FLOATING FRAGMENTS.

Jordan sand delivered cheap. See advt.

High Council meeting at 7 o'clock to-night, at the Council House.

Preparations for the Old Folk's Excursion are in active progress.

Liberty Park is to be formally opened to the public, with appropriate ceremonies, on the 17th inst.

There are messages at the Western Union Telegrah Office for John West, J. Craig, Cansey Huge and Miss Lou Montgomery.

Forty acres of land adjacent to this city, is for sale. Another piece, 100 acres in extent a few miles further off, is also on the market. See advertisement.

LOCAL AND OTHER MATTERS.

Will open an Office.—Mrs. Romania B. Platt has secured an office in the Godbe building, East Temple street, and will be ready to receive patients on Monday.

Extending.—The Superintendent of Waterworks, Mr. G. M. Ottinger, is about to extend the main pipes two blocks northward on East Temple street, beginning at the corner of the News office.

Their Condition.—Edgar Urry, one of the boys thrown out of Chas. Bennett's wagon yesterday, is said to be getting along as well as could be reasonably expected.

The other lad, Alma Cooper, is also progressing. He had no bones broken, but was badly bruised about the back.

Financial Drainage.—There has been for some time past, considerable agitation regarding the advisability of introducing drainage into this city. We are enabled to state, on excellent authority, that a system of that kind will soon be inaugurated. We are very doubtful however, about its results being satisfactory, as it will be in the nature of a financial drain. The circus is coming.

A Mean Trick.—Instances have come under our observation of parties in this city palming off mutilated coin upon people from the country at par value. This is done by persons who must be aware that coin in that condition is depreciated. This act, when done intentionally, is mean, contemptible, dishonest and unmanly. Country people should take the hint and look out for these small souled sharks. Give them a wide berth.

Improving.—We are pleased to be able to state that Brother James E. Brown, who was accidentally thrown out of his wagon yesterday, is improving. From the time he was hurt, in the early part of the day, up to 9 o'clock last night, the patient was more or less mentally confused from the effects of the shock to his system. Since that hour, however, he has been clear, and will probably soon recover. He complains of considerable pain in the left shoulder.

Another Death.—The other day we noted the fact that the family of Brother Parsons, who came with the last company of immigrants, had been considerably afflicted with sickness on the journey and since their arrival. One child died on the way and the four-year-old boy who was very ill at the time of arrival, died last night, the cause of death being diphtheria. The other three children who were ill are said to be now convalescent. The family are entitled to the sympathy, substantially and otherwise, of the community.

Sunday School Catechism.—We have received from the office of the *Juvenile Instructor*, where it was published, an excellent work for the children. It is the "Deseret Sunday School Catechism No. 1," being questions and answers on the life and mission of the Prophet Joseph Smith. The Deseret Sunday School Union are the publishers. It comprises over fifty pages, and the information it gives is of the highest importance to old as well as young. The work is also commendable on account of its cheapness, being only 10 cents a copy, in stiff covers, bound in cloth. It is the cheapest little book ever issued in Utah.

The Delegation.—The delegation appointed by the Constitutional Convention having been instructed to present the claims of Utah for admission into the Union of States at the present session of Congress, the following members will leave for Washington on Monday morning: Hons. John T. Caine, David H. Peter and Franklin S. Richards. Hon. W. D. Johnson is already in Washington, making four of the delegation who will soon be at the Capital. Should the presence of the other members be required they will proceed there also.

John Sharp, Esq., Supt., of the U. C. M. R., who is going East on business, will travel in company with the members of the Delegation.

The Twelfth Ward "Out."—Yesterday the 12th District school and parents of the pupils had a gala day at Fuller's Hill. Shortly before four in the afternoon the entire company convened in the bowery, where they were amply regaled with refreshments. The prizes were then distributed to the pupils who had made the best record during the term.

Miss Susie Campbell, in behalf of the scholars, presented the Principal of the school with a handsome fruit dish—crystal and silver—as a mark of esteem, accompanying the gift with a neat and appropriate address, Mr. Van Cott replying in a few feeling and suitable words. Remarks were made also by Trustees Williams and Jaques, after which recreations were resumed, the party dismissing and going to their homes between 7 and 8 in the evening.

Conference in Kansas.—Through the courtesy of President Joseph F. Smith, we are enabled to publish the following:

"Our Conference in Kansas, came off on the 20th and 21st instants, at the Wheatland School District, Dickinson County. There were present of Elders from Utah, Jos. F. Doxford, J. N. Thueson, James Mellor and M. S. Shipperd; of local Elders, Joseph Bland and Edward McDonald.

At 11 a.m., after the usual opening exercises, the following Elders occupied the forenoon: Jas. F. Doxford and M. L. Shepperd, dwelling mostly on the establishment of the kingdom of God in the present age, also explaining the first principles of the Gospel.

A branch of the Church was organized, to be known as the Meridian Branch of the Church of Jesus Christ of Latter-day Saints, in the State of Kansas. Elder Edward McDonald was chosen to preside and take charge of the same, and was set apart for that purpose. Wm. H. H. Kinsell was ordained to the office of an Elder.

After singing, Conference adjourned until the next day at ten o'clock a.m.

Benediction by Elder McDonald.

In the afternoon three persons were baptized into the Church.

Forenoon services. After the opening exercises, Elders J. N. Thueson, James Mellor and Shepperd occupied the forenoon, speaking mostly on the restoration of the Gospel, and the first principles of the same, bearing powerful testimonies to the Latter-day work. The remarks of the brethren were endorsed by Elder Doxford in every respect.

After singing, Conference adjourned to 3 p.m.

Benediction by Elder McDonald.

Afternoon—Elder Doxford occupied a short time. The sacrament was then administered.

Elders Bland and Doxford addressed the congregation on the departure of modern Christianity from the pure doctrines of Christ, bearing a faithful testimony to the true Gospel being restored again through the instrumentality of Joseph Smith the prophet. Brother Doxford instructed the Saints to observe the monthly fast day and exhorted them to faithfulness.

Conference was then adjourned *sine die*.

J. N. THUESON,
Clerk of Conference.

After being dismissed, two more persons were admitted by baptism.
J. N. T.

The Best Water Motor.—Mr. W. J. Silver has just placed upon our water motor, which supplies the needed power for running the extensive printing machinery of this office, a governor, of his own invention. Its function is to render the speed uniform, no matter what may be the amount of machinery propelled. It works like a charm.

The motor itself is an invention for which Mr. Silver holds a United States patent. So far as our information extends, it is in many particulars much superior to any in existence. It involves little or no expense for repairs. The one at the NEWS office has been operated over a year, while another at the office of the *Juvenile Instructor* has been actively used over two years. Both have worked admirably, have needed no "fixing," and from all appearances will remain sound indefinitely.

Among the chief points of excellence of the Silver motor over all others are that it gives more power for the same amount of water used, while the first cost is the same as of an imported one; being smaller it occupies less space. This excellent motor will answer for any purpose for which a turbine wheel is used, and gives its best effects with high falls of water. There is practically no limit to the uses to which it can be put, being applicable to everything for which power is needed. Finally one of the chief qualities recommending it is the fact of its being a machine of home invention and manufacture.

A motor with such excellent points should recommend itself in every part of the world. A few have been made here and are in use, giving unqualified satisfaction, as we are practically able to truthfully assert from actual experience. It should be extended to other or all parts of the country. The inventor would be glad if some responsible person or persons would come to his aid with the funds necessary to introduce the motor in the East by selling State rights, or otherwise extending it. We believe it would take, and the investment be made profitable.

My Partner.—The Walker Opera House was well filled last night by an appreciative audience. "My Partner" displays considerable dramatic ability. It is a play eminently adapted to enlist the sympathies of the mining fraternity. The scene is located in California, the partners are mining men, and the hero of the play one of those old fashioned rough and ready '49ers, bashful as a maiden, yet strong and brave as a lion, and honest to the heart's core. This part was admirably rendered by Louis Aldrich, who divided the honors with Geo. D. Chaplin, as the convivial candidate for re election. The bad man, Scraggs, personated by Mr. Hague, is too intensely, persistently, unreasonably and unnecessarily bad for anything. The Chinaman of Mr. Pareloe is the comic part of the performance and plays an important part in introducing the necessary evidence to convict the villain and release the condemned hero from the hands of the vigilance committee, who are just about to string him up for the murder of his partner, committed by Scraggs. Of course justice triumphs and the hero is made happy.

The play will be repeated tonight. The house itself is a sight worth seeing and the scenery is artistic and beautiful.

Information Wanted.—Information is wanted by the British Minister, who has communicated through the Secretary of State and from him to Governor Murray, concerning John Craddock, whose mail matter was sent to him seven years ago at Salt Lake City, and who at that time stated he was going on a trip of a thousand miles to sell books. It is supposed that he was connected with the "Mormon" Church. Any one knowing anything concerning him will please communicate with Governor Murray, who has documents in his possession relating to matters that will be of advantage to the missing man.

School Excursion.—This being the first vacation day of Farmington day school, the pupils came down on an excursion, to the number of a hundred, to this city. They were accompanied by the Principal, Miss Winters, and visited the chief points of interest in the capital. They called at the NEWS office, taking a look through the establishment, manifesting much interest in the machinery.

The Old Folks' Affair.—Yesterday we published a card from the committee who are managing the preparations for the coming Old Folks' excursion to this city. The points made by the committee regarding the reports needed in order to make the perfection of arrangements possible, are well taken. It is very desirable that the affair should be a great success in every way, and that everything connected with it should move with desirable smoothness. It is to be hoped, therefore, that the solicitation of the committee will meet with a hearty response. Send in the reports.

School Report.—We are indebted to L. John Nuttall, Esq., Territorial Superintendent of District Schools, for a copy of his Biennial Report for the years ending June 30th, 1880 and 1881. It includes the Report of the Regents of the University of Deseret, and the Amended School Law. Notwithstanding that the information conveyed in the report is in compendious form, it takes 127 pages to embrace it. The contents are clearly set forth, and the pamphlet is a most valuable one, as largely exhibiting the educational status of Utah. It is a work of reference from which a proper understanding can be obtained regarding the situation of one of the leading questions connected with this growing and progressive community. The report gives evidence of much care and labor in the preparation of the matter it sets forth.

The Automatic City, a remarkable piece of ingenious mechanism, is on exhibition in the Wasatch Building.

HEAVY VERDICT.
During the last three months there have been sold in this city over fifty thousand bottles of Hale's Honey of Horehound and Tar, an article which has recently been introduced into this country, and, as we understand, is a certain cure for all Coughs, Colds, Influenza, Difficult Breathing and all affections of the Throat, Bronchial Tubes and Lungs, leading to Consumption. It was formerly prepared by Dr. Hale, a celebrated physician of Europe, and is now put up according to the original recipe by C. N. Crittenton, of New York, and sold by all druggists at 50 cents and $1 per bottle. Great saving by buying large size. Depot, Crittenton's Central Medicine Warehouse New York City.

"This is to certify that I had a Dry Hacking Cough for the last two years, and the only remedy I found to give me relief was Hale's Honey of Horehound and Tar. So I highly recommend it to the public as the best article in use."
MRS. EMILIA JACKSON,
13 Stanton street, New York City.

In Liver and Kidney Troubles.
Dr. O. G. Cilley, Boston, says: "I have used it very extensively, and with the most remarkable success in dyspepsia and in all cases where there is derangment of the liver and kidneys. deod &w.

BENEFACTORS.
When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.
