PRICE OF GOLD.
Delivered Daily by BANK of DESERT,
SALT LAKE CITY, JANUARY 4, 1872.
Buying at \$1.00; selling at \$1.00.

LOCAL AND OTHER MATTERS.

TREATMENT. — Last evening two acts of "Across the Continent" and one of "Bon McCullough" were followed by the rather light drama of "The Fool's Treason." In the first named Messrs. Byron, Graham and Loraine and the Misses Spencer and Bowring and others were greeted with the usual boisterous applause. In the second Mr. and Mrs. Byron acted. In the concluding drama Miss Goudineau assumed the rôle of Walter Arlington with spirit and vivacity. Mrs. Clawson and Bowring and Messrs. Byron, Thorne and Marden enacting their parts with decided success. The pleasant nature of the weather doubtless prevented a larger attendance at the last appearance of so good an actor as Mr. Byron.

Mrs. Bowring has long been known as a very useful member of the company, and her friends have done much to contribute to the success of the Drama to manifest their appreciation of her efforts to entertain them.

A SENSIBLE PROPOSITION.—The New York Herald, noticing a bill presented in the House of Representatives, mentioned "one by Mr. Blair, of Missouri, to legalize polygamy," and added: "We hope the measure is already introduced, and to dismiss all criminal proceedings against polygamists in Utah—a sensible proposition."

THE RAILROAD EAST.—The following, being the latest news of the road east, came this morning over the Western Union telegraph line:

OGDEN, 10 a.m.—The Central Pacific train is seven hours late. Union Pacific waits for it.

Mo. Bow, 4—The road between Lamont and Rawlins is clear except at Lookout, where the train is still stuck in the snow, and four coal trains started last night, but did not proceed until the road had cleared to Cheyenne. Several passenger trains for the west are lying at Bedfod. Four passengers trains for the east are lying at the Summit or Creston, with no prospect of getting out for a day or two. The weather is clear and pleasant.

JOHN BREGAN.—The man who has figured before the police court latterly on a charge of shooting at persons with intent to kill, and was committed in the sum of \$5,000 to await his trial, was taken before Judge Hawley on a writ of habeas corpus, and turned loose upon the community again.

It now appears that Mr. Began has figured in another capacity, having presented a check at the First National Bank purporting to be signed by James Whayland, though another person to Whayland had drawn \$400. Yesterday, the real James Whayland presented himself at the bank and called for his money, being told it was paid three weeks since, he failed to see it, and on seeing the check declared it a forgery.

MESSAGES AT DESERET TELEGRAPH OFFICE FOR D. COOPER, L. S. KENNEDY, J. W. RATES, AND C. F. FOSTER.

SMALL POX REMEDY.—A friend requests us to publish the following, as a timely contribution for those afflicted with the disease:

"An effectual remedy for small-pox is said to have been recently found by a surgeon of the British army in China. The mode of treatment is as follows: When the preceding fever is at its height, and just before the eruption appears, incise the body with a sharp knife or other instrument. This causes the whole of the eruption to appear on that part of the body to the relief of the rest. It also removes a full and complete eruption, and thus prevents the disease from attacking the internal organs. This is now the established mode of treatment in the English army in China and is regarded as a perfect cure."

Per Deseret Telegraph.

R. R. BULLETT.—Ogden, 4, 8 a. m.—No report from U. P. this morning. C. P. seven hours late. U. P. eastward waits for it.

THE GRAVEST QUESTION.—The Washington Chronicle speaks of the "Social Evil in New York" as "the gravest question of the age." Then why is it not considered and solved before so much trouble is taken to solve the "Mormon problem"?

REMEDY FOR FROZEN LIMBS.—We have received a communication, "Don't amputate these feet," from a correspondent, who does not furnish his name. As it is a remedy for frozen limbs which he recommends, the name is not very essential. He states that twelve years ago a young man was brought to him with his feet so badly frozen that the universal opinion was that they must be amputated. He wrapped the feet up in wet cloths, and administered cayenne pepper to him internally. After three or four days the action of the blood was so great that he could not sit in a chair, but had to lie with his feet elevated. After that period he could sit up a little while at a time, and in eight or ten days he could move around on his feet, and on the sixteenth day he walked in a mill. He speedily recovered, and only lost by the freezing of both feet, five toe nails.

A SOCIAL PARTY.—The 14th Ward Rooms were graced last night by the presence of a large assemblage of gentlemen and ladies who had responded to the invitation of a committee of invitation composed of gentlemen prominent in the leadership of the Sunday School of that Ward.

The party was given for the benefit of the Sunday School, and we are informed, by the number who attended, the street meeting in such a terribly wretched condition for walking, that the Sunday School is a very popular institution and has many well-wishers. The party was a most delightful one, and paid off with a unanimous occurrence of sincere enjoyment intended to interrupt its harmony. The music by Olsen's Quadrille band, the calling by James Clegg, and the fine manner in which the party was conducted, nothing to be desired. Two Christmas trees were part of the decorations of the room, on which over two hundred presents were hung for the children of the Sunday School. The children's party is in progress as we go to press, and is proving a success.

CO. PARTNERSHIP.—At one of these parties the presents will be distributed to the children. Superintendent Thomas Taylor and his assistants have spared no pains to make this holiday season one of pleasure to their numerous Sunday School pupils.

PROGRESS OF THE NINETEENTH CENTURY.

Dr. T. W. Marshall lectured last evening at the Cooper Institute under the auspices of the Catholic Union. There was an immense audience present, which seemed to take deep interest in all the speaker had to say. The subject of the Nineteenth Century was "Progress of the Nineteenth Century," although if he had omitted it, "Development of the Nineteenth Century" would have been far more in keeping with the general tenor of what he said and what he tried to make his hearers believe. He suggested that we are drifting into a state of barbarism and savagery as fast as it is possible for us to go, and all because many nations of the world have discarded Catholicism and adopted Protestantism. Indeed, a more gloomy picture than that drawn by Mr. Mar-

NEW EDITIONS

OF THE
MAYNARD

STANDARD POETS

JUST RECEIVED

NEW AND COMPLETE EDITIONS IN ONE LARGE VOLUME,

of the Works of

"A slight Cold," Coughs.—Few are aware of the importance of checking a cough or "slight cold" which would yield to a mild remedy, if applied, often attacks the lungs. Brown's Balsamic Extracts give sure and almost immediate relief.

This causes the whole of the apparatus to appear on that part of the body to the relief of the rest. It also removes a full and complete eruption, and thus prevents the disease from attacking the internal organs. This is now the established mode of treatment in the English army in China and is regarded as a perfect cure."
