MINING, BUSINESS AND STOCKS.

MARKET VERY ACTIVE TODAY

Scenes in the Pit Were Quite Animated.

LOWER MAMMOTH SALES

Aggregated 13,000 Shares During Regular Call—Stocks Sold This Forenoon Brought $26,068.62.

This was the most exciting day on the mining exchange that has been witnessed in a long time. It broke all records of this year in the number of shhares, sold at least.

The trading in Lower Mammoth was animated in the extreme, for a time and during the regular morning call a total of 13,000 sharese was transferred; on the open board 100 shares were dumped into the lap of a purchaser. The stock opened weaker than Saturday's close and failed to reach the top notch of that day. Considering the volume of the transactions, the pricese maintained was remarkable. No one seems able to explain the reason for the heavy buying orders for Lower Mammoth, except that certain ones are seeking to get central. Whether that is true or not will be developed in the future.

Quite a lively interest was also taken in Creole which started off at 66 cents but declined to 64, the size of the last sale. The Daly stocks were all firm and practically unchanged. Utah seemed to be a favorate with some, with several lots going at prices ranging from 74¾ up to 75¼ cents per share.

It was indeed a good market day. The range of prices was good all down the line:

BONDED FOR $60,000.

Prof. Tibbals Takes in a Nevada Property at That Price.

For a consideration of $60,000, Prof. W. H. Tibbals has secured a bond and lease on a group of 14 claims located in the Diamond mining district, Eureka county, Nev.

The property is known as the Lincoln group and the ores carry values in gold, silver, copper and lead. The ground is said to be quite meritorious and has met the fancy of a crowd of eastern clients of Prof. Tibbals.

CATHERING AT THE COMMERCIAL CLUB

Friends of Deep Creek Hold Interesting Session.

ORE TONNAGE DISCUSSED.

Numerous Speakers Extolled the Merits of Region—Railroad Facilities May Come Soon.

The meeting of Deep creek mine owners and citizens of Salt Lake at the Commercial club last Saturday evening will undoubtedly be productive of much good.

It was too bad that there was not present on this occasion a good representation of men who are seeking a place for the investment of their money from which they are reasonably certain of receiving large returns.

The merits of this great empire of undeveloped mineral wealth were extoled by probably a dozen different speakers, among whom were: John Dern, chairman of the Deep Creek association; President Hills, of the Four Metals company; Capt. Duncan McVichie, Marcus E. Jones, Manager Johnson, of the Dewey mine, Judge Goodwin, C. D. Rooklidge, J. M. Hamilton, Fisher Harris, Major Wilkes, Angus M. Cannon, Harry B. Windsor and others.

Some of the speakers expressed the opinion that the time is near at hand when a railroad into the district could be secured. This can be done, they argued, by a united effort on the part of the property owners of the region and every citizen who is interested in seeing the camp brought to the front. If the mine owners would get together and make a showing such as the merits of their properties would justify, and if they can satisfy the railroad companies that they have sufficient tonnage; the speakers seemed to agree, that the advent of transportation facilities could not be long delayed.

The mine owners were positive that this could be done and if that was the only inducement which the railroads required they can get to work and Salt Lake can soon be linked with one of the state's greatest mining sections, which covers an area comprising no less than 13 districts.

Angus M. Cannon stated that he had spent $50,000 in the Dugway district and that his property in its present state of development could be depended upon to furnish no less than one car of ore per day, if a railroad was close enough to make the marketing of the ore profitable.

The representative of the Four Metals Mining company, declared that the property of that concern can produce an even greater tonnage.

John Dern, who is interested in development of the Midas mine, said that property is showing up very satisfactorily and would not be found lacking.

The Utah mine at Fish Springs was mentioned as one property now paying dividends regardless of the long wagon haul. Other meritorious propositions located in Kane springs, Dutch mountain and other districts were mentioned, leaving little doubt to the average person that Deep Creek can back up everything that had been said of it, if it came to a show down.

Capt. McVichie, who experted the country first in 1896 for Chicago people, and who has since become interested in the country himself, declared that the formations of the districts indicated that with development an immense tonnage of smelting ores could be relied upon. The districts possessed much merit, but had been sadly neglected. Such neglect, he said, could hardly have happened in any other state of the Union. If good roads were constructed and travel made less burdensome, he, like a majority of the other speakers, felt that little trouble would be experienced in getting capital to aid in the opening of the mines.

A committee of three, consisting of James Chipman, J. P. Gardner and H. M. McCartney, was selected to investigate the good roads, water and kindred matters, while a motion prevailed authorizing the chairman, Mr. Dern, to appoint two other committees, one to learn the amount of tonnage of which the section is capable, and another to investigate the desirability of putting on automobiles and traction engines to handle passengers and freight between here and the camps, pending the construction of railroads.

The several committees appointed at a previous meeting were called upon to report.

The finance committee announced that $700 had been subscribed, towards the $1,000 figured on, for the getting out of $20,000 pamphlets.

An adjournment was taken subject to the call of the chairman.

COLORADO PLACERS.

Operations to be Conducted in Summit County on Large Scale.

Summit county bids fair to be the coming mining county of Colorado, not so much for deep mining of veins, although from recent discoveries of its extensive contact, similar to Leadville, it may rival that noted camp, but principally on account of its great and rich gold placer deposits, for the development of which gigantic preparations have been made in the past years, rivaling any known throughout the continent. These preparations are now complete and it only awaits the coming season of spring and early summer to show what these placer beds can produce. Colorado and the world at large looks forward with much interest to the result of this great experiment. Although we have many and extensive placer grounds in Colorado, operations on them on a large scale have, with few exceptions, proven a failure, one of the few exceptions being the placer field around Alma, South Park, which for years has been successfully worked.

Few locations in the mountains are more favorably situated for a successful placer ground than the region around Breckonridge. It is a wide, long pit which has in past years received the gold bearing detritus torn off by glaciers from the surrounding gold and silver bearing rocks, some of which, like Farncombe Hill, have long been celebrated for their deposits and veins of free gold.—Prof. Arthur Lakes in January Mines and Minerals.

GREAT AMOUNTS OF VELVET MONEY

Con. Mercur Pays Today and Silver King Tomorrow.

INDICATIONS OF THE MONTH

A Half Million, or More, to Come in Dividends From Utah Mines—Daly-West Pays Within a Week.

This is dividend day at the offices of the big Con. Mercur company. Checks were placed in the mails this morning aggregating the sum of $30,000, which is on the basis of three cents per share on the entire capitalization of the company.

While the shareholders of the Mercur company are rejoicing over the receipt of the little parcels of velvet, those who are fortunate enough to own stock in the Silver King, of Park City, are preparing for the same experience. Their turn will come tomorrow, when $100,000 will be distributed among them, which is at the rate of 66 2-3 cents per share. In less than a week the Daly-West company will send out $108,000 in dividend checks. The Sacramento, of Mercur, has already responded this month to the extent of ½ of a cent per share, or $5,000; the directors of the Utah mine, of Fish Springs, will probably meet in a few days to post a dividend of $2,000, or two cents per share; the Annie Laurie, of Gold Mountain, will not remain snowed under, but will speak up in meeting with the announcement that $50,000, or $2 per share, will be divided.

With these bonanzas coming forward in this manner, and others likely to be heard from, the February showing will indeed be quite satisfactory. The dividend record of the month will exceed $400,000 by considerable, counting in the close corporations which do not report their earnings. In fact, it is very probable that the aggregate will go above a half million.

BEAVER COPPER BELT

Some of the Happenings in that Region Last Week.

The Revenue company is developing a fine gold ledge on its property in the Pine Grove district, the work being done upon the advice of D. P. Rohlfing, who recently examined the group.

Superintendent Sam Tarbet reports steady progress at the Estella. They are now drifting on a nice vein toward the known ore zone. The vein that is being followed is from a few inches to a foot in width and carries good values.

Another installment of the purchase price of the Butte & Beaver group was paid to Messrs. Buchanan and Covert by the Beaver Con. company last Monday. The payment was $3,000, which makes a total of $11,000 that has been paid, leaving a balance of $9,000.

Will Hrust and Peter S. Martin have discovered a large deposit of what appears to be first class fire clay on their group of claims near Shauntie. It will be tested at the smelter and if found to be satisfactory the discovery may develop into something of great importance.

The Utah Southern company in Beaver Lake district is running a cross-cut for the vein at a depth of 122 feet and it is expected that 15 feet more will bring it to the objective point. The vein presents a fine showing on the surface, some of the samples running as high as 40 per cent copper. The company's group consists of 14 claims, and Fred A. Earls is manager.

Ralph Nichols, one of the most famous mining experts in the world, accompanied Manager Johnson to the Cactus property last Tuesday and after he had concluded his examination pronounced it a great mine. He stopped off in Milford to visit his old-time friend P. B. McKeon. Mr. Nichols is manager of the great Perserevance gold mine in Australia that last year paid $2,000,000 in dividends, and he states that it can continue this record indefinitely. He was formerly connected with the Delamar mine at Delamar, Nev.—Milford Times.

DRAWING TO A CLOSE.

The Julia Dean Case in the District Court.

It is expected that the case which has been pending in the district court for some weeks, in which the New Red Wing Mining company, is plaintiff, and W. D. Clays is defendant; will come to a close this afternoon, so far as the taking of testimony is concerned. The case will then go to the jury.

The plaintiffs, during the course of the trial, have undertaken to prove that the defendant has extracted ores from the Julia Dean mining claim, which the plaintiff claims by right of apex.

The case has been stubbornly fought by both sides and there has been a formidable array of legal and "expert" mining talent employed.

IN FROM UTAH MINE.

Accident to Gasoline Hoist Brings Sup't Crismon to Town.

Supt. Charles Crismon, of the Utah mine, at Fish Springs, came in from camp today. He crossed the desert at this time on account of the breaking of the main shaft of the gasoline engine, it being necessary to come all the way to Salt Lake to order repairs.

It will probably take 10 days to get things in running order again, but Mr. Crismon states that the horse whim stationed at the old shaft was immediately placed in commission, and the hoisting of ore will be carried on from that point. He expects to keep shipments coming to market without any serious hitch and promises that this month's dividend will not be delayed. The snow is very deep between Salt Lake and Deep creek, Mr. Crismon said today; the fall being the greatest that he has seen in 10 years.

Speaking of the mine, Mr. Crismon reports that it was never in the good physical condition that it is today. Some very high grade ore channels have been tapped which he assures will not become exhausted for a long time.

The cold weather of the past week has been very hard upon stock out towards Deep creek.

At the Imperial.

Senator A. B. Lewis came down from Salt Lake Saturday morning and spent Saturday and Sunday at the Imperial company's properties west of Frisco. He was accompanied by Manager Farish of the Majestic, J. P. Haynes of Chicago, one of the Imperial stockholders, and Mr. Thompson of Butte. The gentlemen were highly pleased with conditions at the mines and brought back some magnificent ore samples from the upper tunnel. These samples were taken from a winze that has been sunk 132 feet from a point 250 feet in from the mouth of the tunnel. The appearance of the ore indicated that it carried high values in lead and copper. The lower tunnel is now in 1,002 feet, and the company is just letting a contract for further work.

Work is to be started at once on the Comet group, recently turned over to the Imperial company by Mr. Lewis. A gasoline hoist is en route for this property.—Milford Times.

Park City Ore Shipments.

The shipments of ore from the Mackintosh sampler for the past week, as reported by the Park City Record, were:

Daly-West	1,965,000
Barnes Bros.	80,000
Total number of pounds	2,045,000
Silver King	1,553,400
Grand total	3,598,400

MINING CONCENTRATES.

Robt. W. Sloan is in the Gold Mountain district.

Ben Luce expects to depart for the Gold Mountain district tomorrow.

M. L. Effinger is looking over the mines of the great camp of Tonopah.

The Daly-West shareholders meet in annual session in Denver, one week from today.

The Little Chief Mining company has levied another assessment of 1 cent per share.

George Moore, former manager of the Sunshine mine, departed last night for Beaver county.

Frank Wilson and J. A. Halloran, directors in the Johnny mine, at Stateline, are inspecting that property.

P. J. Queally, after spending a day or so in Salt Lake departed for Kemmerer, Wyoming, his home, last night.

The United States mines of Bingham, are contributing 400 tons of ore daily to the company's valley smelter.

Laurence Harris, the new manager of the Sunshine mine, at Sunshine, departed for that property yesterday morning.

W. F. Snyder, president of the Western Exploration company, accompanied by P. J. Donahue departed for California yesterday, where it is said, they go authorized to corral the Balaklalla mine which has been under exploration for some time.

Word has been received from President J. E. Bamberger of the Daly-West, that he will not be home until after the annual meeting of the shareholders of that corporation in Denver next week. He will be present at the meeting.

Prof. W. H. Tibbals has received a sample of gold quartz from southeastern Arizona, taken from a property which was recently bonded by him. The piece is spattered with the yellow metal.

The new Los Angeles mining exchange has been launched. A. L. Morris, who figured more or less conspicuously in the organization of the former Utah exchange of this city and the Idaho Mining Exchange at Boise, seems to be the leading spirit in the southern California body.

The Bingham Copper and Gold Mining and Smelting Co., with its own smelting plant at Bingham Junction has had a force of men sampling the Grand Central mine during the past 10 days. The work has been conducted by Duncan McVichie, who is the chief of the staff of experts whose names grace the company's pay roll, and it is rumored that the report of Col. McVichie will result in the property being purchased outright.—Tintic Miner.

P. J. Donohue is making efforts to round up some interests adjoining the Opex in Mammoth hollow, and expects to re-open that property within 60 days. An effort will be made to secure some Colorado interests in the Southern Eureka, that the country may be explored through that shaft. Both the Bullion-Beck and the Centennial Eureka have opened some good ore bodies in the southern end of their possessions, and but a short distance from the Opex and Southern Eureka, and there are good grounds for the faith Mr. Donohue has in the property.—Tintic Miner.

WEEK OPENED STRONG, ACTIVE.

Market Was Led by the Goulds and Some Industrials.

HEAVY SALES OF MO. PACIFIC

Six Thousand Shares Sold at a Rise Of Nearly a Point—Sugar Went Up One.

New York, Feb. 9.—The market opened strong and active, led by the Goulds, the hard and soft coalers and some of the industrials. Sugar rose a point. There were simultaneous sales of 6,000 shares of Missouri Pacific at 113¼ and 113½, compared with 112¼ on Saturday and 3,000 shares of Wabash preferred at 51⅝ and 51¾, compared with 51½ on Saturday. St. Paul was a notable exception to the strength with a decline of ¼. Most of the active buying centered in the Goulds. These advanced well beyond their opening prices and infused strength in the general market. Amalgamated was bought freely and crossed 79, but other specialties did not respond notably. Top prices showed gains above Saturday's close, running to ½ in Wabash preferred, which was also the most active and 1 to 1½ in the Kansas & Texas stocks, Missouri Pacific, St. Louis-Southwestern preferred, Rio Grande, Texas & Pacific and some others. Wheeling and Lake Erie first preferred rose 2¾ and Anaconda 1. Business became quieter toward 11 o'clock and prices were below the best in spots. Norfolk & Western, however, advanced 1⅝.

The strength in the Goulds was attributed to reports of labor settlements. The upward movement also extended to about a point in Reading, New York Central, Atchison, Northwestern, Southern Pacific, Louisville & Nashville and National Railroad of Mexico. There was a jump of 5¾ in Buffalo, Rochester & Pittsburg, and 8 in the preferred on single sales. The movement in the railroads was checked but a number of industrials were advanced, led by Sugar with a gain of over 2 points. North American rose 2¾. Rock Island rose to 30 at noon on very heavy dealings and St. Paul moved up a point over Saturday, thus holding the list firm.

Bonds were steady.

New stocks were continually brought into the upward movement. The enormous absorption of several leaders created a better speculative demand for the active generally and advanced a point or more. Rock Island fell back after it touched 50¼, but the Gould and transcontinental stocks held firm at the highest. Union Pacific, Hocking Coal, General Electric and the United States Steel stocks were conspicuous in the midday rise.

MONEY AND BONDS.

Money on call, steady at 3 per cent. Prime mercantile paper, 4¼@5 per cent.

Sterling exchange, firm with actual business in bankers' bill at 4.87¼@4.87¾ for demand, and at 4.84¼@4.84¾ for 60 days. Posted rates, 4.85 and 4.88; commercial bills, 4.83½@4.84.

Mexican dollars—37½.

Government bonds—Steady; refunding 2s registered, 108⅝; refunding 2s coupon, 108⅝; 3s registered, 107; 3s coupon, 107; new 4s registered, 134⅜; new 4s coupon, 135½; old 4s registered, 110; old 4s coupon, 110; 5s registered, 102⅝; 5s coupon, 102⅝.

Bar silver—47½.

SUGAR.

Sugar—Raw steady. Fair refining, 3 3-16@3½; centrifugal, .96 test, 3⅝; molasses sugar, 2⅞. Refined steady. Crushed, 5.25; powdered, 4.75; granulated, 4.65.

Coffee—Quiet.

LIVE STOCK.

CHICAGO.

Chicago, Feb. 9.—Cattle—Receipts, 30,000; steady; good to prime steers, 4.40@5.75; poor to medium, 3.90@4.25; stockers and feeders, 2.20@4.40; cows, 1.40@4.40; heifers, 2.25@4.50; canners, 1.40@2.50; bulls, 2.00@4.25; calves, 3.50@7.50; Texas fed steers, 3.50@4.25.

Hogs—Receipts today, 48,000; tomorrow, 30,000; left over, 3,200; steady 5c lower; mixed and butchers, 6.50@6.85; good to choice heavy, 6.80@7.00; rough heavy, 6.65@6.80; light, 6.30@6.55; bulk of sales, 6.55@6.75.

Sheep—Receipts, 25,000; sheep, steady to strong; lambs, steady to strong, good to choice wethers, 4.50@5.50; fair to choice mixed, 3.50@4.50; western sheep, 4.25@5.25; native lambs, 4.50@6.40; western lambs, 3.75@6.25.

OMAHA.

South Omaha, Feb. 9.—Cattle—Receipts, 2,500; market slow to 10c lower. Native steers, 3.50@5.25; cows and heifers, 2.80@3.75; canners, 1.50@2.50; stockers and feeders, 3.00@4.50; calves, 3.25@6.25; bulls, stags, etc., 2.25@3.65.

Hogs—Receipts, 5,000; market 5c lower. Heavy, 6.70@6.80; mixed, 6.70@6.75; light, 6.50@6.70; pigs, 5.75@6.50; bulk of sales, 6.65@6.75.

Sheep—Receipts, 6,500; market steady. Fed muttons, 4.75@5.50; westerns, 4.25@4.90; ewes, 3.75@4.40; common and stockers, 1.50@4.25; lambs, 4.75@6.00.

KANSAS CITY.

Kansas Cit, Feb. 9.—Cattle—Receipts, 6,000, including 200 Texans; steady to shade lower. Native steers, 3.00@5.40; Texas and Indian steers, 2.75@4.10; Texas cows, 2.70@3.50; native cows and heifers, 1.70@4.40; stockers and feeders, 2.60@4.55; bulls, 3.25@3.50; calves, 2.00@6.00.

Hogs—Receipts, 5,000; market weak to 5c lower. Bulk of sales, 6.75@6.85; heavy, 6.75@6.90; packers, 6.60@6.80; medium, 6.75@6.90; light, 6.40@6.85; yorkers, 6.70@6.85; pigs, 6.00@6.5.

Sheep—Receipts 7,000; market strong. Muttons, 3.50@5.10; lambs, 3.60@6.25; range wethers, 3.00@4.85; ewes, 3.50@5.00; western steers, 3.00@5.00; western cows, 1.90@3.00.

PRODUCE.

CHICAGO.

Chicago, Feb. 9.—Close: Wheat—May 73¾@73⅞; July 74⅝.

Corn—May 45⅝@45¾; July 43¾.

Oats—May 37⅝; July 33⅝.

Pork—May 16.92½; July 16.37½.

Lard—Feb. 9.55; May 9.47½; July 9.27½.

Ribs—May 8.20@9.22½; July 9.07½.

Flax—Cash N. W. 1.21.

Rye—May 51@51½.

Barley—Cash 42@58.

Timothy—4.05.

Cash—Wheat, No. 2 red, 76@77; No. 3 red, 70@76½; No. 2 hard winter, 72@75; No. 3 hard winter, 70@73; No. 1 northern spring, 80½@82; No. 2 spring, 79@81; No. 3 spring, 72@81.

Corn—No. 2, 44½@45; No. 3, 42½@43.

Oats—No. 2, 34½@35; No. 3, 34@34½.

NEW YORK.

New York, Feb. 9.—Wheat—Receipts, 107,350 bushels. Irregular, being at times firm on strong French cables and again easier because of realizing. May, 82⅝@82 15-16; July 79½@79⅝; September 78.

CHICAGO MAY WHEAT.

Chicago, Feb. 9.—Bearish statistics had a depressing influence on prices in the wheat pit today and the opening was easy with Mry ⅝c lower at 79¾@79⅞. The market assumed a strong aspect a little later on Paris advices showing closing prices there to be up from 1½ to 2¾.

WOOL.

ST. LOUIS.

St. Louis, Feb. 9.—Wool—Unchanged. Territory and western medium, 17@19; fine, 13@16; coarse, 13@17.

BUTTER AND EGGS.

New York, Feb. 9.—Butter—Receipts, 4,000 packages; firm. State dairy, 15@25, creamery, extra, 26; creamery, held, 19@26.

Eggs—Receipts, 5,000 packages, firm. State and Pennsylvania, 25; western uncandled, 21.

NEW YORK METAL PRICES

Lead, quiet, 4.12½.
Copper, steady, 12.70@12.95.
