Last Night's Dispatches.

EASTERN.

Changes Recommended.

WASHINGTON, 14.—The commissioner of internal revenue has recommended to the President the consolidation of the 4th and 5th internal revenue districts of California, and he has also recommended the return, as collector of the consolidated district, of collector Frost, now of the 4th district. Fred. W. May has been appointed internal revenue gauger for the first California district.

Appointments.

Postmaster General Jewell has appointed B. B. Tuttle and D. H. Jones route agents on the Columbia river, between Portland and Astoria, Oregon.

The President has appointed Nathan J. Newwitter, of N. Y., U. S. consul at Osaka and Hioma, Japan.

Oration Delivered.

NEW YORK, 14.—Senator Pugh, of Ohio, delivered, to-day, an oration before the Veteran Association of the Mexican War.

Condemned by the Press.

Medill, the veteran editor of the Chicago *Tribune*, in Saturday's paper, rebukes the Wednesday night San Francisco meeting for going beyond its tribute to the dead. It says the meeting took a leaf from the Central Pacific, and tried to destroy two newspapers, mediums of public opinion, the sentiments of which did not agree with its own. This is not fair play. Taking refuge behind a dead man to assail a living one has never been counted the extreme of gallantry. The article adds that criticisms or personal assaults by the press cannot be successfully combatted by mob resolutions; the way to meet them is to disprove them.

The Washington *Tribune* also denounces the attempt to vindicate Ralston by endeavoring to injure the *Call* and *Bulletin*. Their position has been attained by that very cause for which they are now abused, and their annihilation need not be immediately predicted.

The Boston *Advertiser* and various other well-known eastern journals take the same general view of the indiscreet abuse of independent newspapers by that meeting.

Ralston Defended.

Pixley, at a meeting last night, attacked the directors of the Bank of California, and denied that there was any defalcation; he said that the directors of the bank lost their heads, acted like a set of school girls in a fire, and passed a resolution which broke Ralston's heart.

The Row Between Delano and Marsh.

The *Herald* has a story of the meeting, at Washington, between Secretary Delano and Prof. Marsh, in which Delano is made to call the Professor a liar and poltroon, and to use similar epithets. The Professor answered that he would not be insulted by the Secretary of the Interior or any other man, that he had treated Delano as a gentleman should, which statement Secretary Delano denied, and immediately left the room, saying that the Professor did not know what a gentleman was.

Beecher vs. Moulton—Arrival of Schurz.

District Attorney Britton, of Brooklyn, has addressed letters to Henry Ward Beecher and Francis D. Moulton, suggesting that public interests would be best served by entering a *nolle prosequi* in the case of Beecher against Moulton, for libel. Beecher, in reply, concurs, but Moulton says that he cannot acquiesce in the action proposed, and he concludes the letter as follows—"I am indicted for libel, in charging the Rev. Henry Ward Beecher with criminal intercourse with a female member of his congregation. The charge is true, he knows it to be true, and whatever the imperfections of man's tribunals, the Supreme Ruler will some day reveal the truth and vindicate the right for speaking the truth, and that too under a challenge, and in defence of my own character and the character of her whose good name is dearer to me than life itself. I have been arraigned as a criminal, compelled like a felon to plead, with uplifted hand, subjected to the ignominy of bonds against an escape from justice, loaded with obloquy by the public press, frowned upon and avoided by society, and now, after the indictment against me has served its purpose by discrediting, in advance, the witness of Rev. Mr. Beecher's guilt, and it is as apparent to you as it is to the world that I am innocent, and must be acquitted, at this moment, and under these circumstances, I am requested to acquiesce in a *nolle prosequi*, and to suffer my accuser to escape the penalty of his perjured prosecution. Never, sir! never! I demand a trial, and shall be ready on any reasonable notice to make good my defense."

"Very respectfully,
(Signed) "FRANCIS D. MOULTON."

Senator Carl Schurz arrived here to-day, by the steamer *Pomerania* from Hamburg.

Burned at Sea.

KEY WEST, Fla., 14.—The steamer *Zodiac*, which left Nassau on the 6th inst., took fire the next morning, and it with the cargo was totally destroyed; the passengers, officers and crew were saved; the disaster occurred twenty-nine miles from Nassau; all hands took to the boats, in which they were one day before being rescued, with no provisions, under a broiling sun. The fire was probably caused by the spontaneous combustion of old cotton.

Financial Condition.

MONTGOMERY, 14.—The committee on finance and taxation made a report to the constitutional convention-to-day. They say the financial condition of the State is absolutely appalling, and that full payment of the State debt is impossible, but they believe that the commissioner appointed to adjust the public debt will, by a plan of rigid economy, so reduce the debt that the State will be able to pay the interest on the same at an early day.

The Pacific Life Saving Service.

CHICAGO, 14.—A Washington special says that the commission appointed by the treasury department has completed the inspection of the Pacific Coast for the erection of life saving stations; there are eight stations to be established. The station at Near Bay will be built upon the Indian reservation, while the crew will be made up of Indians. At Shoal Bay the station will be upon the lighthouse grounds; at Cape Disappointment it will be built on the military reservation; at Cape Anago on the lighthouse property; at Humboldt Bay the same, in the vicinity of Roxbury Reef, one of the most dangerous points on the coast between Point Lobos and Point San Pedro; a station will be located on the southwest corner of Golden Gate Park; at Point Conception, in Cox's Harbor, a station will be built that will be manned with a salaried crew the year round; the only other station where a regular crew will be annually employed will be at Duxbury Reef. At all other points a volunteer crew will be depended upon. Advertisements for proposals to build these stations will at once be made, so the Pacific Coast system will be completed at the close of next season.

Fastest Time Ever Made.

The new fast mail train, which left New York yesterday, over the Pennsylvania railroad, arrived here this evening, having made the run in twenty-six hours, the fastest time ever made between the two cities; this gives us the New York mail about twelve hours earlier than formerly.

Dr. Linderman, director of the mint, in St. Louis, to-day, intends to leave there for Chicago, to-morrow; he is busy gathering facts bearing upon the location of the new mint.

The internal revenue men have been busy of late picking up small whiskey thieves in the northern part of Georgia, and within a few days upwards of one hundred illicit distillers have been arrested; the penalty in the average of these cases will be a fine of $100 and imprisonment for two months. The department received, to-day, information of the capture of fifty additional illicit distillers in the same section of country. This raid has not been made without some loss, as a local agent by the name of Greer, belonging in Pickens Co., Georgia, has mysteriously disappeared, and it is feared that he has been foully dealt with. The authorities have picked up fifty whiskey thieves in Virginia. These arrests are of no importance, but they show the activity of the revenue department in collecting its dues.

CANADA.

Stole Fifty Thousand.

MONTREAL, 14.—Thos. W. Nichals, the absconding teller of the Canadian Bank of Commerce, is supposed to have left for New York on Saturday, in company with his father; the amount taken is said to exceed fifty thousand dollars.

WESTERN.

New Trustees Appointed, Etc.

SAN FRANCISCO, 14.—In the Nineteenth District Court, to-day, a decree was rendered discharging the old trustees of the Lick trust, and appointing in their places Richard S. Floyd, Faxon D. Atherton, Barnard D. Murphy, John H. Lick, and John Nitingale.

Stocks in the little board, to-day, were stronger, Overman jumping from thirty-three to fifty, consequent on a reported strike of rich ore on the eleven hundred foot level. Business prospects, generally, are bright and cheerful.

Whiskey Frauds.

The revenue officers were around to-day, among the wholesale liquor houses, examining the books, which resulted in finding many instances where packages of spirits, gauged and reported at 10 and 20 gallons each, had been thrown upon the market as containing from two to three hundred gallons. Most of these were from the Pacific distillery, whose officers were reported yesterday as having made affidavit of the destruction of their accounts up to the first of last July. The discoveries thus far made by the officers indicate very extensive frauds, in which not only dealers and distillers but also revenue officers are believed to be implicated. Telegrams from the Revenue Department, Washington, received here to-day, announce the dismissal from the service of J. N. Driscoll and F. M. Montell, U. S. gaugers, for complicity in these frauds. The investigation is being actively pushed, and it is probable that the guilty parties will be brought to account without any further delay.

Affairs of the Bank of California.

For a day or two there has been some feeling of anxiety and enquiry expressed as to the progress of the bank syndicate, occasioned to a considerable extent by previous reports that the bank would re-open about the 15th inst., while as yet no signs of immediate resumption are evident. A rumor also prevailed that Michael Reese had backed down from his subscription to the syndicate guarantee, and that matters were not in as prosperous a condition as reported a week or two ago. At an interview with the directors of the bank this morning, it was stated that no ground existed for any such feeling of distrust; that so far as the withdrawal of Reese was concerned, he had not as yet become a subscriber, and the affairs of the syndicate were going on independently of him; that at present the guarantee fund subscribed amounts to a little over seven million dollars; that as to the time of re-opening nothing definite could be now stated, but it would probably be about the first proximo; that at present, matters are progressing prosperously, but slowly. Lucky Baldwin, who was yesterday elected a director, *vice* Ralston, comes in on the guarantee fund to a large amount.
