DRAWING TO A CLOSE.

Testimony Nearly All In, in the Devine Hearing.

The Defense Wanted To Submit The Case Without Argument But The Prosecution Wouldn't Consent.

The Devine hearing was resumed last night before the fire and police boards, the defense continuing and finishing its examination of witnesses. Attorney Hagliss for the defense suggested that the case be submitted without argument, but Judge Judd for the prosecution would not consent to this, as he wanted to argue it, and likewise introduce testimony in rebuttal, thus necessitating at least another night's consideration of the case.

The first witness last night was Representative Wilson, who was at the meeting when the Sutherland bill was being discussed. He saw Devine called out, and he remained out about fifteen minutes. When he returned Representative Curtis made the remark about a fire being in progress. He remained after that all evening.

William Thompson, chief clerk of the House, Messenger Toone and Representative Bears, all testified to having seen Chief Devine at the House on different occasions between January 7 and February 12.

John Chalmers, secretary of the fire department, explained in detail the workings of the alarm system. Crossed wires frequently caused irregular alarms. The alarm for the Ninth East street fire was the only one of the kind that he had known in his experience of over two years in the department. The box struck but once—something he could not account for unless it was the breaking of a circuit. The chief, he believed, went upstairs to dress before going to the fire. Witness did not hear Vail say anything, with regard to going to box 215.

Firemen Simpson testified that Lieutenant McCarthy went to the Ninth East fire. Vail was not at the station at the time.

Chief Pratt testified that he went to the Golden Rule Bazar fire in the patrol wagon. Chief Devine met there Eileen minutes after the alarm sounded. Witness accompanied Devine to the legislative committee meeting after the fire, and both were present when Mr. Curtis announced the fire.

Lieutenant McCarthy being recalled, testified that at the time of the Ninth East fire, Vail was not at the station.

The recall of Secretary Chalmers resulted in his identification of certain fire reports which were introduced in evidence and admitted.

Fireman Simpson was recalled and testified to being at the Golden Rule Bazar fire. He did not see the chief until about half an hour after the alarm had come in. Firemen Wood saw the chief about twenty minutes after the sounding of the alarm.

Fireman Earl, driver of the chief's buggy, testified that Devine was on duty from twenty to twenty-two hours every day between January 7 and February 12.

Fireman Bywater, who had been a member of the department since 1882, stated that the chief had attended to his duties as usual between the periods in controversy. Has known the chief for a number of years, but could not distinguish his footprints from that of others.

James B. Walker, a Tribune reporter, had seen the chief at the House on several different occasions during the period indicated, January 7 to February 12.

Secretary Chalmers was again recalled and testified as to the duties which devolved upon the chief. Some of them took him away from the department. He had to make occasional visits to the public buildings of the city and had visited hotels and depots of the city in connection with the coming meeting of the Fire engineers.

CHIEF DEVINE TESTIFIES.

Chief Devine was next placed on the stand. He invariably came it a rule to attend all fires. The fire bugle alarm which came in from the Ninth East fire, caused him to think it a false one and he accordingly went to lunch, but on finding it later that the wagon which went out had not returned, he himself went out to the fire, finding it as McCarthy had testified. Witness was not at the station when the fire broke out on Third street; did not remember where he was at the time of the Lincoln school fire. He went to the Golden Rule Bazar fire when Bywater called for him at the joint building. On arriving at the scene of the fire he investigated it and found that everything was under control, after which he and Chief Pratt drove down to the joint building. A few minutes after arriving there Mr. Curtis made a remark about a fire. Witness admitted that he had interrupted himself in the Sutherland bill.

The chief then entered into a detailed statement of his duties, some of which necessitated his being away from headquarters at certain times. He also had inspection work to do and had been quite busy in making arrangements for the coming Fire Chief's convention. Witness slept at the station every night and had averaged about twenty hours per day at headquarters during January 7 to February 12. He went to church and the Theater occasionally but always left word at the station where he could be found if wanted. He had served as chief for two years. Had never been a member of the department prior to his installation as chief. He was interested in the Sutherland bill because he thought it a better law than the one now in effect. He approved of one of its provisions, in which it gave the chief power to remove men under him. He had not declared that there were a lot of the men he wanted to get rid of, although he admitted that there were some that he would like to discharge.

The witness was questioned by Judge Judd with regard to the interest taken by him in pendency of the Senatorial election, and preferred to express his view on the Senatorial question, but the chair ruled those matters entirely immaterial, after which the examination of witnesses closed.

Mr. Stevens introduced in evidence the rules of the New York fire department to show that they could not use some provision as the Salt Lake rules—that of requiring the chief to blow it all five—a thing which would be impossible in such a metropolis, and after the announcement by Judge Judd that he would introduce a few more witnesses in rebuttal, an adjournment was taken until this evening at 7:30.

COUNTY LOSES AGAIN.

Haynes and Cahoon Cases All Going One Way in the District Court.

The Haynes-Cahoon case for filing fraudulent claims for material furnished on Hale road, which has had the right of way in Judge Hiles's court the most of the present week, received the jury at 4 p. m. yesterday. A verdict of not guilty was soon returned.

County Attorney Williams then dismissed the succeeding case against the defendants and took up another indictment.

In this one Haynes is charged with presenting a fraudulent claim in the sum of $128.75 on October 1st, 1895, for watering this road at Murray. He was hired at to sprinkle eight hours per day and did not, it is charged, sprinkle more than three hours per day.

The four remaining cases will be taken up Monday, at which time it is expected they will also be dismissed.

X-Rays.

The published program of the Microscopical Society of Utah meeting last evening was carried out before quite a number of visitors as well as members of the society, and the papers by Drs. Young and Meachem were listened to with much interest. The demonstration on X-ray photography by Dr. Talmage were especially interesting, some illustrations being made with two Crookes tubes as well as others that had been previously used to some of the doctor's former lectures, and the photographs of shadowgraphs, as he calls them, were also on exhibition.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A proper use of this medicine has often averted long and fatal illness. No medicine will act more surely in counteracting a disposition to chills and fever. Malaria, Indigestion, Constipation, Dizziness yield to Electric Bitters. Only fifty cents a bottle. Z. C. M. I. drug department.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make the extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Z. C. M. I. drug department. Regular size 50c and $1.00.

Taken in Time.

Hood's Sarsaparilla has achieved great success in warding off sickness which, if allowed to progress, would have undermined the whole system and given disease a strong foothold to cause much suffering and even threaten death. Hood's Sarsaparilla has done all this and even more. It has been taken in thousands of cases which were thought to be incurable, and after a fair trial has effected wonderful cures, bettering health, strength and joy to the afflicted. Another important point about Hood's Sarsaparilla is that its cures are permanent, because they start from the solid foundation of purified, vitalized and enriched blood. But it is not what we say but what Hood's Sarsaparilla does that tells the story.

THE GREAT treatment of catarrh is very unsatisfactory, as thousands can testify. Proper local treatment is positively necessary to success, not many, if not most of the remedies in general use afford but temporary relief. A cure certainly cannot be expected from snuffs, powders, douches and washes. Ely's Cream Balm, which is so highly commended, is a remedy that combines the important requisites of quick action, specific curative power, with perfect safety and pleasantness to the patient.
