An important claim, in which J. B. Roode et al. of Hastings, Nebraska, are interested, was filed on Tuesday, January 3, in the court of private land claims at Santa Fe, N. M. The claim is made for the Heath land grant and involves over 100,000 acres of valuable land in the eastern part of New Mexico. About one-third of the land is claimed by other parties and is worth from $10 to $20 per acre, the other half is not claimed by any one, except the government. The grant to Heath was made under the law of 1824, which was the most liberal colonization law of Mexico. It was passed during the short reign of Iturbide, and was only in force a few months, and for this reason not many grants were made during it. No one, under the law, has ever claimed to be the owner in the United States, but the courts of Texas have several times confirmed the title. The case is expected to be one of the most important ever tried, and quite new and very interesting points, constitutional and international, will be involved.

NEW EDITION

Latter-day Saints' HYMN BOOK

FOR SALE AT Deseret News Office

Price, $1.50 [illegible]

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authoritative medium through which the views, wishes and instructions of the Church Authorities are expressed and given to the Saints.

2.—It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.

3.—It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles in which they believe, and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing the profits, if any, must be derived from it, being devoted to extending its spheres of usefulness and benefiting the community.

5.—It is doing its utmost to establish home industries, among which are paper making and stereotyping, stereotyping and electrotyping—branches necessary to the development and independence of the community but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the business and a suspension of the publication—a result in the case of hundreds of newspaper ventures every year.

7.—It is printed in readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from being access to it; in fact, it refuses thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.—Its file is not regarded by public opinion nor the laws of libel as a publication for the benefit of advertisers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never annoys its readers by putting off columns of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe, but on the contrary, prefers to stand on its own merits, as the people's champion, with a promise only to do its utmost to give the patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the DESERET NEWS; and if more than one, the News should invariably be the first.
