Wednesday, July 15, 1896.

TREASURER'S BOND.

Resolution Passed to Increase It to Five Hundred Thousand.

WARRANTS FOR ALL OBLIGATIONS.

City Will Accept Them for Licenses—Water Rates Reduced—Miscellaneous Notes.

At last night's meeting of the City Council the question of the city treasurer's bonds came up in the form of a resolution introduced by Mr. Romney as follows:

Resolved, That in accordance with the provisions of section 206, page 90, of the revised ordinances of 1893, the amount of the bond of the city treasurer is hereby fixed at the sum of $500,000, and said treasurer is hereby required to furnish an additional bond for the amount with good and sufficient sureties to the like effect of $250,000 and present the same to this Council for its approval at its next regular meeting.

The bond already required by the Council is for $250,000, and on the ground that this resolution made it compulsory on the treasurer to furnish an additional $250,000, or $500,000 in all, Maloney, Wheaton and Dale objected to it, the latter stating that his objection did not arise from the feature of a new bond, as he was perfectly willing that the treasurer furnish that.

Mr. Maloney inquired of Mr. Dale if he meant that the old bond was no good.

Mr. Dale objected to touching upon that subject in public, although he would gladly give the gentleman his views in private. However, he did not wish to be understood as saying the old bond was defective.

O'Meara thought an additional bond would be the proper thing, while Mr. Romney was sorry the question had been discussed so publicly. There were some things connected with this question which it would best serve the city's interests to discuss in private.

The resolution was referred to the finance committee.

CITY WILL HONOR ITS PAPER.

Le Prohon introduced the following resolution:

"Resolved, that the city treasurer be hereby instructed to receive city warrants for licenses and all other obligations due the city."

Dale objected to the resolution on account of its effect in keeping the funds idle and empty, as taxpayers desire and others would buy warrants as a means to pay their taxes.

Le Prohon said that city warrants were selling at a discount, as was evidenced by the fact that he had bought some in the morning early and willing to keep the city's paper.

The resolution was adopted by a big majority.

MANY WANTS HAVE OUT.

A long list of petitions, citizens signed, a petition, which was presented to the Council, asking a reduction of the water rates. The reason for this request was set forth in the petition as follows:

That we are informed, and believe, that the water rate in Salt Lake City is higher than the cost of keeping in repair the pipes and water service of the same.

We further state that the waters of City creek and Emigration, now mostly used in the pipes, were appropriated in an early day by the citizens, and the water was afterwards put into the pipes by general contribution and supplied by the citizens with the understanding that the water should always be and remain the property of the citizens, and they should be required to pay for nothing more than the cost and service of the pipes.

Your petitioners are strongly impressed with the fact that now in the course of things it has, and when a city or municipal corporation has once taken hold of it for the benefit of the citizens and paid its bills, there should be no charge made for all time over and above the actual expense of conveying the water to pay in taxes. To make water that belongs to the people a source of general revenue is to put our rate entirely wrong."

FROM THE TREASURER.

At the position meeting of the Council a resolution was adopted calling for a report from the city treasurer and in response Treasurer May submitted the following report, which was referred to the waterworks committee:

Gentlemen—In response to the resolution passed by you on the 6th inst., I say to all we as follows:

The full amount of water rates assessed for the current year to date was $64,131.78. The amount collected in cash to date is $23,966.61. The amount collected in water certificates date is $46,126.26.

The amount of water rates for the years 1895 and 1894 are due and unpaid is $1,845.32, of which $1,075.39 is for rents on water that has been turned off for non-payment of taxes and the balance, $769.93, represents rents yet to be collected, liens to assist, liens to be adjusted, etc. The full amount of water certificates yet outstanding is $60,811.02, and the amount that have not been called for is $10,685.26.

YEAR'S WATER RATES.

Acting Superintendent of Waterworks Walker submitted the following report, showing the total amount of water rates assessed for the year ending June 30, 1896, together with the amount of assessments and the cost of assessing:

Total amount of assessment, regular roll, $68,141.78; abatements, $7,381.83; net amount, $60,759.95; supplementary roll, $5,671.83; abatements, $[illegible]; net amount, $5,551.83; total net amount for both rolls, $66,311.78.

Considerable discussion followed the reading of the report, O'Meara objecting to a reception of the report on the grounds that it came from an irregular organized official. Mr. Wallace was simply a clerk in the office, but he was drawing the superintendent's pay. The Mayor had been "playing himself with one or two of the departments long enough, and he objected to the present state of affairs continuing.

Mr. Dale believed that while the Mayor had acted indirectly in not appointing a regular superintendent, a rejection of this report would not expedite matters.

The report was adopted by a vote of 8 to 6 and Mr. Callister introduced the resolution:

Whereas, this Council has been informed that there is a vacancy in the office of superintendent of waterworks and that the person in charge is under no bonds, as required by law; therefore be it

Resolved, That his honor, the Mayor, is hereby requested to appoint a superintendent of the waterworks and submit the same to this Council at its next meeting.

Stewart objected to the resolution and volunteered the information that the Mayor had told him that if the finance committee would report on a certain matter the appointment would be made.

This brought Mr. O'Meara to his feet with the statement, "We are not here to say the Mayor's mistress."

The resolution was finally adopted by a vote of 9 to 5.

Mr. Dale offered a resolution providing that the action of the previous meeting appropriating $[illegible] to J. H. Griffin be rescinded and that the issue be referred back to the street supervisor for acceptance and approval. It carried unanimously.

D. S. Griffin has refused to sign the contract for guttering on account of the stipulation by the city that he pay bonds to men on the contract until September 1. It developed that when certain private arrangements were made Griffin would sign the contract and the recorder was instructed to forward the same to the board of public works.

MISCELLANEOUS.

A request from County Commissioner Jenkins that the city pay a portion of the elevator expense was referred to the claims committee.

The city attorney was asked for an opinion as to whether or not the city was entitled to a part of the revenue collected by the county for rents collected from the State on rooms in the city's end of the building.

The public grounds committee was instructed to report to the Council a description of all real estate owned by the city.

Chief Devine was appointed electric light inspector at a monthly salary of $75.

Street Superintendent Malley reported the gross expenditures of his department for last month at $1,218.87.

Officer Miner's claim for salary was adversely reported by the city attorney.

To the committee on sanitary rules and regulations was referred a petition from F. H. Ferguson and others for the removal of the Utah Slaughtering company's slaughter house.

Pound-keeper Mellon reported as follows for the last quarter: Animals received, 145; animals sold, 21; damages and expenses, $209.40; amount received for animals sold, $[illegible].

The city engineer reported the net expenditures of his department for the quarter at $2,508.78.

A petition from the Free Methodists for permission to erect a tent on old fair square was referred to the public grounds committee with power to act.

Wright Discharged.

The examination of Murray yesterday of L. E. Wright, charged with criminal assault upon a fifteen-year-old girl named Martha Jones, resulted in his acquittal. The girl was the principal witness and her story was so much mixed up that none of it was believed.

When Mr. Straup cross-examined her she told of the first meeting with the defendant, two days previous, or a week ago Sunday. She said that Minnie Smith, herself and Will Healey were on the banks of the Jordan together when defendant, who was fishing there, heard and saw their disorderly conduct, and when he told them he could arrest them the two girls pleaded with him not to do so, and he allowed them to go their way, and he promised he would not say anything of it.

On Sunday night the affair was talked of in Mr. Wright's presence in a manner not creditable to himself, so he hunted up the girls to tell them he would have them arrested if they did not keep quiet. It was the next night that he was charged with assault, and the two street followed next day, or Tuesday.

The defense introduced Frank Hess, Will Cass, [illegible] and James Webster and he defendant, who testified to having turned the lewdness [illegible] street by night.

Whisky and opium are destroying more of the health and happiness of our homes than any other influences. They are diseases, and can be cured. Write in the strictest confidence to The Keeley Institute at Salt Lake, 166 west Second North, or lock box 490.
