of the mine.

Ten leases are working on one of the Eclipse company's claims. All of them are on well defined veins; eight of them are being pushed vigorously and on several of them, ore is being sacked for shipment. The fact that practical and experienced miners are willing to work such small lots as 250x350 feet of ground—which is the size of each lease—and spend their own money in the development of them, **is a condition** which lends much encouragement to shareholders.

Mr. Bishoff, one of the directors of the Seven Troughs Mazuma Hills Mining company, owning property adjoining the Eclipse directly on the south, is in the city with a high grade shipment of ore. The last lot, it has been learned, averaged better than $450 to the ton in gold and Mr. Bishoff confidently expects that the lot now at the sampler will even show up better results. Another shipment is ready and will probably arrive at one of the valley sampling plants some time next week. In all probability the Mazuma Hills will become a regular shipper. The company was organized as a close corporation and outside of the small lot sold out of the treasury right at the beginning, none of the stock has ever reached the public. It is controlled by a wealthy syndicate of Colorado mining men, who cleaned up snug fortunes in Cripple Creek.

Mr. Watts will return to the Eclipse property tonight. In fact, he declares, things have become so interesting that he doesn't like to be away from camp at all.

SEVEN TROUGHS HIGHER.

This Stock the Real Attraction on Mining Exchange Today.

By great odds, the feature of the day's trading on the floor of the Salt Lake Stock & Mining exchange was the advancement made by Seven Troughs. The stock has been steadily climbing for several days; but this morning brokers seemed to have a large number of buying orders on hand and beginning at 49, it advanced to 59 cents without a whimper and closed with sales being recorded at 56 cents. South Columbus reacted somewhat from the flurry of a few days ago and declined; while Uncle Sam Consolidated came up none too brisk in the face of the action of the directors in posting the usual dividend. The impression prevails again that Beck Tunnel will not respond with a dividend during the current month, so the stock is weak. It sold down to 56 cents. Lower Mammoth closed stronger. Ohio Copper sold at $3 and Seven Troughs Con., at 10 cents. The closing quotations and sales were:

PARK CITY STRIKE IS CALLED OFF

Miners Voluntarily Remove the Ban Against All Bamberger Mines.

READY TO RETURN TO WORK.

Company Declares Merit Alone Will Govern in Selection of Employes.

The Park City Miners' union has officially called off the strike declared several weeks ago at the Daly West and other Bamberger mines, situated in the Summit county camp. At a meeting held last night, and by a vote of 146 to 45, the miners acknowledged the error they had made and they are now ready to return to work.

The company, it is understood, has had no negotiations with the union in the mater of calling off the strike; however, two members of the strike committee were in the city a few days ago and called on Manager Ernest Bamberger. The men were cordially received, but Mr. Bamberger told the committee members that the company could not recede from its position of being absolutely impartial as to the employment of union and non-union miners; that merit alone would govern in the selection of men; that the management reserved the right to employ and discharge whomsoever it chose.

The action of the miners last night at Park City is only a confirmation of what the "News" stated a few days ago in which it was indicated that the Daly West and other mines under the direction of Mr. Bamberger would resume operations again in a few days, notwithstanding that smelting conditions are not altogether satisfactory. The strike was called nearly two months ago and affected over 500 men all told, many of whom have been out of employment ever since.

GOING TO JOPLIN.

H. S. Joseph Says Utah Delegation Will Pull for Los Angeles.

H. S. Joseph expects to leave for Joplin, Mo., in a few days as a delegate to the session of the American Mining congress. He is authority for the statement that the Utah delegation will use its efforts towards securing the next session of the congress for Los Angeles. It is reported that Columbus, Ohio, will be in the race for the next meeting and Reno, Nevada, is already setting forth its right for recognition.

FROM PARK CITY.

Calling Off of Strike Hailed With Much Satisfaction in Camp.

Park City, Nov. 7.—At a largely attended meeting of members of the Miners' union, held at the Opera House last night, it was voted to call off the strike against the Daly West, Ontario and Ontario Drain Tunnel, which has been in existence for the last six weeks.

Manager Ernest Bamberger informed a committee of the miners day before yesterday that there would be no discrimination against members of the union when work is again resumed. He reserved the right, however, to retain or discharge men as seemed best to him. He could give no assurance as to when operations would be started again, but thought he would be in a position to say in the course of two or three days. The condition of the metal market, he said, made the situation very unsatisfactory, and it was quite probable that not so many men would be employed as prior to the shutting down of work. The other properties in the camp would also be affected by the same conditions, said Mr. Bamberger.

The ending of the difficulty between the company and men is hailed with much satisfaction here.

NEW MINING COMPANY.

The Mineral Flat Mining company filed articles of incorporation in the office of Secy. of State Tingey today. It is a Provo concern and owns claims in Utah and Salt Lake counties. The capitalization is $100,000, and the par value of the shares 10 cents each. The officers are: Jesse Knight, president; J. C. Jensen, vice president; R. E. Allen, secretary and treasurer.

ONTARIO TUNNEL TO BE OPENED AT LAST.

(Special to the "News.")

Park City, Nov. 7.—On top of the welcome end to the strike at the Daly-West now comes another bit of news causing no end of rejoicing in this city. This is that the Ontario tunnel will be opened in a few days after cave-ins have blocked it up for several years. With the Ontario tunnel opened again the whole district will assume its old-time activity and prosperity.

BINGHAM SMELTER TO CEASE OPERATION.

According to Boston advices some important changes are about to be inaugurated by the Bingham Consolidated Mining & Smelting company. The smelter at Bingham Junction is to be closed and the Bingham company will not undertake the reduction of any of its ores until the proposed new smelter of the Miners' Smelting company is built out at the south end of the Great Salt Lake; with which concern, contracts have been entered into for the treatment of the Bingham company's ores in the future.

At the local offices of the company today, no one was inclined to talk for publication; nevertheless the information was obtained from a source that can be relied on, that the closing order has been received and that it is a matter of only a few hours until it will be carried into execution. This will mean a reduction in the office forces, as well as in other departments, and naturally not a little uneasiness prevails on the fifth floor of the McCornick building today. It is probable the smelter will clean up all the ore on hand before closing down.

LOCAL MARKETS.

In today's local markets, the change of the seasons from the highly productive to the limited productive is noted in the falling off of the varied shipments from the coast. These are mostly confined now to grapes, lemons and apples, with a few of the minor vegetables. It is between seasons with oranges. The car load shipments today comprise bananas from New Orleans and potatoes from Idaho. There is much complaint from southern Idaho because of the failure of the Oregon Short Line to furnish cars with which to handle the local potato crop, the result being that local growers who brought their tubers to the shipping points were unable to ship, and so are reported to have lost opportunities to sell that amount to a loss of thousands of dollars. It is claimed that long strings of refrigerator cars are sent through to the coast, that might just as well be held here for a short time, to handle the southern Idaho potato crop. A complaint has been made to the Harriman authorities in Chicago about this condition of things.

New black figs are in the market, stuffed dates, the last run of Bellflower apples from California, express shipments of very nice grapes, etc.

There is no more barracuda or shad in the market. There is a slight falling off in meat prices, while dealers predict a further decline as outside buyers are now few, so that an increasing number of cattle and sheep are being driven into the local markets. Good Utah, Concord grapes are to be had, a variety that will always be popular because of its sweetness. Timothy hay is off 5 cents and potatoes are getting cheaper. The prevailing prices today, are as follows:

U. S. OFFICIALS FOR STATE OF OKLAHOMA.

Washington, Nov. 7.—The president today announced the following appointments for the new state of Oklahoma:

John H. Cotteral, judge; John Embry, U. S. attorney, and John Abernathy, United States marshal for the Western district. Ralph E. Campbell, judge; William Gregg, U. S. attorney, and Girve A. Porter, U. S. marshall for the Eastern district.

For Alaska, Silas H. Reid, judge of the district court of Alaska.

CHLOROFORMED AND ROBBED.

Upper Sandusky, O., Nov. 7.—William Ropp, local agent of the Fort Wayne & Hocking Valley railroads, was chloroformed today by yeggmen while asleep in his office and the safe was ransacked. One hundred dollars in cash and 500 railroad tickets were taken.

TRANSFERRING CURRENCY.

New York, Nov. 7.—The sub-treasury today transferred for banks currency, the amount of $1,37,000. Of this amount $850,000 went to San Francisco, $137,000 to Philadelphia, $100,000 to Denver, and $50,000 to New Orleans.

STOCK PRICES SOME WERE LOWER

Raising of Rate of Discount by Bank of England Was the Immediate Cause.

NOT SO LOW AS IN LONDON.

Good Buying for Both Accounts, Followed by Some Recovery Then A Falling Back.

New York, Nov. 7.—There were sharp declines in the opening prices of stocks in sympathy with the weakness of foreign markets, which was due to the advance in the official discount rates of the Bank of England and the Bank of France. The declines here did not carry prices as low as the level ruling in London. There were a few points of resistance in the market, including Great Northern pfd. and Southern Railway, which rose ⅝. The Canadian group was notably weak, Canadian Pacific falling 4½ points, Colorado & Southern second pfd. declined 3¼, Union Pacific, Southern Pacific and Baltimore & Ohio 1¾, Atchison, Reading second pfd. and American Smelting 1, and Pennsylvania and Toledo, St. Louis & Southern pfd. ¾. Tennessee Coal sold at a decline of 9 points. Transactions were limited in amount and there was recovery after the opening.

The low prices at the opening encouraged buying for both accounts, and there was a slow recovery which pulled the Harriman stocks up to yesterday's closing prices. The balance of the list hovered about midway between yesterday's closing and today's opening figures. Amalgamated Copper developed weakness afterward but its fall had no effect on the market. Tennessee coal sold down to 1½, a loss of 17 points. Chicago Great Western pfd. "A" also yielded 8½. Amalgamated Copper 1⅝, and Great Northern Ore certificates 1. Wabash pfd. gained 1. Prices yielded again at 11 o'clock.

Prices fell back to below the opening level quite generally under light selling orders. Amalgamated Copper was forced 2¼ under last night, American Smelting 2, Atchison 1⅝, Union Pacific, Reading, Sugar and Anaconda 1½, Illinois Central 1¼, and Great Northern pfd., United States Steel pfd. and Mackay companies 1.

Louisville & Nashville rose 1½ and Western Union a point. There were cash sales of Tennessee Coal down to 162. Westinghouse Electric fell 4. Bonds were irregular.

The tone of the market remained heavy. American Smelting was offered freely and broke to 67, a decline of 2½. St. Paul sagged 1¼, and Kansas & Texas 1. The market became steady and almost lifeless. Losses reached 2 in Illinois Central and American Cotton Oil and 1 in New York Central, Northern Pacific and North American.

PRODUCE.

Chicago, Nov. 7.—The wheat market today opened weak because of lower cables from Liverpool which were based on an increase in its rate of discount by the Bank of England. A rally soon took place, however, on buying by commission houses, which was founded upon small receipts in the northwest and reports of poor crop conditions in Russia. All of the early loss was regained. December wheat opened ¼ at ⅜ to 1⅛ at 91⅝ at 92½, and sold up to 93¾.

Corn was weak at the opening because of lower cables and favorable weather for the crop in this country. Later prices rallied along with wheat. December corn opened ¼ at ⅛ lower at 57⅝ to 57⅞ and sold at 58¼.

The oats market was dull. Prices followed the lead of wheat and corn, being weak early, and strong later. December oats opened ⅝ lower at 48¼, sold down to 48⅛ and reacted to 48⅝.

The provisions market was native and weak. Packers sold the list generally and live hogs were 10 to 20 cents lower. January pork opened 20 cents lower at 13.00. Lard opened 10 cents lower at 785. Ribs were 5 at 7½ cents lower at 700.

Chicago, Nov. 7.—Close: Wheat, December, 99⅝; May, 100 at ⅛.

Corn, December, 57¼ at ⅝; May, 58½.
