MINING, BUSINESS AND STOCKS.

MINING STOCKS STILL SLUMPISH

Even the Heavyweights Are Noticeably Affected.

SACRAMENTO TOOK A SLIDE

Brokers Had Orders to Sell—Wabash Also Joins the Toboggan Party—N. Y. Bonanza Steady.

The condition of the local mining share market this morning was not by any means the best. Everything seemed to be down, even the big investment stocks. Ajax, which was active yestrday, was not passed without a sale, and it held at stationary figures. Consolidated Mercur closed 2½ cents lower than the late quotations of yesterday. Daly was an exception and ended up slightly stronger. The last bid for it yesterday was $2.25; the blackboard showed the last bid to be $2.28½ this morning. Daly-West ended up slightly off, but not badly, closing with $42 even bid for it. Offerings were made at $42.45. Grand Central was practically unchanged. Lower Mammoth was a shade to the better. United States was offered at $22.50, but the best price bid for it was $21.62½. Little Chief which has attracted quite a little attention for the past few days, because of improvement reported in the physical conditions of the mine, joined the toboggan party. Yesterday it sold at 8 cents today 5 cents was the best that could be gotten for the stock. There was but little demand for the stock. Attention was centered on Sacramento for some time and for some reason, it suffered quite a sharp decline. Brokers had large selling orders on hand and when the hammer dropped the last bid for it was registered at 25¼ cents, practically 2 cents lower than the prevailing price at yesterday's morning call. New York was quite active, but remained unchanged. Tetro was taken down at 20 cents, seller 30 days. Wabash was among the list of acrobats and dropped 3 cents under yesterday's close.

The quotations and sales pasted after the operators had departed, just before the noon hour were:

Snowflake Directors Elected.

At a meeting of the stockholders of the Snowflake Mining company, operating in Tintic district, which was held yesterday the following officers were chosen: President, Sigmond Renstrom of Cincinnati; vice president, Ike Wolfe; treasurer, G. J. Fehrman; secretary, L. E. Riter Jr.; assistant secretary, E. B. Critchlow of Salt Lake City. Ike Wolfe was also named as manager.

ANNUAL MEET OF EXCHANGE

Selection of Officers Creates Some Talk Among Brokers.

PROPOSED CHANGE IN RULES

Three Year Term of Office for Governing Board Members—Clark and Dern Mentioned for Presidency.

On the 26th inst. the members of the Salt Lake mining exchange will meet together for the purpose of choosing a governing board to serve during the coming 12 months.

As the time approaches there is more or less speculation indulged in as to who will comprise that body when the terms of the present incumbents will have expired.

There is a strong feeling among the brokers, however, that the present board should be re-elected, or, at least the greater portion of it for several reasons. One of the most potent ones advanced is that it is more than likely that, at the same meeting at which the new governing board is to be chosen, a new set of rules will be adopted.

The present board is thoroughly conversant with them and it is argued by some members of the exchange that it would be unwise to install men in these important positions who are not so well posted on the government of the organization. The present board being composed of representative members, which fact, combined with the experience they have had in conducting a successful administration, particularly fits them to carry on the work for another term.

The present rules of the exchange requires the election of an entirely new board once a year. The new rules will, if adopted, make some changes in this mode of procedure. It is contemplated to make such regulations that three members of the board shall be selected each year, leaving always six holdover members. There are nine members altogether and each will serve for a term of three years. The purpose of this rule is to guard against the installation of an entirely inexperienced board. There would always be at least a half dozen members who would be thoroughly in touch with the affairs of the organization. This proposed rule appears to meet with favor and will probably be accepted.

The presidency of the exchange is a position with which is attached much honor and there are few members who would refuse the place if it were offered them. W. H. Clark is prominently mentioned for the place and his friends say he will be elected. The name of John Dern, president of the Con. Mercur, has also been suggested, but it has not been ascertained how he feels about accepting it. In any event, should the plum fall to either of them, the exchange would be in competent hands. The selection of the president and other officers is a function for the new governing board to perform.

INTERESTING COMPARISONS

Relative to the Value of Two Stocks Quoted in Boston.

In a weekly market letter sent out to their clients recently, Meyer & Joseph drew some interesting comparisons as to the relative value of two stocks, the Calumet and Arizona, which is being floated in the east at fancy prices, and that of the United States Mining company of Utah.

The Calumet and Arizona owns a total of 11 claims, is capitalized for 200,000 shares of the par value of $10, with 50,000 shares remaining in the treasury. The stock recently sold for $100 per share in Boston. It is claimed that the company has over 500,000 tons of ore in sight, which runs at about 7 per cent copper, and $1.50 in gold and silver to the ton. The C. & A. smelter has a capacity of 500 tons per day.

The United States company, which includes the United States properties at Bingham and the Centennial-Eureka of Tintic, owns over 100 claims all told. The concern is capitalized for 500,000 shares of the par value of $25, with 85,000 shares in the treasury. In the United States mines the ore in sight is estimated at 2,500,000 tons. The ores of the Centennial-Eureka mine will average, it is claimed, about 7 per cent copper and some of it runs better than $100 in gold to the ton. The Bingham properties contain ore averaging probably 2½ per cent copper, from $4 to $5 gold and from 8 to 10 ounces silver.

The United States company's smelter has five furnaces with a capacity of 270 tons each, and a sixth is about to be added, with a full complement of converters.

Summing it all up the Utah concern has, according to the market letter, 10 times as much territory, five times as much ore equally as rich in sight, with a smelter capable of handling several times as much tonnage, yet the stock is selling on the Boston market around $2 per share.

This comparison certainly ought not to be discouraging to the holders of the Utah stock.

MONTE CRISTO DIRECTORS.

New Board Chosen at Meeting Held Last Monday.

At the annual meeting of the stockholders of the Monte Cristo Mining company, operating in the copper belt of Beaver county, held last Monday, a new board of directors was chosen. The board consists of J. L. Craig, H. V. Platt, C. T. Wardlaw of Salt Lake; Emerson Hill, Red Rock, Mont., and Lee Gibson of Ogden. Supt. Mingle was in attendance at the meeting and stated that the outlook for the mine was very encouraging.

TINTIC MINING NEWS.

Electricity Soon to be Applied at the Manhattan.

Special Correspondence.

Eureka, Jan. 13.—Some mining timbers which had been taken from the government lands at Mona and sold to the Tintic Lumber company, of Robinson, were seized by Special Agent P. S. Sewers of the interior department. The timbers will be sold to the highest bidder.

Work will be resumed on the Bonanza property, in West Tintic, in a few days. A meeting of the directors of its company was held at Robinson today and it was decided to push development, Supt. Vet Whiting and a force of men have commenced sinking on the vein.

In a few days the electric current will be turned on at the Manhattan property; the electricians having about completed the connections. As soon as this is accomplished operations will be resumed in the shaft and development work and prospecting pushed with vigor. Mrs. Thomas Fairchilds, of Robinson, was selected by the board of directors as superintendent of the property. On Thursday the working force will be increased to two shifts; there is every prospect of the Manhattan soon taking its place among the shippers of Tintic district.

FROM THE CENTURY.

Expected that Lower Tunnel Would Tap Vein Last Night.

Manager P. W. Madsen of the Century mine of Park Valley, is in receipt of a letter from his foreman in which he stated that he expected to penetrate the vein with the lower tunnel last night. This tunnel is being run to tap the winze sunk from an upper tunnel. The cutting of the vein at the point intended would make available stoping ground to the extent of 230 feet, which will add materially to an increased production. On the surface the vein has been opened in various places to the length of about 800 feet.

BACK FROM THE CACTUS.

Affairs Are in Good Shape at That Beaver County Mine.

This morning Managers M. M. Johnson and A. J. Bettles, of the mining and metallurgical departments of the Newhouse interests in this state, arrived home from Beaver county, where they spent a day in looking after affairs at the Cactus mine.

Good headway is being made, Mr. Johnson states, in preparation for dewatering the shaft. When this is accomplished the work of sinking it to a greater depth will be undertaken.

The long tunnel which will connect the mine with the proposed concentrator, which will be erected this year, is being pushed along and has been completed to the length of 130 feet.

THE COMSTOCK MILL.

Plant is Now Almost Ready to Go into Commission.

The new mill at the Comstock mine of Park City will soon be ready to go into commission. Manager Morris Dusseldorf stated this morning that everything is in readiness excepting the installation of the boiler and engine, the arrival of which has been delayed. But it is expected any day, and as soon as the railroads deliver it at Park City, no time will be lost in sledding it up Thayne's canyon to the mine.

In the meantime the development of the mine is being pushed along vigorously and the manager declares that every day shows an improvement in conditions.

BERT HOLDEN IN TOWN.

Is Not Concerned About the Wall Trespass Suit.

One of the arrivals in the city late last night was Managing Director A. F. Holden, of the United States Mining company, who came direct from California, where he left certain members of his family for a few weeks' sojourn.

Mr. Holden pleaded that he has nothing new to impart concerning the big bonanzas, but that he intends to make a thorough inspection of the Bingham and Tintic interests, during his stay, which will extend over a period of several weeks.

Asked if he considered the suit for alleged trespass, recently brought by Col. Wall against the United States company, of any serious consequence, he replied in the negative and added that he really hadn't taken the time to enquire into details. He declared that in a number of lawsuits in which he had figured in his lifetime he had never lost one of them and he didn't expect to begin now. He is positive that the United States company has not gone outside its limits in this case, so the suit is of little concern just now.

Mr. Holden was kept very busily engaged during the day, in hearing the reports of the mine and smelter heads and receiving others who called upon business missions.

It is reported that President Evans and other United States officials are to be here within a week, but as to this Mr. Holden stated that he had not been advised, but he said it is very probable that they will be here soon.

Another Alpine Lot.

The third shipment of Alpine ores, the Nevada mine recently acquired by the O'Meara-Lynch company, is in today's market.

MINING CONCENTRATES.

Copper stocks opened in good tone in Boston today.

The ore and bullion settlements yesterday were $101,900.

P. B. McKeon of Milford is in the city on mining business.

A gasoline hoist is being set up at the Telephone mine in Lincoln county, Nev.

Operations have been resumed at the Payday mine in Mason Pass district, Nev.

Hartwig A. Cohen, formerly the manager for Captain DeLamar, is in the city.

Samuel Newhouse is expected in the city the latter part of the present week.

Supt. E. J. Raddatz departed for his post of duty at the Honorine mine this morning.

Taylor & Brunton report the arrival of three cars of ore today; one from Nevada and two from Idaho.

F. R. Ball and H. J. Michaels departed last night for the east in the interests of the Utah Shale company.

Manager George Moore, of the Sunshine mine of Mercur, is expected home from Kansas City in a day or two.

The McKinley Mining company, operating near Ophir, Tooele county, recently levied an assessment of ⅜ of a cent.

W. S. Brown and Arthur H. Brown, the latter superintendent of the Con. Mercur mine, departed this morning for Nevada.

The stockholders of the Columbus Consolidated Mining company of Alta will hold their annual meeting on the 26th inst.

A new hoist, capable of going to a depth of 1,200 feet, is about to be installed at the Golconda mine, near Baker City, Ore.

L. O. Ray, the discoverer of the Ray district, near Tonopah, recently made a trial shipment of ore to the San Francisco smelters.

Engineer Burke of the firm of Dederich & Burke, departed last night for Stateline and will remain there until the latter part of the week.

It is stated that negotiations are pending for a consolidation of several Beaver county enterprises, among which will be the Talisman and Cave properties.

Word received from Ely, Nev., states that a steady improvement is noticed at the Sapho mine, in which a good showing of ore was recently encountered.

John T. English of Sumpter, Oregon, has gone east for the purpose of floating a deal on some property located in the Greenhorn mountains, near that place.

It is rumored on the streets today that an assessment will be announced on the California. Manager W. T. Snyder was out of town today so the report could not be verified.

Considerable activity is said to be going on in the Pueblo mountain, Harney county, Ore. A number of Portland capitalists are interested in that section.

James W. Neill, E.M., of this city, is the author of an interesting article on the mining camps of Utah, which appeared in a current issue of the Engineering and Mining Journal.

W. J. Johnston, president of the Engineering and Mining Journal of New York, and who is well known on the Pacific coast, has purchased the Pacific Coast Miner, printed in San Francisco.

The West Century Mining company has elected the following directors for the ensuing year: H. Cohen, H. S. Joseph, E. H. Mead, R. A. Keyes and Joseph Obernborfer. The first three named are president, vice president and secretary and treasurer, respectively.

The winze in the Ajax mine, from the 1,000-foot level, has reached the depth of 135 feet with indications looking very favorable for ore. Manager Weir expresses the opinion that the next few months will bring about some important changes in that Tintic property.

LONDON LED THE MARKET.

Opening Prices Were a Fraction Higher.

REALIZING MET ADVANCE.

Question of Gold Exports Disturbed Matters Somewhat—Business Finally Became Semi-Stagnant.

New York, Jan. 14.—Opening prices of stocks here followed the earlier London lead to a fractionally higher level. Sugar rose ¾, Western Union, Delaware & Hudson, New Jersey Central and Hocking Valley 1@1½. The general advance met selling to realize, as on yesterday, and prices fell back. The general level was a fraction below last night at 11 o'clock. The question of a posible gold export movement was a disturbing factor. Prices showed some improvement again under the influence of strength in special stocks. A rise of a point in Manhattan was followed by buying in the Eries, the common and first preferred rising a point and the second preferred 3¼. There is thought to be less likelihood of an outgo of gold. The market was sluggish.

Bonds weer firm.

Sugar, Canadian Pacific, Chesapeake & Ohio, Norfolk & Western, Reading and other stocks made one-point advances during the noon hour. Manhattan lost its rise, Lackawanna declined a point and Linseed preferred 3¾. The general market was semi-stagnant.

The re-action carried many stocks more than a point under last night, wiped out the entire gain in Sugar and a large part of that in the coalers and elsewhere. National Biscuit and Westinghouse Electric lost a point, and the first preferred stock of the latter company four points. There was an increase of activity on the decline.

NEW YORK.

New York, Jan. 14.—Wheat—Receipts, 133,000 bushels. Quiet but firm on higher cables, small northwest receipts and commission house buying. May 80 1-16@80⅞; July 78 9-16@78⅝.

MONEY AND BONDS.

Money on call steady at 4½ per cent. Prime mercantile paper, 5¼@5¾ per cent.

Sterling exchange steady with actual business in bankers' bills at 4.86.75@4.87 for demand and at 4.83.50@4.83.625 for 60 days; posted rates, 4.84½ and 4.87½@4.88; commercial bills, 4.82⅞@4.83⅞.

Bar silver, 47¾.

Mexican dollars, 37¾.

Government bonds steady; refunding 2s reg., 108¾; do coupon, 108¾; 3s reg., 108¾; do coupon, 107¾; new 4rs reg., 135½; do coupon, 136; old 4s reg., 109¾; do coupon, 109¾; 5s reg., 104¾ do coupon, 104.

SUGAR.

Sugar—Raw, steady; fair refining, 3⅝; centrifugal, 96 test, 3⅞; molasses sugar, 3¼; refined, strong; crushed, 5.25; powdered, 4.85; granulated, 4.75. Coffee—Quiet; No. 7 Rio, 5¼.

LIVE STOCK.

Eggs—Receipts, 4,500 packages, steady; state and Penna., 30@31; western uncandled, 22@29.

OUR RED SISTERS' EDUCATION.

Maj. Pratt, the United States army officer who is in charge of the Carlisle Indian school, admits that many of his graduates who return to tribal life fall into Indian ways again. Therefore he is doing all he can to prevent the educated Indians from going back to the reservations.

He tells of an incident he saw at a western Indian agency. A squaw entered a trader's store, wrapped in a blanket, pointed at a straw hat and asked: "How muchee?"

"Fifty cents," said the merchant.

"How muchee?" she asked again, pointing at another article. The price was quoted, and was followed by another query of "How muchee?"

Then she suddenly gazed blandly at the merchant and asked, mildly:

"Do you not regard such prices as extortionate for articles of such palpably and unmistakably inferior quality? Do you not really believe that a reduction in your charges would materially enhance your pecuniary profits, as well as be ethically proper? I beg you to consider my suggestion."

She was a graduate of the Carlisle Indian school.—New York Times.

DIDN'T KNOW THE COLONEL.

A young recruit was put on guard duty, and was, of course, new to his work. A good-natured comrade brought him a sandwich from the post exchange, and the recruit was about to eat it when the colonel appeared. As the officer was in citizen's dress, the sentry did not salute. The officer took in the situation and asked:

"What's that?"

"A sandwich," replied the recruit; "have a bit?"

"Do you know who I am?" asked the colonel.

"Don't know you from Adam. Perhaps you're the colonel's coachman."

"No, I'm not."

"His gardner, perhaps?"

"No; try again."

"Perhaps the old chap himself?"

"Right this time,' said the colonel.

"Oh, good gracious," exclaimed the frightened sentry; "here, hold the sandwich while I present arms!"—New York News.
