The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

FRIDAY, OCTOBER 11, 1895. SALT LAKE CITY, UTAH. NO. 269 VOL. XXVIII.

IT WAS TRICHINAE.

Mystery Surrounding Some Strange Deaths Probably Solved.

EATING GUINEA PIGS RAW

Was the Result That Sixty or Seventy are Taken Sick, Many of Them Fatally.

CHICAGO, Oct. 11.—Dr. E. B. Lemount has found evidences of trichinae in portions of the body of the first victim of the recent wholesale poisoning following a wedding feast at Oakwood, Ill. He announced a microscopic examination of the specimens sent him at his Rush Medical College laboratory yesterday. While he would not give a decisive opinion tonight because the examination had been hurried by artificial light, he was convinced by artificial light, he was confident sunlight would enable the microscope to polarize discover trichinae.

The investigation by Dr. Lecount will probably clear up the mystery surrounding the strange sickness of sixty or seventy persons and the peculiar death of five others at Kalmia, Ill. Twelve persons were taken sick at various times within three weeks following a recent wedding, at which they were guests.

Dr. Logg, of Ottawa, Iowa, sent to Chicago for examination specimens of the diaphragm and thorax of one of the victims. Dr. Logg said the guests at the wedding ate heartily of ham which had been hastily cooked.

Hot Presidential Campaign.

CHICAGO, Oct. 11.—Senator Burrows of Michigan is another of the politicians and students of the country to voice the sentiment that now seems thoroughly prevalent in favor of a short presidential campaign. "The issues are all in and the people are well acquainted with them," he said. "There is no reason why the campaign should not be limited. I am not think any one can tell who the presidential candidate will be."

Statement of Facts.

SEATTLE, Wash., Oct. 11.—The Post-Intelligencer says: The agitation among the German population in the state aims for the pardon of Henry Trenkel, who is to be hanged here on November 1 for the murder of Mrs. Christopher Muller and her baby boy. There is no misstatement of the facts in the case and above of the county and city officials, circulated by Otto F. Trenkel, of this city. The murder of the German woman and her child stirred up the whole German community. When Trenkel was found guilty of the crime there seemed to be a general feeling that the sentence for a crime so foul and the agitation for a new trial had as supporters anyone but German born.

PUT THE VILLAINS TO FLIGHT.

A Woman's Victory Over Would-be Robbers.

SAN FRANCISCO, Oct. 11.—A fine display of pluck and the liberal use of a revolver probably saved the life of Mrs. Lucia Marshall, speaker of Hadem for the Knights of Pythias company.

Late last night C. L. Herbst, the office manager, left the office, leaving Mrs. Marshall in charge. About fifteen minutes later Mrs. Marshal was startled by some one kicking on the door. She was somewhat alarmed at the violence displayed, and putting a pistol in her pocket went toward the door to open it, but before she reached it the door was kicked in and a tall, well proportioned man wearing a black velvet mask commanded money, covering a companion outside. Mrs. Marshal drew her revolver for use, but the cash fiend villain was too quick for her and fired at her heart, missing it by a few inches, the ball entering her left side in the waist. Mrs. Marshal then commenced to use her revolver, emptying it on the fleeing robbers. She waited for some time, thinking that the shots would be heard, but no assistance coming, Mrs. Marshal bandaged her wound and Night Detective Walters in this city, who immediately sent a special car to bring her to San Francisco for treatment. When the train arrived a constable appeared and commenced a search for the man, but without success.

Mrs. Marshall is now at St. Luke's hospital in this city. Her injuries are not very serious.

A. P. A. Candidates Elected.

NASHVILLE, Tenn., Oct. 11.—The A. P. A. candidates for mayor and councilmen were elected by about 1?? majority. The A. P. A. made a clean sweep after a hot and stirring campaign.

Professor of Mining and Geology.

TUCSON, Ariz., Oct. 11.—The board of regents of the Territorial University elected Prof. Blake of New York, a well known geologist and mining engineer, professor of mining and geology.

To Be Utilized for Brick.

LA PORTE, Ind., Oct. 11.—Hoosier Slide, the towering mountain of sand on the entrance of the harbor at Michigan City, which has been the marvel of thousands of visitors, will soon lose its glory. A brick company is negotiating for the purchase of the immense hill, which stretches away for miles to the east and west of Michigan City. The sand will be used in the manufacture of brick under a patent, an entire industry having been established. It is said Hoosier Slide has yielded more visitors than any other point of interest in the state. Coupled with the Slide mountain are many legends. Campers from neighbors of the place tell how the summit is haunted by ghostly musicians, and how strange noises are many performed.

NEW CARS FOR CHICAGO.

A Mere Indication of a Strong Tide in Business.

CHICAGO, Oct. 11.—Fifteen thousand cars are ordered for Chicago railroads and twenty connections this year, an indication of the strong tide in business. With these orders there have been others for 100 locomotives, a majority of which like the new cars will run into Chicago. These orders for cars and locomotives are the greatest placed by the combined Chicago roads since the two years preceding the panic of 1893.

Successful Operation.

DUBUQUE, Iowa, Oct. 11.—A successful operation for the removal of a cataract has been performed on the eyes of General George W. Jones, ex-United States senator and nonagenarian.

Scarcity of Seals.

PORT TOWNSEND, Wash., Oct. 11.—Sealing vessels and revenue cutters from Behring sea report a greater scarcity of seals this season than usual. Around the rookeries where thousands of seals formerly rendezvoused, not a seal can now be found.

Queen of Corea Killed.

YOKOHAMA, Oct. 11.—Count Kousimo, director of the political bureau, has forwarded from Seoul, the capital of Corea, a report upon the recent uprising there. It is now supposed the Queen of Corea was killed by anti-reformers, who, headed by Tai-Ken-Kin, the king's father, and leader of that party, forced an entrance into the palace at the head of an armed force.

President Cleveland Not Assassinated.

BUZZARD'S BAY, Mass., Oct. 11.—President Cleveland will leave Gray Gables tomorrow for Washington. Mrs. Cleveland and child probably will remain a few days longer. The President in company with Secretary Lamont went out to the Sailing grounds about 8 o'clock today.

There is absolutely no truth in the report circulated late last night that President Cleveland had been assassinated.

Noted Detective Dead.

PITTSBURG, Pa., Oct. 11.—James J. Cook, ex-chief of the United States secret service department, but of late in charge of the local detective agency, died this morning of heart disease, aged 78. Cook made a wonderful record hunting down offenders against the United States laws and took active part in suppressing the famous whisky insurrection.

CANNOT BE VERIFIED.

The Rumor That Our Government has Sent a Note to Spain on Cuba.

WASHINGTON, Oct. 11.—The statement cabled from Madrid to the effect that the United States government had intimated to the Spanish minister here that there is need of prompt action on the part of his government in putting down the Cuban insurrection, cannot be confirmed at the State department. The officials would neither confirm nor deny the report, though their manner indicated disapproval of its accuracy.

It is believed to be quite possible that representations may have been made to Spain of the wisdom of an aggressive and active operation against the Cuban insurgents, but it is thought the United States government did not make those suggestions, and, if made, they came from Minister De Lome and were based on his personal observation of the trend of sentiment in the United States and his knowledge of the purpose of the friends of the insurgents to press their cause vigorously, soon after the assembling of Congress.

Senor De Lome left here today on an early train, and no information could be gained from him.

A Prominent Politician Dead.

CHICAGO, Oct. 11.—Cyrus C. Cook, a prominent Republican politician at Edwardsville, Ill., dropped dead at the Great Northern Hotel today, where he was attending a meeting of Illinois Republicans. Judge Cook was the Republican candidate for Congress in this district, to succeed the late Congressman Bensom.

Date Denounced.

PEORIA, Ill., Oct. 11.—At a meeting of the Illinois federation of labor today, the committee on convict labor presented its report, which was adopted. It condemns the convict labor contracts entered into recently and denounces the Illinois legislature for passing no law on the subject. After a stormy debate lasting two hours the following was adopted:

Whereas Eugene V. Debs has stated that the railway brotherhoods have been repudiated by organized labor,

Resolved, That the I. F. of L. deny such assertion and extend to the railway brotherhoods our approval and assurance of continued esteem.

A resolution was adopted unanimously, heartily endorsing Governor Altgeld and his administration.

Resignation of S. F. Receivers.

NEW YORK, Oct. 11.—The argument was to have been heard by Judge Lacombe in the U. S. Circuit court today upon the resignation of Henry C. Payne, H. C. Rouse and T. F. Oates, as receivers of the Northern Pacific railroad company. In this state, the Farmers' Loan & Trust company asked for the appointment of Frank G. Bigelow and Edward W. McHenry, who have been appointed first by Judge Jenkins in Wisconsin and later by Judge Sanborn in Minnesota.

Upon applications of the Farmers' Loan & Trust company and Adams reorganization committee, Judge Lacombe adjourned for a week in order to allow the applicants more time for preparation.

Savage Cuban Warfare.

HAVANA, Oct. 11.—Further details from La Esperanza, near which place the mixed train of passenger and freight cars was attacked by insurgents, show that two passengers lost a leg each, and both hands. The leg of another has been amputated, and three others are in danger of death. Two wounded passengers have died.

The greatest indignation prevails against the insurgents guilty of this inhuman act. The insurgents have partially destroyed with dynamite the iron railway bridges at Canajanal, and Tuinico, the province of Santa Clara.

Cigar Manufacturers.

CHICAGO, Oct. 11.—Rector & Baxter, cigar manufacturing at 40 Dearborn, failed today. E. J. Toure is preference. The liabilities are estimated at $100,000. The assets exceed that sum by about $25,000. The largest creditor is Meidentutz & Co., of New York.

AT CONSTANTINOPLE.

Seven Hundred Armenians Killed as a Result of the Uprising.

THE VICTIMS IN OTHER PLACES.

The Russian Government Decides to Order a Warship to Trebizond.

CONSTANTINOPLE, via Sofia, Oct. 11.—It is stated upon good authority that the total number of killed, wounded and missing Armenians up to date, as a result of the recent rising, is over 700. The Armenians finally have been induced to leave the churches and to return to their homes.

Additional advices received today from Trebizond, Armenia, show that the Mussulmans attacked the Christian quarter in that town and killed many Armenians. Others sought refuge outside the town.

The Russian government has decided to send a warship to Trebizond.

Charged with Murder.

PITTSBURG, Oct. 11.—Caroline Anna Gallion was arrested at the house of her father, William Kennedy, near Butler, Pa., last night, on a telegram from the chief of police of Denver, charging her with the murder of her husband, last spring. An application for her release on a writ of habeas corpus was made this morning on the ground that she had been arrested without a warrant.

At Newmarket.

NEWMARKET, Eng., Oct. 11.—This was the opening day at Newmarket of the second October meeting. Interest centered in the Middle Park plate, the result being the greatest race of the year, the Duke of Westminster's Ormonde winning, while which he hopes to win the next Derby, and several other candidates for the blue ribbon event of the British turf were entered.

The race was over the Rowley stakes course, six furlongs. Leopold de Rothschild's St. François, was first, Duke Westminister's Ormondemasse, Prince of Wales's Persimmons third.

PLUNGED INTO THE RIVER.

Engine and Baggage Car Go Through a Lock Bridge.

PETERBOROUGH, Ont., Oct. 11.—The engine and baggage car of the passenger train on the Grand Junction branch of the Grand Trunk railway plunged into Otonesse river near this town last night, through a lock bridge carelessly left open. The first passenger coach, containing twelve persons, stood on the brink of the river, the forward part projecting over the abutment, but the air brakes held it from going any further. The engineer jumped and escaped unharmed. The fireman and baggageman and Mr. Morse, traveling for King & Company, of Ontario, were carried down and seriously injured.

U. P. Reorganization Committee.

NEW YORK, Oct. 11.—The reorganization committee in connection with the new organization plan for the Union Pacific is announced as follows: General Louis Fitzgerald, of the Mercantile Trust company; Marvin Hugit, president of the Chicago & Northwestern railway; Chauncey M. Depew, president of the New York Central & Hudson River railway; Jacob H. Schiff, of Kuhn, Loeb & Co.; T. Jefferson Coolridge Jr., of Boston.

They Do Not Bind a Judge.

HOT SPRINGS, Ark., Oct. 11.—The statement sent out from here last night that Judge Duffie had instructed the sheriff to do everything in his power as an officer of the law to prevent the contemplated fight here between Corbett and Fitzsimmons, is true. He advises the sheriff fully as to his duty, and says he would give him further information as the time passed on.

It is evidently Judge Duffie's purpose to prevent the fight if he can, but notwithstanding his action, the preparations go on and there is no doubt the fight will take place on October 31st.

Hanged for Murder.

CHICAGO, Oct. 11.—Harry Lyons was hanged today for the murder on the night of February 1, of Alfred Mason, a scenic artist. Lyons attempted to rob Mason on the street and in the struggle fractured the victim's skull with the butt of a revolver. Lyons was about 35 years old, and had a long, ugly police record.

To Protect Americans in Turkey.

WASHINGTON, Oct. 11.—By request of Minister Terrill, for protection of American missionaries in Turkey, at the instance of the state department, the navy department has ordered the Marblehead to Iskenderun, gulf of Alexandretta. Minister Terrill has telegraphed that orders have been issued in all provinces to protect the Americans.

POLICE COURT.

A Trio of Colored Gamblers Fined for the Offense.

Dick Murphy, C. S. Marsh and Robert Smith, three colored men, were arrested last evening for gambling. The complaint which was sworn to by newsboys charged the men with using improper dice, by which means they fleeced the boys of their earnings. The case came up in the police court this afternoon and after several of the victims testifying, Judge Smith found all three guilty of the specified charge.

Before passing sentence, Marsh and Smith pleaded for leniency, but Judge Smith considered the case a serious one and fined Murphy and Smith $25 each, while Marsh was mulcted $15. In passing sentence the court warned the newsboys that if they were found guilty of shooting craps, as they often do, again, they too would have to suffer the penalty.

Bob Kelly stood up to answer to the usual charge, and although he plead not guilty, he was rewarded with ten days.

Thomas Gallacher, a boy about 17, was arraigned for vagrancy, but upon stating that he wanted to go to Denver, he was discharged.

Susan Tu Bingo was brought to again for drunkenness to which she plead guilty but stated that she desired to go to Kaysville and secure work, and she was allowed to go.

H. Steinburger forfeited $5 for a violation of the bicycle ordinance.

Probate Court Orders.

In the matter of the estate of Stephen A. Estes, deceased; Samuel B. Westerfield, administrator, made a return of sale of real estate and Wednesday, the 23rd day of October, was set as the time for hearing said return.

In the estate of John C. Larson, deceased; Ellen Larson was appointed administratrix upon filing a bond in the sum of $1,750, with Emil Hartvikson and C. A. Carlquist as sureties.

In the estate of Walter L. Burton, deceased; William Dowdson was appointed administrator on filing a bond in the sum of $500, with Charles C. Day and H. D. Winter as sureties.

APPROPRIATION LIST

Passed at the Last Session of the City Council.

Mayor Heskin today signed the appropriation list passed at the last session of the Council, which will be ready for payment tomorrow and is as follows:

Ellerbeck & Morris	$ 3 25
Robert Lees	3 00
J. J. Johnson	3 00
J. J. Daly, street commissioner	11 00
Ben Sheridan	3 00
Patrick & Moore	3 00
Hugh Sullivan	11 20

Summer Work in South Carolina.

LAKE CITY, Williamsburg Co., S.C. September 16, 1895.

To the Editor:

Having seen nothing from this part of the Lord's vineyard for some time past I take the present opportunity to inform, through the columns of your much prized paper, my brethren who are laboring in the various missions that all is well with myself and companion. We return our grateful thanks to our heavenly Father for the good health we have enjoyed thus far through an exceptionally hot season. The country is low and levers are of frequent occurrence and although coming from the pleasant valley and pure air of Utah into the malaria tainted atmosphere of lower South Carolina, we have felt no inconvenience. We feel that we have had a successful season's labor. We have not made Latter-day Saints of any of the people, but we have aligned mountains of prejudice, warned all with whom we have come in contact, and have been the means of opening the eyes of a few to the present condition of the Christian world. These few are earnestly investigating Mormonism, and we trust that they will be able to come to a knowledge of the truth.

Most of the people here are Methodists. There is a goodly number of Baptists and Presbyterians, but Methodism seems to be most popular. Baptism is agitated more or less among them. Some say it is a disgrace to be immersed; to prove up their sprinkling they appeal to the Old Testament and to 1 Cor. 10 chap., 2 verse. Was baptism practiced prior to John the Baptist? What is the first account we have of this ordinance? What is the true meaning of 1 Cor. 10 chap. 1-4 verse? Information on these points will be gratefully received by myself and probably by others who are engaged in scattering the seeds of truth. We trust our labors will be like bread cast upon the waters.

Our annual conference will convene in this county on the 26th and 27th of October if all is right. There will be between twenty-five and thirty Elders present and we anticipate a good time. Only those who have experienced it know how Mormon Elders enjoy themselves during conference time. The hot season is about past and with cool weather active labor will commence with the Elders. Saints and friends in the old fields have been visited during the summer and now the cool weather is near the Elders will push into new fields, offering the Gospel truths to those who have not heretofore had the privilege of hearing them.

Praying for the success of those who are laboring in this glorious work, I am

Your brother,

C. G. PARKINSON.

DONE UP IN COURT.

The Jury Brings In a Verdict of Guilty for Storey.

WHITEHEAD'S BONDS FORFEITED.

On Trial for Grand Larceny—Suit on a $15,000 Note—Other Legal Matters.

Criminal cases continued in Judge Barton's division of the Third district court today by the resumption of the argonments in the trial of James Storey, charged with assault with intent to commit rape. At the conclusion of the speeches of counsel, Judge Barton made his charge to the jury. An important item therein bearing on this case was the instruction that voluntary intoxication did not make an offense less criminal unless it was shown that all power to distinguish between right and wrong was gone at the time the act was committed. The case was then given to the jury, which retired in charge of Bailiff Letcher. In less than an hour the jurors returned with a verdict of guilty of assault with intent to commit rape. Sentence will be passed on Monday, Oct. 14.

The next case called resulted in a hung jury, which may be set aside on the appearance of the defendant with a good showing of cause for his absence. Charles G. Whiteheadl, indicted for grand larceny, failed to respond. The names of his bondsmen, Hugh J. Cannon and Lewis M. Cannon, were called and an order of bail exonerate made by the court.

Witnesses for the defense were ordered out of court in the case of John Cannon, accused of larceny.

In the perjury case against W. H. Hollbrooke, the defendant was ready for trial, but a material witness of the prosecution had been detained at Denver, so the case was passed upon the application of Judge Hawes, with the understanding that it may come to trial next Tuesday if the witness gets here by that time.

BEFORE JUDGE MERRITT.

In the matter of the estate of Joshua Rudgeon, an order was entered dismissing the appeal upon stipulation of the parties. Le Grand Young having withdrawn his appearance for appellant, John A. Marshall and L. M. Wedell were substituted.

The remainder of Judge Merritt's time was taken up hearing to the evidence in the suit of W. C. A. Smoot vs Pacific Lumber company, an action for alleged overcharges; he also alleges that somebody forged his name to a certain transfer of stock in the company, but now the forgery was committed has not been shown yet.

NEW SUITS.

Mary Judge and Josiah Barnett began suit in equity in the Third district court today against Kelly & Co., the National Co-operative Building and Investment association, the Salt Lake Lithographing company, and Joseph R. and M. H. Walker, doing business as Walker Brothers. It is alleged that on the 15th of August, 1892, John Judge loaned Kelly & Co. $15,000 in cash, payable in five years, at the rate of 8 per cent interest; that the defendants gave a trust deed on certain property as security; Josiah Barnett being trustee; that the promissory note has been transferred to Mary Judge; that no interest on the note has been paid since August, 1894; that the National Co-operative Building & Loan Association promised to pay the $15,000; that the mortgaged property has been transferred by Kelly & Co. to the Salt Lake Lithographic company; and that the other defendants have a claim upon the property. Because of the failure to meet the interest payments, a foreclosure of the mortgage is asked, with $600 attorney's fees and costs of suit. Frank Pierce is attorney for plaintiffs.

The H. M. Bishop Cigar company also brought suit against Hyrum, Greenback and Joseph S. Groesbeck, as bondsmen in a case where judgment had been secured in the justice's court and an appeal taken. On the trial in the higher court, the judgment was for the same parties that won in the justice's court. This judgment has not been satisfied, hence in this suit the plaintiffs ask judgment against the bondsmen, Hyrum and Joseph S. Groesbeck, for $587.10 and interest from March 14, 1893, at 10 per cent. H. H. Blood is attorney for plaintiffs.

Vital Statistics.

The statement of vital statistics of this city for the month of September being sent out by Clerk Folland of the board of health shows that the death rate was 0.34 per thousand; that the total number of deaths was 37, with causes as indicated, zymotic 9; constitutional 4; nervous 11; circulatory 11; respiratory 3; digestive 2; genito urinary 1; accident 1; other causes 3. Of the number 20 were males and 17 females; 15 were natives of Utah; 10 came from other parts of the United States and 12 were foreign born. During the month there were 70 births, 8 cases of scarlet and 38 of typhoid fever and 1 of diphtheria.

Microscopical Society.

The annual meeting of the Microscopical Society of Utah will be held in the faculty room of the University building on Friday evening, October 11, beginning at 7:30 o'clock. The official reports of the first year of the society will be more interesting than usually, as showing not only the varied and attractive character of the work done, but its eminently practical nature.

The program will be as follows:

President's report; treasurer's report; address on the Technique of Mounting Microscopical Sections of Animal Tissues, by Dr. G. H. Penrose; Stereopticon Exhibition of Microscopical Preparations, by Dr. J. E. Talmage; questions and answers.

The annual meeting being the occasion of the election of officers for the ensuing year, the presence is earnestly requested of all persons interested in the important and fascinating work of microscopical investigation.

AMELIA E. BROWNSBROOD, Secretary.

OUT ON A LARK.

William Wedlake Meets an Old Friend and Has a Time.

Mrs. Margaret Vandyker, of Rush Valley, came to town yesterday, accompanied by William Wedlake, a man in her employ. Wedlake went off to consult attorneys about some mining claims in which he was interested, while Mrs. Vandyker went about other business.

After Wedlake had consulted the attorneys, he met an old friend named Jack Dow and they went into a saloon to get a social drink. Both men lasted for a few hours and then Dow kindly invited Wedlake to come up to his house. At the house, which is situated on Victoria alley, Wedlake was introduced to Dow's alleged wife and a few more social glasses were indulged in.

It was now getting towards evening, and Mrs. Vandyker, desiring to go home, searched high and low for Wedlake, finally locating him in the aforementioned house. She told him that she desired him to go home with her, whereupon he showered all sorts of slanderous abuse upon her, calling her names less are not fit for publication.

This was more than the old lady could stand, and she called Officer Johnson, who was in the vicinity, to her assistance. The officer tried to persuade Wedlake to go home with the lady, but he obstinately refused, and gave Johnson to understand that he could painitate Salt Lake's whole police force. To emphasize his remark he knocked the officer's hat off, when he was immediately placed under arrest.

He proved to be a very stubborn individual, and it took Sergeant Eslinger and Officer Johnson to convey him to the police station, where outrages of quite abusive language and resisting an officer were lodged against him.

He came up for trial to the police court this morning and Justice Smith ordered him to pay a fine of $10 on the first charge and $5 on the latter.

Davis County Notes.

The Clipper says: There was a great quantity of honey made at Kaysville this season "and much more might have been raised if the latest and best methods of bee culture known were used by our bee keepers. There is a ready quantity for sale now and no market, but if it had been put up in a marketable shape A. J. Reed, of Iowa, would take three or four carloads. He wrote a letter to W. E. Smith a few weeks ago inquiring after that quantity, but said it must be either in the comb or cold extracted. Most of this is sun extracted."

Joseph Page, son of Thomas Page, of Bountiful, met with a very painful accident on Sunday evening last, says the Clipper. He had been to Salt Lake and was returning on the last running when he jumped from the car near his home while the train was running at the usual rate of speed landing in a cattle guard, breaking his right thigh in such a manner that the bone protruded through the flesh. It is thought that after he fell he took onto the car and was dragged a short distance. No one learned of the accident until the train returned from Farmington, some forty minutes later, when the engineer saw him lying upon the track. He was still in an unconscious condition and remained so until next morning. Dr. Bernard was called for and later the railroad physician, Dr. Mayo, who did all they possibly could for the unfortunate young man who is now getting along as well as can be expected. He seems to be rather unfortunate as the same bone being filled upon one or two previous occasions.

AMUSEMENTS.

Tickets are now for sale at the theater for the performance of the Passing Show, on Monday and Tuesday next.

THE GRAND.

"Standing room only," the sign at the box office window of the Grand Opera House last night, told the story, both from a financial point of view and otherwise, of the play presented at that place of amusement, this week. One Error can be seen again tonight and tomorrow night and matinee.

DENHALTERS WIN.

The Prize and Grand Medal Awarded to the Home Band.

At last night's meeting of the Cambrian Society the protest of the First Regiment band of Montana, against the awarding of the prize to the Denhalter band of this city, was taken up again and finally disposed of. The matter was thoroughly gone over and discussed and decided in favor of the Denhalter band, giving them the prize and grand medal. Mr. Lepson, the donor of the medal, will be informed by the secretary of the association of the action of the society.

Nickel Donation Envelopes.

Superintendents of Sunday schools of Salt Lake State please call or send at once to J. M. Whittaker, room 224 Constitution building for your quota of envelopes for use in collecting your "nickel donation on "Nickel Sunday." These envelopes should be in the hands of your pupils by Sunday, Oct. 20th.

THOMAS C. GRIMES,
RICHARD D. ROBERTS,
WILLARD C. BURTON,
Superintendent of Sunday Schools, Salt Lake Stake.

CRUSHED TO DEATH.

W. L. Burton Run Over and Fatally Injured.

MRS. BURTON SEVERELY HURT

And May Die—Two Children Miraculously Escape Death—A Terrible Sight.

At 7:45 last night a frightful accident occurred on North Temple street at the Union Pacific railway crossing. As a result Mr. W. L. Burton is lying dead at the morgue and Mrs. Burton is so severely injured that she may die.

Mr. and Mrs. Burton, with their two children, a boy and girl aged 9 and 3 years respectively, were returning to their home on Fourth South, between Third and Fourth East streets, in a buggy. Just as they reached the Union Pacific railway crossing on North Temple street, switch engine No. 1104 was making a switch of some box cars. The end car was loaded with coal and was cut loose from the train just as the helper at the crossing saw the buggy. He signaled to the engineer to stop and told the night foreman not to draw the pin. Both did as he instructed, but the coupling pin fell short of its mark, the end only coupling the link and slipping off, and the loaded car struck the vehicle with its precious human burden. It appears that the car was seen by Mr. Burton and that he attempted to stop the horse, which was going at a good speed. The animal, however, turned up the track in the direction which the car was going and the front end of the box car caught the hind end of the buggy, tearing it down with its giant weight and throwing the occupants under the grinding wheels. By some miracle the two children were landed out of reach of the car wheels and received only some severe bruises and a shaking up.

A piercing scream rang out on the night air and soon a crowd of people were gathered at the fatal place. The sight that met their eyes was an appalling one. Mr. and Mrs. Burton were pinned under the wheels of the car with that enormous weight grinding and lacerating their bodies. Hydraulic jacks were soon procured and the car lifted from the bodies. It was about twenty minutes before the unfortunate couple were extricated from the death clutch, and then it was discovered that Mr. Burton had received many injuries, any one of which would have proved fatal. Almost every bone in the body appeared to be broken and there was a ghastly wound upon the skull which showed that one of the wheels had literally ground the head of the unfortunate man. Mr. Burton was removed to the baggage room at the Union Pacific depot, and expired within twenty minutes.

Mrs. Burton was found to have sustained many serious bruises and her left foot was crushed, making amputation necessary. It is questionable if she can survive. She was removed to St. Mary's hospital, where she will be given every tender care. Dr. Wright made the amputation and the woman as comfortable as possible before her removal from the Union Pacific hotel.

INQUEST TOMORROW.

Coroner Offenbach said an inquest over the remains of the late W. L. Burton would be held at 10 o'clock tomorrow morning.

MRS. BURTON SOMEWHAT BETTER.

A message from St. Mary's hospital late this afternoon announced that Mrs. Burton is a little better. The operation will not be performed until tomorrow and until that is over nothing definite can be said as to the prospects of the unfortunate lady's survival.

EISTEDDFOD ELEPHANT.

Denver People Troubled Over Finding a Suitable Hall for Next Year's Musical Festival.

Denver Republican, Oct. 10: Like the man who won the elephant at a raffle, the Cambrian society of this city has an elephant on its hands. Last week at Salt Lake City it succeeded in securing for Denver in 1896 the next convention of the Welsh choral societies. The great feature of these annual gatherings of a musical race are the choir contests, and the native pride of the members of the Welsh societies always makes them a wonderful success. There were three days of contests at Salt Lake City last week by the choirs which attended there and during those contests 35,000 people paid for admission to the hall. At one time there were 14,000 people in attendance. "Where in the world are we to show them when they come here we can never guess," Robert Stack of the cathedral choir stated last night.

"We have nothing like a place that will begin to hold the crowds which invariably go to hear these remarkable contests. The local Cambrians will have it to look after, but with our very latest auditorium Denver is away behind recommodating 14,000 people at one time."

Sometimes it takes a great deal of money to carry on a convention. The Welsh way of holding one is to charge a nominal sum for admission, and so thoroughly good do they make their programs that the choral contests are invariably largely attended. At Salt Lake the contests met all expenses of the convention and netted about $10,000 to the local Welshmen who got it up.
