THE FIRE FIEND IN CLEVELAND.

TWELVE INCENDIARY FIRES IN FORTY-EIGHT HOURS.

ICEBERGS AND HURRICANES ON THE ATLANTIC.

BLAINE AND BUTLER—REPUBLICAN CONVENTION.

FOUND DEAD—STOLEN GOLD, ETC.

The Fire Fiend.

CLEVELAND, 27.—At 1 o'clock this afternoon the twelfth incendiary fire in Cleveland within 48 hours was started in the lumber yard of the Cleveland Saw Mill and Lumber Company, in the heart of the great lumber district, on "the flat." A strong wind carried the flames eastward through the yard, destroying 1,000,000 feet of lumber and about 30 feet of trestle work on the Canotten Valley Railway, cutting off trains from access to the depot. The fire was here checked with a loss of $20,000.

About 4 o'clock a small boy standing near the passenger station of the Canotten Valley Railroad, observed a man creep stealthily up to a baggage car and passenger coach standing on a side track, and shortly after noticed flames issuing from the rear coach, and gave the alarm. A locomotive backed up and drew the cars into an open space where they were completely gutted, with a loss of $900, the cars being narrow guage. The entire department was at the lumber fire. Had the flames from the burning car reached the depot a large district of densely filled wooden buildings must have been swept bare. Towards five o'clock a fire was discovered in the Green block, St. Clair street, but was extinguished without damage. The kindlings used were two packing boxes saturated with coal oil. No arrests. Purdy & O'Neil, one of the largest lumber firms in the city, to-day received an anonymous letter from Chicago, warning them that their stock would be in ashes before Monday Morning. The machine works received a similar warning, and both firms have taken precautions accordingly. The excitement is general, and hardly a resident in Cleveland but feels apprehensive for the safety of his property.

Icebergs and Hurricanes.

ST. JOHNS, N. F., 27.—An average of 15 icebergs pass St. Johns going south in the track of the ocean steamers. A craft arriving here reports passing large quantities of wreckage on the coast of Labrador on Thursday. Fierce hurricanes were experienced on the same date.

Stolen Gold.

NEW YORK, 27.—To-day an unknown man stole a bar of gold worth 40,000, from the broker office of Martin Runyon, in the basement of No. 12 Broadway, in the presence of the clerks. He dashed out of the door, hotly pursued, and ran up the steps leading to the office in the building. Through an office on the fifth floor he reached a fire escape and descended to the roof of an adjoining building and got down through the scuttles to Pine Street, where he escaped. It appears that the thief visited the law office of Mr. Comstock, through which he escaped, both yesterday morning and to-day. He pretended to be a workman and asked permission to examine the fire escape and some wires. Leave being given, he descended the fire escape this morning, and took the opportunity to open the scuttles in the flat roof to which the escape leads.

Found Dead.

DALLAS, Texas, 27.—In the woods, just beyond the corporation limits, the dead bodies of a man and woman were discovered this afternoon side by side and still warm. She was about 18 years old, and wore a diamond broach, and was dressed in exquisite taste. He was a few years her senior. Between them lay a revolver, with two chambers empty. Near by was a note, in a clear bold hand: "As we cannot be united in life, we will be in death. George Faustrick and Annie Manler." There was no further clue to their identity.

CLEVELAND, 27.—At about 10.30 Mr. Blaine went from Mrs. Garfield's house to the Tyrand, where he remained in his parlor receiving callers until he went to the depot to take the special train to Elyria at one o'clock. When the train arrived at Elyria the pretty little town was crowded with its own citizens and people from the surrounding country. The jam at the depot was so great that it was difficult to get to the carriages. The crowd at the Court House square was about to be addressed by Secretary Windom. When Blaine got up on the stand the people cheered him repeatedly. He spoke as follows:

Mr. Chairman.—This is not my first visit to your beautiful county. I recall with great pleasure a previous visit when I was met cordially as to-day, and I knew of your county years before I had the pleasure of seeing it, for who does not know of the advanced stand and great leadership which the county of Loraine took in the prolonged anti-slavery struggle? (Cheers.) It was your sturdy citizens and the great institution at Oberlin that disseminated those principles of freedom which made this northwestern county the vanguard in the contest of anti-slavery. (Renewed cheering.) That contest ended in victory, and another is now committed to your charge, and to-day in an emphatic sense, to the leadership of Ohio; that is, all other questions laid aside, shall American labor be protected? (Great cheering.) During the pendency of the anti-slavery struggle, there was no side issue that could possibly divert the anti-slavery men of the western reserve from the one great absorbing question, and I believe the same discipline of mind prevails now, and that no side issue will be permitted to divert you from the controlling question of this campaign. I thank you, gentlemen, for your reception, and I consider that to have only indicated the subject upon which others will address you when I bid you a very cordial farewell. (Prolonged cheering.)

Judge West made a brief speech and was followed by ex-Secretary Windom and Mr. Tenney. Blaine and party returned to Cleveland.

The Butler Party.

SPRINGFIELD, Mass., [illegible] addressed an audience [illegible] sons, which filled the city [illegible] this evening. Butler first addressed himself to the Republican party, [illegible] ing that their early principles were grand and good, for he helped to make them. He said the party had borrow money at a rate of interest [illegible] in their cause [illegible] party has [illegible] General [illegible] industry and [illegible] and to commiserate [illegible] the laborer. He [illegible] the military statistics of the cotton [illegible] which he picked up [illegible] wars and [illegible] argument. [illegible] tons and [illegible] yet here comes a laborer with a hole in the seat of his pantaloons [illegible] his scheme of controlling stock gambling and dealing in futures by law. The General [illegible] You remember when [illegible] which [illegible] my inaugural address I talked about gambling in futures, and [illegible] Republican party, always practical about such [illegible] things to take some action on this matter. They took no notice of it. How does this affect you? It affects you in this, it will destroy your [illegible]

[illegible] a young man goes into a banking office [illegible] he sees those above him speculating and gambling and is drawn into it himself. Why, only a few days ago Arthour & Co., of Chicago, made $2,500,000 on the rise in the price of pork. They made it and boasted of it. They stole it. If a miserable creature should steal a pig we would put him in the house of correction. What shall we do with people who steal $2,500,000 worth of pigs all at once? The General closed with a slap at the democrats of Massachusetts, who cannot hold a convention, State or district, without having the ballots outnumber the delegates. "If they tell you," said the speaker, "that you will throw away your vote by casting it with the People's party, tell the democrats they have been throwing away their votes for 20 years."

Republican Convention.

HELENA, Montana, 27.—The Republican Convention convened at 12 a. m. W. F. Sanders was elected temporary chairman. A permanent organization was effected with G. W. Irwin of Butte, as President; vice-presidents, Nelson Story and Capt. H. Cook; secretary, Paul McCormick. The nominations for Congress were as follows: Third ballot, A. J. Burleigh 9, A. C. Botkin 10, W. W. Alderson 1, W. F. Sanders 37, H. F. Knowles 29. At the session in the evening H. M. Blake was nominated for district attorney. After the convention a ratification meeting was held, in which speeches were made by Speer of Butte, A. F. Burleigh of Miles City, W. W. Alderson of Bozeman, C. W. Irving of Butte, C. H. Gould of Miles City, C. D. Whitehill of Deer Lodge, A. C. Botkin and W. T. Sanders of Helena.

SUNDAY NIGHT'S DISPATCHES.

Fire in Cleveland.

CLEVELAND, 28.—About three this morning the barrel house of Schofield, Schurmer & Teagle's Great Western Oil Works was destroyed by an incendiary fire; loss 15,000; insurance half that sum.

Pioneer Dead.

PORTLAND, Oregon, 28.—Ex-Congressman Joseph S. Smith died this afternoon. He was a pioneer of 1845.

Rathdrum Burned.

A dispatch from Rathdrum, Idaho, says: The entire business part of the town was destroyed by fire; no particulars.

Infelicity and Whisky.

ST. LOUIS, 28.—Fred Schults, a hard drinking man shot his wife at their home in Jerseyville, Ills., last Saturday evening, then shot and killed himself. The wife received a ball in the head and is believed to be mortally wounded. Domestic infelicity and whisky the cause.

Found Dead.

DALLAS, Texas, 28.—Later developments reveal the fact that Foustrech, a young officer in the German army, was visiting America on a year's leave of absence. Foulstrech and Miss Manny had been stopping at an obscure hotel for several weeks. His parents in Germany refused their marriage, and as his leave of absence was about expiring they concluded to die rather than be separated.

Political Stabbing.

The Pittsburg *Post* special from Washington, Pa.: At a republican meeting at Frederickstown last night, Alfred Dougherty and E. R. Deems became involved in a difficulty, in which Dougherty fatally stabbed Deems. Dougherty has been arrested.

Won by Gaudauer.

ST. LOUIS, 28.—The race between Jake Gaudauer, of St. Louis, and Geo. Hosmer, of Boston, three miles with turn for $500 a side, which took place at Creve Coeur Lake, 20 miles from this city, this afternoon, was won by Gaudauer. Over 3,000 persons witnessed the race. The water was quite lumpy and prevented fast time.

FOREIGN.

SUNDAY NIGHT'S DISPATCHES.

GENERAL GORDON'S BATTLES ON THE NILE.

HE STILL HOLDS THE FORT.

Cholera.

Rome, 28.—There was a fresh case of cholera reported to-day, the patient being a soldier. In the Kingdom of Italy during the last 24 hours there have been reported 408 new cases and 222 deaths, including 116 cases and 74 deaths at Naples, and 39 new cases and 25 deaths at Genoa. Since the outbreak of the disease in Italy, 13,225 persons have been attacked.

Dynamite.

LONDON, 28.—An attempt was made to-day to blow up the Council House at Salisbury. A number of windows were smashed by the explosion, otherwise no damage was done. No arrests.

Bismarck Leading Against England.

PARIS, 28.—In the Cabinet council yesterday Tirad expressed the hope that the budget would be balanced without resort to a loan. It is reported that from 10,000,000 to 15,000,000 will be required for expenses of the Tonquin expedition, and Admiral Peyron, Minister of Marine, asks for 65,000,000 to arm the navy. The ironclads are now making complete point defenses of the French coaling stations. A French paper represents that Bismarck is leading in the movement against the English policy in Egypt.

French Searching English Vessels.

LONDON, 28.—A Times Hong Kong dispatch says: The French [illegible] searching the English regular coasting steamers at Swatow and Hai Loeng in the channel of Formosa. There is great excitement in consequence at this high handed proceeding. Neutral steamers conveying soldiers and munitions to various quarters of this Section of the world are all alarmed at their position, if this shall not be resented, and it is regarded as likely to be a source of possible complication with foreign powers.

Gordon's Last Despatch.

LONDON, 28.—The Times Khartoum advices, dated April 28th, report Gordon laying mines in all directions. Food was difficult to obtain and commanded very high prices. Gordon had issued paper currency, and treasury department notes, payable at Berber, and the soldiers were paid in that currency. Reports state that the town was quiet; half the population had, however, joined the rebels previous to the siege. There had been no news from the British government.

Later reports up to July 30th say: Gordon has enough months provisions beseiged, and will be able to hold out two months longer.

The following is the last dispatch of Mr. Poer, English consul at Khartoum:

"March 26, last, Sen and Sennar were exceedingly quiet. [illegible] the rebels [illegible] and wounded.

April 10th to 20th.—The rebels have attacked us between the above dates, but lost heavily from the effects of Gordon's guns.

May 1.—A painful accident occurred to-day. One of our officers trod upon a mined piece of ground, causing a terrific explosion in which six women were killed.

May 2.—Report has reached us that the English army will be in Berber about the end of May. The rebels have made several attacks, but have been repulsed owing to the superior quality of our guns. During June [illegible] were daily expeditions made against us. The forces of the Kordofan have, however, been slight. Many cattle have been captured.

June 3.—McCuzzi, English Consul, has informed us of the loss of Berber. McCuzzi will be sent to Kordofan on the 30th to take care of the government interests there.

July 8.—Shaiki has burned Kalakla, with three villages.

Later—In attacking Gakrub he was defeated. Sasti and his officers were killed. Colonel Stewart had a narrow escape.

June 29.—We beat the rebels out of Buri on the Blue Nile, killed many of them and captured a quantity of war material. Our steamers have advanced to Eflan, clearing thirteen rebel forts since the siege begun. Our loss this week under 200.

July 20.—Mehemet Ali's action yesterday was very successful. Five armored steamers after clearing thirteen forts and being engaged for eight hours under a terrific fire, disabled five forts. Their guns were dismounted and the enemy were driven out. Our loss was only three killed and thirteen wounded.

July 31.—The siege has been very close. Arab bullets are falling into the palace from all sides. Food is approaching a price at which it cannot be available. Since our last dispatches all hope of relief from the English government is gone. We can only depend upon our steamers. It is impossible to cut through with the number of women and children. One Arab sayareyman is sufficient to frighten and put *hors de combat* 200 of our men. The day Saati was killed, 5 rebels charged 200 of our men armed with rifles, and dispersed them. The only men we are able to depend upon are negroes.

Gordon will soon send two steamers toward Sennaar. They will try to recapture the steamers taken from Saleh Bey. Gordon is well.

Ordered to Return.

ALEXANDRIA, 28.—M. Barrere has summoned all French officials in the Egyptian service to return here immediately.

San Francisco, 27.—The case involving the Chinese boy born in the United States and the consequent right to return to this country after a visit to China, was argued to-day in the United States circuit court. Kimball and Williams represent the interest of the Blair roads.

Blaine states it will be impossible for him to come to Indianapolis next week because of arrangements made for him in Ohio. Blaine will visit Indiana at a later date.

Beaver Dam, 27.—The deadlock in the Second Congressional District was broken on the 150th ballot by the nomination of General Bragg.

Detroit, 27.—Blaine will be in Michigan two days, beginning October 14th.

Cairo, 27.—Gen. Wolseley and staff have started on their expedition to Khartoum.

Hanoi, 27.—The French operations against Phung and Ayhuong have been successful. The French are now entirely masters of the situation along the river Day.

CORRESPONDENCE.

NO MORE "TEMPEST IN A TEAPOT."

SANPETE, Co., Sept. 27, 1884.

Editor Deseret News:

With a view that the above caption may be taken I send you some extracts of decisions similar in nature to those of courts that occurred at Moroni and which may occur again and the writer is compelled to say in simple justice to the Moronites, that the features of the decision marked in italics been carefully attended to and which are consonant with the R. R. Law in this Territory in the compilation of 1876, [illegible] let alone the temperance [illegible]

"1st. The legislature has no power to take the property of one person and give it to another; nor can private property be taken for public use, unless compensation to the owner *precede or accompany the taking.*" Dillon vs. Hunnewell 10 Cal. 339.

"2d. The courts are not authorized to condemn lands for railroad purposes unless it be clearly evident that the petitioners have a valid contract for the purchase of the same, have been unable to do so." Contra Costa R. R. Co. vs. Moss, 15 Cal. 465.

3rd. Railroads for the carriage of passengers and transportation of merchandise are public highways, for the construction of which, if made by private corporations, the land belonging to private persons may be taken *upon paying its owner a just compensation.* Sacramento R. R. Co. vs. Caldwell, 17 Cal. 30.

4th. That clause in the Constitution which provides that private property shall not be taken for public uses without just compensation, does not prohibit the *legislature* from authorizing private lands to be entered on and taken possession of for public use while proceedings for condemnation are pending and before the compensation is paid, *upon security being given* for the payment of the *damages* when ascertained. Fox vs. West. R. R. Co., 9 Cal. 538.

For the made in condemnation cases in this of this Territory, [illegible]

5th—"An order permitting a plaintiff, in proceedings to condemn land for a public use, to enter into possession of the same during the pending of the proceedings and until their conclusion [illegible] *is clearly in violation of the Constitution and cannot be made.* San Mateo Water works vs. Sharpstein 50 Cal. 284.

"Parties in possession of land are entitled to compensation before it can be taken for public use." Sacramento Valley R. R., vs. Moffatt, 7 Cal. 577.

6th—"Such compensation must be made or a fund provided from which it can be made in advance, so strictly is this rule adhered to, that the enforcement of any statute to take such property, where the indemnity has not been provided, will be stayed." [illegible] (McCauley vs. Weller, 12 Cal. 500.)

Deductions from [illegible] Compensation must [illegible] taking. From No. 2.—There must be no [illegible] before condemnation by a court is sought. From No. 4.—If any question arises as to occupancy and the taking possession, *security must be given* for the payment of damages when ascertained. From No. 5.—*No order can be made* to give possession during pendency of proceedings. From No. 6.—If compensation is not made because of the pendency of proceedings, the owners of the land *must be satisfied that a fund is provided in advance to pay damages* when ascertained.

If these features of the law and decisions thereon are carefully adhered to by all parties, there need be no friction; no tempest. The right to survey a line for a railway is unquestioned, but to enter upon, dig up and disturb my soil unquestioned, is another thing, and whether mine is real estate or a maturing homestead, the latter is mine if I am complying with the contract with the United States, that has on my entry withdrawn such land from the market, and it is virtually mine.
