Since January 1st, 1893, about $22,000 cash dividends have been paid. Most of the stockholders present expressed themselves as well pleased with the prospects before the institution. Its policy is to buy and sell for cash. There are more than six hundred stockholders in the business.

LAND IN MILLARD.

Now that the area for government lands left open for settlement in the coming October, tracts of country that heretofore have been considered as almost so much desert are being taken up and brought under cultivation. A section of country that is undergoing this experience lies along the Sevier river, in Millard county. In the neighborhood of Deseret there is a large tract that is drawing attention, for though without water the soil is productive if yet when streams from the river are brought into contact with it it responds with marvelous readiness to the touch of the husbandman.

The district to be irrigated from the Sevier lies northwest due to the south and west of Deseret, and embraces a large area that will prove valuable when it produces beets, vegetables, cereals and fruits in abundance. Stretching to the north and east of this are other tracts of a similar nature on which water can be taken and which will yet prove "a fruitful field." The people of this end of Millard county are beginning to realize the advantages in their locality and are settling anthem to come this way and build up the county and reaping a big interest reward for their toil.

PICHER "PRIMERS" FIRED.

No work at all is being prosecuted now by the Pioche Consolidated company.

John Gentile is ready to ship a carload of ore from the Ontonagon mine at Jack Rabbit.

Last Friday the connection of the Yuma tunnel to level was done with the old workings of the Keyser and Meadow Valley shaft. No. 3, was so located. The distance between the two shafts is about 200 feet. The work has been in progress for a long time, principally from the Yuba, or east shaft, and has been delayed on account of water gouged, and the fact that the turntable, by old maps, etc., was defective. The air current is great now and it will be the preservation of the Yuba shaft, it is thought, in which it has an upcast.

NOTES.

Several of the Bullion mining company directors will go to Idaho this evening to inspect the company's mines near Hailey, and decide on operations to be conducted in the future.

There was mailed at the branch mint in Denver on Monday one of the largest assets received this season. It came from the Monumental mill, located in Gold Field district, Arizona, and weighed 847 ounces, from which $12,000 worth of fine gold was taken. The Mammoth is owned by Messrs. Sullivan and Hall. Owing to the scarcity of water their bullamp mill is not run full time, but despite this drawback the latest output seems to be the result of a twelve days' run.

MR. ROYLES FRIENDS has hit Los Angeles as hard as it did San Francisco. The Times say the people who went to the Los Angeles Theater last night saw a play written by a man who has undoubtedly a terrible genius, both as a playwright and as a player. A writer may easily pick flaws in the play of Francis, which Edwin Milton Royle presented to us last evening, but it is only the usual sift in life this. The Express says Edwin Milton Royle has made himself a distinguished name. As an author it is about the strongest work ever seen in Los Angeles. Milton Royles acting attracted as a playwright was seen, but by some odd a spectrum of the dramatic genius of the writer of Francis and the player of one of the leading roles in the play. The Herald says, but on the whole Francis is the best modern play that has been produced here. It stands in all points anything that Belasco and Dickinson ever produced and the playwrights have ever produced.

Latest Court Items.

The cases of Magness and A. P. Davison, charged with the crime of "unlawfully killing a wild duck," have been continued till November 17th.

The case of John Tate vs. H. L. A. Culmer et al., a dispute as to certain property in Cottonwood, was been postponed as per stipulation filed. The matter was ready when a jury had been empaneled and everything was in readiness for the trial of the action.

There are four similar cases set down on the list for hearing in Judge Bartch's court tomorrow.

At 2:30 this afternoon Judge Bartch adjourned court for the day.

Lively Runaway.

There was a lively and exciting runaway on South Temple street this afternoon, beginning at the Templeton corner. The outfit consisted of a small brown horse and a road cart in which was seated a boy from the country. The horse took fright at a street car and dashed westward for the Valley house, at which point the boy succeeded in pulling his fiery steed up.
