

THE EVENING NEWS.

Wednesday, June 29, 1870.

NOTICE.

All advertisements for the EVENING NEWS must be handed in to this Office not later than one o'clock on the day on which advertisers wish them inserted.

LOCAL AND OTHER MATTERS.

CELEBRATION BALL.—The joyful exercises of the Fourth in this city will culminate in the evening in a grand celebration ball at the Theatre, commencing at eight o'clock. On account of the well known facilities for enjoyment at parties there, it will likely be largely attended, and we bespeak for all who do attend, a happy time.

MESSAGE.—There is a message from Cheyenne, at the Deseret Telegraph Office for Miss Lizzie Edwards.

PICKLED HOPPERS.—We notice to-day that there are grasshoppers to be seen high up in the air, flying in a southerly direction. We believe they are visible more or less every day, but we do not hear of them alighting in such swarms about here as they were wont to, though it is evident they are coming down here. We judge a great many must have fallen in the Salt Lake, as along the shore, we are told, they are heaped up in some places knee deep, from which a stench arises which one might smell at a distance of half a mile.

CHURCH AGENT AT NEW YORK.—Many inquiries are made about the address of the Agent of Emigration at New York—Elder Wm. C. Staines. It is Box 2567 Post Office, New York City.

BOSTON EXCURSION PARTY.—That large excursion party from Boston, that passed through here some weeks ago, left Oakland, California, on Friday last to return home, and was expected in Omaha on Tuesday.

FINE WEATHER FOR CORN.—The late warm weather has caused the corn to take a start until it now looks very promising. The writer last week visited Cedar Valley, the only part of Utah county, we think, in which the crops of small grain do not appear flourishing, and noticed that, although their first plantings were totally cut off by the grass hoppers, the people have since replanted with corn and potatoes, which looked very well, especially at Cedar Fort, and caused the people to feel quite encouraged. The crop of small grain will also be benefited by the dry weather, in that it will not be likely to be affected by rust, as, were the weather wet, it undoubtedly would be, in many places where the grain is heavy. A slight shower would, no doubt, do good in many respects, yet we have great reason to feel thankful for the fine dry weather.

R. B.'S LETTER.—The letter of "R. B." in to-day's News is well worth the perusal and consideration of the people of Utah, not only of those engaged in the particular branch of manufacture referred to, but of all; for the principle is as true of all branches of manufacture that are carried on now or which may be hereafter as of the one referred to. The policy of sending our raw material abroad to be manufactured when every facility for the same is abundant at home, is the sure road to social and commercial ruin; and as well as certainly lead to it, as that of the sensualist, who purchases present gratification at the certain cost of future pain and ruin. Such a course as the one described by "R. B." is contrary to every sound principle of political economy, and we hope to see it stopped in every branch of industry; and we feel sure that it will be by all true lovers of home development and prosperity.

DIXIE.—Brother W. G. McMullin of Harrisburg, Washington County, writing to us under date of June 18th, says:

"The season thus far has been very dry, in consequence of which, feed for stock is very scarce near the settlements. The people of our Southern settlements have formed a co-operative stock herd, which is kept at Maxwell's old ranch at Kanab, and is doing well. The people of Kanab have plowed and planted a hundred acres of land there. Wheat in this country, is ripe and is being harvested, and more in quantity than at any one season previous. Apples are ripe, and grapes, apples, peaches and plums, bespeak a bountiful fruit harvest. Cotton, corn and cane also look promising for an early and good crop. The health of the people in the different settlements is good. The weather up to this date has been hardly as warm as usual at this season. There are no grasshoppers here, and we do not want any, we had a plenty last year. Peace, prosperity and contentment prevail in our Dixie Settlements."

INDEPENDENCE DAY.—From our exchanges we learn that Independence Day is going to be very generally celebrated. In California, especially, great preparations are being made for a demonstration of their loyalty. In no part of the Union do the people celebrate this great day with a greater spirit of sincerity and less spirit of alcohol than here in this Territory. No people place a higher value upon the independence declared by our forefathers, on that great and glorious day, than we do, nor live more in accordance with the Constitution they framed. The programme for the celebration in this city is published to-day. There will be a procession of our Federal, Territorial, City and County officers, and the schools of the various wards, and the services of the day will be conducted in the usual manner at the New Tabernacle. Our citizens are noted for being quiet and peaceable on that day, rather than boisterous and disorderly and we expect to hear of no drunken rowdiness, on Monday next in this city.

A SULPHUR FIRE.—Nevada has had one of nature's sulphur fires, situated about fifteen miles from Silver Peak burning, for three weeks past. The fire was started by a man who built his camp fire there, and went off and left it burning. Immense volumes of smoke issue from it, and the air for miles around is laden with the sulphur fumes, doubtless reminding many in that region of what they may expect hereafter.

CELEBRATION AT DENVER.—The people of Denver on the 24th inst., had a big demonstration over the completion of the Denver Pacific railroad. A grand Masonic festival was held. The laying of the corner stone of the depot was done with imposing ceremony, and a copper box containing historical papers, newspapers, coins, etc., was sealed and set in a cavity prepared for it in the stone. An Oration was delivered by Rev. Bishop Randall, after which "the tables were attacked by a very hungry crowd, and the delicacies and dainties vanished away like snow in the hot sun."

EXTRA SPECIAL TO THE DESERT NEWS.

BRYAN, WY., 28.
A report has just reached here, by stage, that a party of 200 Indians came into South Pass city on Saturday morning and rode through the town and drove off about 60 or 70 head of horses and mules.

Correspondence.

SALT LAKE CITY,

Editor Deseret News.—This morning at about 10 o'clock, Presidents Young and Wells, Elders John Taylor, W. Woodruff, Jos. A. Young, Phineas and Levi Richards, Judge Elias Smith, Marshal J. D. T. McAllister and several other gentlemen, in company with the City Fathers, proceeded in carriages from the City Hall to the Asylum, located about four miles E. S. East from the point of starting, on the bench between Emigration and Parley's cañons, on a very elevated and pleasant site.

We found the ascent over the benches considerable, the road rather crooked, somewhat rough and very dusty, with a strong south wind prevailing. Soon after the company arrived, they assembled, sang a hymn, knelt in prayer and dedicated the grounds, the building and appurtenances to God, for the purposes for which they were designed, President Young being mouth. After prayer the company partook of refreshments provided by the Superintendent, Hon. Theo. McKean; they then proceeded about three-quarters of a mile further east to the Quarantine Hospital, a building, I should judge, 16 x 48, divided by two partitions into three rooms, 15 x 16 each. Here Elder John Taylor offered the dedicatory prayer in the usual manner.

From here, after visiting the spring, a quarter of a mile east of the hospital, President Young and a portion of the company returned to the city by way of his coconery, making only a short stay in the vicinity of worms.

Returning, Sol's rays reminded us forcibly of the furnace into which the three Hebrews were cast, without the cooling presence of the angel. The Asylum is a very neat, substantial, commodious, well finished and well arranged building, containing, I believe, 12 rooms, costing, with the hospital, in the neighborhood of \$7,000.00, but the facts relative to its dimensions, exact cost, and other particulars, I will leave for the architect, who is better posted, to state. There is a small farm surrounded by cedar posts, ready for the wire, which is on the ground to inclose it; two rows of shade trees encircle the front of the building, with a carriage drive between. From five to eight acres are under cultivation, crops looking well, but somewhat thinned by the late ravages of the "hoppers." A large number of fruit trees have been set out; but they are all badly damaged, and most of them ruined by the locusts. A large enclosure is being made where the unfortunate can have out-door exercise, without the necessity of guarding. Everything seems well planned and thorough, with a view to the comfort and well-being of the unfortunate. Great credit is due to the City Fathers—and while we feel grateful for their liberality and enterprise in this direction, we may hope, that as hitherto, there may be comparatively little necessity for their charity.

Yours truly,
JOS. F. SMITH.

ELGIN WATCHES!

MANUFACTURED BY
The National Watch Company

All the grades of the Elgin Watches

"LADY ELGIN" SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER

So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection. The company feel confident, after having had their Watches three years in market, and selling many thousands of them, in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R. R. officials, endorse them as the best watches for the use of R. R. employes and travelers yet introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.
UNION PACIFIC R.R., OFFICE OF GEN'L SUPT, OMAHA, Dec 16, 1869.
Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.

Dear Sir:—During the month that I have carried one of your "B. W. Raymond" Watches it has not failed to keep the time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time keeping, beauty of movement, and other particulars, I challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compete successfully in the market of the world, with similar manufactures of older nations. They need only to be known to be appreciated.

Yours most respectfully,
C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAILROAD, Gen'l Supt, New York, Jan. 17, 1870.
T. M. AVERY, Esq., President National Watch Co.

Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been on the road with it almost daily. During this time it has run uniformly with our standard clock.

Truly yours
J. M. TOUCHEY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them as being finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
