NEWS OF THE WEST.

An Ariz California Capitalist Fatally Wounded.

AS TO WYOMING'S COAL OUTPUT.

Discovery of a Bed of onyx Near Hartley, Wyo.—"A Lieutenant" Pardoned.

A bed of onyx has been discovered near Hartley, Wyo. It is said to be equal in quality to the Utah onyx.

The santa Cruz, Cal., supervisors have stopped the all night work in the jail for lack of Bermuda was water.

Idaho Falls is making a strong plea for the agricultural college which must be located by the present session of the legislature.

A newspaper is to be started at Palmer Lake, Colo., by W. A. Pinney of Castle Rock, the first issue appearing on Friday, January 11. It will be a weekly.

The Rock Springs independent says there seems to be no ground to the report of the Union Pacific people about the building of the new railroad from Grand Junction to their city.

Captain Saunders, a prospector, who was sent to the penitentiary for killing a man named Campbell, at Albany, in 1884, has been pardoned by Governor Pennoyer, at Oregon, conditional that Saunders leave the state. It is understood that Saunders will go to Montana, where he will be married, and will then go to Texas.

The coal output for 1894 from Rock Springs, Wyo., will most likely exceed 400,000 tons of the output of 1893. The Independent gives as its explanation that the demand for home general coal was exceedingly high. The Union Pacific mines at Rock Springs average an output of 4,000 tons per day, while the private mines turn out from 50 to 75 cars daily.

It is claimed that some of the land for which the railroad has applied for patents is more valuable for mineral than for agricultural purposes, says the Tonopah Nevada Daily News, and that protests will be filed with the officers of the United States land office at Carson against granting patents for such lands.

Word has been received by stage at Tucson, Ariz., that the miners in the Dos Cabezas district are all idle, but that a band of outlaws are said to be in that vicinity. The Dolly, it is learned, had $2,500 in the house when attacked by the marauders and had made arrangements to start for Tucson on the following day intending to deposit the money in the bank.

The olive crop of Southern California is being harvested now, and it is to be greeting to be one of the best in several years. In Pomona valley, where olives have been made a specialty, the crop is the best yet known. The total olive crop of Southern California is estimated at 250,000 gallons. In San Bernardino county produces 70,000 gallons and Pomona valley 45,000.

Phillip Bunger, the aged capitalist of San Francisco was shot and probably fatally wounded by his father-in-law, Michael Collins, in front of the Gamble hotel, near Broadway, Oakland, on Monday night. The shooting was the culminate of an old family quarrel between Bunger and his young wife. The couple have been separated for a couple of years and have had numerous suits in the courts.

A new amendment ought to be made to our game law to prevent the sale of venison, says the Idaho Herald. If such an amendment is not made there will not be a deer left in the state of Idaho in a few years. The argument that those who do not hunt will be deprived of the privilege of regaling their appetites with venison is without force or reason, for in a short time, under the present law, deer will become extinct in Idaho. Our large game souls to be preserved for the benefit of prospectors, who, while enduring hardships and privations every day in the mountains, far away from civilization, have to depend on such game for fresh meat.

The business men of Trinidad, Colo., held a meeting on Wednesday evening to inspect the plans and discuss the building of a new passenger and freight depot. It was decided to join the city people in building a depot that will be a credit and an ornament to the city, and a committee was appointed, with Mayor Rizzo as chairman, to raise the funds necessary. The structure will be two stories and will be built of stone and pressed brick. The construction of the Gulf extension from this city is being pushed rapidly and it is expected that it will be completed by the first of July. There are 150 men at work on the Trinidad end of the line.

The Hoskins (Idaho) Silver Miner says On December 21, Dr. Thompson and four companions went out on a hunting expedition on the Montana side of the divide and camped about eight miles from Lake. The next morning the party took off their fleet-footedness in quest of game, and all returned except Thompson. On the morning of the 23rd his companions began a search. They followed his trail until it struck a snowslide. The party were horrified at the terrible site which they beheld and overcome. Dumbfounded, and immediately went and organized a rescuing party of twenty-five men and proceeded on the 26th to uncovering the body, which was horribly mangled and disfigured. The slide was about a mile long.

Making Artificial Leaves.

Artificial leaves were recently made for the production of wine from fruit in Paris, in the Halles, Nevertheless, it is surprising, on the other hand, to learn that war was waged in the town against along the vine rows, and large quantities of artificial grapevines were built at various points in the vineyard. These vines were large masses of wire and tow, and the bunches represent the particular variety in which the vineyards are located. Although there is no doubt that the fruit of the Chateau Margaux would sadly suffer if it were transplanted to the Halles, it is certain that it would only possess a very inferior quality. In the artificial vine there will be no such difficulty, for it will bear such bitter as may be desired, but will have that color, smell and taste which only time and the sun can give to the wine. Bulling Gazette.

Good Shotty Are For Any Man.

Bee—Gentlemen, I have you. Can you not write an effective?

Bee—Yes, sir, I'll have to, as I have to use for it.—Pittsburg Bulletin.
