MINING, BUSINESS AND STOCKS

DAY WAS QUIET ON EXCHANGE

Trading Was Light. Mostly in Small Scattered Lots. Lots.

STOCKS HOLD ABOUT EVEN.

No Particular Uneasiness Apparent Among Brokers, But Small Prospect Of Immediate Change.

Both sessions on the floor of the local exchange today were comparatively quiet. There was no particular activity in any one stock and the sales were mostly scattered and in small lots.

Seven Troughs, Lower Mammoth and Colorado Mining were all dealt in and all held about even at prevailing prices. A few shares of Iron Blossom and Mountain Lake also changed hands.

The total amount of business during the morning session amounted to 40,400 shares representing a total valuation of $22,291.00.

Following are the latest quotations:

This Morning's Metals.

Local ore buyers are making settlements today on the basis of 58⅝ cents per ounce for silver; 13 cents a pound for casting copper, 13¼ cents a pound for cathode copper and $4.75 per 100 pounds for lead.

All grades of copper dropped a ¼ of a cent a pound on the metal exchange today. The new prices were: Lake, 13@13¼; Electrolytic, 12¾@13, closing, 12½@12¾.

OUTLOOK FOR COPPER.

Supply and Demand Must in Long Run Regulate Price.

By courtesy of J. E. Galigher, vice president and manager of the Utah Mining Machinery & Supply company, the Deseret News is enabled to reproduce the following interesting article on the copper situation from the Financial News of London:

"Since the year 1885 we have seen the advent of electric lighting, electric tramways and railroads and motor traction—three causes of a large consumption of the metal that did not previously exist and which are even now only on the threshold of their commercial utility. Ever since the great Secretan boom and crash in 1888-9, there has been a deeply rooted belief in many people's minds that the Americans always have large quantities of copper hidden in secret stores, with which they would be able to flood the market at any time they wished to depress the price. The figures of the world's visible supply for the quinquennial periods since that unequaled upheaval in the copper market do not lend any support to such a contention—as witness the following table (figures given at close of each year):

	World's production.	Stock and Vis. Sup.
1890	269,000	65,000
1895	334,000	46,000
1900	485,000	29,000
*1906	711,000	17,000

*Last completed year.

"It will thus be seen whereas 16 years ago the visible stock represented 25 per cent of the yearly production, now it is only 2½ per cent at the end of 1906; and, allowing for the natural increase in the world's output, for this year, in the current month of April, barely 2 per cent. This is just sufficient for a week's supply. Other opinions seem to think that the new mines being opened up will send the price of metal down a long way below existing prices; but as statistics show us that since 1880 the production of the metal has consistently advanced from 154,000 tons in that year to 711,000 tons in 1906, and been absorbed by consumers, while today there are many more uses for the metal than there were then, it would rather seem that unless new sources of production can be discovered and exploited, the metal would be withdrawn from many industries owing to its price becoming prohibitive.

"It must be taken into account that the world's population is constantly becoming larger and its average of civilization increasing. This has an important bearing on copper consumption, as it is so largely used for generating light and power—two of the commonest necessities of civilized communities. Reviewing the figures of average price during given periods of three years, and as these figures cover the whole of what we may describe as the electrical era, it is very probable that the advancing tendency will continue; in which case copper will average over 100 pounds per ton in 1910, 1911 and 1912. There will naturally be fluctuations; but the recent nervousness in the metal markets was purely from extraneous reasons, of a financial nature, and in no way caused by the law of supply and demand, by which the price, in the long run, must be governed."

GOOD LEAD VALUES.

Reports From Ibex District Show General Conditions Prosperous.

Capt. E. P. Miner, who returned to Bullfrog Wednesday from a visit to the Ibex district, reports a substantial uncovering on the Evening Star group owned by Blossell and Hecky Bros. At a depth of 40 feet in the shaft the ore runs 42 per cent lead, and 14 ounces in silver, or yields a total value of about $[illegible] to the ton. This is the average of the bottom. Capt. Miner brought some of the material back with him and to all appearances it is fully this rich.

There are four claims in the group and they are situated about one mile from the Orient, owned by Busch Bros. These claims, however, are in the silver-lead belt, while the Orient is in the gold zone.

HARRY JOSEPH HAS RETURNED

Says Mining Congress Was Great Success in Every Way

MINING BUREAU ASSURED.

Smelter Situation in Utah Now Taking Up Time of Delegates Important Meetings Scheduled.

Harry Joseph, one of Utah's delegates to the mining congress which has just closed a session at Joplin, Mo., returned to Salt Lake this morning.

Mr. Joseph is enthusiastic in his praise of the work done by the congress, and apart altogether from this he had a good time and enjoyed himself immensely.

"The congress," said Mr. Joseph this morning, "presented a happy combination of western enterprise and southern hospitality. The reception committee certainly knew its business, and the result was a session which will long remain green in the memories of those who attended.

"While away word reached us of the closing of the smelters and on the way back it was decided to try to arrange for a meeting of the mine operators of the Tintic district with a view to deciding what is best to be done. This has been done and the meeting will be held Saturday next. Just what action will then be taken it is difficult to say, but this will depend largely on the outcome of a meeting with Gov. Cutler scheduled for this afternoon. At this meeting the question of the advisability of calling a special meeting of the legislature will be gone into and if the governor does not hold the same views as he did the last time the smelter question came up, we will urge upon him the necessity of immediate legislation.

"In the matter of the establishment of a bureau of mines as a cabinet office, I think we have done much towards securing this. It has been brought to the attention of President Roosevelt in the proper form and we have the assurance from him that the establishment of such a bureau will be recommended by him in his next message to Congress."

Mr. Joseph is among the first of the eight delegates to return to the city. He says the smelter situation alone will keep him busy for some time to come.

YAMPA SMELTER REOPENS

Will Have Full Force at Work by End Of Month.

Salt Lake mining men feel considerably more cheerful over the news that the Yampa smelter opens for business again. The news came in quite unexpectedly last evening, accompanied by the assurance that by the end of the month the entire plant would be running again with a full force of men.

During the time the plant was closed ment were made. While the plant does not handle custom ores, the reopening means the employment of several hundred idle men all of whom are rejoicing at the opportunity.

NEW MAP OUT.

Shows Virgin River Oil Fields as They Now Are.

J. B. Jenson, mining engineer, with offices in the McCornick block, has compiled a map of the Virgin river oil fields, which is the most complete and up-to-date of any map of the district.

The drawings were made from the latest surveys on a scale of two inches to the mile and contain a surprising amount of detail.

Mr. Jenson has just returned from an extended trip into the district.

SHOWS RICH ORE.

Del Oro Company Has Rock Going Better than $400 to Ton.

J. R. Wood, president of the Del Oro Mining company, operating at Johnnie, is making arrangements for the installation of a 15-horsepower gasoline hoisting plant at the property, according to the Bullfrog Miner. Mr. Wood has just returned from the mine, where he found development work progressing very satisfactorily. The shaft was just recently started, and when it reaches a depth of 50 feet the hoisting machinery will be installed. This, he thinks, will be in about 10 days.

The bottom now shows two and a half feet of ore, which, he says, will average better than $400 to the ton in gold. Mr. Wood has specimens from the Del Oro which run into the pictures. The quartz is studded with free gold, and carries values into the thousands.

Mr. Wood brings the information that a $75,000 milling plant is to be erected at once on the Congress, which adjoins his property. The Congress is owned by Harry Ramsey, Jim Butler and associates. It is an old mine, having been operated years ago, and has a shaft on it 500 feet deep, besides a great deal of lateral work. Generally speaking it is a low grade proposition with a vein measuring 40 feet in width. There is a high grade streak, however, which returns values as high as $200 in gold. A mill formerly operated was burned 17 years ago, and practically nothing has been done on the property since this time. The present owners intend starting work on the new plant the first of the year.

The new mill will probably handle some custom ores, which Mr. Wood thinks will greatly facilitate the development of the Del Oro, since its initial output can be treated there before the company is ready to install its own machinery.

RUNNING NIGHT AND DAY.

Guggenheim Plants Being All They Can to Expedite Refined Output.

New York, Nov. 19.—Daniel Guggenheim, president of the American Smelting & Refining company, in a statement issued here said that his company is co-operating with the government to meet the unusual demands for currency. He said that the plants of the company were being operated day and night to expedite the refining of gold and silver. Regarding the general attitude of the smelting company toward the money market, Mr. Guggenheim said:

"The value of the gold and silver produced by the American Refining & Smelting company has been running in excess of $100,000,000 for a year. For some time the refineries of the company have been running night and day to increase this production of gold and silver for the benefit of the government and the business of the country.

"The smelting company regularly deposits its gold product with the government daily and has not sought to obtain any premium on this product. In this matter we have pursued the same policy that we did in 1893. Then, too, there was a premium on currency, but we turned our government checks over to the banks and allowed them to collect the cash without trying to profit ourselves by the premium. It is right to so act, and the banks appreciate it."

TODAY'S MONEY MARKET.

New York, Nov. 19.—Money on call firm 5 at 9 per cent. Ruling rate 7 per cent; closing bid at 6 per cent.

Time loans nominal: 60 days 15 per cent; 90 days 12 per cent; six months 6 per cent.

Close: Prime mercantile paper nominally at 7 to 10 per cent. Sterling exchange weak with actual business in bankers' bills at 485.95 at 486.05 for demand and at 479.50 for 60 days. Commercial bills 476.50; bar silver 59½.

Mexican dollars 47. Government and railroad bonds weak.

STOCKS WERE FREELY SOLD

New York, Nov. 19.—Trivial price changes and very light volumes of business were in evidence when the stock market opened today. The small gains and losses were quite evenly divided. Baltimore & Ohio rose ¾ and American Sugar fell a point.

The demand did not prevail long and the market turned weak. The severest pressure continued on St. Paul, but there was also large inroads made on prices of a dozen other representative stocks. St. Paul led the decline with a loss of 3¼, Canadian Pacific 3, Rock Island preferred 3⅜, Reading and American Smelting about 2, Union Pacific 1¾, U. S. Steel preferred 1⅝, Delaware & Hudson, Pennsylvania, National Lead and Western Union 1½, and Illinois Central. Amalgamated Copper, American Smelting and the majority of the active list 1 or more.

Bonds were irregular.

Heavy selling of Chicago, Rock Island and Pacific 4s broke the price 4½.

The market did not go any lower after middey but neither did it recover much when the traders stopped offering down the leaders. Business for the most part was practically at a standstill and confined largely to a handful of stocks usually the most active. Pacific Coast gave way 2½ and Westinghouse Electric 2.

Large selling orders were put out in New York Central, Union Pacific and United States steel stocks and when they went off rapidly they dragged the general market down to the lowest of the day. U. S. Steel sinking fund 5s also were heavily sold and drained two points. Rock Island collateral 5s were affected by the liquidation of 4s and Broke 5⅝. The losses included 2 points in Westinghouse Electric 4⅝ in St. Louis and San Francisco 2nd preferred, 2 in New York Central and U. S. Steel preferred, 2¼ in Union Pacific and 1⅝ in U. S. Steel.

LIVESTOCK.

CHICAGO.

Chicago, Nov. 19.—Cattle—Receipts, about 10,000. Market weak to 10 cents lower. Beeves, 3.00@6.40; cows and heifers, 1.20@4.85; Texans, 3.25@4.00; calves, 5.00@7.00; western, 3.10@5.00; stockers and feeders, 2.25@4.45.

Hogs—Receipts, about 25,000; market weak to 15 cents lower. Lights, 4.75@5.20; mixed, 4.75@5.35; heavy, 4.70@5.25; good to choice, heavy, 4.90@5.10; roughs, 4.80@4.75; pigs, 5.10@5.15; bulk of sales, 4.90@5.00.

Sheep—Receipts, about 15,000. Market easy. Natives, 2.00@5.10; western, 2.00@5.10; yearlings, 4.70@5.80; lambs, 4.00@6.50; western, 4.00@6.50.

WOOL

St. Louis, Nov. 19.—Wool steady. Territory and western mediums, 23@25; fine medium, 20@22; fine, 17@19.

OMAHA.

Omaha, Nov. 19.—Cattle—Receipts, 6,700. Market slow to 10c lower. Native steers, 3.25@5.50; cows and heifers, 2.25@3.50; western steers, 3.25@5.00; Texans, 3.25@4.25; range cows and heifers, 2.00@3.40; canners, 1.25@2.25; stockers and feeders, 2.75@4.50; calves, 3.00@5.75; bulls and stags, 1.50@3.25.

Hogs—Receipts, 7,500. Market 20 cents lower. Heavies, 4.60@4.70; mixed, 4.60@4.65; light, 4.50@4.60; pigs, 4.00@4.50; bulk of sales, 4.60@4.65.

Sheep—Receipts, 9,200. Market 10 cents lower. Yearlings, 4.50@4.75; wethers, 4.00@4.25; ewes, 4.00@4.25; lambs, 5.40@5.90.

KANSAS CITY.

Kansas City, Nov. 19.—Cattle—Receipts, 14,000, including 500 southerns. Market 10 cents lower. Native steers, 3.75@5.75; native cows and heifers, 1.60@4.25; stockers and feeders, 2.10@3.75; bulls, 2.10@3.75; calves, 3.25@6.50; western steers, 3.25@4.25; western cows, 2.60@3.50.

Hogs—Receipts, 16,000. Market 15 to 20 cents lower. Bulk of sales, 4.60@4.75; heavy, 4.55@4.80; packers, 4.60@4.85; pig and lights, 4.45@4.75.

Sheep—Receipts, 11,000. Market weak. Muttons, 4.00@4.65; lambs, 5.00@6.15; range wethers, 3.80@4.75; stockers and feeders, 3.00@4.50.

PRODUCE.

Chicago, Nov. 19.—The wheat market today opened weak because of liberal northwest receipts and the lack of firmness in the stock market. Commission houses were the chief sellers. Trading, however, was very light. December wheat opened ⅛ to ¼c lower, at 94⅝ to 94⅞ and sold at 94½.

The corn market was easy in sympathy with wheat and because of lower cables. December corn opened ¼ to ½ lower at 54⅞ to 55⅛ and sold at 55¼.

The oat market was dull and prices were easy. December opened ⅛ to ¼ lower at 47 and sold at 47⅛.

The weakness of the grain markets together with a 10c to 15c decline in the price of live hogs caused a weak market in provisions. January pork opened 20c lower at 12.55. Lard was down 10c to 7.75. Ribs were 10c lower at 6.82½.

The market was weak all day on reports of a good crop in Argentina. The low point for December was 93⅝. The close was weak with December off 1⅛ at 93⅞.

Corn—The low point for December was 54½@54⅝. The close was weak with December off ⅝@⅞ at 54⅛@54⅜.

Close: Wheat—Dec., 93⅞; May, 102½@102⅝.

Corn—Dec., 54⅛@54⅜; May, 56.

Oats—Dec., 56¼@56⅜; May, 49⅞@50.

Pork—Jan., 12.42½; May, 12.75.

Lard—Jan., 7.70; May, 7.70.

Ribs—Jan., 6.75, May, 6.90.

Rye—Cash, 79@80.

Barley—Cash, 3.60@4.20.

Clover—No quotations.

SUGAR AND COFFEE.

New York, Nov. 19.—Sugar, raw, quiet. Fair refining, 3.30; centrifugal, 96 test, 3.80; molasses sugar, 2.95.

Refined—Quiet. Crushed, 5.50; powdered, 4.90; granulated, 4.80.

Coffee—Quiet. No. 7 Rio 6; No. 4 Santo, 7¾.

BUTTER AND EGGS.

Chicago, Nov. 19.—Butter steady. Creameries, 22@27; dairies, 22@24.

Eggs steady, at mark, cases included, 17½@20.

EVAPORATED FRUITS.

New York, Nov. 18.—There is a better demand for evaporated apples on spot, probably for filling out November contracts. Fancy are quoted at 12; choice, 10; prime, 8½@9; and 1906 fruit, 8@10½.

Prunes are arriving here freely from the coast, but are largely for delivery on forward contracts. The spot market is easy in tone, with quotations ranging from 4½ to 13½ for California fruit, and from 6½ to 7½ for Oregons up to 30½ and 40s.

Apricots are firm on small offerings, with choice quoted at 21; extra choice at 22, and fancy at 24.

Peaches are in jobbing demand, choice quoted at 12@12½; extra choice, 12½@13½; fancy, 13@13½; and extra fancy, 14@14½.

Raisins are without further change. Seeded raisins quoted at 7@10; loose muscatel at 7½@8¾, and London layers, nominal.
