PATENTS
obtained for new inventions, or for improvements on old ones; for metal or other composite, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws promptly attended to. Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and employing only Patent business exclusively, we can make closer researches and secure Patents more promptly, and with broader claims, than those who are remote from Washington.
INVENTORS send us a model or drawing and description, and obtain advice as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED. Send for circular, containing full directions.
We refer in Washington, to Hon. Postmaster General D. M. Key, Hon. Commissioner of Patents, Hon. Chief Justice, The German-American Attorney, and to officials in the U. S. Patent Office, and to Senators and Representatives in Congress; and especially to our clients in every State in the Union and in Canada. Address,
C. A. SNOW & CO.,
Opposite Patent Office, Washington, D. C.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.
SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.
BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.
CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.
LYON'S
KATHAIRON,
Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.
Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.
It actually performs these seeming miracles, of which the following is
A FAIR SPECIMEN
I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.
COL. JOHN L. DORRANCE, U. S. A.
In every important respect the Kathairon is absolutely incomparable. It is unequaled.
1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.
BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.
SOLD EVERYWHERE.

CHEAP DISINFECTANT!
MR. F. A. PASCOE will supply fine screened Quick Lime, suitable for disinfecting cesspools, and neutralizing all decaying organic substances for TWO DOLLARS PER TON, in large or small quantities, at his Pioneer Perpetual Lime Kilns, First North of Warm Springs, Salt Lake City.
☞ N B.—Building and Plastering Lime of Best Quality always on hand.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

Last Night's Dispatches.

FORTY-FIFTH CONGRESS.

SENATE.

WASHINGTON, 23.—Morrill, from the special committee in regard to taking the census, reported a bill, which was placed on the calendar. He gave notice that he would call it up for consideration on Tuesday next.

Windom, Allison and Witherell were appointed a conference committee on the Indian appropriation bill.

Burnside reported favorably the House bill to promote the education of the blind. Placed on the calendar. The bill appropriates $250,000 as a perpetual fund to aid in the education of the blind through the American printing house for the blind, the money to be invested in 4 per cents and the interest paid to the institution.

Matthews, of Ohio, introduced a bill to give the American Ocean Cable and Telegraph Wire Association of Philadelphia the right of way and privilege to lay and operate submarine telegraph cables on the Atlantic and Pacific coasts of the United States, and to establish telegraphic communications between the United States and Europe and Asia. Referred to the committee on foreign relations.

The report of the conference committee on the consular and diplomatic appropriation bill was agreed to and the bill passed. The total amount appropriated is $1,087,885.

After consideration of bills on the calendar the bill to amend the patent laws was taken up, the pending question being on the motion of Edmunds to lay it aside and take up the resolution submitted by him concerning the 13th, 14th and 15th amendments. Edmunds said he found by the vote last night that the majority was adverse to considering his resolutions, and he withdrew his motion to take them up.

A bill to amend the patent laws was then considered.

The bill for the relief of Warren Mitchell being unfinished business, McMillan moved to indefinitely postpone further consideration of the bill, as a majority of the committee on claims had reported against it. Rejected — yeas 14, nays 31.

Edmunds then objected to the present consideration of the bill.

McCreery moved to postpone the pending and all prior orders and take up the bill for the relief of Warren Mitchell. Agreed to—yeas 25, nays 22.

Pending discussion on the Mitchell bill, Windom moved to lay aside the bill informally and take up the House bill appropriating $50,000 to enable the secretary of the treasury to carry out the provisions of section 254 of the Revised Statutes, in regard to the expenses of transporting coin and bullion, and $40,000 for miscellaneous expenses of the House. The amendments of the committee, appropriating $100,000 to be applied to defraying expenses of the committees engaged in such investigations, or inquiries, as have been or may be ordered by the Senate during the Forty-seventh congress, $432 for the army reorganizing commission, and $953 for a committee to inquire into the expediency of transferring the Indian bureau to the war department, were agreed to. The bill was then read the third time and passed.

After executive session, the Senate adjourned.

HOUSE.

WASHINGTON, 23.—The House went into committee of the whole on the bill to apply the proceeds of sales of public lands to the education of the people. The vote on taking up the bill was—yeas 126, nays 108. The affirmative vote was cast by the democrats and the negative by the republicans, who desired to hold the morning hour in order that the debate inaugurated yesterday by Bragg and Ellis should be continued.

Frye inquired if there was anything in the bill which could compel the fund to be applied in the southern States to the education of the colored race.

Goode replied that there was no disposition in any southern State to discriminate in any way between white and colored children.

Keifer inquired if Goode would admit the amendment forbidding any such discrimination.

Goode replied that he would, unless the gentleman wanted to establish mixed schools. He was willing to make it as plain as human language could make it, that this fund was to be dedicated to the free education of all children, both white and colored, but he would oppose every proposition to establish mixed schools, because that would be alike ruinous to the white and colored race.

Monroe, in reply to a remark of Frye, stated that the bill contained a provision that before the money should be paid over by the general government each state should file with the Secretary of the Treasury a certified copy of the law of such state accepting the provisions of this act, and undertaking that the funds should be faithfully applied to the free education of all its children.

Bell favored the bill and Dunnell opposed it. Public education must be fostered and built up by the state.

Southard, Burchard and White (Penn.), opposed the bill.

Townsend, (N. Y.), said it passed all human patience to stand by and see a calm, adroit and oily proposition to rob the loyal states out of their interest in the public lands. They were to be thimbleriggged out of their interest. He was not ready for that, and it did not put him in good humor.

Loring congratulated himself on being able to advocate a measure in the interest of education.

Monroe favored the bill.

The time fixed for general debate having expired, the House proceeded to consider the bill by sections for amendment.

Reagan moved to amend the proviso in the first section, which provides that it shall not limit or abridge the power of Congress over the public domain or interfere with granting bounty lands by adding the words, "or grants in aid of public improvements." He explained and advocated the amendment, intimating that it might be necessary to grant lands for a competing railroad across the continent.

Keifer congratulated the democratic party on being educated by the republican party up to a point being in favor of homesteads.

Luttrell reminded the gentleman from Ohio (Keifer) that the democratic party had acquired Louisiana, Texas, New Mexico, Colorado and California. What had the republican party acquired? The little territory of Alaska, and that it had given to a corporation. That party had given millions to railroad corporations and the democratic party wanted to save the few acres left for the benefit of the whole country.

Eden, offered as a substitute for Reagan's amendment, an amendment providing that all public lands which have been granted by Congress to aid in the construction of railroad and telegraph lines which have not been earned, and which have lapsed by a failure to complete such railroads and telegraph lines within the time limited, are hereby declared forfeited to the United States.

Elam opposed the amendment, saying there was a good deal of dry and very little wool about these grants to railroads. What would be the population of the western States to-day but for the great railways, and it was not fair that the southern States should not participate in the benefits of the railroad system.

Cain favored the bill. The education of his race was very important. A nation should raise its citizens out of superstition and crime. He proceeded to quote statistics to show that the number of illiterate colored persons in the south was much smaller than that of white persons. Education was necessary all over the nation, especially in Louisiana, Mississippi and South Carolina.

Wright opposed the bill.

The committee rose without acting on the amendment.

Hewitt, from the committee on appropriations, reported the army appropriation bill, and said he would call it up for consideration after the post office appropriation bill was disposed of.

The Speaker appointed as conferees on the Indian appropriation bill, Sparks, Singleton and Baker (Ind.)

Cox (N.Y.) introduced a bill to regulate commerce between the United States and Canada, and to provide for reciprocal navigation. Referred to the committee on ways and means.

A session was ordered for to-morrow night for the consideration of reports from the judiciary.

Cox (N.Y.) chairman of the committee on census, reported a bill for taking the federal census. Ordered printed and recommitted.

Ryan, from the same committee, submitted the views of the minority. Ordered printed and recommitted.

The House then took a recess until 7:30.

EASTERN.

The Potter Investigation.

WASHINGTON, 23. — When the doors reopened Butler offered the following:

Resolved, That the committee receive from Butler the cipher dispatches, which he shall present to them, and that the clerk be directed, in connection with some person whom Butler shall designate, to make a complete inventory of the dispatches so received in duplicate and certify to the same, one copy to be preserved for the use of the committee and one given to Butler; that all the cipher dispatches so received shall be printed for the committee; that unless hereafter otherwise ordered, before any original copies are given out for publication they shall be submitted to a clerk, to be chosen by the committee, who shall be sworn to make a faithful transcription and decipher the same according to his best knowledge, skill and ability, and that he shall not allow any cipher dispatches given him to be given to any person or given out for publication, nor any of the dispatches, nor any supposed translation, without previous consent is obtained from the committee so to do, and he will return to the committee all printed sheets and telegrams committed to him with such translations as he shall make, receiving from the committee such reasonable sum for his work as the committee may judge proper.

The resolution was unanimously adopted.

Reed then offered the following:

Whereas, Hewitt, of New York, in his place in the House, after alleging that Samuel J. Tilden had been charged with the cipher dispatches, has demanded that Tilden have an opportunity to face his accusers before a competent tribunal, therefore,

Resolved, That a copy of the resolution directing the committee to investigate the cipher dispatches be sent to Tilden, and he be allowed to be represented by counsel in the same manner and under the same limitation as persons arraigned under the ordinary resolution constituting this committee.

Reed remarked that he offered this resolution in good faith, and not in any partizan spirit. The resolution was accepted.

The chairman called St. Maxin, who was examined at some length regarding his affidavit already published. Following are the most important points of the testimony:

Question—Your affidavit says that you were instructed by Stenger to report "not found" when you had any subpœnas to serve on any republican witnesses?

Answer.—It was not Stenger but Maddox. It was a mistake and I altered it as soon as I saw it in the papers. This affidavit was made on December 2nd, and I did not alter it until last week. I had not a copy of the affidavit, and did not know Stenger's name occurred where it should read Maddox. Witness then stated how, when acting as sergeant-at-arms of the committee, he had returned 12 or 13 subpœnas with the report "not found." He did so on instructions from Maddox in all these cases. They were witnesses who were republicans, or witnesses whom he was unable to "fix up" to testify as Maddox desired.

Washington Notes.

The Senate committee on postoffices, to-day, authorized Chairman Ferry to offer, as an amendment to the postoffice appropriation bill, all the postal legislation which was added to the House post route bill by the Senate last session, except the Brazilian subsidy clauses. These legislative provisions relate to the classification of mail matter, the compensation of railroads, the franking privileges and several other subjects of less importance. The post route bill, above referred to, is still pending on disagreements between the two houses.

The Senate has confirmed Wm. G. Thompson of Iowa as chief justice of the supreme court of Idaho.

The Secretary of the Treasury has addressed a communication to the committee on commerce of the Senate and the committee on ways and means of the House, requesting that the petition to Congress from New York, that an investigation be made into the kid glove trade, be granted and that the investigation be made as soon as practicable.

The Freight Question.

NEW YORK, 23.—A committee of shipowners and others interested in the California trade, have gone to Washington to appear before the Senate commerce committee, to urge the passage of the Reagan interstate commerce bill. These gentlemen are interested to the extent of the contracts recently made by the Union Pacific Railroad in taking away from the clipper lines a large amount of their business. They seem to forget that they are being used by a party who has lost his business by the natural course of events, and who now hopes to regain it by pleading monopoly on the part of the railroads as against the slow-going ships round Cape Horn, just as if shippers were not competent to judge of the manner in which they should do their business, and not be dictated to by a person who, if he could have had his way, would have done the same thing as is now complained of against the railroads, and instead of making lower rates would have increased them, as has been done on several occasions when he had the whip hand.

The Election Fraud.

A letter written by Hull, the democratic competitor of Congressman Bisbee, of Florida, is just published, which shows that notwithstanding his attempt to count Bisbee out, Hull knew, on the morning after the election that he had been defeated; that he at once set about securing such alteration of the returns, in the counties yet unreported, as would wipe out his opponents majority. Writing the day before the election, he says to his friend: "I need a few over 200 to come from Brevard and Dade to give me a majority in the district. Can 202 be had? I would give anything if this could be accomplished," and again, "If anything is done the cost of the trip is no consideration with me. Think of it."

Canvassing Board Sentenced.

JACKSONVILLE, Florida, 23.—In the United States Circuit Court, Judge Settle sentenced the Brevard County canvassing board, convicted of making a false return of election, and Lee, County Clerk, to three years, Wright and Johns, sheriff and justice, respectively to [illegible] imprisonment. Lee is also Senator from Brevard County. All the other election cases will be continued till the May term of court.

The Reno Inquiry.

CHICAGO, 23.—Lieutenant Varnum was cross-examined this morning, regarding the Custer massacre, and testified that the Gray Horse cavalry which he had mentioned must have seen that Reno's command was entering the engagement with the Indians, and Custer must also have known that they were at bay, and in witness' judgment any careful commander would have inquired into the situation of the troops from which he expected support. There was no misunderstanding between Custer and Reno previous to this time. The Indians were probably not less than 4,000 to 5,000 strong, and half that force was too great for half the whole command. He thought Reno was right in using his own judgment in getting out of the woods.

Pennsylvania R. R. Expenses.

PHILADELPHIA, 23.—The business on all the lines of the Pennsylvania Railroad east of Pittsburg and Erie; for the 12 months of 1878, compared with the same period of 1877, shows an increase of gross earnings, $519,588; decrease of expenses, $559,474; increase of net earnings, $1,079,062. All the lines west of Pittsburg and Erie, for the year, show a deficiency in meeting all liabilities, $44,674, being a gain over the same period of 1877 of $278,583.

WANTED
FROM 80 to 200 acres of land, partly improved, or unimproved, with water rights, in exchange for young stock, cash and other property.

PURIFY THE LIFE CURRENT.
SCOVILL'S
Blood AND Liver Syrup
A PEERLESS REMEDY FOR
Scrofula, White Swellings, Cancer, Erysipelas, Chronic Sore Eyes, Gout, Syphilis, Tumors, Carbuncles, Salt Rheum,
And all Diseases indicating an IMPURE CONDITION of the BLOOD
Cutaneous eruptions upon the face or body do not necessarily indicate the taint of scrofula; but whether the insidious poison of that dire malady is present in the system or not, certain it is that
Scovill's Blood & Liver Syrup
completely cures such disorders. Viviens, virus of all kinds, must exist in the every, this matchless purifier will root out be it vestige of it. No eruptive malady, no scrofulous or other skin can resist thotent purifying action of this safe and potent remedy, which renders the skin
CLEAR, SOFT AND BEAUTIFUL,
when ordinary medicines utterly fail to arrest the progress of scrofulous and other eruptive diseases. Under the use of this incomparable depurent secures the desired result. From
THE ARRAY OF PROOF
of its reliability in our possession, we make the two following condensed extracts:
Mr. Samuel H. Matthews, Modestown, Accomac Co., Va., states that his child, when 4 months old, was attacked with an eruptive which covered its head, face, hands and neck, all converting them into "nearly one solid sore," but that two and a-half bottles of Scovill's Blood and Liver Syrup effected a complete cure, without a scar.
Martin Robbins, Jr., writes that he suffered from Scrofulous White Swelling with twelve running ulcers on his legs, from which more than 100 pieces of bone slough-ed away, but by the time he had finished the twenty-fourth bottle of the Syrup he was completely cured.
THIS GRAND REMEDY
is a compound of vegetable extracts, the chief of which are
Sarsaparilla and Stillingia
The cures effected by
Scovill's Blood and Liver Syrup
are absolute, and their record is unsullied by failure. For sale by all Druggists.
Price, $1.00 per bottle.

VIOLIN OR GUITAR.
With a view to making the sale of Strings for all Instruments a SPECIALTY, I have been casting about for strings having the best reputation in this country and in Europe, and have now been rewarded, not only in discovering the "BEST STRINGS MADE IN THE WORLD," but also in securing the GENERAL AGENCY for their sale in this and adjoining Territories.
These strings will be known *in this market* as "Calder's Strings," and will be numbered 30, 31 and 32.
No. 30, are strings known, for many years, by this number, to the leading musicians of the Territory, as the best strings hitherto offered in this market. Price reduced to 25 cts. each.
No. 31, are new unbleached American strings, made from Selected Material only; which have been severely tested by the leading Violinists of the country, and by them pronounced unequaled for PURITY of TONE, STRENGTH and GREAT DURABILITY. Now offered here for the first time. Price 25 cts. each.
No. 32, "These strings have created a sensation in Europe." They are of Italian make, and were perfected in October 1877; since which time they have been thoroughly tested and used at the Conservatories and Opera Houses in Europe. Professors, Artists, Leaders and Members of the Opera Orchestras, in Naples, Padua, Rome, Verona, Venice, and Florence, Italy; Trieste, Austria; Dusseldorf, Prussia; Dresden, Saxony; Munich, Bavaria; and in all the leading cities of Europe; certify that these strings are WONDERFUL for their STRENGTH, DURABILITY, CLEARNESS of TONE, READY RESPONSE to the TOUCH, as well for TRUENESS in comparing the fifths, and SUPERIOR TO ALL OTHERS MADE." I have copies of the certificates. Notwithstanding the high cost price of these strings, I will retail them at 30 cts. each.
If have other fine qualities of four length Italian Strings—No. 28, at 35 cts. for two strings, and No. 29, at 20 cts. each.
I purchase the above strings *from the manufacturers*, and can therefore guarantee their genuiness.
STEEL STRINGS. There are many cas ers dealers selling an inferior article of steel strings because they are cheap. I get my supplies from the original manufacturers, and guarantee them genuine. Price, for violin, guitar or banjo, 30 cts. each.
If you cannot get my strings at the stores in your towns, send postage stamps for the amount, and I will mail them to you. Be sure to order by the *number* so that I may know the *kind* you want. A discount of 25 per cent will be made when a dozen is ordered. The trade supplied at regular prices.
DAVID O. CALDER,
d2wslmwlm Salt Lake City.
