OGDEN.

OGDEN, UTAH, - - JUNE 8, 1896.

Ogden Tramps.

Seventy-five tramps were found camped in the brush along the Ogden river yesterday. This does not include the transient scamps along the Weber river. They were found to be well supplied with provisions.

Junction City Items.

A blast in Ogden canyon Friday threw a rock into a tent occupied by men working on the canyon road. No one was hurt.

The city jail is overcrowded with hobos and crowds are arriving daily. Twelve jumped off one freight train from the east Friday.

About ninety men are engaged in widening the canyon road. Each man is given a week's work. The object is to give a greater number of men employment.

Wednesday, June 10th, will be the Hot Springs opening day, when there will be an excursion and a road race. Tickets issued on Decoration day will be used.

Joseph Williams's store at Weber station, Morgan county, was burglarized the other evening. Chief Davenport has located the thieves at Coalville and they will be arrested.

William Allison has been elected by the unanimous vote of the school board, superintendent of schools for the ensuing year, and Profs. Lewis and Eaton members of the board of examiners.

Burglars got in their work at the mouth of Ogden canyon yesterday stealing two suits of clothes and some surgical instruments. The police think it is the work of some of the men in the camp.

PROVO.

PROVO, UTAH, - JUNE 8, 1896.

That Threatening Letter.

J. W. Spainhower and Joseph A. Spainhower were brought in Friday night from their asphaltum mine near Scofier summit by Sheriff Brown and Deputy Sheriff Fowler. They are the men against whom a charge of extorting property, by means of a threatening letter addressed to St. V. Le Sieur, has been made in Justice De Mooy's court. When the officers were near the mine they found themselves covered by Winchesters in the hands of the Spainhowers, who thought Deputy Fowler was Le Sieur. After Sheriff Brown had acquainted the Spainhowers with the fact that he and Mr. Fowler were officers, no trouble was experienced and the Spainhowers came along peacably. The News representative had a brief conversation with J. W. Spainhower, who did not care to say much in regard to the case at present, but said that he was not responsible for any letters Mr. Le Sieur might receive during the night. In regard to the mining ground in dispute he claims that he and his brother own the ground and have done considerable work on it; they gave Dan C. Robbins a bond on the property, which he transferred to Mr. Le Sieur. This bond expired May 1st, and Mr. Le Sieur is still trying to hold the property under it, to which the Spainhowers object. They have entered into a contract of sale with other parties and do not want any cloud to rest on the title of their mines. They entered Le Sieur's mess off the ground, but deny using any force or even threatening language, and say that the men went off without any difficulty when requested to do so.

Populist Convention.

The Populists held a county convention here last Saturday; the attendance was not large. H. S. Brooks was elected chairman and Dr. A. McCurdain secretary.

The following delegates to the state convention were elected: A. C. Todd, H. S. Brooks, A. McCurdain, M. M. Kelsey, Daniel Stark, John White, T. M. Todd, Miss Josephine Kelsey, W. J. Ferguson, J. C. Cooper, J. W. Hunter and Mrs. Davis Evans.

Resolutions in favor of the free coinage of silver, and of money consisting of gold, silver and paper issued, issued and controlled by the government only were adopted. The resolutions also declare in favor of governmental control of all public means of transportation, including a canal across the Isthmus of Panama, and against government employes taking part in politics or voting at any election.

Notes and Personals.

S. P. Teasdel and Albert Teasdel are here on business.

Hon. David Evans came down from Ogden this morning on mining business.

Mile. Rhea and company came in yesterday and registered at the hotel Roberts.

Elders Edward Peay and Abraham Holliday were the speakers in the Tabernacle yesterday.

John S. Taylor of Lehi, aged 27, and Mary J. Thornton of American Fork, aged 20, have received a marriage license.

N. H. Nelson, who has been in San Francisco studying dentistry for about a year, has returned. He is thinking of locating in Lehi.

Judge Johnson of the Seventh district was in the city yesterday, and left for Moab last evening where he will hold court.

T. H. Martin, manager of the long distance telephone exchange, came down from Salt Lake yesterday to run a force of men to repair the line between this city and Nephi.

J. M. Davis, manager of the Ontario, came in from Mercur, yesterday, to say the mine is looking well and that the company will put up a mill for the treatment of the ore this summer.

The funeral of Peter Bartine, who was killed Friday by the falling of a timber at a tunnel in Scofield canyon, held Saturday afternoon. The unfortunate man was 36 years of age and leaves a wife and seven children in destitute circumstances.

The following marriage licenses were issued Saturday: Herman Green, aged 22, Sadie Marriott, aged 19, both of Provo; Gustave Ferrin, Jr., Sidney, aged 23, and Clara E. Riley, aged 20, both of Mammoth; W. R. Allen, aged 24, and Edith Viola Tweedy, aged 18, both of Spanish Fork.

The officers here have received word from Draper that a store had been broken into in Draper Thursday night, and three ladies' open face silver watches, three ladies' open face gold watches, three men's open face silver watches and three men's gold filled cases were taken away. A red-whiskered tramp is suspected.

O. S. Williams, H. Hirschman, F. L. Hart, J. W. McDonald, J. E. Eaton, James R. Scherer and W. N. Clark came down on their wheels from Salt Lake yesterday forenoon, and after lunch at the hotel Roberts returned to the capital in the afternoon. They came down in three hours and thirty minutes.

On Thursday evening the 11th, a fine musical entertainment will be given in the Tabernacle under the auspices of the Tabernacle choir. The following artists will appear: Miss Between McKenzie, soprano; Zie Fellows, violinist; Miss Bertha O'Reilly, pianist. These ladies have all received most favorable criticism in the Eastern press and a great musical treat is in store for those who patronize the entertainment.

The meeting called by Mayor Holbrook and others in the opera house, Saturday afternoon, to determine upon the manner—if at all—Utah county should be represented at the great Mississippi Carnival, was not largely attended. After considering the question in all its bearings it was decided that the interest of the people in the carnival was not sufficiently strong to enable Utah county to make such a showing as would be proportionate to its wealth and population, and therefore it was decided to attempt no exhibit from Utah county.

LOGAN.

LOGAN, UTAH, - - JUNE 8, 1896.

College Closing Exercises.

The closing exercises of the B. Y. College took place in the Thatcher opera house on Friday morning. The principal features were, as a matter of course, the class theses. Frank W. Jensen's essay on "Habit in Education," that of Unadilla L. Goodmanson, "Trial of Unadilla L. Goodmanson," Miss Katie Guthrie on "Scott's Heroines," "Religious training in the Schools," by A. H. Armbruster; "The Causes and Effect of the Crusades," by E. W. Fifield, and "The Rise of Portuguese and the Wonderful Voyages of the Pilgrims," by Joseph S. Parkinson, were all excellent. O. W. Stoddard was the class valedictorian, and his address was a model. Instrumental and vocal selections were interspersed in such a way as to complete a well rounded program. The graduates numbered twenty; one from Wyoming, and the others from various parts of Utah and Idaho. In the evening the annual banquet and ball of the Alumni association was held. The course of the B. Y. College has been steadily onward and upward, and the work of the past year has been the crowning effort.

The closing exercises of the A. C. of U. take place next three days. Yesterday was devoted to the baccalaureate sermon, which was delivered; tomorrow will be occupied by the closing exercises proper, the whole ending in the annual student's ball tomorrow evening. It was the intention to spend field day in Logan canyon, but the unsafe condition of the road and the unusual heights of the river render it unsafe, and the canyon trip has been abandoned. The day will probably be spent at the Resort. The A. C. has done more better than ever before. The attendance has been greater, and the close of the year finds its finances in a more satisfactory condition than at any time during its past history.

Fatal Runaway Accident.

A sad accident occurred on Friday evening in Blacksmith Fork canyon. John Carr, a laborer in Indian, and a merchant of Milville, left that town at a late hour in the afternoon to go to his summer ranch up the canyon, where his family is living. Nothing more was heard of him until the next morning, when a traveler in the canyon found his dead body underneath his overturned wagon, all appearances indicating a runaway. The coroner was notified as soon as the discovery was made, and at once left for the scene.

Notes.

A good program of addresses and exercises has been prepared for the Sunday school conference on Saturday and Sunday next.

Mr. and Mrs. Thomas Stuart lost an 18-months-old baby boy on Friday, of membraneous croup. Funeral services were held yesterday.

The water mains are being extended down Second street. Each abutting property owner has the privilege of working out his assessment on the trench.

The residents of Mt. Sterling visited the A. C. of U. almost en masse one day last week. They were much pleased with their inspection of the College and their day's outing.

Mr. W. J. Brown was thrown out of his buggy and had his face badly bruised and scratched, while on his way home to Wellsville. The team took fright and ran away, with the above result.

A small boy named Hansen, a resident of the Seventh ward, had both arms broken a few days ago. He was left alone in a buggy and the horse started up, when he jumped. He either got both arms fast in the spokes of a wheel, or was run over by both wheels.

A cemetery frame house owned by Thorvald Larsen and situated near the Providence Bench bridge over Logan river, was partially destroyed by fire on Friday morning. The fire got a good start before the arrival of the Bremen, although they made a quick run. The main portion of the building and the roof of the wing was destroyed. It was insured for $300, but the damage sustained by about twice that sum. Mr. Larsen and family are in Green River, Wyo. The house had been occupied by a family named Allen, who moved out at an earlier hour on the same day.

FRAWLEY'S COMPANY.

The San Francisco Chronicle of June 2nd says: Mr. Frawley might well feel complimented over the reception given to him and his company last night at the Columbia Theater on their inaugurating their new season there. The house was crowded. Those the audience knew were given a cordial greeting, but the interest in Mr. Frawley's venture was deeper than that evidently, for the new comers were looked for and welcomed, too. It was a friendly function, but not all that, for the company renewed the pleasant success they had last year, and the play was a very clever and a very enjoyable one. The Two Roses was one of Daly's pieces, purchased from the Germans and put on at his theater in New York.

To same harmonious spirit which made the old company set so well together has been absorbed by the new people. Maxine Elliott is a more intelligent actress than anybody Mr. Frawley had before. She is a very handsome woman, with charming manners, innate refinement and personal magnetism. Henry Curtis Clarke is a clever comedian. He has that sort of so many comedians of overdoing the comic business to some extent, but he seemed to be justified by the laughter he raised. He has humorous and natural comedy talent, and will be a favorite. Mr. Frawley himself took the lover's part, which left the best of the play to his new man. It played it as no man plays that kind of thing before, always in earnest, and he seemed the boyishness very agreeably and successfully.

A TOBACCO HEART.

Thousands of Americans Can't Get Life Insurance Because Tobacco has Destroyed the Heart Action and Wrecked the Nervous System.

Engineer Bates Discovers a Never-failing and Easy Remedy.

NEWARK, N. Y.—(Special)—Engineer G. H. Bates, employed by Engine No. 375 today, with a strong desire to rest longer and a bunch of vigorous life in the other. Not a September morn could help recreating him with the youthful, healthy look, and active, vigorous movement, and enabling his employer to dispense with the services of two months more.

"Say, Chief, how will you do it?"

"Yes, I am still interested. Leave out no details."

"Well, I'm going to try something."

"Oh, that's all. No Tic-Tac nerve pills for me, no hypodermic syringe, no nasty, stomach wrecking tonic. I had an appetite I couldn't satisfy now. I chew like a hole and eat tobacco. Why not? I was at it for the first time in years. My heart action is weaker and so I thought I had to increase it. Tobacco is the main thing. Nothing so quiet a gentle steady nerve, and my nerves are in A. No. One. The boys tell me I can't hit a bird on the wing, but I'm not shot. Tic-Tac-Do is sold by all druggists, and I guess by the Stanton Brewery Co., of New York and Chicago. Anyway, I'm taking Tic-Tac. Don't Tobacco fight and Smoke Your Life Away. Tobacco is a poison that settles in the system, and I guess I spent some of Daly's pieces, purchased from the Germans and put on at his theater in New York.

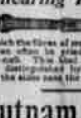
Horses Kick

In self-defense. It is their most vigorous form of protest against the abuse of Spite Tackle that are driven into their backs by ignorant users. Remember other men such cattle in ignorance of the danger that is liable to follow.



This is what happens: One part comes out where it should for cinching, the other goes into the tender flesh. Such cases are the result of the Cold-Rolled and

Shearing Process

by which the fibres of metal are separated and can offer no proper resistance to the sharp edge. The Hard part with the Rough edge, is the kind that can be used without injuring the horse at this point.
