NATURAL VS ARTIFICIAL.

The American Gas and Fuel Company Commences a Suit

Against the Salt Lake and Ogden Gas and Electric Light Company for $51,125.

In view of the recent gas and light troubles it will be interesting to know that the American Gas and Fuel company has filed suit in the Third District court against the Salt Lake and Ogden Gas and Electric Light company to recover $51,125 on a contract. In the complaint it is alleged that on February 11, 1895, the plaintiff and defendant entered into a contract by which it was stipulated that the latter, for a consideration of $15,000, would deliver to the defendant all the natural gas that the gas well near Lake Shore, in Davis county, and all other wells which might be sunk by the plaintiff would produce within the next ten years for the sum and price of $2 per cent of the gross receipts on which the natural gas may from time to time be sold to the consumers. Fifty cents per 1,000 feet was the selling price of the gas and the claim is alleged it furnished 55,000 feet of gas and that $5 per cent of the price of the same amounts to $51,125, for which sum it prays.

For a second cause of action it is alleged that the defendant company built a very expensive pipe line from Salt Lake City to the gas wells and at an expense of said pipe line being of such character $3,000,000 worth of gas supplied to the plaintiff, owned and was sold to the defendants damage in the sum of $51,125, or such judgment as prayed.

Microscopical Society.

The regular meeting of the Microscopical society of Utah will be held this evening at the usual hour. The program consists of an address on the life history of the Blood, by Dr. Maeser; some Acquatic Worms, by Prof. Wootten, and no binary reports.

Several series of lectures are arranged for the coming months and it is hoped that there will be enough members present to warrant the expense of the lectures. Visitors are always welcome.

A case in mineralogy has been received which contains eighteen, and more to come. Friday evening except that occupied by the general society.

A meeting of the council will be held this evening at 7:45.

EVENTS AT HECUR.

Meetings of the Mormons There—Economy of the Golden Gate Company—The District School.

HECUR, Nov. 12, 1896.—The Mormon season seems to have a serious time. So many changes have occurred in the last few months that it has been impossible to have meetings regularly. The prospects look favorable for the future, and next Sunday services will commence, it is to be hoped to continue weekly without interruption. President Gowans of Tooele Stake will be in Hecur next Sunday evening to attend to some necessary business connected with the ward, and Sunday school will be opened to continue for the season.

There are about 150 Mormons in the camp and there should be good meeting; but so many of the men have to work on Sunday that it is really discouraging for those who have the meetings in charge. A number of good societies have been held, however. Brother Bird, who presiding, is doing all he can for the success of the meetings.

The Golden Gate company has finished a lot of work this week. The Lucky Hecur may hold a share, but times are so hard that no effort has been made so far to take advantage of this opportunity.

Winter seems to have arrived, and snow covers the ground, causing some delay in the improvements proposed in the camp.

The district school has been closed for some time, while an addition to the building has been made. The work will be finished this week, and we will soon more enjoy the benefits of a place where the children may be given the rudiments of an education.

NEMO.

Beet Sugar Items.

(Lehi Banner, Nov. 12.)

Owing to the recent warm the factories have not been digging their beets quite as fast as formerly. But a glance at the company's notice in Lehi charts revealed the fact that we have been visited with a similar storm about this time of the season for the past three years. Also, providing that the predictions of the chart prove true, we may expect a season of dry weather now during which the beets will greatly improve.

The sugar company is now hauling about 1,000 head of cattle. The number will not be increased to any great extent. Last year, owing to the high consumption of pulp, a number of steers had to be sold before they were sufficiently fattened and others were turned on the green. The present supply of cattle was obtained from the south and Deep Creek country.

At the factory they have received to date 34,000 tons of beets. But as the crop is all in they expect the total to reach 45,000, so there is about 9,000 tons yet to be delivered. So far they have worked up a little over 26,000 tons, so about half of the season's run is over.

Manager Cutler has contributed an article to the American Agriculturist on "New Methods of Storing Beets" in which he describes the methods now in vogue at the factory here.

The price of sugar has advanced 1 since election but it is yet below the price last year.

At the request of Mr. Jas. F. Cooke of Rio Rico Orchard company, San Francisco, we give the following note concerning the sweet industry as it is in State as shown by the results at the Lehi factory: The average yield per acre is 17 tons and the cost of production $20 per acre. The average percentage of the beets is 12 to 13 per cent. The farmer receives $1.25 per ton delivered at the factory. Land can be rented in this vicinity for from $10 an acre up according to quality.

We have been saying right along that the sugar industry was a great one and was rapidly coming to the front. Not only is this the case in this county but the people of this State are realizing that it is a most important industry and should be built up here where we know it can be made a success. It is now no longer a question of experiment for it has passed that stage and is on the high road to success. No sooner is the sugar beet thought of as a source of profit than Spanish-Mexicans come to the front with a bid for seed. They are right in seeking such a bid for they have some excellent land in that vicinity and can grow beets successfully, and if another factory is coming this way they want to be in the running for it. The people in Nephi want a factory and the Republic asserts that Representative-elect Wheeler put forth his best efforts to secure a sugar factory for that town. Let the good work go on.

Emery Stake Conference.

The quarterly conference of the Emery Stake convened in Ferron on Sunday, November 8th, 1896.

On account of there being several cases of that direst disease, diphtheria, in the ward, only two meetings were held, and those were poorly attended.

Presidents Larson, Seely and Howard, also Bishops Birkenshaw, Nelson, Rasmussen, Olsen, Robertson and Johnson reported that many of the saints were careless in attending their meetings.

Choirs were very good notwithstanding the damage done by rains, frosts, etc.

Elders A. E. Wall, Alex. Jamieson, and U. E. Curtis spoke briefly on the subjects of Tithing, religious duties, work, and the benefits of the Gospel. The general and stake authorities were sustained.

Although we were few in number, the spirit of God was in our midst. Many consoling words were uttered by the officers and families of Ferron, and the Saints were counseled to pray and labor earnestly, that the disease might not spread. Three deaths like unto this.

The songs of Zion were sung very creditably by Professor Thomas and his little choir at Ferron.

AL. E. WALL, Clerk.

Up Which-Like a Graveyard.

The Pathean doctors and specialists philosophers are great fellows for making odd calculations on all subjects. One of the very latest is our concerning the human family since the beginning of time. It is a long magazine article and gives much that is interesting in the way of human family statistics, but the most striking portions are those which give figures on the number of human beings that have lived since the earth and have and have been buried in it since the first man was created. According to these curious figures, the earth has been peopled up to the time of 60,827,842,187,072,000 human infants since the beginning of time. To this there will be added the number (about fifteen millions) that have to be born over 120 times. Have you ever thought that you were living on the midst of such a populous cemetery?—St. Louis Republic.

The druggist will tell you that no one is better qualified to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. For this reason he wishes us to publish the experience of other dealers about an article he sells to hundreds. Messrs. C. F. Moore & Co., Newburgh, Ore., say: "We sell more of Chamberlain's Cough Remedy than all stocks put together, and it always gives good satisfaction." Mr. J. F. Allen, Fox, Ore., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hillman, Columbia, Wash., says: "Chamberlain's Cough Remedy sells well and is highly praised by all who use it."

Sore throat. Any ordinary case may be cured in one night by applying Chamberlain's Pain Balm as directed with each bottle. This medicine is also famous for its use of rheumatism, lame back and deep-seated and muscular pains. For sale by Druggists.

Mrs. W. B. Mock, who resides at Camden Mills, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhœa Remedy, she concluded to try it. She found that it always gave prompt relief. It was not long necessary to give the second dose. "It has not only saved us much worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by Druggists.

The Whole Story
Of the great sales attained and great cures accomplished by Hood's Sarsaparilla is quickly told. It purifies and enriches the blood, tones the stomach and gives strength and vigor. Disease cannot enter the system fortified by the rich, red blood which comes by taking Hood's Sarsaparilla.

HOOD'S PILLS cure causes, sick headache, indigestion, biliousness. All druggists. 25 cents.
