TELEGRAPHIC.

TOLEDO'S BIG FIRE.

A Million Dollars' Worth of Property Consumed.

BUSINESS BLOCKS DESTROYED.

The Wind Bears the Sea of Flames in all Directions.—The Cause of Fire Unknown.

TOLEDO, Jan. 3.—A fire tonight caused a loss of nearly half a million dollars. It broke out a few minutes after 6 in the elevator of N. Quale & Co. on the river, fronting on Madison and Water streets. The cause is yet unknown. The elevator, with its contents was entirely destroyed. A strong northwest wind carried the flames across Madison street to the elevator and business block of C. A. King & Co., which is also a total loss.

The flames also spread westward across Water street, to the rear of a large five-story business block, known as the Chamber of Commerce building, owned by T. P. Brown and occupied by the Western Union Telegraph company, the American District company and a large number of offices, which was also destroyed. From this the flames spread south to the next building, five stories high, occupied as a museum and theater. This was gutted within a few minutes. The next building southward was the wholesale drug house of West & Truax, which is also a total loss.

To the west the flames leaped across Summit street, the chief retail street of the city, injuring the Hartford block, but the fire was here checked without great damage. In the rear of this building was the office of the Postal Telegraph company. The manager removed all apparatus possible, thus cutting off all telegraph communication for the time, as the Western Union offices and instruments were destroyed. The two story block at the northwest corner of Water and Madison streets, diagonally across from the Quale elevator, was also destroyed.

The principal buildings damaged suffer as follows: Hartford block, $10,000; Anderson block, $8,000; street railway office, $9,000. The total loss is now estimated at $1,200,000, with insurance for about three-fifths.

A Supreme Court Decision.

WASHINGTON, Jan. 3.—The United States Supreme court rendered a decision in the case of Angel vs the Chicago, St. Paul, Minneapolis and Omaha railway company, against the company. The plaintiff, Mrs. Angel, a widow, sued for money due her husband for work he was ready to perform in building the Superior Air Line. The court holds that the Omaha company secured a land grant of 3,000,000 acres from the Superior company by misrepresentation to the Wisconsin legislature and sustains the charges of fraud. Mrs. Angel's claim amounts to $500,000. The claims of the stockholders of the Superior Air Line are yet to be filed. The lands secured by the Omaha company are valued at $1,000,000.

They Will Fight.

JACKSONVILLE, Jan. 3.— Unless something of an unexpected nature turns up, the Corbett-Mitchell battle will surely take place. If found impossible to pull the fight off in this city, a secret battle ground will be selected within the limits of Duval or St. Johns county, and the contest will go on as if nothing had happened.

Senator Faulkner Married.

FORT MONROE, Va., Jan. 3.—The marriage of Senator Faulkner and Miss Whiting took place at 5 o'clock this afternoon in the old St. John's church, Hampton, to the music of the bridal march from Lohengrin, sung by eight young lady friends of the bride, with organ and orchestra accompanying. The senator and his bride left for the South tonight.

The Income Tax Measure.

WASHINGTON, D. C., Jan. 3.—McMillan, chairman of the sub-committee in charge of the internal revenue tariff bill, outlined today the salient features of the income tax measure, which he expects to complete in a day or two. He said: "The corporation part of the measure will not require an inquisition on every individual to determine what, if any, corporate stock he holds, but the assessment will be made against and paid by the corporations to the first income, and leave a man owning corporate stock will not be worried by the revenue unless he is subject to the individual income tax. The corporations will pay the tax on each of its incorporators, and will in turn charge it up against them. But to prevent taxing a man twice, if a corporation pays for an incorporator on the dividends he would receive, he is to be credited with that amount in assessing his general income for taxation.

"As to foreigners and foreign associations holding interest-bearing securities in this country, they will be assessed the same as our own citizens. It will not be necessary to go abroad in order to ascertain these investments, as the assessment against the corporation will cover all its stockholders, foreign as well as domestic.

"The collection of the tax will be in the hands of the internal revenue bureau. It will not necessitate the appointment of new tax collectors in the various states, but a few additional assessors and deputies will be required, to work under the present revenue collectors."

To Police the Bering Sea.

WASHINGTON, Jan. 3.—The secretary of state and the British ambassador are pushing negotiations for an agreement upon regulations to police the Bering sea. It is important that these regulations be agreed upon before the opening of the sealing season.

A Failure with No Assets.

LOUISVILLE, Jan. 3.—In the United States court of Franklin Judge Barr appointed J. W. Buckner receiver of the Southern Land Improvement company. The debts seem to be an insignificant had one. There were not sufficient realizable assets to pay the commissions of the assignee.

The U. S. Navy.

WASHINGTON, Jan. 3.—The Minneapolis is still at Norfolk and has received no orders to put to sea. Nor word is received of the departure of the New York from St. Lucia, British West Indies. The Montana has been detailed to duty in destroying derelicts in the North Atlantic when it was found necessary to dispatch her to Sin Domingo on account of the prospected outbreak there. It is intended that the Vesuvius shall cruise to destroy derelicts, but one is at present undergoing repairs, which will not be completed till January 6th.

Mr. Carter Goes East.

CHICAGO, Jan. 3.—Chairman T. H. Carter, of the Republican national committee, left for the east today after a conference here with the party leaders regarding next fall's congressional elections. In an interview Carter said: "The national executive committee will meet in Washington January 11, and the members are naturally desirous of knowing how the great body of the party stands upon the principal issue, and whether or not there have been radical changes of popular sentiment in the congressional districts, and especially where these districts are doubtful."

Carter said the Republican party favored the use of both gold and silver, and he no longer considered the People's party a factor in national politics.

A FOREIGN NEWS BUDGET.

Anarchist Leaders Arrested in France and Spain.

The Czar and the Roman Pontiff.—Potatoes Prospering for an Attack on the Rebels.

MADRID, Jan. 3.—Telegrams from Barcelona say ten arrested anarchist leaders were handed over by the civil authorities to the military authorities, owing to the fact that the latter have declared that the prisoners were accomplices of Pallas in the attempt upon the life of General Campos, and must consequently be tried by martial law. The anarchists were terror-stricken when handed over to the officers, as they expected they were being led out for immediate execution.

ARRESTS IN FRANCE.

LONDON, Jan. 3.—A dispatch to the Times from Paris says there were numerous fresh arrests of anarchists in Paris, Argenteuil, Bondeville, Lyons, Bourges and Montpelier today. All the anarchist newspapers and almanacs were seized at Havre. Three men arrested at Brest were employes at the arsenal the. One arrested at Montpelier tried to blow up the court of justice there in 1887. A Spaniard arrested at Montpelier is believed to have been implicated in the Lyceo theater outrage.

Russia and the Vatican.

ROME, Jan. 3.—Dr. Zotz, Roman Catholic bishop of Tiraspol, Southern Russia, who arrived December 16th, in order to arrange a removal of the friction caused by the pope's recent utterances as to the condition of the Roman Catholics in Poland, had an audience with his holiness today. It is believed the audience will lead to a resumption of diplomatic relations between Russia and the Vatican, and prevent a papal protest against the treatment of the Catholics in Poland being published.

IN BRAZIL.

The President's Probable Intention as to Rebels.

NEW YORK, Jan. 3.—The *Herald's* Montevideo special says that Peixoto is believed to be arranging to get all his ships together before attacking Mello's navy. He has sent a dispatch to Tamboi, ordering the Republica and Benjamin Constant, building there, to proceed to Pernambuco with all speed. It is understood that these two ships are far from ready for effective service.

MARCHING ON SANTA ANNA.

BUENOS AYRES, Jan. 3.—The insurgents of Rio Grande do Sul are marching on Santa Anna, where the government troops have abandoned. A rumor has reached here from Rio that if the revolution is not ended by an immediate and decisive naval engagement it will shortly be terminated by arrangement between the two parties.

A Prussian Cabinet Meeting.

BERLIN, Jan. 3.—There is much speculation as to what transpired at the meeting of the Prussian cabinet yesterday. It was unusually protracted, lasting five hours, and Chancellor Capriwi and the war minister were present.

The Mutiny in Cameroons.

BERLIN, Jan. 3.—One hundred marines left Kiel today for Cameroons. It is reported that other marines are held in readiness to start for Cameroons. Other accounts of the mutiny in Cameroons say it originated among the freed Dahomeyan slaves, who were required to serve until they had repaid their ransom money. When the German cruiser Hyaena left, these Dahomeyans demanded that they be paid wages, the same as the other police. When their demand was refused they revolted.

A Pure Norwegian

oil is the kind used in the production of Scott's Emulsion — Hypophosphites of Lime and Soda are added for their vital effect upon nerve and brain. No mystery surrounds this formula—the only mystery is how quickly it builds up flesh and brings back strength to the weak of all ages.

Scott's Emulsion

will check Consumption and is indispensable in all wasting diseases.

What Food Makes Butter Butter.

The New Hampshire Experiment station has been conducting some experiments as to the effects of different foods upon the hardness of butter, and though the work in this direction is not as yet extensive enough to justify the drawing of conclusions, their experiments thus far indicate:

That grains and meals tend to produce a much softer quality of butter than cornmeal or cottonseed meal, and other things being equal tend to lessen the churnability of the butter fat.

That with the same cows the hardness depends much more upon the character of the food than upon the nutritive ratio.

That analysis produces a much softer butter than does good hay, but it is also favorable to the firmness and texture of the better product.

That silmmilk has a very favorable effect upon the churnability and quality of the butter fat, and in a single trial apparently reversed the general rule that the volatile fatty acids increase as the period of lactation advances.

That cottonseed meal readily produces an especially hard quality of butter, and that cottonseed meal and gluten meal might be used together with excellent result.

That contrary to general belief the melting parts of butter fat is not a good indication of the commercial hardness of butter. That while in general a soft butter melts at a lower temperature than hard butter, there is no definite relation between melting point and actual hardness.

That no relation can be traced between foods and volatile fatty acids, except in the case of silmmilk. That usually hardness and volatile acids vary inversely, hardness generally increasing and volatile acids decreasing as the period of lactation advances.

Bald Heads!

What is the meaning of moss? It means hair, of course, because moss is a kind of hair. Hair is a growth of the skin. Moss is a growth of the earth. Moss is to the earth what hair is to the skin. If there is no moss on the earth, what makes you think that there should be hair on your head?

FORTY YEARS IN UTAH.

And Thirty Years a Sufferer From Catarrh. Edmund Webb of Kaysville, Utah, States What Was Done for Him. What Has Been Done for Others Can Be Done for You.

EDMUND WEBB, KAYSVILLE, UTAH.

Testimony in treating such cases as mine, and placed myself under treatment there and have continued with the successors, Drs. Shores & Shores of the Zion Medical and Surgical Institute, until now I can say we I am a different man altogether than I was when I began treatment. I have improved from the start, and now I feel entirely well, except my hearing, and it is improving as rapidly as possible, taking into consideration my age. The doctors assure me that my hearing will be restored completely in a short time, and I feel very grateful for what they have done for me.

"I recommend these physicians to all and will be glad to have any one doubting this statement, call or write me at my home, Kaysville, Utah."

THE POOR TREATED FREE.

Drs. Shores & Shores of the Medical and Surgical Institute, will treat all those who are unable to pay, free of charge, on Fridays, provided they bring an order from their bishop or minister stating the fact that they are without money and are deserving of treatment.

"I am 75 years old and have lived in Utah for the last forty years. I have a fistula from catarrh for the last thirty years, and the disease has caused me so much suffering that I am very grateful to God that at last I am blessed with the skill and treatment given by the Zion Medical and Surgical Institute, which has placed me on the road to better health," said Mr. Webb in his letter.

Continuing he said:

"I suffered with headaches, roaring in the ears, my eyes were watery, my bowels disorded, my chest filled with mucus so bad that at times I could scarcely speak. Such was my symptomatic state about ten years ago, when my hearing became affected, my stomach began to lose its digestive powers, my appetite was good enough, the good, in fact, as I was not satisfied by eating enough for four men, and after eating, the food lay like lead in my stomach.

"My kidneys was filled and broken, and I felt tired all the time. I tried many different kinds of patent remedies, but none of them done me any good, except a slight temporary relief. I read of the success of the Zion Medical

BONE TREATMENT.

A

GUARANTEE

TO CURE

HIGH PRICED COMPLAINTS.

Only one week before inventory. We must unload heavily.

$15,000.00

Worth of all kinds of merchandise must be carried away by our delivery wagons. The big store will be a busy one if low prices will do it. Every article in the big store, no reserve—at cost—at loss than cost—absolutely at sacrifice selling. A Happy New Year to All. Come Tuesday for bargains.

Dress Goods and Suits.

It has been told us by thousands they never saw dress goods sold so low as we have been selling them for the last four weeks. If you think they were cheap then, be sure and read these figures, an entire dress pattern for the last week before inventory.

We have over 1000 remnants of every kind of weave, from 1 yard to 6 yards, plain, stripes, plaids and mixtures. Every one who has bought knows they are extraordinary low. All marked in plain figures to move. A big movement double quick. The ticket will read Tuesday to everyone, Extra—25 per cent discount—Extra.

High class goods, full suits, a few of each kind represented in our front show window, don't miss it.

No. 1—10 dress patterns in elegant Tricot cloth, wool mixed in handsome shadings, just the thing for school dresses, 40 inch full suit, 10c, instead of $1.75.

No. 2—50 Dress Patterns representing 4 different kinds of 42 inch wool suitings, new this season, extremely handsome styles, a lovely street costume, full suit, $1.25, instead of $2.50.

No. 3—20 suits in silk stripes and mixed goods, 2 styles wool suiting, 40 inch stuff, only a few left, full dress $3.75, instead of $5.75.

No. 4—30 suits double width wool suitings, representing three different lines in fine checks, mixed, zig zag and herring bone effects, most beautiful styles, full dress $3.35, instead of $5.20.

No. 5—42 suits representing one line of Bengalines in plaids only, simplicity of mixtures, regular high art goods, just bought at a very low figure, it leads 'em all. Full Dress, $4.75, instead of $7.00.

No. 6—125 suits, warranted satin free Cashel's Hair, in figures, fine stripes and wide stripes, four different lines, again high class goods bought low, full suit $3.95, instead of $6.

Other lines shown in windows, we haven't room to mention here these goods at these give away prices, in suits only. When you come to see, call on the number as there will be just one of the greatest full dress pattern bargains ever shown over any counter in any city.

Closed Monday. Commencing Tuesday morning 8 o'clock sharp. Closing high priced complaints. A great advantageous week for the people of Salt Lake before our annual stock taking.
