The inbound train on the Park City branch of the R. G. W. reached the city late last night, after being stuck in a snow drift since Wednesday. Word has reached Fort Douglas of the death of Mrs. Crane, wife of Col. Crane of the Ninth infantry, nonnamed, which is at Santiago. Mrs. and Mrs. Crane were formerly at Fort Douglas, the colonel being in command of company F of the Twenty-fourth. The cause of Mrs. Crane's death was Cuban fever, and came after five days' illness. She has motherless children, as do her relatives in Pennsylvania. The deceased lady was a great favorite among the official circles of the Twenty-fourth.

In reply to County Attorney Frank Nebeker of Cache, Attorney General Dishon has added dicta on another certain questions. The first question asked is whether it is the duty of the county clerks to credit into the fund all fees collected by him under the federal statutes for affidavits in homestead proceedings. The second is as to whether it is necessary to cover into the treasury all fees collected by a county clerk in counties based up to date under the State school laws. Both of these questions the attorney general answers in negative, declaring that if such duties are performed by the clerk so as not to interfere with his other official duties, that he is entitled to retain the money for his own use.

TRAINING M. I. A. CHOIRS.

Young Ladies and Young Men New Under Professor Stephens' Instruction.

Friday and Saturday evenings there may be witnessed at the Y. M. I. A. choir hall a unique spectacle, the like of which may not be found elsewhere in the wide world.

On Friday nights the hall is filled with young ladies intently learning to sing parts in chorus singing for ladies one only. Although they have had but two meetings, the three hundred voices blend already like a full choir. Nearly all are inexperienced in part singing, but with good voices and Mr. Stephens's plain and effective method of working, they already hold their parts well and harmonize charmingly, even singing with comparable expression and character. The one three-part chorus they have worked upon, which was written for ladies' voices, as most future numbers will be, by their trainer.

Prof. Stephens expresses himself as delighted with their progress, and expects soon to have to reject new comers owing to the hall being full to overflow.

The young men meet at 8 o'clock on Saturday nights. They are not equal in the numerical sense to the sisters, numbering as yet an attendance of only a few score 200. But their earnest vigor, their zeal, their determination to learn, their intelligence, and
