FREE COINAGE BILL.

Silver Men to Act as a Body of Obstructionists.

TEARING UP RAILWAY TRACKS.

Killed Her Husband.—Murder and Suicide.—Commissions to the President's Appointees.

WASHINGTON, Nov. 5.—There are rumors that Voorhees will introduce a free coinage silver bill at the opening of the regular session. Voorhees declines to talk about the matter but it is pointed out that he has always been a silver man and declared, during the debate on the repeal bill that he is no less a friend of silver than he has always been. At any rate it is thoroughly understood the silver question is not relieved by the passage of the repeal bill, but, on the contrary, silver men say the fight is only just begun, and when Congress assembles they propose to begin it well to the front in connection with every great issue between the parties, from tariff to the repeal of the federal election laws. Every stage of the tariff discussed will be punctuated by pertinent queries by silver men, tending to prove that it was the demonetization of silver and not the McKinley tariff which caused the financial depression. Indeed it is intended that silver men shall act as a body of obstructionists, as did the Populists in parliament, till silver shall receive a hearing.

POLITICAL AFFAIRS.

W. S. McCornick Libled by a Third Precinct Trickster.

OFFENSIVE HANDBILLS CIRCULATED.

Mr. McCornick Emphatically Declares Against the Sale of the Waterworks.

An infamous dodger, circulated in Ward 3 in the Third precinct today, was called to the attention of Mr. McCornick who was seen in the Third precinct today.

Mr. McCornick was called upon by a News reporter and asked if he had seen a copy of the circular. He answered: "Yes, I have been shown some of them."

"What is your opinion of it?" asked the reporter.

"I think it too scurrilous and beneath me to take notice of it. I think it is extremely anxious to get back into the Council when he resorts to such low methods and it ought to make the people ashamed; and they will undoubtedly question his anxiety to get back after being turned down by his own party. I take it that the voters will judge for themselves whether I would go to the Council for the little good that I might do or for the hope to the benefit that there may be in it. I was nominated without my knowledge or consent and did not want the office, but since my friends have honored me with the nomination and insist on my acceptance, I concluded to stand, and if elected I will do the best I can regardless of politics."

"As to the sale of the water works my disapproval of that scheme is on record in the council and substantially declare against disposing of them to any corporation or company private or public."

DENOUNCED BY THE COMMITTEE.

The Citizens' executive committee were interested at the charge that they will flood the Third precinct with the following counter-circular tonight:

Voters, it is a fact that some ambitious and unscrupulous individuals have been circulating the malicious falsehood that Mr. W. S. McCornick favors and would lend his efforts to the sale of our city water works to a private corporation. This is in keeping with the other misrepresentations which are being made in the interests of the Incorporations and disgruntled office seekers, who know that the Citizens' ticket, from Mayor down to clerk, is made up of men whom the corporations can use, hence his inability.

MR. MCCORNICK'S FRANK DENIAL.

SALT LAKE CITY, NOV. 4, 1893.

Executive Committee, Citizens' Headquarters.

Gentlemen—Replying to yours of the 3rd inst., I desire to assure you that there is absolutely no foundation for the rumor you refer to regarding my views on the question of disposing of our city water works. The truth is, I have gone on record, publicly as well as privately, to the contrary, and I presumed everybody understood my position. I am unalterably opposed to any proposition that would contemplate the selling to a private corporation of our waterworks plant, and my past utterances have been, and my nature stand will be, in positive conformity with this declaration.

Respectfully yours,
W. S. MCCORNICK.

Vote the Citizens' ticket straight. Look out for fraudulent tickets and printers. Put a cross mark on your ticket before you use it. By order of the committee.

D. C. DUNCAN, Chairman.
JAS. DEVINE, Secretary.
