TELEGRAPHIC.

BUSINESS NOTES.

In Easier Condition in the Money Market Reported.

WHY CONGRESS WAS NOT CALLED

Peffer Makes a Prediction.—More Petitions.—Mass Meeting in Denver.—Failure.

NEW YORK, June 28.—Bankers reported an easier condition in the money market this morning. There were no extraordinary shipments and the only thing that was noticed out of the ordinary was the large number of demands for rediscounts from all over the country. The clearing house loan committee issued $1,530,000 in certificates, making the total amount issued $6,980,000. The sub-treasury transported $115,000 to San Francisco by telegraph in return for gold deposited. The free gold in the treasury today was just $98,000,000.

There was much talk in Wall street as to the reasons which prevented the President from calling Congress together immediately. An intimate friend of the secretary of the treasury in conversation with a reporter said that according to Carlisle, a canvass of the members of Congress two months ago on behalf of Mr. Cleveland, resulted in learning that there was a majority in the House in favor of the repeal of the sherman law, but in the senate there was a majority of twenty the other way. It was believed, however, that enough senators (eleven at least) would be converted before September to enable the repeal measure to pass the upper house.

PEFFER'S PREDICTION.

INDIANAPOLIS, Ind., June 28.—Senator Peffer of Kansas today in an interview said: "The Sherman law will be repealed the first thing when Congress meets. The effect of this will be to destroy both the old parties and build up a new one. That will be followed by a new alignment of the parties and some new organizations are soon to come into existence. The People's party is but the preliminary make-up of the one which is to assume control. The new organization is to be composed of the People's party mostly, and will receive many recruits from both the other large organizations, which now are closing their careers. The Indian silver movement promises general panic. Out of this will grow much strength for the People's party. The silver question has been giving us much aid all along."

SPEAKING OF THE SILVER SITUATION.

DENVER, June 28.—A prominent member of the clearing house association today, in speaking of the silver situation, said the closing of the mints to silver coinage in India will precipitate the settlement of the silver question, and viewed from this standpoint it is not to be regretted.

PETITION TO CLEVELAND.

ATLANTA, Ga., June 28.—Without a single exception, all the officers and directors of the Atlanta chamber of commerce have united in a petition to the President urging prompt action in calling Congress, on the ground that every day's delay is damaging to the business of the country.

SHELTERS ALL RIGHT.

KANSAS CITY, Mo., June 28.—August H. Meyer, president of the consolidated Kansas City smelting & Refining company, said today that the fall in the price of silver would have no effect upon the company's business. He said they anticipated the fall of silver over a year ago and thought most of the smelters in the country had done the same thing.

SENTIMENT IN THE SOUTH.

BALTIMORE, June 28.—The News presents the result of a telegraphic canvass of the leading newspapers of the South, showing that public sentiment in that section now is overwhelmingly in favor of the repeal of the Sherman law.

PATTERSON BLOWS THE SILVER TRUMPET.

DENVER, June 28.—Editor Patterson of the Rocky Mountain News, speaking of the silver question, said:

"In order to emphasize the fact that ruin threatens the Transmissouri country, and especially the silver section, because of the ruthless policy outlined by the money powers of the East and Europe, The News will, in the morning, call for a mass convention in Denver of a character that in numbers and influence will arrest the attention of the country to its protest against the monstrous crime that is contemplated.

MEXICO AND SILVER.

WASHINGTON, D. D., June 28.—The rumor was current in the treasury today that Mexico contemplates stopping the free coinage of silver. Minister Romero, when advised of the rumor, placed no credence in it.

FAILURES.

SIOUX CITY, June 28.—The failure of the Union Trust company was announced today. The liabilities are $500,000 and the assets $450,000. The stock was largely held in New Hampshire. It is stated that the obligations can be fully satisfied from the assets.

SAVANNAH, June 28.—A receiver has been asked for the Gulling Ordnance company, which was preparing to build a great plant in a suburb. The capital is a million. It was organized to make heavy ordnance after Dr. Gulling's patent.

OMAHA, June 28.—There is a strong probability that the big smelting and refining works in the city will be closed on account of the decline of silver.

NEW YORK, June 28.—F. G. Pierce & Co., shipping and commission merchants, assigned today. They claim a capital of $100,000.

ST. LOUIS, June 28.—The United States court of Indian Territory today appointed receivers for the Choctaw Coal and Railway company.

LOCKHAVEN, Pa., June 28.—The state bank of Lockhaven went into liquidation today.

Not Entitled to Pension.

WASHINGTON, D. C., June 28.—A list comprising the names of a number of pensioners recommended by Commissioner Lochren to be dropped from the pension rolls has been handed to Secretary Hoke Smith and he has approved the recommendation. It has been found by the investigations by the pension bureau that the persons named for various reasons are not entitled to draw pensions.

Salaries of Postmasters.

WASHINGTON, June 28.—The annual review of salaries of the presidential postmasters has been completed by Frank H. Jones, first assistant postmaster-general, with the following results: Total number of presidential postoffices in operation July 1st, 5317. Aggregate salaries, $5,065,706, total gross receipts for the four quarters ended March 31st, $59,182,801. Increase as compared with last year, $5,903,825.

A Genuine Surprise.

PORTLAND, Or., June 28.—The news from Washington this afternoon that the President had summarily dismissed Collector of Customs James Lotan and placed Deputy Collector Pike in charge of the office was a genuine surprise, inasmuch as Lotan's successor has been named and will probably qualify Saturday next.

"I have just received a dispatch from the department at Washington instructing me to turn over the collector's office to Deputy Pike. I have done so, and he is now in charge. I think this whole affair is at the instigation of the special agent of the treasury, who was sent to this coast to work up opposition for this office. Mr. Cleveland has stated that he would remove no Republican except for cause. The fact of the matter is, they had no cause, consequently they had to find a cause. In view of the fact that on July 1st I would have stepped out, it seems as if I might have been allowed to retire in proper form."

The steamship Haiilien Bepotile was seized today, presumably by order of Special Treasury Agent Wood. The ground for the seizure is not known, but it is said that the trouble is the old charge of smuggling opium and Chinese.

ON THE FAIR GROUNDS.

There Will Be a Dairy Exhibit in July.

CHICAGO, June 28.—Unless the unexpected should happen there will be a dairy exhibit at the World's Fair in July. This announcement which was issued by Chief Buchanan of the department of agriculture today was received with thanksgiving by some of the 1500 exhibitors who for the past two months have been compelled to submit to exasperating and financial losses by reason of the Executive company in furnish facilities for displaying their products.

A FLOOR GIVES WAY.

While employes in the decorating department of the World's Fair were presenting a silver tea service to Director of Decorations Millet this afternoon, the floor on which they were standing suddenly gave way, precipitating 250 persons several feet to the ground, nineteen of them sustaining painful but not fatal injuries. The accident occurred in the color building, which is a small structure erected for working purposes, and is not one of the buildings for exhibits. The presentation was just over, and the men were thronging around Mr. Millet to congratulate him when suddenly the floor gave way with a terrific crash.

EPWORTH LEAGUE OFFENDED.

CLEVELAND, O., June 28.—At the meeting of the cabinet of the Epworth League of the United States today a resolution was introduced by H. C. Jennings of Minnesota and adopted, instructing the general secretary to withdraw the Epworth Leagues exhibit from the World's Columbian Exposition on account of the disgraceful action of the directory in opening the gates on Sunday. The action of the commission of the Methodist church was severely criticised.

ALL ABOUT BAGS.

James Wilson Says the Government Has Not Been Defrauded.

NEW YORK, June 28.—James Wilson of this city was recently a witness before the customs house investigating committee, but feeling the evidence he was allowed to give was not comprehensive enough, has written a letter to Chairman Fairchild of the investigating committee, in which he says, in part:

"I do not feel that the proceedings of the committee were seriously intended to elicit all the facts regarding the importation of return California cental bags. The fault is not in the appraiser but in the law of Congress. It is impossible to say absolutely where an individual bag is made, and it seems, under the circumstances, that the appraiser cannot justly impose a penalty of duty, but is bound to give the bag the benefit of the doubt.

"The talk that the government has been defrauded of many thousands or millions of dollars is sheer nonsense. This investigation was instituted by Collins, a bag maker whose brief you have evidently accepted as a whole. Now you do not appear to have asked Collins how it is he engages so long importing these bags himself without paying duty on them, or why he was required to pay duty on one importation of 70,000 bags shipped him as California bags, but which never have been in California at all and most of which are branded with the name of Arnold, Breuss & Co., a firm of grain shippers in Buenos Ayres, South America. I have actual knowledge that for the last year Collins has been busy collecting evidence to prove the foreign origin of most of these returned bags, and yet within that time I have sold him many thousands of these bags all of which he entered free, and in regard to which he has taken the oath at the customs house in New York to the best of his knowledge and belief they were bags of American manufacture.

"You evidently accept this Collins's theories with astonishing faith and treat with slight consideration and scant courtesy those half dozen other witnesses, most of whom are tracers of much greater knowledge and wider experience than he, and have apparently condemned as ignorant and inefficient the New York examiners, and, by implication, all other examiners and appraisers, for these cental bags are passed free through every customs house from Boston to New Orleans."

A SENSATIONAL SEQUEL.

Governor Altgeld's Citizenship Questioned.

CHICAGO, June 28.—A sensational sequel comes tonight to Governor Altgeld's release of the Haymarket anarchists. The Journal raises the question of whether he is legally governor of the state of Illinois or a citizen of the United States. The Journal says Governor Altgeld rests his claim to citizenship on the simple statement that his father was naturalized while his son was a minor child. Altgeld was born in Prussia in 1848 and came to this country with his parents when a boy. If his father was made a citizen while the governor was under 21, there is no question as to his title to citizenship, but if the elder Altgeld waited until his son was over 21, before taking out the papers, then the title of the governor to citizenship is fairly clouded.

The fact developed today that the friends of Fielden, Schwab and Neebe know not an element that Altgeld was in sympathy with the cause of the Amnesty association from the fact that he was one of the signers of the the unsuccessful petition presented to Governor Fifer. It is said the Amnesty association will continue its labors with the view to now securing the pardon of the Dynamiter Crushfield French, who was sentenced to Joliet for fourteen years some time after the convention of the Haymarket rioters.

Representatives of fifty socialistic societies in the United States will open an annual conference here in July. One of the prominent members of the Chicago organization said today that resolutions thanking Governor Altgeld would be adopted unanimously.

The Rate War.

CHICAGO, June 28.—The Grand Trunk railway, in proceeding against the action of the Central Traffic association in extending the time of excursion tickets, says unless the arrangement is discontinued it will begin to cut rates. Other roads say they will pay retaliation to the Grand Trunk.

THE COWBOYS.

Four of Them Said to Have Gone by Texas.

CHICAGO, June 28.—George Jones and Bartonsake Pete, two of the notorious to the cowboy race, slain Berry, Albright, Gillespie and Smith, the first four men to ride in onto at his during the race and shipped their horses. Jones claims that he and Pete are the only men who rode a fair race. The statement is corroborated by the correspondent of a local paper who came over the road of a bicycle.

Too Much Chloroform.

NEW YORK, June 28.—Frederick G. Van Pelt, the young man who died in San Francisco last night from taking thirty-eight ounces of chloroform, was the son of Gilbert L. Van Pelt, a retired lawyer of this city. Mr. Van Pelt today said:

"I feel positive that my son did not commit suicide. He has used chloroform and morphine for some years, but we were not aware of the fact till about a year ago. I have had one letter from him since his departure, which he wrote in a very happy vein, saying he everything was going satisfactorily."

Indians Arming.

CADDO, I. T., June 28.—Trouble has arisen between the Jackson and Jones factions of Cherokee Indians, and will probably come to a focus within a brief time. The cause of the difficulty is the payment of the money to the million granted not to suppose the feud between the two factions and because of the execution on July 7th of nine Choctaws belonging to the Jackson faction. Last night Key Durant, captain of the Choctaw militia, received a telegram from Governor Jones instructing him to proceed at once to Tuscahasa.

The Jackson party is ready to go to any extremity to prevent the execution of the Indians, and they declare they never will tolerate it. The Jones party claim the law will be carried out. Serious trouble is probable.

Duly Dividend Rescinded.

NEW YORK, June 28.—The directors of the Daly Mining company today rescinded the dividend declared payable June 30th. The agent here received instructions from Salt Lake City to cancel the announcement of it.

Lawyer's Fees.

NEW YORK, June 28.—An attachment has been obtained in this city for Herbert L. Harding, a Boston lawyer, against Annie C. Severance of Los Angeles for $10,000 for professional services in connection with the will of the late Mrs. Mary F. H. Searles and widow of Mark Hopkins, the California millionaire. Mr. Harding claims he was retained by Mrs. Severance, and was instrumental in obtaining at Salem, Mass., for share of the estate, which amounted to $250,000.

Size of Chicago.

CHICAGO, June 28.—According to an estimate on the basis of the new Chicago directory, just out, Chicago is now the largest city in the country. The editor of that publication makes the total 2,160,000.

GENERAL FOREIGN NEWS.

The German Government's Majority for the Army Bill.

Annexationists in Honolulu Becoming Discouraged.—Victoria's Status.—Cholera.

BERLIN, June 28.—Reports received today complete the returns from all the 397 electoral constituencies in the empire. The exact numerical relations of the parties nevertheless is still in doubt, as several candidates have reserved their decision concerning the military demand of the government. The situation is further complicated by the rejection of the returns in five constituencies where irregularities violated the elections. One of these constituencies is in Jerichs, where Count Herbert Bismarck is supposed to have been elected. If these constituencies are allowed, according to the returns the left will be as follows: Clericals, 97; social democrats, 44; conservatives, 77; free conservatives, 20; national liberals, 52; Guelphs, 8; Alsatians, 12; anti-Semites, 17; Boulanger radicals, 25; radical liberals, 11; Poles, 19; independent clericals, 11; Bavarian Peasants' league, 2; South German democrats, 11; Danes, 1. Of these 199 are counted for the army bill and 185 against it and three are closed as doubtful.

On the Hawaiian Islands.

HONOLULU, June 21.—American congress are wagging in a vigorous manner over Minister Blount's refusal to participate in the coming Fourth of July celebration. Although he does not say so, it is quite evident that Blount looks upon the Fourth of July celebration as purely an annexation affair, and does not wish to participate in anything that could give the impression that he favors annexation.

The Sarsaparilla Pills, which arrived from San Francisco yesterday, brought news of Minister Thurston's interview with President Cleveland. Mr. Cleveland's address is regarded here by annexationists as an indication that annexation will not be considered by his administration. Now that hope of annexation part of the United States is gone, the leading men in charge of the government are casting about for something else. They have apparently decided that if annexation fails they will not accept a protectorate until overtures have been made by England to secure a stable government. If England will have none of it and the provisional government finds it cannot stand alone, it will come back to the United States for protection.

More Bills May be Vetoed.

SIMLA, June 28.—Sir David Barbour, financial member of the Viceregal council, says in an interview on the silver question that in his opinion Cayan and Mauritius would be compelled soon to follow the example of India and close their mints to the free coinage of silver. The effect on Chinese trade, he said, was causing much justifiable anxiety. That China's foreign trade relations would be disturbed to an enormous extent was self evident.

Status of Victoria.

LONDON, June 28.—The status of the queen, the work of Princess Beatrice, her majesty's youngest daughter, was today unveiled in Kensington gardens by the queen in person in the presence of a large concourse of prominent people. The duke of York, who is not in the best of health, was absent.

Captain Bourke of be Tried.

LONDON, June 28.—Captain Bourke, senior officer among the survivors of the war ship Victoria, will be tried by a special naval board sitting at Malta for having lost the vessel. Further proceedings depend upon the outcome of this trial.

Deaths from Cholera.

PARIS, June 28.—Two persons died of Cholera today in Toulon and one in Montpelier.
