The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 12. SATURDAY, DECEMBER 5, 1896, SALT LAKE CITY, UTAH. VOL. XXX

NAVY YARD ACTIVITY

The Officers Now Expect Trouble With Spain.

MONITORS READY FOR SERVICE

Orders Issued to Have the Dynamite Cruiser Vesuvius Prepared to Leave in Five Days.

CHICAGO, Dec. 5.—A special to the Inter-Ocean from Philadelphia says: League Island Navy yard is a scene of unusual bustle and activity. All of the monitors that have been moored in the back channel are now in the best possible condition and ready at a few days' notice to go into active service. The stores for all of them are at the island and they need only be stocked to go to sea.

There is a great deal of secrecy as to what is being done with the dynamite cruiser Vesuvius. Orders have been given that she must be in readiness to leave in five days. All her stores are ready for her. Every particle of her machinery has been oiled and the men on board of her have been told to "keep their mouths shut." One of her officers says that if she has the opportunity she will surprise the world in the way of maritime warfare. The Furina likewise, is being arranged so that she will be ready to sail when crisis comes.

Every effort is being made to put the Brooklyn in the best possible shape to go into active service, and it is known that a special effort is being made from the secretary of the navy.

"What does all this mean?" was asked an official whose relations with the navy department are such as to give good offset to the opinion.

"I will tell you plainly," he replied, "that we believe there is going to be trouble with Spain. It won't last long, of course, but every order issued in the past five months has indicated such a outlook. There has been work in the history of League Island such a supply of stores as now here. It includes among other things material that is seldom thought of in times of peace."

CONGRESS WILL ACT.

ST. LOUIS, Mo., Dec. 5.—Congressman Seth W. Cobb, of St. Louis is authority for the statement that Congress will recognized the belligerent rights of the Cuban patriots, whether President Cleveland recommends it or not.

"The situation is a grave one" said Congressman Cobb, "and it is difficult to say what the President will do.

"It is my opinion, however, that President Cleveland will, in his message to Congress, speak very kindly of the Cuban patriots, but will not recommend any action. I don't think he is in favor of taking any positive steps, and will leave that to Congress."

Eastern Railroad Men in Phoenix.

PHOENIX, Ariz., Dec. 5.—D. R. Robinson, president of the St. Louis and San Francisco railroad, will arrive in Phoenix today with a large party of eastern railroad men. The trip is understood to be an official inspection of the Atlantic and Pacific, and its connecting subsidiary lines in Arizona. The Atlantic and Pacific during the past two months has come into the hands of the main executives of the Frisco road.

A Letter from Garcia.

NEW YORK, Dec. 5.—Cuban delegate Palmer has received a letter dated Nov. 25th, from Gen. Calixto Garcia. After thanks for Palmer's humane work for him, the letter said, the march was resumed toward Puerto Principe. The forces of Garcia and Gomez are about twelve miles from there at La Gloria village.

In the presence of both armies, three shouts (Garcia's band and one) celebrated him on his glorious victory.

Twenty-one prisoners taken in the Cubana were delivered under a flag of truce to a Spanish detachment at El Paso.

The Spaniards apparently had neither ambulances nor litters. When they returned from Guaymaro all the wounded were tumbled into an ox cart jolting carts and driven hurriedly off the field without any of their wounds being dressed.

Cable Car Wreck.

NEW YORK, Dec. 5.—Duffy's Hill, a steep incline extending from 102nd to 103rd street on Lexington avenue, was the scene of a cable car wreck last night in which 50 persons were injured or shaken up. The wreck was caused by the failure of the brakes to hold.

Flood in Washington.

TACOMA, Wash., Dec. 5.—Three inches of rain in four days together with the rapid melting of six inches of snow on snow which last week covered the valleys and hills, has caused a another flood. The Puyallup, Green, White, Black and Stuck rivers and north of Tacoma are higher than they were in November.

Moros Asks for Arms.

JACKSONVILLE, Fla. Dec. 5.—The Cuban delegate here has received a request from General Maceo for a large supply of arms and ammunition and munitions to be sent to him immediately. The Dauntless and the Three Friends will leave for Cuba at once with large supplies. No attempt has been made at secrecy and the United States marshal has been informed that the Three Friends will carry a cargo of munitions of war to Cuba.

THE STORM SUBSIDING.

Sharkey's and Fitzsimmons's Respective Friends Repeat Their Assertions.

SAN FRANCISCO, Dec. 5.—The storm that the contest between Sharkey and Fitzsimmons raised is rapidly subsiding. Those who insist that Eary rendered no actual decision are no less emphatic in their assertions than they were on the day after the fight, but there is nothing new to add to their story of fraud and the realial of their allegations gains only repetition. Those who claim that the sailor was fouled stand by their first position, which has been strengthened by the opinion of the consulting physicians and the decision of the backmasers.

Sharkey is still confined to his bed and will not be allowed to leave his room until Wednesday at the earliest. He is not a particularly presentable object but he rests easily and tells the story of how it all happened before he put prostate in the ring at the feet of Fitzsimmons.

Dan Lynch, the manager of the sailor, made another attempt yesterday to obtain the money in the Anglo-California Bank on the certificate of deposit, but the officials declined to pay the money.

Fitzsimmons's hands are considerably better and have almost reached their normal size.

Local bookmakers are now paying bets on the fight. They have accepted the decision of Earp as final, and are giving the winners what is due them. This has had a marked effect in silencing the storm of angry protests and arguments.

REVOLUTION IN URUGUAY.

The Federal Cavalry Has Suffered a Serious Defeat.

He Is Still Fully Receiving Fresh Strength Even From the Capital of the Republic.

NEW YORK, Dec. 5.—A dispatch to the Herald from Buenos Ayres says:

The condition of affairs in Uruguay grows more serious every hour, according to dispatches received from Montevideo.

The government has received official confirmation of the disastrous defeat of the federal cavalry in the department of Durazno by Lee Saraiva, the Brazilian insurgent, and the death of the Uruguayan leader, Major Rodrigues. Half of the fourth regiment of cavalry was annihilated in the battle. The government was also informed that its columns had suffered further loss by the desertion of Colonel Alcoza, who attempted to decoy the insurgents into an ambush in the department of Florida.

Many persons accused of complicity in the plot to overthrow the government have been arrested, and the town is just being deserted by all who have the means of leaving to have their homes. Rumors are current in well-informed circles that there have been many conferences of persons of high positions in politics, with a view to demanding the abdication of President Borda. The revolution receives every day fresh strength and it is the opinion that the government has quadruped greatly increased bodies of troops at the palace and municipality and at all points where influential and wealthy persons live.

Citizens of Uruguay residing in Buenos Ayres are taking a manifest interest in behalf of the revolution in their country, in which they say that truth and justice are the only objects of the insurgent movement. They ask for aid and recognition.

ATTACK ON THE FINANCE MINISTER.

NEW YORK, Dec. 5.—A dispatch to the Herald from Buenos Ayres says:

Senor Pellegrini has written a letter to President Uryuzu, bitterly attacking the minister of finance. The minister sent a cable message to London declaring that the government would not depart from its proposals to settling the national debt and would not pay the interest as a whole or in one sum.

It is semi-officially stated that the minister of finance will be overruled when this subject comes before Congress.

The finance commission appointed by the government has approved the budget and the plan to pay the interest on the external debt.

Mr. Baus, the owner, goes to Washington at once to inform the attorney general that he has contracted to land a cargo on the coast of Cuba, and will demand that the cargo be escorted there by a United States warship.

He insists that under the ruling of the Supreme Court of the United States in the Horn case the carrying of arms on an unarmed vessel is not a violation of the law. The Dauntless will take an her cargo of arms at Key West and the Three Friends will leave today for Cuba with arms.

Colonel Nunez, of the Cuban junta, is now in Jacksonville, directing the movements of the expedition.

DISCREDITED IN LONDON.

LONDON, Dec. 5. — The alarming news received from Uruguay via New York is discredited by Uruguayan officials here. Cable advices received by the Uruguayan legation here from Uruguay during the past few days make no mention of a revolution.

THE REVOLT ENDED.

BUENOS AYRES, Dec. 5.—An official dispatch from Montevideo, Uruguay, says Saraiva, the insurgent chief reported to have defeated the Uruguayan troops has been completely routed and fled with only ten followers. The dispatch further announces that the revolt is ended.

Electric Road Destroyed.

LORDSB, Dec. 5.—A severe gale prevailed on the English coast of the British coast, causing numerous casualties and much damage. The channel service has been suspended. The electric road from Brighton to Rotting Beam, along Foreshore, opened last week with great eclat, was destroyed.

Silver Senators are Waiting.

WASHINGTON, Dec. 4.—There are now quite a number of senators who walked out of the Republican national convention in the city. Senators Cannon, Dubois and Pettigrew are here, and met at the capitol today, but discussed matters only in a general way. There has been some speculation as to whether these former Republican senators would attend future Republican conventions. One of them, when questioned, said it would be time enough for him to decide when he was invited to a caucus, and called attention to the act that notices always are served on Republican senators that a caucus is to be held.

Another senator said he would not attend any caucus at present and would await developments.

Senator Teller of Colorado and Senator Mantle of Montana have not yet arrived, and it is quite probable there will be no decisive action on the part of the silver men until the arrival of these senators.

Changes in Naval Circles.

WASHINGTON, Dec. 5—Capt. Chas. D. Evans has been relieved of the command of the Indiana, battleship and ordered to Washington as a member of the light house board. Capt. H. C. T. pier has been detached from the navy war college and ordered to the command of the Indiana. Commander J. McGowan has been ordered to the command of the naval training station at Newport in place of Commander F. W. Wickins, who is ordered to Washington as assistant to the chief of the navigation bureau.

The Trans-Pacific Steamship Line.

CHICAGO, Dec. 5.—There is no longer any doubt as to the identity of the moving spirits in the proposed trans-Pacific steamship line. O. W. Potter, president of the Commercial National bank, yesterday admitted, although he declined to make any specific statement to that effect, that his son, E. C. Potter, is engineering the project. A. H. Butler is also a prominent gentleman.

The junior Potter, brother with Mr. Butler, is now in San Diego in the interests of the enterprise.

It is also known that negotiations are under way with the Atchison, Topeka & Santa Fe Railroad company looking toward utilizing the latter as the connecting link between the Pacific and Atlantic ports.

Banns in Washington.

WASHINGTON, Dec. 5.—M. A. Hanna, chairman of the Republican National committee, accompanied by H. C. Payne, of Wisconsin, arrived in Washington at 7:40 o'clock today. His first act was to inspect the new congressional library building with a view to its reception or rejection as a place for the inaugural ball.

Mr. Payne said in reply to a question as to the report concerning Hanna's intention to call upon Senator Sherman as the agent of McKinley, that it was a mistake. He said he entertained two shillings (fifty cents) wrote.

"I have long thought him a cement fellow."

Another, who enclosed ten shillings, said:

"He is a man for whom I have long felt reverence. May his country produce many more such enlightened and worthy descendants of England."

The representative of the Railway Gazette wrote:

"Though I have never seen Mr. Bayard, I have read his speeches, and it is my opinion that no other envoy has come so much for English society."

A firm of Christian card manufacturers sent five guineas "for the women and children." Many claim as one of England's sons."

In the meantime it is understood that Mr. Bayard is pleased with the bids and that he intends to accept the testimonial.

THE PRINCESS OF WALES'S BIRTHDAY.

The birthday of the Princess of Wales, who was born December 1, 1844, was celebrated on Tuesday last by the court of British. There was a large house party at Sandringham, which in addition to all the family included Lord Rosebery and the Prince and Princess of Wales. In the afternoon the Prince and Princess of Wales presided at a tea which they gave to 500 children of the estate.

MOTOR CAR COMPETITION.

H. J. Lawson, president of the motor car club, announces that it is the intention of the club to hold a motor car competition in May next. The prizes will be given in respect to design, construction and use of the car, but principally speed, which is held to be the most satisfactory test as to excellence of construction in a mechanical vehicle.

THE PRIZE WINNERS.

Now that the flat racing is over it is interesting to scan over the list of winning owners. Thanks chiefly to Mr. Fenquin Mr. Leopold de Rothschild leads the list with £49,750 stake money.

Persimmon brings the Prince of Wales each year £29,919, and the Duke of Westminster is third with £22,016.

Lord Rosebery is fourth with £20,894.

The Earlof Derby is fifth with £12,841, and M. Le Baudy comes sixth with £11,099.

Mr. Pierre Lorillard won £2,882, the Wisnard stable won £2,427, Mr. August Belmont won £448 and Mr. Richard Croker won £ 98.

THE BRITISH CRUISER POWERFUL.

The greatest interest is attached to the recent steam trials of the British cruiser Terrible. It is the most powerful of her class in the world and the great large British warship fitted with water tubes boilers. During the course of her long cruise in the channel the maximum power developed was 20,407 indicated horse power, while the average for the whole running was 18,000 indicated horse power, and it is agreed that of any warship afloat and only excelled by the two new Cunard steamers, the Lucania and Campania, steaming at 5,000 indicated horse power, the cruiser made 14.34 knots, using four and a half tons of coal per hour, and in the trial of her twenty hours steaming, with 18,000 horse power she made 21 knots with 16 tons of coal per hour. The last trial of her eight hours' trial with 20,000 indicated horse powers under natural draught, which developed a speed of 22½ knots. As the Terrible carries quite a heavy armament for a cruiser and tons of coal, the speed is considered to be remarkable and so fully justifying the change to the water tube boiler. The Power ful, however, has no side armor, although she has a protected deck of four inches maxim thickness on the slopes. She carries two 9.2 inch guns, twelve six inch guns, sixteen 12-pounders and twelve 3-pounder quick-fire guns. The big guns are mounted on the forecastle and poop in barbette the guns themselves being protected by a hood. The armored deck is composed principally of three thicknesses of steel plating, but the edges, where it joins the side of the ship, two of the skins of plating are discontinued. Consequently the extreme edge of the deck, for a width of a foot or two, have only one skin of plating which has been severely criticised as likely to expose the vitals of the ship when rolled away from the enemy.

ROOSEVELT'S CONDITION.

The condition of Mr. James B. Roosevelt, the secretary of the United States embassy, is causing anxiety. He is suffering from severe nervous prostration and insomnia.

THEATRICAL GOSSIP.

The principal gossip in theatrical circles is the advertised fact that Sarah Bernhardt will during her next London engagement appear at the Adelphi theatre, the regular home of melodrama. Her season at that house will begin on June 21 next. Among the novelties to be produced will be a version of Victor Du Marsan's historical drama, Lorenzaccio, in which the great actress will play Lorenzaccio and for the first time appear before a London audience in a male character.

It is also reported that she will play Mary Magdalene during this engagement.

Ellen Terry has abandoned any intention of appearing in Richard III when produced at the Lyceum. This is due to an alleged need of rest.

The withdrawal of Cymbeline is announced after a run of a little over two months. It is the general opinion that Irving has never been seen to less advantage than in the character of Iachimo.

Since Mrs. Patrick Campbell's partial retirement for the stage many rumors have been rife as to her playing an engagement in America in the near future. In connection with the rumors Mrs. Campbell writes to the Associated Press:

"Mr. Frohman has mentioned that he would like to manage an American tour for me next season, during which I should produce a round of my London successes. However, nothing has yet been definitely arranged."

In Wednesday afternoon's revival of As You Like It at the St. James, Geo. Alexander is said to have surpassed Sir Henry Irving. Never before has London seen such staging and accessories. Julia Neilson was the ideal so far as appearance goes, but she fell short in acting the part.

Alexander's Orlando was generally approved.

The surprise of the production was the great success of a novice so far as Shakespeare is concerned, in Fay Davis, the American actress whose Celia the critic pronounces to be a revelation and the best ever seen in London. It was the occasion also of the debut of another American, John Opp, who acquitted herself well in a minor part and whose appearance and elocution won the praise of the newspapers.

A Wreck on the Santa Fe.

ARTONOSA, I. T., Dec. 4.—A freight train on the Santa Fe, Colorado & Santa Fe railroad ran into an open switch this morning at Justin gravel pit fifty miles south of here, resulting a wreck in which Fireman W. H. Hall and Brakeman J. F. Mitchell were instantly killed and Engineer Mobley possibly fatally injured. The freight train was running close on the heels of the south-bound passenger train, which was just behind it, and it is believed the switch was tampered with with the intention of wrecking the passenger train. The railway officials have asked for bloodhounds to be sent and hope to trail the wreckers.

The Venezuela Question.

WASHINGTON, Dec. 4.—Minister Andrade of Venezuela will sail from La Guayra on the 10th inst. Arriving at New York about the 25th and coming direct to Washington to present in person to Mr. Olney the position of the Venezuelan authorities, in the controversy at present, as the British Venezuelan ultimatum.

Mr. Abner J. Churchy, who accompanied him, is expected to return at the same time. From the circumstances attending the mission of Messrs. Andrade and Churchy, it is felt that their return means either one of two things, a satisfactory understanding of also a desire on part of the Venezuelan authorities to secure some change in the terms of agreement.

Ice Piling Up.

EDAWARD, Wis., Dec. 4.—The situation at Keshena falls grows serious. At Keshena Falls, two miles up the river, ice is piled below the falls thirty feet high. The water backs up so the Falls are covered. The ice jam extends two and a half miles down the river. The water is backing up the creek at the village and part of the place is under water. At the government planing Mill the water is seven feet deep. All agency property is in danger.

AN AUDACIOUS SCHEME.

London Speculators Concerted a Plan for Making Money.

CLEVELAND, Ohio, Dec. 5.—A story of an audacious and gigantic scheme of a syndicate of London speculators to control all the European cable offices on the night of the American presidential election is printed here today on the authority of a high character. The plan was to secure the issuance of a report from European cable offices to the effect that Bryan was elected, which it was believed would send the stock market rapidly tumbling downward. It is alleged the schemers' agent was then to buy everything their available means could obtain and realize a fabulous profit after the public received correct news and the fraudulent one. The information, it is so stated, came from John C. Covert, a veteran Cleveland newspaper man, formerly editor of the Leader. The story came to him from a Cleveland physician, who heard it from men acquainted with promoters of the syndicate and having direct knowledge of the enterprise.

According to his statement some twenty London stock jobbers and speculators who were interested in the scheme, which might have come near to success, had the undertaking been started a week sooner. A fund of $500,000 had been subscribed for carrying it into effect, when the enterprise was abandoned.

Condition at Chippewa Falls.

CHIPPEWA FALLS, Wis., Dec. 5.—The water reached thirty-seven inches yesterday, but rose eleven inches last night and is stationary today. There seems no immediate prospect of the water leaving the city entirely. Neither is it expected to attain the height of two days ago. Yesterday some merchants began moving into the abandoned buildings, but the work was not continued today on account of the condition of the river. No risk will be assumed. Another ice jam is still coming down the river but in greatly reduced quantities. The gorge is not assuming much large proportions. The Central road was enabled to use its tracks a few hours last night but had to abandon them this morning on account of the rise during the night. The depot was wrecked.

The Sale of a Mine.

HELENA, Dec. 5.—The sale of the Helena and Frisco mine in the Coeur d'Alene was today consummated. The Exploration company of London, England, is the purchaser. The mine was recently examined by Hamilton Smith of the London company with Messrs. Hauser and Holter, the principal owners. The purchase price is $2,250,000. The negotiations were conducted and closed in Helena by W. J. Chalmers of Fraser & Chalmers, Chicago.

THE SPECIAL SESSION.

Will Be Convened a Few Days After the Fourth of March.

The Decision Taken After a Consultation Between McKinley and Dingley.

WASHINGTON, Dec. 5.—Several arrivals of friends and confidents of McKinley direct from Canton today bring positive announcement that a call for a special session of the Fifty-fifth Congress to be convened a few days after the fourth of March has been decided upon. It is stated this decision has been definitely reached by McKinley since his consultation with Dingley, chairman of the committee on ways and means, who is authorized to announce the fact at the proper time. Senator Thurston, one of the latest arrivals from Canton, expressed the opinion that McKinley's conviction that an extra session will be called.

He said: "I recently have seen McKinley and am convinced that an extra session will be called about the 15th of March. I cannot quote any one. I do not consider there is any doubt on the point."

"Shall we have an extra session regardless of the result of the senatorial election now in progress?" was asked.

"Yes, the complexion of the Senate will not be allowed to influence the decision of all. The Republican solidarity in the House is bound under the pledge to the people to reform the tariff and it is due to this country to convene about the middle of March at earliest possible moment, and either keep the pledges or make it manifest that it is impossible to do so. I think we ought to secure a tariff which could be put into effect by the beginning of the next fiscal year."

Thurston said he did not consider the passage of the Dingley bill at the short session probable.

The Leadville Trouble.

LEADVILLE, Colo., Dec. 5.—The special grand jury appointed to investigate the murder of Fireman O'Keefe and the killing of a number of miners in the attempted destruction of the Coronado and Emmet mines last month, September 27th last, will report this evening. It is generally believed indictments against a large number of strikers will be returned.

New Gun Boats.

BATH, Me., Dec. 5.—The new gun boats Vicksburg and Newport were launched from the yards of the Bath Iron Works this afternoon before an immense crowd. The Vicksburg went into the water at 1:05 o'clock, the Newport followed twenty minutes later. The launchings were successful in every respect.

MARY B. EVANS DEAD.

A Salt Lake Lady Passes Away at Bingham.

BINGHAM, Utah, Dec. 5. [Special to the NEWS.]—At 4 a. m. today, Sister Mary Bowman Evans, wife of John Evans, died here, of intermittent fever. She was born Dec. 19, 1867, and was the daughter of the late Wm. and Margaret Bowman, who reside in the Eleventh ward, Salt Lake City, at 745 east First south street. She has been ill about seven weeks. She leaves three bright children, the eldest nine and the youngest less than two years of age. The body was sent to Salt Lake today, and the funeral probably will take place on Monday in the Eleventh ward. Brother and Sister Evans have been keeping the Winamuck boarding house in Bingham for about a year. She was a most estimable lady. Her husband is a son of Charles Evans of Salt Lake.

An Act of Generosity.

City Councilman R. P. Morris has set another worthy example in an act of generosity toward the poor. He has donated to the poor of the Sixteenth ward twenty-five tons of coal, to be distributed by the Bishop, Elder F. Kesler.

Complimentary to Elder Clive.

A grand entertainment and complimentary will be given in the Twentieth ward assembly rooms, Friday, December 11th, at 8 p. m., in honor of Elder W. C. Clive, prior to his departure for the missionary field. The friends of Brother Clive are respectfully invited to be present and undoubtedly the many to whom Brother Clive has rendered his services gratuitously in the past will avail themselves of this opportunity to show their appreciation of his abilities.

GOING TO HIS DOOM.

Sheriff Dickson Takes Pat Coughlin Up to Rich County

TO BE SHOT ON DECEMBER 15TH.

Judge Hatch Will Resentence Him Monday—City Employes Paid Off —Department Reports.

Sheriff A. H. Dickson and Deputy Sheriff McKenna of Rich county, accompanied by Deputy Steele of this county, went to the state prison this afternoon, armed with an order from Judge Hatch of the First judicial district to Warden Dow, for the person of Pat Coughlin, who is to be shot for the killing of Officers Sloan and Dawes.

Coughlin was brought down from the prison and taken to Rich county by the officers on the Union Pacific train at 4 o'clock this afternoon.

On Monday Judge Hatch will resentence the condemned man to be shot, the date of the execution having already been announced as December 15th.

NOT ON FRIDAY.

The 15th occurs on Tuesday—a week from next Tuesday—and comment upon the fact that the execution is not fixed for the regulation Friday has led to an expression of opinion that the date may possibly be changed by the board of pardons, the Friday following the present announced date. Thirteen was hanged on Friday and, in fact, it is well known that all such executions for capital crimes have occurred on that day in the week. Whether or not in this instance a change will be made to comply with the "time-honored" custom is a question.

TO BE IN PRIVATE.

Sheriff Dickson will take Coughlin to some secluded spot in Rich county and carry out the court's sentence with very few present. The sheriff will not allow spectators and in order to keep the invitation crowd of curious people away, the place of execution will be made known to but a very few persons whose presence will be considered essential. The rest will know only when they arrive there.

CITY DEPARTMENTS.

City Employes Paid Off Today—Health Report—Building Permits.

There was joy in the hearts of city employes when the pay roll was met. The city warrants are way up now. County Collector Spencer having collected about $75,000 from taxes. This puts the city in a paying basis and all outstanding warrants will be rather in on Monday. This is today's pay roll:

Partial condition	$ 422 00
Waterworks department	1,242 75
Fire department	1,361 16
Street department	1,361 16
Waterworks department	1,242 75
Police department	1,361 16
Street sprinkle	82 50
Health department	1,242 75
Cemetery	104 25
Cemetery	104 25
Liberty Park	104 25
Engineering department	182 25
Board of public works	182 25
Supplies cash	362 15
Total	$9,537 90

HEALTH REPORT.

The board of health gives out the following report for the week ending today:

Births 25; males 15, females 12. Deaths 7; males 3, females 4. Contagious diseases: Four outstanding 8; scarlet fever 7, diphtheria 1. Infectious diseases reported 2; typhoid fever 2.

For the month of November the board's report shows a total of 47 deaths from the following diseases: Diphtheria 1, pyaemia 1, scarlet fever 1, taxaemia 1, typhoid fever 4, inanition 2, marasmus 1, phlebitis puerperalis 1, cerebrallesion apoplexy 3, cerebritis 1, neurasthenia 1, valvular disease of the heart 2, croup 1, pneumonia 4, syncope 1, septicemia 1, intestinal obstruction 1, peritonitis 1, Bright's disease 2, uraemia 1, drowned 1, run over by train 1, exhaustion 1, brain cyst open 1, and age 8, stabbed and shot 1. The total births for the month was 8.06 as compared with 8.57 for the same period last year. Of the deaths there were males and 22 females, 45 of whom were white and 2 colored; 18 were married, 19 single, 9 widows and 0 widowers; 17 were natives of Utah, 10 were from other parts of the United States and 20 were foreign born; 44 instruments occurred in the city cemetery, 1 at Mount Olivet and 1 at the Catholic cemetery. Some of the interments were of bodies brought from other places. The department reports the most amount of garbage and condemned food stuffs estimated at 539 cubic yards.

BUILDING PERMITS.

The building inspector issued four building permits during the past week as follows:

Brick block, by R. Kletting, stonecutter; two brick houses to be erected on Sixth first between South Temple and First South streets, of eight rooms each, to cost in total $5,000.

D. J. Lambert, 176 west Fifth South street; frame addition to cost $40.

H. H. Archer, 1117 B street; barn to cost $100.

Total amount involved, $6,140.

ANNUAL EXHIBITION

Of the Society of Utah Artists for the Year 1896.

The fourth annual exhibition of the Society of Utah Artists will open to the public on Dec. 7, 1896, at 10 a.m., First South, McCornick building.

The exhibition will consist of original works not before publicly shown in Salt Lake City in oil painting and water color. Honorary members of the association and members of the press are invited to a private view on Saturday the 5th from 12 m. to 10 p. m.

E. EVANS, Pres.
H. L. A. CULMER, Secy.
