UTAH WEATHER AND CROPS.

A Week Without Rainfall — High Winds in some Localities — Threshing Begun.

SALT LAKE CITY, Utah, August 10th, 1896.—The week ending August 10th, was very favorable for growth and general farm work. The weather was warm, dry and smoky in all sections of the State from which reports were received. There was no rain fall during the week. In a few localities high winds slightly interfered with mowing hay. Generally, the weather conditions were all that could be desired for haying, harvesting grain, threshing, and the advancement of the growing crops. Farmers have commenced cutting the second crop of lucern which is a tolerably heavy crop in some districts, and light in others. The condition of the growing crops is excellent, and everything promises an abundant yield of corn, potatoes, sugar beets and garden stuff.

Harvesting is in full blast and a considerable amount of grain has already been threshed; the yield so far reported is fair to good.

REMARKS OF CORRESPONDENTS.

Cache Junction—Light shower Monday afternoon; rest of week fair; second crop of lucern most all in; cutting grain.

Newton—Heavy thunder shower on Monday at 6 p. m., the remainder of the week good for work; harvesting fall wheat; grain is good; cutting second crop of lucern.

St. George—Short but heavy rain on 2nd, with thunder and lightning.

Pleasant Grove—Warm the last week; harvesting is about over; fruit is ripening fast; second crop of lucern being cut and the wild hay jump is good and is being put up fast now. Potatoes, corn and sugar beets look well.

Spring City—Good weather last week. Crops doing well. Hay hauling all the go, wheat being cut.

Richfield—Good week for growth. Grain cutting has commenced on high land; hay crop light; all kinds of vegetables have done well, but potatoes are very scarce; early apples ripe.

Sigurd—The past week fine for growth. The storms of last month have brightened up fields, pastures and range. Second crop of lucern will be good. The fields are in need of irrigation and water is scarce again; fall grain being cut.

Joseph—Week nice and warm and good for getting up hay; water plenty (section); wheat being cut, that is the early crop; oats and wheat turning yellow.

Tropic—All kinds of crops are looking fine and the harvest promises to be abundant; hay is better than usual and is being rushed into the stack while the bright, warm weather we are now having lasts; the past week has been very favorable to crops.

Portage—A hot and windy week; all busy harvesting; dry land lucern turning up.

Holden—Fine weather generally the past week; no rain; second crop of lucern being cut; grain about to yield; drought various times; loss of moisture at times, at other times too much.

Lehi—The past week fine for growth. Most good hay cut and saved; beets thinning.

Harrisville—Immediately after making last report of Aug. 3rd, we had a good soaking rain; damaging some hay and regulator cut hay in the field to be turned over, since which the weather has been favorable for all farm work. Threshing has commenced with medium yield.

Corinne—A fine week for haying; grain looks well.

Uintah—Haying wheat is being harvested; the second crop of lucern has been cut; corn looks fine and promises a good crop. All the small fruit is gone; early apples and peaches plentiful, but late ones will be scarce.

Paragonah—A week of fine weather. The timothy seed will hay to be gathered in good condition; some early rows wheat now ready to cut; potatoes and vegetables look well; water getting scarce; wild berries in the hills abundant.

Payson—With his dry weather during last week considerable progress was made in harvesting crops. Threshing machines at work; beets, potatoes and corn doing fine.

Toole—With the exception of some high winds we have had a week of very pleasant weather. Second crop of lucern being cut; corn and potatoes showing well; water getting scarce.

Smithfield—Harvesting in full blast; second crop of lucern being cut, some being left for seed; sugar beets, potatoes, corn and squash growing fast; weather warm during week.

Washington—A very windy week, blowing a gale almost every day; plenty of sunshine. Two threshing machines going at full blast; wheat and rye turning out good; dry farming testing; irrigated crops at the same rate. This is surely a corn year; lots of beautiful corn without a drop of artificial water; potatoes O. K.; fruit very slim indeed.

Pleasant Grove—Warm the last week; harvesting is about over; fruit is ripening fast; second crop of lucern being cut and the wild hay jump is good and is being put up fast now. Potatoes, corn and sugar beets look well.

Spring City—Good weather last week. Crops doing well. Hay hauling all the go, wheat being cut.

Richfield—Good week for growth. Grain cutting has commenced on high land; hay crop light; all kinds of vegetables have done well, but potatoes are very scarce; early apples ripe.

Sigurd—The past week fine for growth. The storms of last month have brightened up fields, pastures and range. Second crop of lucern will be good. The fields are in need of irrigation and water is scarce again; fall grain being cut.

Joseph—Week nice and warm and good for getting up hay; water plenty (section); wheat being cut, that is the early crop; oats and wheat turning yellow.

Tropic—All kinds of crops are looking fine and the harvest promises to be abundant; hay is better than usual and is being rushed into the stack while the bright, warm weather we are now having lasts; the past week has been very favorable to crops.

Portage—A hot and windy week; all busy harvesting; dry land lucern turning up.

Holden—Fine weather generally the past week; no rain; second crop of lucern being cut; grain about to yield; drought various times; loss of moisture at times, at other times too much.

Lorenzo—Beautiful weather for harvesting and if no storm prevents it another week will finish that very important part of the season's labor. Second crop of lucern ready for the mower.

Scipio—Grain harvest commenced; lucern, vegetables, etc., growing fine; much wind; cool nights.

NEWS FROM COALVILLE.

Accidentally Shot Off Its Footing With a Gun—Death Notes.

To the Editor:

COALVILLE, Aug. 11, 1896.—A Mr. Thomas Hook, a sheep herder in the employ of Mr. S. S. Kingsbury, who is sitting in a tent at the sheep camp, about fifteen miles east of Coalville, was in the act of extracting a piece of cartridge shell from the barrel of his revolver, which contained a full length of cartridge, by driving a piece of lead in the muzzle of the gun, he received a couple of wounds from the explosion of three of the cartridges, one taking off the end of the thumb on the left hand to the first joint, and another, at a place in the revolver, striking him just above the left knee, which caused the limb to sway, and gave much pain to the leg. The young man was alone at the time with his flock, as one piece of the shell passed his face so close as to almost burn his nose as it passed on up toward the tent. He went to Salt Lake yesterday, but day after the accident, for treatment. It is to be hoped that he and others, from his experience will heed and not "monkey" with firearms in any way while they carry powder and lead.

A grand excursion from Park City of four coaches passed here yesterday bound for the Salt Lake.

The Summit Stake of Zion in the quarterly conference held yesterday and Sunday was highly favored for the first time with the agreeable presence and fatherly instructions of Apostle Teasdale; and from the expressions one hears from all sides we judge that it is the wish of all that his visits in the future will be more frequent. It is to be regretted that he was not accompanied by a reporter, for we know that the words uttered by him at our conference were God inspired, and it seems a pity that such cannot be heard or read by the whole people for they could not fail of deeply impressing the mind to a degree which it would be impossible to eradicate. E. H. EDWARD.

Lost Their Babe.

Brother and Sister Andrew Smith Jr. of this city have the sympathy of a very many friends in the sad bereavement caused by the death of their 20 months old son, which occurred last evening. The little one suffered from cholera infantum, and the best skill that could be afforded, with all the care a loving mother and affectionate relatives could bestow was unavailing, and the babe was called away. Wind renders the burden greater for the bereaved mother is that at present the husband and father is absent from home, although he is in a good cause, being engaged in preaching the Gospel in the Australasian mission. May He, in whose service Elder Smith is an active worker, and the burden of whose labor also rests in part upon Elder Smith, give that comfort which comes only from God, who doeth all things well. The funeral of the babe will take place tomorrow, Saturday, from the Third ward meeting house.

Successful Grass Hopper Catcher.

The grasshopper catcher successfully tested by Prof. Gill of the Wisconsin state university station consists of a sheet iron shallow trough, 6 feet long and 2 feet wide, with a canvas base 3 feet high, which extends over and in front of the ends. The trough is nearly filled with a cloth saturated with kerosene, which is also used on the canvas. The machine is either pushed or pushed, and the hoppers, in trying to escape, climb the canvas, fall into the trough and are stunned or killed by the kerosene. The best results are obtained when the grasshoppers are young and unable to fly.

Cool and delightful summer rile through the Rockies. Magnificent scenery.

Keep your tools and other valuables in safety boxes, in a safe, reliable place. Utah Savings Bank & Trust Co. Rent of these safe deposit boxes is low rates per annum, when securely locked as well as any one else.

One night when Mr. Isaac Hayes was stopping with me, says M. F. Hatch, a prominent merchant of Washington, Washington, I heard him groaning. On going to his room I found him suffering from severe colic. He was in such agony I feared he would die. I hastily gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved, and the Rev. wrote me a kind note. "What was that stuff you gave me?" I informed him. A few days ago we were talking about the attack and he said he was never without that remedy. It has proved a life saver for several years. I know its worth and do not hesitate to recommend it to my friends and customers. For sale by Druggists.

Mr. C. G. Strong, principal of the public schools of Anderson, Cal., says "I have used Chamberlain's Pain Balm and have found it an excellent remedy for bruises and slight wounds."

Laziness usually results from a system in other respects healthy, or from constipation, for which Chamberlain's Pill Balm is a sure cure. Sold by Druggists.

"If I knew of a better medicine in the world I would use it," says H. Hodges, of Marquam, Oregon, speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "We had long ago to make this selection to keep the best that experience in the world have was prevalent around here last summer and it never took over two or three doses of this remedy to effect a complete cure." For sale by Druggists.

Best Ice cream is still selling at the of the Equitable Coop.
