A NEW BUSINESS BLOCK.

It Will Be Built for the Y. M. C. A. by Smith and Baldwin.

The continued hard times and unusual cry of a scarcity of money will, it seems, prevent altogether contracting or repairing or adding instructions already started, this season, though that class of work will undoubtedly be very light as compared with that of several years past.

A representative of the NEWS was just evening permitted to inspect, through the courtesy of Mr. John T. Axtell, secretary of the Y. M. C. A., the plans of a new business block to be erected a short distance north of the Knowlton hotel on State street. The building will be a two-story structure, with present brick front and stone trimmings, and will cover an area of 52x110 feet. The builders and proprietors of the enterprise are Messrs. James Smith and Charles Baldwin, members of the board of directors.

The Y. M. C. A. have secured a five-years' lease of the greater part of the building, which will be made to suit the association. On the ground floor at the rear will be a gymnasium 52x80 feet ceiling, and a spectators' gallery. In front of these and facing the street will be two stores, 24x47 feet. On the second or by-floor there will be a large hall, 52x80 feet, the auditorium of which will have a seating capacity of 350 persons. It will also be provided with a full stand stage, with a dressing room on either side, proscenium boxes, tub and shower baths, class room, game room, public reading room, members' parlor and kitchen and dining rooms.

The plans are complete and Architect Fred Hale is now at work on the elevation. Mr. Axtell states that it is expected work will be commenced on Monday or Tuesday next.

Wonderland.

As elsewhere announced, the management of Wonderland have succeeded in securing for the week commencing today, the celebrated dancer, Cyrene, and her only aleator vaudeville company. Cyrene is without doubt the greatest exponent of the so-called sensational dancing and will positively appear at this theatre both afternoon and evening for the entire week. In the Bijou theater the Criterion minstrels, who have made a big hit, will remain for another week. Patrons of this family resort will find at end of entertainment, and the house will be remembered as a favorite day with another gift. The management are certainly deserving of a liberal patronage, for they spare no expense in giving their patrons the best talent obtainable.

"A Just Criticism" Criticized.

ROOSEVELT, Pleasant county, Utah, April 14, 1894.

Editor Deseret News:

In the SEMI-WEEKLY NEWS of April 6 there appears an article entitled "A Just Criticism," wherein the writer declares against persons unlawfully taking fish from Fish Lake and also in wasting them by the tons. We, the undersigned residents of this town and vicinity, do know that some of the statements in said article are untrue, that "that business of outlaws are wasted every year." None of us are engaged in the dairy business at Fish Lake every summer since 1877 and others are in the stock business which necessitates visiting that locality a number of times during the summer season. The writer also states that "the Indians have destroyed the most," and seeing as many as five or six tons piled up!! The writer must have read pretty freely of Munchausen and also drawn upon an over-excited imagination to have penned such outrageous and exaggerated stories as the above; and why should this defenseless people upon the poor, despised Indians, who have been driven and scattered from one end of the continent to the other, the responsibility "spotted jaws" unloader points and his vials of wrath upon them in the shape of statements which are well known to be utterly untrue. They are known to be economical in their habits of living and do not waste provisions of any kind.

It is the usual custom of a few Indians to salt or dry fish at intervals during each season and sell them for cash and groceries; and what fish they don't sell they cure by drying for winter use. There has not been any person in either valley who has seen tons of fish piled up to rot.

The people of this valley and Round Valley are much displeased with the above false statements and do not wish to be accused wrongfully. We suppose that the article, "A Just Criticism," applies to us, as we are nearer to the immediate vicinity of Fish Lake and have taken this method to vindicate us from an unjust accusation. As to the fish commissioner we can truthfully state that he is doing his duty.

RICHARD BROWN JR.

The ten signers of the above communication need not be so special "A Just Criticism" did not stop to form of their neighbors if some of them are guilty of the offense named. Neither is it pertinent to date to the doings and settlings of the Indians in connection of the change of waiting for at Fish Lake. We do not know anything especially about those being paid off or not, but that is the way our commissioner works it, we are so sorry to know, however, that dishonest and dishonest people have been and are in the habit of stealing the fish from the lake and selling them to unsuspecting people, who have been cheated by such practices, but to charging an innocent people with the acts is the height of folly. We are sorry that the writer of the article in question has not taken the time to ascertain the facts before he wrote and sent the article for publication, but we can only say we have given information which we believe to be true, and we hope it will help us.

GETTING OVER A DIFFICULTY

It sometimes a puzzling problem. You may have a difficulty in getting a lot to fit you, or a house within your means.

You may be told of a public building that didn't cost more than the original appropriation and your informer is slander or a fool, we can meet you all the same.

You will be sure of comfort and care of something else—the man who is a male tailor won't have on a more stylish fit than does you. We have every shape in soft and stiff, and at all prices. Do you doubt? Well, show your figure and we will do the rest.

ONE PRICE.

GIVE US WORK

To enable us to get some life into it work, we have decided to dispose of goods and by footing Aquarium work at follows, which is very much below the real value, and every dollar is gold in Utah workmen:

Down walls, voids and house cases,	10c sq. ft.
Sidewalks, etc., 1½ in. to 2 in. 15c	"
Alley work, etc., 1½ in. 25c	"
Warehouse, stable and other floors, 1½ to 2½	"

Road work, etc., at equally low prices. Our Asphaltum is not slippery in winter, does not hurt the eyes in summer, and is far superior to the usual cement work over land.

We hope everyone will do their orders with us at once for all they can stand to do, and while saving money for themselves, help to furnish work for others.

We will take part of the pay in warrants, and our workmen are not on a cash basis.
