MINING, BUSINESS AND STOCKS

SEVERAL STOCKS QUITE ACTIVE

South Columbus Con. Feature of Day on Declining Market.

MANY STOCKS TAKE DROP.

General Tendency is Downward With Little in Sight to Relieve Present Conditions.

There was considerable activity on the floor of the local exchange this morning and the amount of business transacted was if anything above the average. The general tendency of the market was downward, however, and the majority of the stocks dealt in closed at lower prices than they opened.

During the regular call, South Columbus Con. was perhaps the feature. This stock opened at 78 cents, the first sale being at that figure. Several hundred shares changed hands and the quotations closed at 70 cents. Colorado Mining also dropped from $2.55 to $2.32½. Seven Troughs held about even at 41 and 41½.

The total volume of business transacted amounted to 45,600 shares, representing a total valuation of $31,410.

PROPERTY SOLD.

Bunker Hill and Sullivan Changes Hands—Shows High Grade Ore.

George Lodge, of the Bullfrog district, Nev., has purchased the interests of Michael Sullivan of Ely in the Bunker Hill and Sullivan properties near the Campbell ranch, about 24 miles from Ely, says the White Pine News.

The property was originally opened up by Robert Neill and Mr. Sullivan, who with the Misses Laura and May Campbell of the Campbell ranch, were the owners.

It is a silver-lead proposition and assays show 5 per cent lead, 8 ounces silver and $2.50 gold. There is a tunnel in 125 feet where it taps the ledge which is 15 feet wide, and extends in a blowout on the surface for a distance of 800 feet on each side of the shaft. At depth of 65 feet they crosscut the ledge, proving that the values increase at depth as well as the extent or width of the ledge. The mine is situated about four miles from the railroad with a down grade the whole distance. At present the haul is to Warm Springs. Necessity for repairing the road is all that is delaying the shipping of ore to the Salt Lake smelters and Mr. Lodge says it will only be a matter of a few days when this will be accomplished.

Mr. Lodge is an old time miner and prospector, having been born in the copper country of Michigan and spending the greater part of his life in mining camps with which he is familiar from Alaska to Arizona. He came here recently from Bullfrog, where he was interested with the Homestake company. The opportunities and promising future of this district looked so good to him that he decided to stay and invest.

Mr. Sullivan will remain here and look after some gold properties which he owns in the same neighborhood as the Bunker Hill and Sullivan mine.

HIGH VALUES OBTAINED.

Tunnel 800 Feet All in Ore Rich in Lead and Silver.

F. C. Williams, president and general manager of the St. Lawrence Mining company and the Adirondack Mining company of Shoshone, Nev., arrived in Ely last evening from Salt Lake on his way to the mines.

When asked as to progress at the properties Mr. Williams stated that their tunnel was in 800 feet, practically all in the vein. Holes from 10 to 50 feet deep all along the vein, extending 2½ miles, have thoroughly proved the extent and value of the ore, which is a silver-lead proposition. Average assays of the high grade ore show 60 to 70 ounces silver and 80 per cent lead. Concentrating ore goes 15 ounces silver and 25 per cent lead.

The mines are situated on a mountain adjoining Mount Wheeler, the highest in the state, and the boarding houses, etc., are at an elevation of 10,400 feet. The tunnel mouth is about 10,200 feet altitude. The vein shows plainly at the top of the mountain at a height of 12,000 feet. Timber in plenty is to be had for all purposes.

Hall & Colwell, engineers of Ely, have just completed a survey for a tramway 1¼ miles long to a mill site 2,000 feet lower, where a 100 ton concentrating plant will be erected in the coming spring.

The properties have been in process of opening up during the past two years, and when the concentrator is ready for operation they will be in position to ship large quantities of concentrates regularly.

ANOTHER PLANT TO CLOSE DOWN

Works of United States S. R. & M. Co. at Bingham Junction To Cease Business.

THE RESULT OF SMOKE SUITS.

Managing Director A. F. Holden Reaches City—Plants Will Not Likely Reopen.

Information was given out yesterday from the company's offices in the Dooley block to the effect that the plant of the United States Smelting, Refining & Mining company at Bingham Junction would be closed down indefinitely.

Those producing companies having contracts with the company have been notified to make no further shipments, and just as soon as possible fires will be drawn and the plant put into shape to stand a long term of idleness.

Managing Director A. F. Holden reached the city on Thursday from Mexico, and up to last evening was closeted with his attorneys for the greater part of the time. It is understood that the matter of the recent ruling of the circuit court of appeals with regard to the smoke nuisance was taken up and discussed in all its details. The result of the discussion was apparently far from satisfactory from the standpoint of the smelters, and last evening the following interview was given out:

"The position of the United States Smelting company in the matter of smoke suits, is, of course, that it will follow absolutely the decree of the courts. Since the suits were filed certain devices have been installed to avoid the escape of injurious matter, and we do not believe that the United States plant at Bingham Junction is now causing material damage to vegetation. Nevertheless the company is now preparing for a shutdown of its smelting operations in the Salt Lake valley.

"At Bingham we shall cease the mining of both lead and copper ore. At the Centennial-Eureka we are already shipping a portion of the ore to our Mammoth works in California, and the entire product can be smelted there at little additional cost to the company. This statement, without an understanding of the cost of fluxes, may seem unreasonable, but it is nevertheless a fact, as iron, which is expensive in Utah, is without value there.

"We have been obliged to notify various producers to discontinue shipments of ore to our Bingham Junction smelters. We regret the consequences thereof to the mining industry, but necessity for the move is self-evident in view of present conditions.

"The cessation of smelting operations in Salt Lake valley will not materially affect the earnings of the United States company, as it will be able to treat the largest portion of its own ores in other plants. The New Mammoth smelter at Kennett, with a capacity of 2,000 tons per day, will be in partial operation Dec. 15 and in full operation by the middle of January."

RUSH IS ON.

Rawhide Scene of Rich Discoveries And Many Flocking In.

That Rawhide is abustle with "rustling" people is being more and more evidenced every day by the men coming out of the camp, and by those who are going in, according to the Tonopah Bonanza. The latest boomer for the district is J. Holman Buck, editor of the Rawhide Rustler. Mr. Buck is the editor of the Western Nevada Miner, and several other papers in this section of the country. He is a rustler himself and is the first to get into any new camp within a radius of 50 miles of Mina, where he makes his headquarters. He says that Rawhide beats any camp that he has yet located in.

"Crowds are going in daily to Rawhide from Mina and Luning," said Mr. Buck, and those who come back are unanimous in their opinion that it is going to be the greatest camp in the state. The greatest strike yet made there was made on the lease of Joe Alexander, Fred Hughes, Ed Keissling and George Andrews. They got very near the pure quill there, for the gold goes as high as $125 a pound. Gold has been taken out, some of which is as big as the joint of your thumb and as heavy as a $20 piece. The lease which is on the Roseberry group has been bonded by Hayes and Monnette for $50,000. The shaft is down 50 feet and they are going after the big ledges, the croppings of which appear on the surface.

"There are a number of leases from which they are taking shipping ore. A rich streak was struck last week on the lease of E. J. Cotter and associates on the Van Dorn property. The streak was about an inch wide, and it is claimed that the ore went $28 a pound. The wage scale for miners is $5 a day for the minimum; for shaft work, $5.50, and 50 cents additional for machine work."

ONE GOLD BRICK.

Montgomery Shoshone Banks One Amounting to $7,000

Supt. Bryce Turner of the Montgomery Shoshone handed John S. Cook and company's bank a gold brick the other day—not the regulation variety once used to separate the innocent and unsuspecting from their coin, but the real article yielded from the ores treated at the company's mill, says the Tonopah Bonanza. It is the first refined gold from the new plant, and is worth $7,000.

In addition to this the company has shipped two cars of concentrates to the Salt Lake smelters, and is holding up its average of 30 tons of high grade shipping ore a day. The milling ore is concentrated 20 tons in one, and the material being treated will average in the vicinity of $35 to the ton. An idea of the value of the concentrates may be had from this fact.

The new mill, the management says, is going well and giving satisfaction. Some few changes are being made from time to time and the plant is being gradually worked up to its full capacity. The general verdict among mill men is that the mill is a success, but it takes time to get all the parts properly adjusted. It will be treating 300 tons of ore in a very short time.

The company is steadily increasing its force, and rapidly opening up its ore bodies. The shaft has reached a depth of 590 feet. At the 600 a pumping station will be put in and further lateral work undertaken.—Bullfrog Miner.

ATTORNEY GOES EAST.

Smoke Nuisance Conference With Officers of Utah Consolidated.

Atty. Waldemar Van Cott left last evening for New York to confer with the officers of the Utah Consolidated Smelting company, owners of the Highland Boy smelter at Bingham regarding the recent decision of the circuit court of appeals sustaining the granting of the injunction by Judge Marshall.

The Highland Boy is one of the many smelters affected by the decision which says that the smoke from the smelters shall contain no sulphurous or otherwise poisonus gasses. It is not unlikely that as a result of the conference it will be decided to carry the matter of the litigation to the United States supreme court.

BOSTON COPPER LETTER.

James A. Pollock & Co., furnish the following, received over their private wire, this afternoon:

Boston—Hornblower & Weeks' copper letter says: The depression in the copper shares was continued at the opening of the local market this morning with interest centering principally in Copper Range, Cal. & Arizona was again under pressure and the balance of the list is somewhat lower all around. The weakness in the New York market was to great measure responsible for the selling of local shares and if the decline in New York market should extend further there will probably be a corresponding setback in the copper shares, but it would seem that on any further moderate break, good coppers should be bought with the idea of average.

Cop., 22@23.

CONCENTRATES.

The payroll of the Ohio Copper company amounting to about $16,000, was met today by the empany in the customary manner. That of the Utah Copper company amounting to $122,000 was also met with money imported direct from New York for the purpose.

Willard F. Snyder president of the National Development company returned yesterday from an extended business trip to the east.

COAL FRAUD CASES.

Men Connected With Wis. Concern, Released; Others Held.

Milwaukee, Nov. 15.—Judge A. L. Sanborn, of the western district of Wisconsin, sitting in the habeas corpus case against several Wisconsin persons against whom indictments were returned by the federal grand jury charging conspiracy to defraud the government out of valuable coal lands in Colorado today rendered a decision discharging those connected with the Wisconsin Coal Mining company and holding two who are connected with the Federal Coal & Iron company. The names of the discharged men are:

James M. Pereles, Thomas Pereles, Chas. F. Hunter, Guy D. Goff and H. M. Benjamin, all of Milwaukee. In the case against these five men Judge Sanborn held there was no crime, no intent of crime, and no conspiracy as charged. The court in the cases against Elias Arnold and Chauncey L. Jones, of the Federal Coal & Iron company, held these men to the grand jury in Colorado. A contest will now be made to prevent removal to Colorado of those held, counsel for the defendants contending that if there was any crime it was committed in Wisconsin and that the trial should be held in this state.

THEATER PEOPLE MEET.

New York and Chicago Will be United Theatrically.

Pittsburg, Pa., Nov. 15.—The meeting of the Ohio circuit company, at which prominent theatrical representatives of the country are in attendance, continued in this city today. The organizations represented are Nixon & Zimmerman, Klaw & Erlanger, Cohan & Harris, Julius Cahn, Stair and Havlin, both Pennsylvania companies, the Grand Opera House company, Edward L. Moore of Wheeling, James Tallman, of Bellaire, Fred C. Nixon-Nirdingler, and many other affiliated interests.

At the meeting yesterday the union of New York and Chicago theatrically was practically assured when it was made known, unofficially, however, that a movement is on foot combining the Reis circuit, the Julius Cahn circuit, the Ohio and two western circuits.

S. F. Nixon and Samuel Harris admitted today that one object of the meeting is to construct theaters in towns where the allied interests are not now represented.

HURT IN METAL EXPLOSION.

Pittsburg, Nov. 15.—Nine men were seriously injured by molten metal today when an explosion occurred at the Lucy furnace of the United States Steel corporation. The explosion resulted when the furnace was about to be tapped and the hot metal caught the men before they could reach safety. All were taken to a hospital.

TODAY'S MONEY MARKET.

New York, Nov. 15.—Money on call firm 5 at 15 per cent; ruling rate, 12 per cent, closing offered at 5 per cent.

Time loans firm and largely nominal; 60 days and 90 days, 12 to 15 per cent; six months 8 per cent.

Nov. 15 close: Prime mercantile paper nominally at 7 to 10 per cent.

Sterling exchange firmer with actual business in bankers' bills at 478 at 478.05 for demand and at 478 at 479 for 60 day bills. Commercial bills 477½.

Bar silver 58¼.

Mexican dollars, 46¼.

Government bonds steady; railroad bonds firm.

HARRIMAN STOCKS HEAVILY SOLD

New York, Nov. 15.—Opening prices yielded before comparatively light selling orders. The declines ran in Canadian Pacific to 1½, General Electric, 1¾; New York Central, 1¼; the Harriman Pacific, St. Paul, American Sugar and American Locomotive, 1, and the Hill stocks, Reading, Pennsylvania and United States Steel preferred, large fractions.

The depression was partially overcome and Reading, Union Pacific and St. Paul rallied sharply. A later break in New York Central caused the list to give way again and some additional material declines were made. Both the eastern and western trunk lines stocks were sold freely. Atlantic coast line receded, 1¼, St. Paul preferred, 3; Canadian Pacific and N. Y. Central, 2¼; Baltimore & Ohio, American Locomotive and American Car preferred, 3; Union Pacific and Pennsylvania, 1⅝; Great Northern preferred, Rock Island, preferred and Reading first preferred, 1½; American Sugar preferred, 1⅝, and Northern Pacific, Louisville & Nashville, National Lead, American Locomotive preferred, Republic Steel preferred and Western Union, 1.

A few stocks were acutely depressed but the effect on the general list was more moderate. American Smelting was forced to sale at a total decline of 3½. Its preferred stock, Union Pacific, northwestern, Denver & Rio Grande, National Lead and American Sugar made declines at 2 to 2¾ points, and Southern Pacific, Northern Pacific Reading 1⅛ to 1½. Bonds were irregular.

The general market resisted for a while the heavy selling of the Harriman stocks, but broke afterward when United States Steel preferred weakened and the Hill stocks began to be sold. The copper stocks were not much affected on this decline. Kansas City, Fort Scott, declined 5, Union Pacific 3¼, Southern Pacific 3, Chicago, St. Paul, Minneapolis & Omaha and Westinghouse Electric 2½, and American Phone 1½.

Business fell off greatly, but there was no cessation of the decline in which New York Central, Reading and Atchison were prominent. Westinghouse Electric got down 5 points, Union Pacific 3¾, New York Central 3½ and Pullman 2¾. Reading and St. Louis and San Francisco second preferred, 2½, Atchison 2¼, Great Northern preferred, U. S. Steel preferred and Distillers' Securities 2, and Amalgamated Copper 1¾.

LIVESTOCK.

CHICAGO.

Chicago, Nov. 15.—Cattle—Receipts 2,000; strong to a shade higher; beeves 3.25@6.30; Texas 3.10@4.70; Texans 3.15@3.90; western 3.10@5.30; stockers and feeders 2.25@4.40.

WOOL

ST. LOUIS.

St. Louis, Nov. 15.—Wool—Steady. Territory and western medium 23@25; fine medium 20@22; fine 17@19.

PRODUCE.

CHICAGO.

Chicago, Nov. 15.—Trading opened light in all grain pits today, and all the prices showed a downward tendency, the chief reason being the fresh decline in the stock market. Wheat sold off in face of higher prices at Liverpool, which were based upon yesterday's reports from Russia that exports were to be restricted. December wheat opened a shade to ⅝@⅞ lower at 95¼@95⅝ and sold at 94⅝.

The condition of the stock market and cold weather in the northwest were decreasing factors in the corn market. December opened ⅝ to ½ lower at 55 to 55⅛, sold at 55½ and then declined to 54⅞.

The oats market was dull and prices were weak. December opened ¼ lower at 46⅝, sold at 47⅛ and then declined to 46⅝@⅞.

Provisions were weak because of lower prices for live hogs and in sympathy with the weak markets. January pork was 12½ lower at 12.87½. Lard was off at 7½c at 8.05. Ribs were 5@7½c lower at 7.90.

Close: Wheat—December 95@95⅛; May 1.02⅝@⅞.

Corn—December 54⅝@⅞; May 58⅝@⅞.

Oats—December 46⅝; May 49⅝.

Pork—January 12.80; May 13.02½.

Lard—January 8.00@8.02½; May 7.95.

Ribs—January 6.87½; May 7.07½.

Rye—Cash 99@1.

Barley—Cash 59@80.

Clover—No quotations.

The market for wheat was weak all day. The top price for December was 95⅝. The close was weak with December 1½ lower at 94⅝@⅞.

Corn—The low price for December was 54⅞. The close was weak with December off ⅝@⅞ at 54⅝@⅞.

EVAPORATED FRUITS.

New York, Nov. 15.—The market for evaporated apples is quiet but steady, with fancy quoted at 20c; choice 9¾@10c; prime, 8½@9c, and 100s for fruit at 8@8½c.

Prunes are steady, with quotations ranging from 5c to 13½c for California fruit and from 6½c to 15½c for Oregons, up to 40s and 60s.

Apricots are unchanged, with choice quoted at 24c; extra choice, 25c, and fancy, 22@24½.

Peaches continue quiet; choice, 12@12½; extra choice, 12½@13½c; fancy, 12@13½, and extra fancy, 14@14½c.

Raisins are moderately active, with loose muscatels quoted at 7½@8½c; London layers, 1.75@1.85.

BUTTER AND EGGS.

Chicago, Nov. 15.—Butter steady creameries 23@27; dairies 21@24.

Eggs, steady at mark, cases included 17@.

New York, Nov. 15.—Butter steady, unchanged.

Cheese—quiet, unchanged.

Eggs—firm.
