TELEGRAPHIC.

A NOISY MEETING.

Industrial Alliance Men Disturb a New York Gathering.

RESOLUTIONS ON SILVER.

Several Attempts at Speech Making Almost Result in Personal Encounters.

NEW YORK, July 25.—For two hours a disgraceful uproar kept the guests at the Fifth Avenue Hotel in a state of alarm tonight. The noise proceeded from parlor F, where a meeting under the auspices of the Silver club had been extensively announced to be held. At 9:30 the business men began to leave the room, but the crowd grew thicker and more ill-tempered.

At 10 o'clock the management of the hotel ordered the electric lights turned out. For a long time the excited disputants refused to leave the chamber.

After all the row was over it was perfectly apparent that the meeting had been purposely broken up by a gang who boasted that they represented the Industrial Alliance. One member of the Populist party said it was the "Carey-Keogh gang."

"Just before the last election they formed what they called a 'Republican Industrial Alliance,' but were not recognized by the labor organizations. They represented to the labor organizations of the West that they had some power here, but failed to get money out of them. This," he said, "is their revenge. They pulled the leg of the Republicans last election, and thought they could do so again."

A minor factor of the disturbance was a handful of self-styled Populists, who were sore because the meeting was not held under the direct auspices of that party. The last straw consisted of a general feeling of derision, which vented itself among the minority of the people present.

John G. Boyd was selected chairman and made an address on the financial situation of the country.

Henry Nichols then read the resolutions, with a lengthy preamble, being continually interrupted by vociferous cries from the audience. All efforts to obtain order were futile, but it will be recorded that the resolutions were passed. They view with apprehension the senseless attacks on the Sherman law, and caution Congress that there is an influential opinion in this community not expressed by assemblages of bankers and certain newspapers. They demand of the party in control of Congress and executive a fulfillment of the pledges of their platform as to indiscriminately equal treatment of gold and silver for coinage into legal tender money, and that Congress shall indignantly resent the demand for the repeal of the Sherman law, as it is merely proposed to substitute bank notes for the automatic issue of United States notes, and refuse to repeal it except by an act which shall fulfill literally the demand of the Democratic platform.

The tedium which reigned while the resolutions were being read, began to subside after the chairman declared they had been adopted, and, after three or four people had tried to make speeches, during which a number of personal encounters were imminent, the meeting adjourned.

Cure for Consumption.

CHATTANOOGA, Tenn., July 25.—The board of health reports to the *Times* of this city, through City Physician Holland, that each of the third stage consumptives placed under the treatment obtained from Dr. Amick of Cincinnati by the city authorities several weeks ago have improved to a degree almost miraculous. The results as given to the press by the Ward's Island hospital, New York, while equally sensational, were not so comprehensive, and local medical men claim that this is the most complete demonstration that consumption is curable thus far made.

THE ERIE RAILROAD.

Receivers Appointed to Take Charge of its Affairs.

NEW YORK, July 25.—The *World* says: The Erie Railroad company today went into the hands of a receiver. John King and J. G. McCullough were named by Judge Lacombe of the United States circuit court. Erie's credit has been savagely attacked in Wall street of late, owing to the mixed condition of its finances.

World's Fair Rates.

CHICAGO, July 25.—A long and animated session of the Western Passenger association was held today to discuss World's Fair rates but no conclusion was reached. The Santa Fe submitted a new proposition, which will be considered tomorrow.

The war rates made effective by the Great Northern and Northern Pacific were introduced into new territory today, the St. Louis roads beginning to apply them between St. Louis, Salt Lake and Ogden, making a rate between those points of $31.

Silver Purchases.

WASHINGTON, D. C., July 25.—As the result of counter offers, the treasury purchased yesterday 107,000 ounces of silver at $0.6900 per ounce, including the 50,000 ounces announced last night.

The price of silver in London today shows a slight advance over yesterday's price.

More About Sunday Opening.

CHICAGO, July 25.—Judge Stein, in the State circuit court, issued a rule against the officials and directors of the Fair to show cause why they should not be attached for contempt in disobeying his injunction to keep the Exposition open on Sundays. The hearing is set for Thursday.

NOT ON THE PROGRAM.

An Unexpected Entertainment at the World's Fair.

CHICAGO, July 25.—An interesting event not on the official program occurred shortly after noon when Commissioner St. Clair, of West Virginia, who had left his badge at home tried to enter the grounds without it. When the gateman finally let him through with some remarks the West Virginian told the gateman he would lose his job if any more impudence was displayed. A wordy war followed and a Columbian guard appeared on the scene and took a hand. The irate commissioner soon informed him that it was none of his business. One word led to another and blows were struck. The gateman and three guards pitched on the colonel and the quartette stewed, pounded and scratched each other in a decidedly vicious manner for several minutes. When the combatants were finally separated they were in a most unpresentable state. Colonel St. Clair after washing the gore from his face and hands expressed his intention of securing several scalps before tomorrow.

To Succeed Congressman Mutchler.

EASTON, Pa., July 25.—At the special election of the Eighth Congressional district to fill the vacancy caused by the death of Wm. Mutchler, his son Howard, Democrat, was elected over Frank Reeder, Republican, by 2,800 majority.

A SLIGHT MISTAKE.

Figures Showing the Balance of Trade Against Us Corrected.

WASHINGTON, D. C., July 25.—There is much interest aroused among statisticians by the discovery that the figures of the balance of trade against this country for the fiscal year ending June 30th last, as shown by the records of the bureau of statistics of the treasury department, are about $10,000,000 out of the way. Instead of an adverse balance of $33,000,000, the corrected returns show only about $20,000,000.

A Fatal Shot.

BURLINGTON, Ia., July 25.—An unknown person fired through the window of Leonard Fritche's house this morning, shooting Mrs. Fritche through the heart as she lay in bed. A neighbor and his son and the husband of the dead woman and a hired girl are under arrest. There is no positive clue.

GENERAL FOREIGN NEWS.

The Attitude of the Powers in the Siamese Question.

Gladstone Makes a Speech.—Japan and Hawaii—Latest Advices from the Islands.

PARIS, July 25.—A cabinet council was held today, at the conclusion of which a semi-official statement was issued, to the effect that in conformity with the unanimous vote of the senate and chamber, the government had taken such measures to safeguard the interests and dignity of France as were considered, from Siam's reply to the French ultimatum, to have been rendered necessary.

The Chinese charge d'affaires called today on Develle and explained the Chinese views in the Franco-Siamese dispute.

CHINA INDIGNANT.

TIEN TSIN, July 25.—The Chinese government received the news of France's territorial demand upon Siam with amazement and indignation. At Pekin the contention is that both banks of the Mekong to a point well south of the twenty-third parallel are Chinese possessions. The Mandarin party, which is bitterly anti-French, is trying to force the government to interfere.

THE BRITISH INTERESTS.

LONDON, July 25.—In the commons today the conservatives worried the government with many minute questions as to what was being done in Siam to care for the British interests.

The *Times* Bangkok correspondent says: There is great uncertainty as to what will happen if the blockade begins tomorrow. The British residents will meet the British minister to complete measures for defense in case the dangerous masses, deprived by the blockade of employment, attempt to rise and loot the city. The government has issued a proclamation warning the population to behave peaceably and refrain from attacking foreigners.

A late dispatch to the *Times* from a semi-official source says: At 11 o'clock the French vessels passed the mouth of the Menam river and exchanged salutes with the Siamese forts.

The Paris correspondent of the *Standard* says: It is stated semi-officially that the blockade will not be confined to the estuary of the Menam river, but also to the river east and west. It is said that there is no intention to bombard Bangkok, although the batteries on both sides of the river will be destroyed, and the Royal Palace, where 12,000 soldiers are believed to be massed will be attacked and occupied.

THE IRISH HOME RULE BILL.

The Financial Propositions Considered in the Commons.

LONDON, July 25.—In the Commons this evening the committee of the whole continued discussion of the financial propositions of the home rule bill.

John Redmond, leader of the Parnellites, moved an amendment that the Irish legislature should receive immediate control of the Irish taxes, as proposed originally by Gladstone, instead of being forced to leave the taxes in the hands of the British for six years, as stipulated in the new clause.

Gladstone said the government could not accept the amendment. After some debate it was rejected.

Then Joseph Chamberlain moved to make permanent the provisional arrangement that the Irish taxes should be collected for six years by the imperial government. In speaking to the motion Chamberlain denounced the government for truckling to the extremists.

When Gladstone rose to reply the house was filled. Gladstone began by comparing Chamberlain's attitude toward the bill with the proverbial attitude of the devil's advocate, whose function it was to seize eagerly on every human failing, and to monstrate everything capable of misconstruction.

After repelling the charge that the Irish might eventually do as they pleased under the provisions of the bill, and that it is in reality settled nothing, the premier, said: "The right honorable gentleman has brought into public life the practice of continuously and deliberately, with the utmost confidence in his own infallibility, ascribing to men who have a right to stand on the same level with him, who were at the time his colleagues and co-operated to be his friends, motives for their acts which they indignantly disclaim. (Prolonged cheers.) By what right of infallibility is he enabled to pronounce on the state of things in Ireland six years hence? The Irish members in the House now number 103, yet nobody will contend that they are omnipotent. They will return in diminished numbers after the passage of the bill, yet we hear the argument that they will prevail against the 570 English and Scotch members." (Cheers.)

After overriding Chamberlain's exaggeration of laws as "gross and heinous," Gladstone closed with the declaration that the government was satisfied that their proposals would meet the approval of the taxpayers.

HAWAIIAN AFFAIRS.

Japanese Radicals Urge the Government to Action.

SAN FRANCISCO, July 25.—A meeting of prominent radicals was held at Yokohama recently to consider Hawaiian affairs, and resolutions were adopted urging the Japanese government to send a special commissioner to Hawaii to bring to a successful issue the negotiations pending with the Hawaiian government in relation to a federation of the franchise of the Japanese residents of that country; also that in the event of the Hawaiian islands being annexed by the United States government or placed under the latter's patronage, the Japanese government be urged to take effective measures for the protection and maintenance of the rights and interests of the Japanese subjects there.

It was furthermore resolved that upon the establishment of a *de facto* government in Hawaii it should be recognized by Japan; that officials should be sent to Hawaii for the special control of the Japanese residing in that country; that the system of sending laborers to Hawaii on contract should be abolished by degrees, and that the sending of capital and permanent residents to Hawaii should be encouraged.

THE SITUATION ON THE ISLANDS.

HONOLULU, via San Francisco, July 16.—The political situation is practically unchanged. The provisional government has a new treaty nearly completed and will soon forward it to Washington. The expected fight occurred between the troops of the provisional government and the Kauai leper outlaws of Kalalau, three soldiers being killed. Koolau escaped with his wife and child, but the remainder of the lepers were captured. Among the men killed was Private McCabe, a veteran of the Ninth Rhode Island regiment.

ANNEXATION TALK.

It is reported that Minister Blount has hinted encouragement to the leading annexationists lately. Nothing will be done, however, until he takes back his report. He hopes to leave here July 27th. Some think President Cleveland will resubmit the Harrison treaty, with some modifications.

Professor W. D. Alexander, the Hawaiian historian, has been appointed to go to Washington and assist Minister Thurston in the negotiations.

An exhaustive financial statement, made by Minister Damon, shows that the government is running within the limit of its monthly income, and after providing for the payment of old bills under the monarchy, amounting to $58,000, there will be an available surplus of over $20,000.

The Latin Union.

PARIS, July 25.—France, Italy, Switzerland, Belgium and Greece have agreed to exclude the two and a half franc silver piece from international circulation in the Latin union.
