SUNDAY SCHOOL UNION.

Well Attended and Interesting Meetings at Franklin, Idaho.

Minutes of Sunday School Union comprising Fairview, Nauvoo, St. Joseph and Franklin Sunday Schools. Present were Elders Levi S. Richards, of the general Sunday School Board, and John M. Whitaker, general secretary of the Deseret Sunday School Union, both from Salt Lake City, also the Stake superintendency and other leading Elders.

At 10 a. m. the school sang, "O Lord Accept our Jubilee," and prayer was offered by John M. Whitaker. The following programme was then rendered:

Recitation, "Father's Grave," by Rose Marshall
Recitation, "Love one another," ..... Fern Parkinson
Dialogue, "What is the Gospel?" ..... Jochem Schoen and his son
Recitation, "Thanksgiving," ..... Doris Hardy
Recitation, "Speak of the Few," ..... Clara Pratt
Trio (song) "Send Messengers Forth," ..... T. Hansen and Company
Class exercise, "Dwell in the Light," ..... Robert Cole's class
Recitation, "Good Advice," Frank Gunnerson
Recitation, "A Mormon Escapade," ..... Loretta Morrison

Remarks by Brother L. S. Richards recommending the adoption of the Sacrament in Sunday Schools that the children might learn the importance of it.

Class exercise, "Life of Joseph," ..... by Fielding class of Franklin school
Recitation, "Golden Keys," ..... Hyrum Murray
Recitation, "Good Friends," ..... Emma Hansen
Select reading, "Show Love Now," ..... Eileen Gill
Recitation, "Growing Apart," ..... Cora Parker
Answers to questions, "The Saviour and Little Children," ..... Fourth class of town, Franklin school
Song, "Seek ye the Lord's Kingdom," ..... Stake Superintendency
Recitation, "I Love the Times the Lord Has Set," ..... Maggie Cowan, St. Joseph
Answers to Faith ..... Helen Kimball and Mary Winchester
Recitation, ... Mary M. Whitaker
who commended the exercise and expressed a feeling with an opening of the eyes being the hope of Israel.

President Geo. C. Parkinson endorsed the sentiments made by the speakers and the exercises of the children. Still from time present will be chosen men and women to fill important positions in the Church and nation.

The afternoon session was opened with the usual exercises and the sacrament was administered.

Recitation, "A Prisoner Praise of Nashville," ..... by Pauline Parker
Song, "Call to Arms," ..... by Sunday Sch. Union of Fairview Class
Recitation, "What is it for?" ..... Nellora Hardy
Remarks on "The Life of Jesus" ..... by Peter Dewey
Song, "The Morning Star Shines," ..... by Sunday Sch. Union of Nashville
Class Exercise, "On the Resurrection of Christ," ..... by Young Adam class of Fairview
Quartette, "Learn a little every day," ..... by Fielding and company
H. W. Harris, Jr., of Richmond made a few appropriate remarks.
Song, "Looking to God," by Miss Dolbee and sisters.
Brother Jacob Hood said we sought now to render to God our duty and perform our parts and repay the young men to prepare themselves for further settlement.
Song, "We are journeying on to meet a King," ..... by James Sneed and Brother Hood.

Brother John M. Whitaker made some remarks showing that it will require a strong faith in future to preach the Gospel aright, which many present may be called upon, in the near future, to do.

A song, "The hand of God upon the wall" was rendered by Polly Parkinson and company. Brother Levi S. Richards remarked that there was much to be done and therefore many laborers needed in the Sunday school cause. He recommended the grading of schools, making a less number of classes, thus giving the schools the benefit of the most suitable teachers.

The general superintendency and Stake and ward officers of Sunday schools, were sustained, and the union adjourned, all feeling that much good had been done.

Benediction by Joseph Sevbrough.

TRUMAN DUBANT,
Stake secretary.

FRANKLIN, Oneida county, Idaho, October 19th, 1891.

How to Handle Guns.

Having been asked by friends frequently for advice for their boys in handling guns, I send you a digest of same:

Empty or loaded, never point a gun toward yourself or any other person.

When afield, carry your gun at the half cock. If in cover, let your hand shield the hammers from whipping twigs.

When riding from one shooting ground to another, or whenever you have your gun in any conveyance, remove the cartridges, if a breech loader, it being so easy to replace them. If a muzzle loader, remove therefrom, brush off the nipples and place a wad on each nipple, letting down the hammers on wads—simply removing caps sometimes leaves a little fulminate on the nipple, and a blow on the hammer when down discharges it.

Never draw a gun toward you by the barrels.

More care is necessary in the use of a gun in a boat than elsewhere, the limited space, confined action and uncertain motion making it dangerous at the best. If possible no more than two persons should occupy a boat. Hammerless guns are a constant danger to persons boating.

Always clean your guns thoroughly as soon as you return from a day's sport, no matter how tired you feel. The consequences of its always being ready for service is ample return for the few minutes' extra labor.—Forest and Stream.

Sugar in Tea or Coffee.

If we drop a lump of sugar into a cup of tea we find that it takes a considerable time to melt if allowed to remain at the bottom of the vessel, but if we hold it up in a spoon near the surface of the liquid it dissolves away much more speedily. This arises from the sugar, as it melts, rendering the portion of the beverage containing it heavier. The sweetened part, therefore, descends, leaving the sugar constantly in contact with unsweetened or only partially sweetened tea, and, in fact, a continual circulation of fluid is promoted until the whole is dissolved.

When the sugar is placed or presumed to lie at the bottom of the cup, it dissolves until the layer of fluid next it is thoroughly sweetened or saturated, when it practically ceases to dissolve any further, the sweetened and heavier stratum above it acting for a considerable time, until the law of diffusion comes gradually into play, like an imperious lovers, in keeping back the lighter unsweetened fluid above. Hence the reason also why stirring, in breaking up the saturated layer and allowing access to the unsweetened portion, is so effectual in bringing about the uniform sweetening of tea.—London Tit-Bits.

PUFF! AND OUT THEY GO.

A Cavern in Colorado That Resents the Presence of Strangers.

There is a cave near Rockwood, a station on the Denver and Rio Grande railroad, which has been visited by many persons. No particular mention of the cave has been made, as it seemed to be little worthy of notice. On Sunday last a number of pleasure seekers left the city to join a party at Rockwood who had planned to visit the cave. About 4 o'clock in the afternoon the members of the party, having disposed of their dinner, began to climb the hill near the top of which the mouth of the cave is located.

After much exertion the foremost of the party reached the mouth of the cave and being in advance of his companions they were startled to see him fall backward into the low oak brush as if he had been struck by a cyclone. His companions pushing forward more vigorously, soon came to his rescue and found him recovering, not much hurt, but slightly scratched and somewhat dazed. He could give no explanation of his sudden removal from the opening in the cavern.

Curious to know what the cause was the entire company in a body pushed up the hill, which has a particularly steep descent near the mouth of the cave. To the astonishment of the whole number the instant after stepping into the cave they found themselves all piled together in a heap near where the first had landed. It took but a little while to recover from the astonishment, when they began to inquire the cause of this sudden excitement. They all agreed that they had seen nothing to cause such a thing, and they were curious to know the reason for the phenomenon. But how to find out what they wished was the thing to decide.

At last it was determined that the strongest gentleman of the party should gain a position at the side of the entrance, and, thus protected, get an opportunity to reconnoitre. So, taking a cautious route and avoiding a position directly in front of the opening, they soon found themselves close beside the entrance. Cautiously putting his head out beyond the protecting wall, the foremost neared in. His back immediately took flight down the declivity, but he was thus made aware of the exact state of affairs.

The philosophy of the current of air let rather suddenly dawned upon him. As is well known the air of a warm day in summer is much lighter on the outside of a cave or cellar than it is inside. Consequently the cold, heavy air rushes out with great violence enough in this case to cause the trouble spoken of and throw the party down the hill.

Later, relating this tale, an old timer told your correspondent of a former adventure of his at the same place. On a cold day in the early winter he was tracking a deer along this hillside, when he was astonished to see the cave open up before him, and he noticed that the snow seemed to have been disturbed very recently, as though a body had been dragged into the entrance.

Without thinking, he stepped forward to examine into the cause of the disturbed condition of the snow, when he felt himself violently pulled into the cave, the force pulling him from his feet. He felt a shock, and for awhile was oblivious to all around him. When his senses returned he found he was lying by and partially upon the body of a deer. Upon examination he found the body of the deer yet warm. This led to a still closer examination. He at last determined that the force of the current of air blowing into the cave had drawn the deer in, killing it, but that when he was drawn in the shock was somewhat obviated by his striking the deer, thus saving him from death. The explanation is just the reverse of the other, the air being warmer inside the cave than out. The current flows into the cave during the winter, thus accounting for the strange effair.—Denver Sun.

Taming a Zebra.

Zebras can never be tamed, unless the process is begun while they are still very young. H. A. Bryden gives an instance of a tragic fate which befell one of them, captured when he was 7 or 8 years old.

He had joined a troop of horses belonging to one of the author's friends, and finally allowed himself to be driven with them into a kraal or inclosure. It was then determined to keep him, and if possible to domesticate him.

For this purpose he was housed and tied to a tree, bogo fashion was he in the presence of man that the greatest precautions had to be observed in approaching him. All possible means were taken to induce him to feed. When captured he was in splendid condition, and his coat shone in the sun. Herbage was brought from the mountain tops where he had been used to graze, and every conceivable food placed before him, but in vain, he steadily refused to eat.

Water he drank greedily, and would dispose of three bucketfuls at a time.

At length, after three weeks of vain endeavor to tame the noble creature, during which time he obtained entirely on water, he died.—Youth's Companion.

The Use of the Word Telepathy.

The term telepathy need not be introduced without explanation. Some term not yet in common use must be employed when mental phenomena—influences of mind on mind—not generally seen to be closely related have to be classed together; and if possible, brought under one law. The familiar term "thought transference" has much too limited a meaning. And "telepathy" is already in use. It has been adopted by the Society for Psychical Research, and among other writers, especially by Mr. Edmund Gurney.—Blackwood's Magazine.

Delayed.

Briggs—I saw your wife in a dry goods store yesterday morning.

Griggs—You did, eh? She must have been waiting for something.

Briggs—Why so?

Griggs—She was late to dinner last night.—Chat Review.

Scallops in Maine.

A big scallop from Mount Desert has a diameter of nine inches, and the edible portion will weigh five ounces. How long the scallop takes to grow before reaching maturity does not seem to be known, but it is believed to be of age at its fifteenth year. The mollusk with edible portion is not chained like the oyster to the rock. It enjoys locomotion.—New York Times.

NOTICE.

THE ANNUAL MEETING OF THE Stockholders of the Deseret Cooperative Company, for the purpose of hearing the report of the secretary and treasurer and the transaction of such other business as may come before the meeting, will be held at the office of the company, in Salt Lake City, Utah, at the usual place, Joseph Walt's house, Salt Lake County, Utah, on Saturday, the 24th day of October, 1891, at 2 o'clock p. m.

JOHN R. WINDER, Secretary.

Salt Lake City, October 10, 1891. 2d

HISTORY OF THE BANNOCK STAKE

The History of the Bannock Stake, compiled by Andrew Jenson, and latelyy published in the DESERET WEEKLY, has now been issued in pamphlet form, and can now be had at the DESERET NEWS office at 25 cents per copy. d&w

CURES COLDS, CROUP, CONSUMPTION.

ORANGE BLOSSOM.

Ladies suffering from any form of Female Weakness, will find a sure cure in "Orange Blossom." For full particulars call on the General Agent, 123 West, Third South Street, Salt Lake City.

ADVICE TO MOTHERS

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, reduces all inflammation, and is the best remedy for diarrhœa. Twenty-five cents a bottle. d&w

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW,

SOON IT WILL BE TOO LATE.

I have been troubled many years with disorders of the kidneys and have used many different remedies and have sought out from different physicians without relief. About the 19th of April I was suffering from a very severe attack that almost prostrated me to such a degree that I was laid over. When I got down it was almost impossible for me to get up alone, or to get on my clothes. When Kidney Pad came to Heber, with the OREGON KIDNEY TEA, I thought I would try it, as I had heard much about the tea. It had so much more than I had expected, and the improvement of all the pieces at the hotel, in a few days, I can sleep like a state, that I was a new man. I will recommend the tea to all afflicted as I have been.

O. A. TUPPER,
Proprietor Oregon Hotel,
Heber City, Utah.

NO MORE BACKACHE

Sold Wholesale and Retail by Johnson, Pratt & Co.

SELLING OUT REGARDLESS OF COST.

$125,000

Worth: DRY GOODS: GENTS' FURNISHINGS

S. KELLNER, 205-207 Main St.

Having decided to RETIRE FROM THE DRY GOODS BUSINESS, I have therefore commenced the sale of my entire stock on

MONDAY, OCTOBER 19th, 1891,

And WILL CONTINUE UNTIL EVERYTHING IS SOLD OUT, REGARDLESS OF VALUE. I have work to improve the last week for purchasing goods, and have put down prices on my goods, and I guarantee to sell the cheapest goods ever sold in Utah. The goods will be sold for cash, and the sales will therefore, for some time yet, daily acquisitions of goods that are new in the market. I will be in a position to say goods very thoroughly down, for the owning to be given to the public which I intend to make, that I will sell the cheapest goods ever sold in Utah. I have a large and well assorted stock of goods, and
