EDITORIAL NOTES.

The wreck of the *Metropolis* is one of the most terrible marine disasters of the times. Read the full account in our dispatches.

A school-house lot in a New Hampshire district stands in two towns, so that the pupils cross Ridge, the teacher in Newbury-wich, and recess is taken in Auburnham, Mass.

Horseflesh is used extensively in Paris in lieu of beef. It is much less in price, but the equines used for meat are those which are useless for work by reason of age or lameness. We don't hanker after that kind of diet.

Slade, the spiritualist, does not flourish in Europe as he did in the United States. Swindlers are not treated with the same degree of forbearance in the "effete monarchies" as in this vigorous republic. Prosecuted in England he fled to the continent and has been run out of several countries, "spirits" and all. America offers the freest for the "mediums."

The Peruvians want what Americans wish to get rid of. Chinese cheap labor is the bugbear of the Pacific coast and a trouble to statesmen. But the Peruvian government welcomes John to its plantations, has granted a subsidy of $120,000 to a company to run a line of steamers to Hong Kong and guarantees the freedom of the country and eighty cents a day to coolie laborers.

"Hanging's played out, an' killer don't get more'n two years any way" was the remark of a Chicago murderer. The consequence is that, as an exchange states, one assassination a week is the rule in that lively city. Death for wilful murder, is the penalty affixed by Divine command and imposed by human law in the best governed communities.

Musical Hours, considering the amount of good music it contains and the style in which it is published, is the cheapest musical monthly in the country. Valued at the rate of sheet music, each number is worth $2.50 and a yearly volume $33.60. Yet it is published at $1.50 per annum. Calder and Careless are agents for Utah.

Several years ago a wealthy planter and three of his slaves were executed at Rio Janeiro for murder and arson. The house of one of his tenants was burned, a young and handsome girl of sixteen had been outraged and all the inmates of the house, eight in number, had been murdered. Circumstantial evidence pointed to Motta Coquetro, the planter, as the chief criminal, and despite his protestations of innocence, he and three of his slaves, supposed to be implicated in the affair, were hanged. Quite recently a dying man in the north-west part of the country confessed that he and other desperadoes committed the horrible crimes, killing the family and burning the house to conceal the outrage upon the girl. This is another awful case of the danger of reliance upon circumstantial evidence alone.

THE PEOPLE'S CONVENTION.

THIS evening the Convention of the people's delegates will meet in the City Hall at 7 o'clock to nominate a ticket for the municipal election, which is to take place on Monday the 11th inst. Delegates only, with the exception of members of the press, will be admitted. It is not a public assembly, but a meeting of delegates representing the People's Party. If it were a mass meeting there would have been no occasion for the election of delegates to that meeting.

The ticket to be nominated should be one which the masses of the people will be able to support at the polls. The convention is held for the purpose of exhibiting national preferences or antipathies, nor for the discussion of political or religious sentiments, but to nominate men for municipal offices who will be true representatives of the bulk of the citizens, and who will labor for the general welfare. The delegates have the right to express their opinion upon the qualifications or disqualifications of proposed candidates. But they should so they will speak, not in a personal capacity, for the vindication of individual notions nor to represent factional predilections or animosities, but as the mouthpiece of the People's Party to prepare a ticket on which the people can unite.

Two tickets from a People's Convention would be a manifest absurdity. The decision of the majority on names proposed should be the voice of the whole convention, and union should be the motto of the delegates as well as of the people they represent. By union we do not mean a dumb and unintelligent acquiescence in the views of others, but a conclusion arrived at after a fair, free and honest expression of opinion, and the result of light mutually reflected producing harmony and banishing discord. And such a finale can always be reached, consistently and fully, when personal feeling gives way to unbiased patriotism.

The venerable adage "In union there is strength," can find no better application than in the history of the people who have founded this Territory and who more than any others are interested in its welfare. To divide them is the grand object of their enemies, for they can only be overcome by disunion allied to carelessness. We believe that the people's delegates will keep this in view in their deliberations, and that they will not take any step which will tend in the least degree to weaken that force which is the result of union of sentiment and action. Let us have a ticket that will receive the cordial respect and support of the great majority of the people, and our city will continue to grow and flourish and increase in general prosperity.

CONGRESSIONAL.

HOUSE.

WASHINGTON, 1.—Baker, of Indiana, presented a charge against the doorkeeper of the House, reciting that he has on his rolls 63 names more than are authorized by law, and demanding an investigation; The subject was entertained as a question of privilege.

EASTERN.

The Silver League.

NEW YORK, 1.—The *Tribune's* Washington special says: The silver league is flooding the country with copies of Voorhees' late speech in favor of the silver bill. The speech is printed as a broadside, with headings of the different newspapers, and sent out by them as a supplement of their regular issue. Other documents are being mailed from Washington by thousands daily, and there is every indication that the $500,000 said to have been raised by the silver miners of the Pacific Coast, is being put "where it will do the most good."

The Chinese Question.

The House committee on education and labor has instructed Willis to prepare a joint resolution authorizing the President to invite the friendly offices of Great Britain with China to secure a meeting of representatives of the United States and China to see if something could not be done toward restricting Chinese immigration without infringing upon the existing treaty obligations.

Wreck of a Schooner—The Crew Drowned.

During the storm, yesterday, the schooner *Edw Hayes*, supposed to be from Providence with a cargo of salt, went ashore on Plum Island, in the Sound, and sunk with all on board. Captain Stevenson, of the schooner *Chester*, reports sighting the *Hayes* signalling for assistance, but finding it impossible to reach her owing to the heavy sea and dangerous locality, bore away. Suddenly a high sea swept over the poop deck of the *Hayes*, which threw her on her beam ends, and in a few moments she went to pieces and sunk out of sight.

Further Particulars of the "Metropolis" Disaster—The Drowned—The Saved Destitute of Clothing.

WASHINGTON, 1.—The signal service station at the wreck of the steamer *Metropolis* reports as follows: Five o'clock a. m.—Total number of passengers 200, of whom 100 are drowned, the remainder saved. The steamer is a total wreck. Nothing is left above water. There are no bodies aboard the steamer. The wreck was caused by the vessel being unseaworthy. She sprang a leak about midnight, and stranded at 1 a.m. on January 31st. The only way of saving life was by running her ashore as the vessel was in a sinking condition. This is the statement of Lau McCallum, one of the saved.

8 o'clock—The state of affairs this morning is terrible. The dead bodies are lying along the beach for a distance of two miles. They are all being placed in proper position back from the beach. The living are being cared for. The two saloon women are known to be dead with their husbands. Eight out of 14 firemen are known to be drowned. The men saved are destitute of clothing.

9 o'clock.—Parties along the beach are picking up the living and the dead. The latter constitute about one-third of all recovered.

The signal service station, at the wreck of the *Metropolis*, reports that the *Metropolis* Captain J. H. Antzen, left Philadelphia at 9 a.m. on 29th of January. She discharged the pilot at 11 p.m. at the Breakwater.

At 8 p.m. on the 30th the vessel started a heavy leak in the rudder case. Finding they could not gain on the leak with the pumps, concluded to light the steamer by overthrowing the coal and hurrying away for Hampton Roads.

At midnight the circulating pump gave out, and at 3 a.m. a heavy sea boarded the vessel, carrying away the smoke stack, hoisting the engine room hatch and forward saloon, letting in a large quantity of water below. The ship was completely unmanageable. Finding nothing could be done for the vessel, it was decided to run the beach to save what lives could be saved.

At 6 o'clock, made the beach. At that time the fires were out and the engine stopped. Set all hands to work to drive her up the beach, and the surf was very violent.

At 4 o'clock passed the word for all hands to prepare themselves with life preservers, and at 5 the ship struck the beach.

At 11 a.m. on horseback made his appearance on the beach waving his hat and promising assistance.

At 12.30 p. m. the life saving service made their appearance, but came poorly provided to save life. All the assistance they could render was to get them out of the surf as they came ashore. Had they come to the scene of the wreck during the forenoon, nearly every one could have been saved.

At 5 p. m. she broke up completely, throwing us all into the sea.

It seems that the people on board the *Metropolis* seeing no prospect of help from the shore, gave up all hope, and after the word was given to "save yourself," a consternation prevailed over which no mortal power had control.

An Appeal for Aid.

The population of the island of Old Providence, about 745 persons, appeal to the people of the United States for assistance, all their houses, provisions and crops having been destroyed by two hurricanes.

Trade Dollars not Legal Tender.

The Third Assistant Postmaster General has telegraphed and written to the postmaster at New York as follows:

"Trade dollars not being legal tender, you are not obliged to receive them. The joint resolution of Congress, approved July 22nd, 1876 is authority upon which the above decision is based."

The Wrecked Steamer—Intense Excitement.

PHILADELPHIA, 1.—The news of the wreck of the steamer *Metropolis* created a most intense excitement here. The office of the contractors, Collins Bros., was besieged by the relatives of those on board, and special policemen are keeping the crowd under control. The *Metropolis* was not only unseaworthy but overloaded.

Heavy Snow Storm.

BOSTON, 1.—A severe north-east snow storm, which began at four p. m., yesterday, continues up to noon, to-day, and over a foot of snow has fallen. Owing to a high wind, drifts, from six to ten feet high, in the streets, have almost suspended travel. The horse cars have stopped and all railroad trains are hours behind time.

The storm prevails with severity throughout New Hampshire and Maine, where immense drifts block the railroads and highways.

Murderer Executed.

CINCINNATI, Ohio, 1.—Philip Watson, colored, who murdered his wife with a hatchet, last September, at Covington, Ky., was hanged in the presence of 5,000 spectators this morning.

$35,000 Fire.

BOSTON, 1.—The burning of ten wooden buildings at Glover's Corner, caused a loss of $30,000.

A Candidate.

RICHMOND, Va., 1.—General Joseph E. Johnson has consented to be a candidate for Congress from that district, ex-Governor Walker declining re-election.

Murderer Executed.

ST. LOUIS, 1.—Wm. Weiners, who shot and killed A. V. Lawrence, barkeeper in the saloon in the Theatre Comique, early on the morning of January 29th, 1877, was hung in the jail yard between 3 and 9 o'clock this morning.

O'Leary the Pedestrian.

CINCINNATI, 1.—O'Leary completed half of his 400 mile walk in two minutes less than half the allotted time, and is still in good condition. Bartlett, the amateur, who attempted to walk half the same distance in 62 hours, fell short 74 miles.

FOREIGN.

GREAT BRITAIN.

Russia and Austrian Interests.

LONDON, 1.—A Vienna correspondent says in consequence of the extreme reticence of the Russian reply, which makes no mention of special Austrian interests, Count Adrassy now proposes to suggest that the European conference shall meet as soon as possible at Vienna. The latest news is that there is no telegraphic communication with Constantinople except *via* Alexandria.

Starving and Destitute Condition of the Refugees.

The relief agent, who arrived at Gallipoli with Suleiman Pasha, telegraphs: "I will stop here to relieve 7,000 refugees, who are in great distress. I have seen vast number of refugees all over the country, and many are dying from cold and hunger. There is a great movement towards the sea. The refugees arrive perfectly destitute, having generally lost half of each family. It is a nation moving without means of transports and without homes to go to. Englishmen cannot imagine the suffering, destitution and ruin of these last three weeks, to an innocent, industrious people.

Anti-Russian Demonstrations—Newspapers Burned.

The *Financier* says the members of the Stock Exchange, yesterday, amid yells, burned the *Times, News*, and other publications of a pro-Russian tendency, and then signed an address declaring confidence in the government. There was similar demonstrations at Lloyds.

Several out-door meetings in the country, to protest against the supplementary credit, were taken possession of by the adherents of the government and turned into anti-Russian demonstrations.

Gladstone will speak in the House of Commons on Monday next.

The Turkish Minister has received a dispatch reporting that general basis of the armistice and peace were to be signed yesterday.

He overtook a convoy of between 10,000 and 15,000 wagons and 50,000 armed Mussulmen fugitives. The latter were disarmed and escorted to Rodosto, from which place they are to be transported to Asia.

Demotika and Tsunkopri were occupied on the 26th.

Instructions of War in Greece.

Athens advices say the Greek Premier has indicated an armed occupation of Thessaly and Epirus. It is believed to be tantamount to a declaration of war. The whole population has been ordered to enroll in the national guard.

The Armistice Delay.

The principal cause of the delay of the armistice is stated to be a difficulty about the military conditions imposed. A Vienna paper says these include the occupation of Constantinople.

TOOELE QUARTERLY CONFERENCE.

The Quarterly Conference of the Tooele Stake of Zion, convened pursuant to adjournment at Grantsville city, on Saturday and Sunday, January 26 and 27, 1878, at 10.30 a. m.

Present on the stand. Of the Twelve Apostles, Joseph F. Smith; Bishops John Henry Smith and E. D. Woolley, of Salt Lake City, and Elder Nobles of Davis County. Of the Presidency of the Stake, Francis M. Lyman and James Ure. Patriarch John Rowberry, and a large representation of the priesthood from the various wards of the Stake.

After the usual opening exercises Bishop E. D. Woolley addressed the conference, portraying some of our duties, and urging the Saints to live fully as revealed in the laws of God and under the direction of the organizations of the different Stakes and Quorums as they now exist.

Bishop John Henry Smith showed the distinction between the Saints of God and the world of mankind; the object of our creation and the purposes the Lord designs to accomplish through his faithful children; advised the young to conquer their evil propensities and appetites and live strictly to the Word of Wisdom.

Patriarch John Rowberry had visited all the wards of the Stake; he could not help but notice the marked improvement with our youth in refraining from vice, selecting good company, their attention to meetings and sabbath schools, etc.; he approved of the organizations being perfected in the several Stakes; advocated unity that would render us independent.

Conference adjourned until 2 o'clock p.m.

2 p.m.

After the usual opening exercises, Elder James Ure urged upon the brethren, as early as practicable, to qualify themselves to sustain those of their choice, as officers, not only ecclesiastically but also politically.

President F. M. Lyman presented the statistical report of the Tooele Stake of Zion for the quarter ending December 31st, 1877, as follows:

The Stake comprises 6 Wards; the total number of families in the Stake, 580; Seventies, 110; High Priests, 97; Elders, 218; Priests, 23; Teachers, 53; Deacons, 73; Lay Members, 1,658; Children under eight years of age, 784; Baptisms, 26; Marriages, 7; Births, 45; Children blessed, 37; Deaths, 10—Total souls in the Stake, 2,958; Relief Societies organized, 6; Young Men's Mutual Improvement Associations, 5; Young Ladies Mutual Improvement Associations, 4; Day schools, 10; Sunday schools, 6, employing 70 teachers, with an attendance of 609 pupils.

The financial reports of the Relief Society, Young Ladies' Mutual Improvement Association, and donations to the Temple from the Grantsville Ward were presented; also a report from the Indian mission of this Stake, showing the products from two farms cultivated by them, 350 bushels of wheat, 60 of barley and 190 of potatoes.

The general authorities of the Church and the local authorities of the Tooele Stake of Zion, as also a few whose names were selected as home missionaries of this Stake, were presented by President Lyman and unanimously sustained.

Elder Joseph F. Smith said it was only those possessed of the spirit of the Lord that understood the things of God; the principles of the gospel were designed to bring us to see eye to eye and a sanctity of life that will entitle us to associations that are pure and holy; spoke in relation to the operations of the Spirit of God and the divers gifts emanating from that spirit; treated upon the Priesthood as the delegated authority of God, a principle of power authorized to act in the name of the Father through His Son Jesus Christ; exhorted the Saints to study the revelations of God and become conversant therewith, so that they may come to a knowledge of the truth.

Conference adjourned until 6.30 p. m., to meet in conjunction with the Young Men and Young Ladies Mutual Improvement Societies.

6.30 p. m.

After the usual opening exercises the meeting was addressed by Prest. F. M. Lyman, Bishop John Henry Smith, and Elder Joseph F. Smith. Much valuable instruction was imparted.

Adjourned until Sunday morning at 10 o'clock.

Sunday, 10 a. m.

After the usual opening services Bishop E. D. Woolley reviewed the revelation on the order of the priesthood, as expressed by Elder Joseph F. Smith; exhorted the Saints to be prayerful and studious and seek to learn the truth, that they might sway an influence for good and fill the responsibilities in the Holy Priesthood acceptably to God.

Elder Joseph F. Smith read the revelation on Priesthood, section 107, page 330 new edition of the Doctrine and Covenants, explaining the order pertaining thereto in its organization and the appointment of presidencies of quorums, Stakes or otherwise, also in decisions and appeals; the duties of bishops, and the kind of men they should be to stand criticism, and have the confidence of the Saints; instructed all holding the holy priesthood to live so as to respect themselves and the authority vested in them.

Bishop J. H. Smith urged the young brethren to learn the principles of the gospel; treated upon faith as the motive power of our lives; counselled the youth to observe the Word of Wisdom, as it would lead them to influence, power and authority, and bring an increase of years to their lives and usefulness.

Conference adjourned till 2 o'clock p. m.

2 p. m.

After the usual opening exercises the sacrament was administered.

Elder Joseph F. Smith read from the revelations contained in the Doctrine and Covenants, given in the year 1831, concerning the signs that were to precede the coming of the Son of Man, in explanation of the 24th chapter of Matthew; also the revelation given in 1836, pertaining to the gathering of the Saints of God in the tops of the mountains, prior to the day when judgments and calamities would follow the testimony of the servants of Lord, devastation and destruction, cleansing the earth from sin and its corruptions, and the final triumph and resurrection of the Saints of God to life eternal. Instructed the sisters how to preserve their health, treated upon the sealing ordinances as one of the fundamental principles of the gospel; exhorted the Saints to do right and sustain President Lyman; testified to his veracity and untiring fidelity to the truth, and pronounced the blessing of the Lord upon the Saints.

President Lyman called the attention of the bishops to certain special duties, thanked the brethren who had come to visit with us, and the Saints for their attention.

Conference adjourned for three months to meet at Tooele City. Benediction.

YOU are hereby required to appear in an action brought against you by the above named plaintiff, filed in the District Court of the Third Judicial District of the Territory of Utah, and to answer the complaint of the said plaintiff, a copy of which is given to you with this summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise within forty days from the date hereof, exclusive of the day of service; and defaults according to the prayer of said complaint will be entered against you.

The said action is brought to obtain a decree of the said plaintiff to be the owner and entitled to the possession as against the defendants and all others of that certain narrow strip of land, in Lot 7, Block 89, Plat "A," Salt Lake City Survey, situate in Salt Lake Canyon, Oquirrh Mountain, and more particularly described in the complaint herein; that the defendants be required to set forth their right to said premises, and that any adverse claim of defendants to said premises may be adjudged void; that the said plaintiff and defendants have such other and further relief as in law and equity may be just when the facts are set forth to the Court.

And you are hereby notified that if you fail to appear and answer, above said complaint as above required, the said plaintiff will apply to the Court for the relief demanded therein.

Witness the Hon. MICHAEL SCHAEFFER, Judge, and the seal of the District Court of the Third Judicial District, in and for the Territory of Utah, this 4th day of December, in the year of our Lord one thousand eight hundred and seventy-seven.

CATARRH

NEVER-FAILING RELIEF

AFFORDED BY

SANFORD'S RADICAL CURE.

IT is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first dose gives such evidence of its value in the treatment of Catarrhal affections that confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druggists, and patients is unanimous on this point, and the accumulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position they have attained, and believe it worthy of its reputation.

10 YEARS A SUFFERER.

From Hon. Theo. P. Bogert, Bristol, R.I.

Messrs. WEEKS & POTTER, *Gentlemen*.—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I am induced to drop you a line to say that although I have been sceptical of all the nostrums advertised as "radical cures," I have never found anything that promised such relief and ultimate cure as that of your's.

I have been afflicted with this dreadful disease for more than ten years, and not until recently could I find anything that would help me. I read the letter of Dr. Henry Ward, and can truthfully say that after using five or six bottles I am thoroughly convinced of a complete cure. Hoping that others similarly afflicted may be induced to make the trial, I am, Gentlemen, very truly, THEO. P. BOGERT.
