GOOD ADVICE

Fire Insurance in Hard Times

During periods of depression the property owner is least able to sustain the loss by fire. During prosperous days no such average recognition for fortunate can be found, and it is impossible for the unfortunate to secure the protection with which he where he can and ought. Hence, every action tends to expose the property owner, and to carry, towards forfeiture, that self and family protection which is the result of years of hard work. The time to look into the question and of the old fire insurance policy is when it is renewed, or when change of the company, whether desired or benefit, THE DIRECT PLAN of insurance through the NEW YORK BOARD.
